

BERKELEY ATHLETES WON

BESTED WASHINGTON IN FIELD-DAY AT SEATTLE.

Coast and Northwest Records in Pole Vault and Half-Mile Run Were Broken.

NEW COAST RECORDS.
Hoffman, of California, broke the Coast record in pole vault, clearing 11 feet 4 inches.
NEW NORTHWEST RECORD.
Service, of California, established new Northwest record in the half-mile, of 2 minutes 2 seconds.

SEATTLE, May 10.—The track and field meet between the University of Washington and the University of California, which was expected, in an overwhelming victory for the former, the score of points being 81-34 to 31-3. Two records were broken. Hoffman, of California, cleared 11 feet 4 inches, and Service breaking the Northwest record in the half-mile, going that distance in 2 minutes and 2 seconds.

The quarter mile resulted in the most exciting and sensational race of the day. Two from each university ran at a moderate pace until the track stretched into the home stretch with the Californians 20 yards in the lead and Chestnut well behind. The latter came home with a tremendous burst of speed and passed Service just at the tape, winning first place. Brown, of California, secured third time, 3:24-5 seconds.

The first event, the 100-yard dash, was won by Cadogan, of California, with Hussey and Brown second and third, the Washingtonians failing to get a place. The time was 10 seconds flat.

In the running broad jump, Cadogan, of Washington, was first with 21 feet 1 inch; Cheek, of California, second, with 21 feet 4 inches, and Hussey, of California, third, with 21 feet 3 inches.

In the 150-yard hurdle, Powell, of California, was first; Cheek, California, second; Hill, of Washington, third. Time, 2:36-5.

The mile run was a dead heat between Service and Redwell, of California, for first; Twitwell, of Washington, third. Time, 4:57.

The high jump was a tie for both first and second places. Cadogan, of California, clearing 5 feet 5 1/2 inches, while Grant, of Washington, and Cheek and Powell, of California, went out an inch lower.

In the 220-yard dash, Cadogan won in 24 seconds; Pearson, of Washington, second, and Brown, of California, third. The shot put was an easy victory for Powell, of California, 44 feet 6 inches; Shook second, 35 feet 1 inch; and Thayer, third.

The half-mile resulted in a Northwest record. Service winning in 2 minutes and 2 seconds. Redwell, second; Boyce, of Washington, third.

The hammer throw went to Plaw, 135 feet 10 inches; Fields, of Washington, second, with 124 feet; Thayer, third. Plaw made an exhibition throw from a 9-foot circle of 132 feet 10 inches.

In the 220-yard hurdles, Powell and Cheek took first and second with Cadogan, of Washington, third. Time, 2:36-5 seconds.

The discus throw was won by Fields with 104 feet 8 1/2 inches; Plaw second, with 94 feet 7 1/2 inches; and Thayer third, with 84 feet 7 1/2 inches.

In the pole vault, Hoffman, of California, was first with 11 feet 4 inches; Sargent and Lind, of Washington, tied for second at 9 feet 11 inches; Hoffman made an exhibition vault of 11 feet 4 inches, establishing a new record.

AMERICAN LEAGUE.
Detroit Won the Last Game of the Series From Milwaukee.

MILWAUKEE, May 10.—With the completion of the umpire, Duffy won the last game of the series. Duffy was put out of the game by a decision of the umpire, who called him out at first when he was clearly safe. Attendance, 1500. Score: R H E.

Milwaukee..... 11 2 1
Batteries—Sparks and Leahy; Cronin, Miller and Bielow.

Chicago Beat Cleveland.
CLEVELAND, May 10.—Cleveland lost the third game of the series to Chicago because all the mistakes counted against the home team. Attendance, 800. Score: R H E.

Cleveland..... 4 10 3
Batteries—Hart and Yeager; Patterson, Griffith and Sullivan.

Game Postponed.
BROOKLYN, May 10.—Washington-Baltimore game postponed; rain.

American League Standing.

Philadelphia	4	7	.364
Cleveland	3	10	.231
Milwaukee	2	12	.143

NATIONAL LEAGUE.
Pittsburgh's Brilliant Playing Was Too Much for Cincinnati.

PITTSBURGH, May 10.—Tannehill's fine pitching, backed by brilliant fielding, was too much for the visitors today. The game was called during the first half of the eighth inning on account of darkness. Attendance, 3500. Score: R H E.

Pittsburgh..... 5 5 2
Batteries—Tannehill and Zimmer; Newton and Kahoe. Umpire—Dwyer.

Chicago Beat St. Louis.
CHICAGO, May 10.—Waddell pitched in great form today. He allowed but five hits, struck out seven men, and won his own game with a terrific home-run drive to center field fence with two men on bases. Attendance, 800. Score: R H E.

Chicago..... 4 7 2
Batteries—Waddell and Kling; Jones and Ryan. Umpire—Emlie.

Game Postponed.
BOSTON, May 10.—Philadelphia-Boston National League game postponed; wet grounds.

Game Postponed.
BROOKLYN, May 10.—Brooklyn-New York game postponed; rain.

Chicago	6	12	.333

INTERCOLLEGIATE GOLF.
Lindsey and Hitchcock Will Struggle for the Championship Today.

ATLANTIC CITY, May 10.—Lindsey, of Harvard, and Hitchcock, of Yale, will meet tomorrow on the Northfield Links and struggle for the intercollegiate golf championship. They were the survivors in the semi-finals today. The Harvard man made an impression with his driving and putting and there is some reason to believe that

he will carry off the honors tomorrow.

Hitchcock, however, played a strong game, despite the unfavorable weather, which was a succession of showers. Hitchcock, in his contest this afternoon with Richardson to enter the championship match, beat him by four up and three to play. Lindsey beat Meyers, of Harvard, by two up and one to play. Meyers' clever playing all through the tournament has been the subject of favorable comment.

Golf in England.
LONDON, May 10.—In the final of the amateur golf championship contests at St. Andrews today, H. H. Hilton, the present holder of the championship, completed the first round with three up. Hilton beat Low by one hole and thus retains the title of champion. The afternoon struggle was unexpectedly close and had the most exciting finish in the history of amateur championship contests. Low played grand golf and the homebound journey began with the Englishman making a 22-hole intense excitement at the seventeenth the Scotchman brought the match square. Going into the road at the seventeenth Low gained up and as the last was halved, Hilton retained the championship by one hole.

The eight players who yesterday qualified for the second round of the professional golf tournament at Richmond started today in bad weather. Most of the spectators followed Harry Vardon and J. White, who were drawn together. Both played grand golf, but Vardon was the better. He was two up at the turn and finally won the match by six up and four to play. Tom Vardon beat J. Fernie by three up and two to play. Harry Vardon easily beat James Braid by five up and three to play. Thus, two brothers have qualified to meet in the final round to be played tomorrow.

THE RUNNING RACES.
Winners at Oakland.

SAN FRANCISCO, May 10.—Princess Titania was the only favorite to win at Oakland today, but well-played horses took most of the events. The results were:

Six furlongs—The Miller won, Almond second, Mile Rice third; time, 1:15.

Four furlongs—Yellowstone won, Hon. Peter second, B. C. Greene third; time, 0:56-4.

Mile and a sixteenth—Byron won, Rose won, Hillborn second, Carlovigian third; time, 1:04-4.

Six furlongs—Princess Titania won, Fanny second, Baiton third; time, 1:14-4.

Free handicap, six furlongs—Neehanus won, Hagadorn second, Sly third; time, 1:12-4.

One mile, selling—Wardman won, R. Shannon second, Bathos third; time, 1:41.

Races at St. Louis.
ST. LOUIS, May 10.—Results:

Six furlongs—Sammy won, Sidella second, Mystery third. Time, 1:12.

Five furlongs—Dave Sommers won, Father Wenter second, Tristram third. Time, 1:06.

Four and a half furlongs—Huntress won, Lacrine second, Jungun third. Time, 1:00.

Seven furlongs, purse—Miss Aubrey won, Blisk second, Amphire third. Time, 1:20-4.

Six furlongs, selling—Echo Dale won, 1:05-4.

Mile and 70 yards, selling—Sonne won, Saline second, Little Tommy Tucker third. Time, 1:34-4.

Races at Newport.
CINCINNATI, O., May 10.—Summary at Newport:

Seven furlongs—Black Vigil won, River Princess second, Isaac third. Time, 1:20.

One mile, selling—Annie Laurette won, One Milewood second, Dr. Black third. Time, 1:40.

Four and a half furlongs—Andy Williams won, El Giva second, Ben Williams third. Time, 0:56.

Six furlongs—Erie won, Erema second, Eva Wilson third. Time, 1:15.

Six furlongs, selling—Lady Ken won, Fairy Bell second, Rottaire third. Time, 1:10-4.

Mile, selling—Paece won, McClary second, Randy third. Time, 1:42.

Races at Worth.
CHICAGO, May 10.—With summaries:

Six furlongs—Guy H. won, John Drake second, Remark third. Time, 1:13.

Six furlongs—Linsome won, Olekma second, Mark Miles third. Time, 1:15-4.

Five furlongs—Mina won, Aras second, Blue Ridge third. Time, 0:52-4.

Mile and a quarter, selling—Leone Well won, Vincennes second, Laureate third. Time, 1:34-4.

Six furlongs, selling—Braw Lad won, Irma S. second, Incandescent third. Time, 1:14-4.

Mile, selling—Birdie D. won, Domadde second, Annonah third. Time, 1:42.

Races at Churchill Downs.
LOUISVILLE, Ky., May 10.—Churchill Downs results:

Four and a half furlongs, selling—Stuyve won, Maid of Dundee second, Bester third. Time, 0:58.

Six and a half furlongs—Moses won, Locust Blossom second, Sam P. Cochran third. Time, 1:25-4.

The Juvenile stakes, five furlongs—Jordan won, Harry Beck second, Hans Weber third. Time, 0:58-4.

Mile and a sixteenth, selling—Lee King won, Jonewood second, Zolo third. Time, 1:35.

Six furlongs, selling—High Jinks won, Guy H. second, The Butcher third. Time, 1:13.

Decisions of the Board of Review.
NEW YORK, May 10.—The board of review of the National Trotting Association met today to review the racing report.

The most important decision handed down was that in the case of the horse John McKerran, owned by Harry Devereaux, of Cleveland. In this case it was decided that the record made by John McKerran at Readiway, Mass., in September, 1900, be considered a matinee record only.

The board recommended that the rule committee of the National Trotting Association governing matinee performers. The owner of the horse Wilkes Patchen was fined \$50 for allowing his horse to perform on a member's grounds while under suspension. The New Westfield Driving Park Association, of Westfield, Mass., was fined \$100 for allowing a suspended horse to perform after receiving notice from the secretary of the National Trotting Association.

Races at Kempton Park.
LONDON, May 10.—At the Kempton Park Spring meeting today the stewards' handicap of 1000 sovereigns was won by Richard Croft. Harry Croft, owned by Johnny Reefe, Noonday II, owned by Foxhall Keene, was second, and C. D. Marne's Veritas finished third. Thirteen horses ran. J. R. J. had again had the winning mount, A. Cohen's Impulsive fly, in the Park Plate of 200 sovereigns. Six horses finished. Shipoi, owned by Foxhall Keene, won the Apprentices' plate. Eight horses ran.

Boat Race at Annapolis.
ANNAPOLIS, Md., May 10.—If the weather is as favorable tomorrow as today, the season's first university boat race between the Naval Academy and University of Pennsylvania crews, which will be rowed tomorrow, will bring here a great gathering of boating enthusiasts. The middies are in excellent shape and feel confident of beating the Keystone oarsmen.

Eugene Beat Cottage Grove.
COTTAGE GROVE, May 10.—Eugene baseball nine today defeated the Bohemia team, of this place, by a score of 10 to 15.

RIOT IN DETROIT STREETS

THREE HOURS' FIGHT BETWEEN A MOB AND THE POLICE.

Twelve Citizens and Five Officers Were Injured—Order by the Director of Police Caused Trouble.

DETROIT, May 10.—Fully 10,000 men and boys ran riot in the main streets of this city for more than three hours tonight, and a continually running fight with policemen, both mounted and on foot, caused great excitement in the heart of the city. The net result, as far as known, is 12 citizens and five policemen injured.

The names of but two citizens are known at present. They are Michael Walcott and Louis Cahlin. Both had their heads bruised by being trampled on by the mob.

BODY OF MISSING NEW YORK BOY FOUND

Planting of Eastern Oysters in Pacific Coast Waters.

WASHINGTON, May 5.—The introduction of Eastern oysters in Pacific Coast waters seems to be a failed project. Some years ago, when the experiment was undertaken by the United States Fish

Commission, considerable enthusiasm was aroused among Western oystermen promised hearty co-operation. Every one recognized the superiority of Eastern oysters, and had the experiment proved a success its promoters would have been blessed by the people all over the Coast. In view of late developments, however, the officials who were most interested in the scheme have about concluded that it is useless to pursue the experiment further. Yet this disgust does not arise from the fact that Eastern oysters will not thrive in Western waters, but rather that Western oystermen will not allow the planted oysters to remain long enough to propagate and multiply. This is particularly true in Oregon and Washington. Mr. H. S. Moore, an oyster expert, who has been watching the oysters planted on the Coast, says that although the Eastern oyster has been acclimated in the Pacific states for a number of years, it is only in California that natural reproduction is known to have taken place. If the oysters in Oregon and Washington have reproduced, the young have not survived the free swimming stage.

The commission some years ago planted many barrels of oysters in Yaquina and Willapa Bays and other points along the northern coast with the understanding that they would be properly guarded and left to multiply. When the commission made its investigation, after a period of five years, to determine whether the oysters had taken place, and if not, whether physical conditions had prevented it, it was found that the oysters planted by the commission had been almost exterminated by shifting of the physical conditions at some points. It is positively known that these oysters lived for a year, showing that they were not damaged in transportation. In contrast to these plantings, it is a fact that several private beds of Eastern oysters established at different points are reported to be doing well, probably because it is to some body's interest to protect them from depredations of unprincipled persons.

In view of these disclosures, Dr. Moore made a strong recommendation against the further planting of oysters on the Coast, but by the commission, unless satisfactory guarantee is offered that they will be protected from theft. A general assurance from the oystermen of a given locality has been made in the past, but it is not sufficient. It is against the propagation of the oyster, particularly the cold water, although it is believed that in shallow ponds suitably constructed, and with proper precautions against the deposit of silt, oysters can be successfully propagated on the Coast. In fact, if the experiment is again undertaken, there seems every probability that it will be along these lines.

The failure of the Eastern oyster to reproduce in the colder waters of Oregon and Washington has suggested the desirability of transplanting to the West Coast some of the fine large oysters found in Northern Japan. This step was recommended by the commission some years ago to several of the oyster planters of Washington, and it is understood that negotiations are now under way for the shipment of such oysters for transplanting in Willapa Bay and at other points in Washington.

Recovered Her Sight.
ST. PAUL, May 10.—Mrs. R. Rutter, of Anacosta, Mont., a sister of the late Marcus Daly, is a patient at St. Joseph's Hospital in this city. Mrs. Rutter has been blind for a year from a cataract and came here to the hospital in operation which was performed this week. At the hospital today it was stated that Mrs. Rutter was able to see and was rapidly recovering from the effects of the operation.

Willie McCormick.
NEW YORK, May 10.—The body of Willie McCormick, who disappeared from his home in this city some weeks ago, was found in Cromwell Creek, at One Hundred and Sixty-first street and Railroad avenue. The body was identified by the boy's sister. The parents of the boy said tonight that they had abandoned the idea of foul play, and they believed the boy had been accidentally drowned.

Commissioner, considerable enthusiasm was aroused among Western oystermen promised hearty co-operation. Every one recognized the superiority of Eastern oysters, and had the experiment proved a success its promoters would have been blessed by the people all over the Coast. In view of late developments, however, the officials who were most interested in the scheme have about concluded that it is useless to pursue the experiment further.
