The product was regarded weak Saturday and all deniers expected lower prices, but hardly such a fail as occurred. It is clear now that prices were oversiratined by competition of buyers in the country, who were buying as high as 15% cents. This resulted in large accumulations in Part-land and lower market was resorted to to clear away the surplus. These eggs are not of the superior quality of the are not of the superior quality of the early April stock, else they might be stored for Winter. The surplus which has hereitofore been going largely into rold storage is thus reacting upon the market. Owing to the reluctance of merchants to accept the decline, there way a wide margin between quoted prices. The figures paid in the country bit impression that the product was strong, and the disallusionment may throw larger supplies on the market. Butter is firm. Store is a little in ad-rance of last week's quotations. Dairy is less active than the other grades. Poul-

Portatoes were alightly weak yesterday in sympathy with California, but dealers look upon the condition as temporary. The Ban Francisco weakness was due to heavy receipts. Portland dealers got in about 1800 sacks by boat yesterday from Lewis River and the valley. Over 5000 sacks are ready for the California Usual California moduli

Usual California produce by steamer was in market in good condition and moved off rapidly. New potatoes and cabbage were higher. Another supply of new onlong was received. The Oregon product is schroe. Strawberries are little lower. Sweet potstoet Sweet potatoes are scant and out of season.

The wheat market bowed to the influ-San Francisco Oil Exchange.

The wheat market bowed to the influ-ence of lower cables and rain in the West, where seemingly it adds the finishing touch to almost perfect conditions. Lib-eral world's shipments came as an added encouragement to those who wish for lower prices. July opened a shade to \$40% lower, at 72% to 72%, under pressure from longs and shorts, selling bears and dropped early to 72%. Strong cables from the Continent caused a flurry of alarm among shorts and the market recovered to 72% during the first hour, but the bulk of the pit was against the recovery and a sharp reaction to 73%

but the bulk of the pit was against the recovery and a sharp reaction to Tige followed. Wheat was dull the remainder of the session, and while prices ruled fractionally above the bottom the rest of the day, the close was rather easy, %@%c under yesterday, at 72%c. A marked increase in the receipts of contract corn, together with the expec-tation that there would be a further in-crease tomorrow was influential in the corn market. May corn felt the increase more seriously than the deferred futures. more seriously than the deferred futures For delivery this month the option opened from 53 to 50c, which proved to be the day's range, and closed 2c lower at 51c. There was scarcely any trade. In July operations were more active. Call Money Advanced.

Call Money Advanced. NEW YORK, May 6.—Call money ad-vanced to 19 per cent today, and some of the banks inaugurated a new system with reference to acepting collateral for loans. What passed for an adequate mar-gin a week or so ago when the bull move-ment was at its height was not consid-ment was at its height was not considered sufficient to meet the uncertainties of today's market. For that reason one of the principal banks required a margin of \$30 on each \$100 asked for in new loans, scrutinizing with usual care the names upon the paper. The president pointed out that the caution was necessary with stocks that had jumped 5 or 10 points a day, and in some cases it was really diffi-cult to get down to a conservative basis for estimating the value of collateral of-fered.
