DEFEATED BY PORTLAND NINE, 6-5, IN CLOSE GAME.

Bases Were Pilled in the Ninth, but Tacoma Man Popped a Fly-Habaffey Was Wild.

TACOMA, May 19 .- Portland won the third game of the series by sheer baseball lock, rather than good work, by a score of 6 to 5. The first four innings were blank for both teams. Tacoma opening the fifth with three runs, which were secured through the timely assistance of a two-bagger by McCarthy and a single by McCarthy and a Portland also picked up the run-in the fifth, and took three. In the sixth Portland secured two more hits and another run, and still another in the seventh, as the result of Brown's two-bag-ger. In the eighth the sixth and winning run was made on a wild throw by Lynch to Shelton in an attempt to retire Vigneux, who seered on the throw.

the ninth inning the bases were all filled and two men out, when Jakey Thiel-man faced Mahaffer with a chance to win the game for the locals by a clean hit. The Minnesota man was not equal to the occasion, and sent up a sky-scraper over the home plate, which landed in Vigneux's hands. The game was played for the most part in the rain on a muddy field, in which even wading looked difficult. Four double plays by Portland, and the work of Ma-haffey, who walked in Tigers to first and hat three, were among the features of the game. Fourteen Tigers who began tours of the bags were left on bases.

Portland refuses to play Thursday's postponed game, and goes home tonight. Attendance 2000. The score:

SPOKANE SPRINGS NEW TWIRLER. With Glendon, ex-Chicago Leaguer, Stood Up Senttle, 10-7.

SPOKANE, May 19.—Glendon, Spokane's new twirier, in spite of McDermott's bad judgment against him on balls and strikes, had the Scattles standing on their heads up to the seventh inning, when the umpire fined him \$10 and ordered him from the game for joshing his decisions. The crowd gave the Chicago man an ovation as he ent to the beach. Wilner finished the game for Spokane, the home team win-ning out, 10 to 7. But for the errors of the Blues, the Senttles would not have scored more than twice. The game was stopped four times on account of rain. The home team fell on Stoyall in the seventh and eighth innings and hammered out eight runs. Kelly's opportune hitting was a feature. Attendance 1900. Score: SPOKANE.

INTERNATIONAL TRAP SHOOT.

American Contestants Will Sail for London Next Sunday. NEW YORK, May IR.—The match for \$5500 a side between teams of British and American trapshooters at inanimate targets, which is to take place on the

grounds of the Middlesex Gun Club, near London, England, June II and four fol-lowing days, promises to be one of the most interesting of many international most interesting of many international contests to be decided this year. After many weeks of preparation and negotiation, arrangements have been most satisfactorily completed. Twelve of the best wing shots in the United States have been selected to represent America, and they, with several friends, some of whom may be called upon to act as substitutes. may be called upon to act as substitutes in cases of emergency, will sail from this city next Sanday. They expect to reach London about June 5, so that they will have a few days for practice. The members of the team are Thomas A. Marshall. Frank S. Parmalee, J. A. R. Elliott, R. O. Heikes, Fréd Gilbert, W. R. Crosby, J. S. Fanning, Edward Banks, C. M. Powers, C. W. Budd, R. Merrill and E. H. Tripp.

COMPLETING THE INDEPENDENCE. Mast of Lawson's Yacht Will Be Stepped Today.

BOSTON, May 19.-The torrential rain and the general dreariness of Sunday did not prevent hundreds of sightseers on today to see the yacht Independence as she lay moored in the slip there. She was subject to critical scrutiny, and general opinion was favorable. She a business-like appearance in every , and when her mast is stepped and salls bent she will be every inch a racer. The mast will be stepped tomor row and the work of fitting out will be gin in good earnest. All the standing rigging is ready and the sails are made The steering wheel is not yet in posi-tion. The deck of steel and aluminum has not yet been covered with canyas. That, however, can be done in two days. The orders are to hurry her completion and to lose no time.

Shamrock Will Race Again Today. SOUTHAMPTON, May 19 .- Sir Thomas

SOUTHAMPTON, May 19.— Sir Thomas Lipton seld to a representative of the Associated Press tenight:

"Everything connected with the Shamreck II is now in proper condition for a thorough racing trial. I am determined that the challenger and the former challenger shall fight it out in a manner to test their respective abilities beyond all question. Both yachts will be sent out tomorrow morning for a long day's all question. Both yachts will be sent out tomorrow morning for a long day's racing on the outside course, and an endeavor will be made to test them on every possible point, sailing in whatever weather offers. The triais will be continued daily and the Shamrock II will be driven as hard as possible with the double purpose of proving ner speed and of discovering any weakness."

Trinls of the Constitution. BRISTOL, R. I., May 19.—In an interview this afternoon W. Butler Duncan stated that the Constitution will go out tomorrow forencon for her trial spin, pro-vided the weather is suitable. The Con-stitution will come back to Hergeshoff's after the trial to have all her fittings pur on board, which work will take a week

WITHDRAWAL OF AMERICANS General Chaffee Issues an Order Ending the Relief Expedition.

PEKIN, May 19. - General Chaffee at midnight last night issued a farewell order ending the American relief expedition in China. The American troops will board the transports next Wednesday at Taku and Thursday will leave direct for Manila. M. Pichon, the French Minister, left here for home this morning.

A meeting of the Foreign Ministers will

be held tomorrow, but it is not likely that much will be accomplished, as some of the Ministers have not yet received instructions from their home governments. Ministers, commenting upon the their slowness, say that as a matter of fact they are powerless to act without orders from home. One of the Foreign Ministers told the correspondent of the Associated Press vesterday that he had been instructed to co-operate heartily with the other Ministers. He found, upon consultation with his colleagues, that their Instructions were absolutely different from his. Consequently, co-operation was prac-tically impossible.

British Plan of Bond Issue. LONDON, May 13.-Dr. Morrison, wirg to the Times from Pekin yesterday

The British plan of a bond issue for the payment of the indemnity includes a proposal, in order to lessen the burden for China, that she should issue bonds at par for 200,000,000 taels now and the remainder five years hence. Great Brit-aln and the United States nione oppose e joint guarantee project.
The British authorities emphatically

decline to co-operate with the German expedition to Southern Chi Li, and it is now announced that the expedition is

Japan Secures Masampho Lease. YOKOHAMA, May 19.-According to advices from Seoul, the Corean Government has leased to Japan 430 acres of land to form a settlement at Masampho. The land stion was formerly anxiously sought

Burned by Molten Metal.

YOUNGSTOWN, O., May 18.—Two men are dead and three are expected to die as a result of an accident in the Bessemer department of the National Steel Company's plant today. The accident was caused by the cover of a mammoth con-verter becoming detached and allowing several tons of molten metal to flow over the mill. The dead are two unknown Hungarians. The body of one of the Hun-garians was literally burned to a cinder, while that of the other was nearly as badly burned. It is thought the accident was caused by bolts in the plate being crystallized.

Took Overdose of Strychnine. MINNEAPOLIS, May 19, — Catherine Germaine, playing the leading role in "The Highwayman," at the Metropolitan Opera-House, swallowed nearly one dozen strychnine pilis today, and may die. She was suffering with toothache during the afternoon, and went to a dentist, who gave her the pills with instructions to take one every three hours. The instructions were misunderstood, and, not knowing their deadly contents, Miss Germaine took an overdose. At midnight her maine took an overdose. At midnight her

condition was critical. A Western Union Night Chief. KANSAS CITY, Mo., May 19.—Michael S. Higgins, night chief of the Western Union Telegraph Company, died today of Bright's disease. Mr. Higgins came here from Correy, Pa., 16 years ago.

WHAT SHALL WE HAVE FOR DES-SERTI This question arises in the family every day. Let us answer it today. Try Jell-O, a delicious and healthful dessert. Prepared in two manutes. No boilling no naking: simply add boiling water and set to cool. Plavors: Lemon. Orange. Rappberry and Strawberry Get a package at your grocer's today. 10c. KING WILL NOT ABDICAT

RUMORS CONCERNING THE SITUA. "ION IN SERVIA DENIED.

Bucharest Physician's Report of Queen Dragha's Condition-Striking Innovations.

BELGRADE, May 19 .- All rumors regarding the abdication of King Alexander, the resignation of the Cabinet, and the banishment of Queen Draghs, growing out of the sensational experiences of the out of the sensational experiences of the Servian royal family, are declared to be without foundation. Professor Cantacusen, of Bucharest, who was summoned, with Dr. Westheim, of Vienna, announces that Queen Dragha presents all the symptoms of false or nervous pregnancy, and that the rapid development of symptoms was brought on by the advice given Her Majesty by Dr. Caulet, who, in urging her to lead a sedentary life, encouraged the Queen in the opinion that she was enciente and produced an abnormal conenclente and produced an abnormal con-dition calculated to mislead both herself and her entourage. The two specialists declare that Queen Dragha is suffering from nephritis, but that her condition is

DECAY OF PARLIAMENT.

Mental and Physical Apathy of Members of the Government.

LONDON, May 19.—Henry W. Massing-ham, of the Daily News, and other writ-ers, draw attention to the bitterness and the personal and public attitude of the Conservative leaders toward Winston Churchill. A. J. Balfour, the government Churchill. A. J. Balfour, the government leader in the House of Commons, who is usually so genial towards others, has entirely ignored this young member of the House, who, with one speech, has now gained a prominence which everybody says his party cannot afford to overlook. The chief doubt of his success appears to be his lack of means, which are at present quite insufficient to enable him to devote that large amount of time redevote that large amount of time required by the duties of a Cabinet Min-ister. The sneers of Mr. Brodrick and other members of the government at Mr. Churchill's reference to his father's fight and his own right to raise the tattered

and his own right to raise the tattered hanner of economy and to protest against the growing vast expenditure has had but a slight effect among the broader-minded Conservatives and Radicals.

An explanation of Mr. Churchill's difficulties in securing fair treatment in the House of Commons is perhaps supplied by T. P. O'Connor, the Irish Nationalist, who this week is writing a series of articles entitled "Is Parliament Decaying?" In these articles, Mr. O'Connor dilates upon the utilmate mental and physical upon the ultimate mental and physical apathy which prevails among members of the government who are jaded by long office-holding and frequent attendance at this enervating "hothouse on the Thames." Mr. Balfour, he says, is quite worn out, and without a spark of freshness. Senseless gossip pervades the lobbles and dining-rooms. There is a feeling, which is not confined to the Liberais, that Lord Salisbury has "stuffed his Cabitalian and the control of the control of the liberais, that Lord Salisbury has "stuffed his Cabitalian and the control of the liberais," upon the ultimate mental and physical that Lord Salisbury has "stuffed his Cab inet with his own relatives," and even Mr. Chamberlain, the Colonial Secretary, is said to be discontented. "They have packed the Cabinet against me," is one

saying attributed to him. According to Mr. O'Connor, Lord Hugh Cecil, son of the Marquis of Salisbury, has done much to aggravate this antagonism to the Premier's nepotism. "When this fanatical, extereme, foolish and headstrong young man gets up and proneastrong young man gets up and pro-founces his view, people begin to ask, 'Is there no escape from these Ceclis?' And so poor Lord Hugh, with his pallid face and his long, thin, lanky body, and his, wild and youthful enthusiasm, is the straw that breaks the camel's back of lurance by his part of his family."

INNOVATIONS AT WINDSOR. Changes Ordered by the King Come

as a Shock to Englishmen. LONDON, May 19.—Only now are people at Windsor and the royal retainers beginning to realize what the death of Queen Victoria meant to them. Sweeping changes were inaugurated this week in the royal establishments. The older ser-vants are being pensioned. Frazer, the late Queen's police superintendent, almost as familiar a figure as the Queen

herself on public occasions, goes into re-tirement, and head keepers and gardeners disappear into the obscurity of the pension apartments have been transformed into rooms where the members of the royal family can live in comfort. The jubilee presents and many favorite pictures of Queen Victoria have been sent to London, and the Queen's personal belongings have been distributed among the members of her family. Even her dogs have not escaped the new order. The smooth-coated coilies, which were her especial favorites have been distributed among favorites, have been distributed among the people of Windsor, and the other col-iles, dachshunds and pomeranians, about 70 in all, have been claimed by various

Alexandra care little for anything but Alexandra care little for anything but terriers and pugs.

Next month 5000 dozens of costly wine in the Queen's cellars will be sold at public auction in London. Each bottle will have the royal label on it. Various will have the royal label on it. Various reasons are given for this aimost unprecedented action. The most probable consists in the fact that royal hospitality is now generally confined to whisky, soda and champagne and to the lapse of the practice by which court functionaries formerly received a bottle of Madeira as part of their salaries. All these things come as a shock to the people who had almost grown to believe that Queen. had almost grown to believe that Queen Victoria would live forever.

Princesses, for King Edward and Queen

THE TURKISH APOLOGY. Effort to Close the Mail Bag Incident

at Constantinople. CONSTANTINOPLE, May 19.—Ahmed Tewfik Pasha, Ottoman Minister of For-eign Affairs, called upon the Ambassadors and notified them of Turkey's desire to reestablish the status quo ante in the postal question and the intention to send a high functionary to apologize for the violations of the foreign mail bags. The Ambas-sadors met yesterday at the residence of the German Ambassador to determine what attitude to adopt in view of the complete submission of the Sublime Porte. It is understood that the German Ambassador considers the incident closed. The other powers, however, decline to regard a return to the status quo ante as an adequate settlement; and the British, French and Austrian Embassies have even declined to transmit the explanations of Tewfik Pasha to their governments.

SUICIDE OF A CLERGYMAN. Rev. M. D. Babcock, an American,

Took His Life in Naples. NAPLES, May 19.—Further investiga-tion into the case of the American clergy-man who committed suicide here yesterday in the international hospital by sev-ering an artery of his wrist and swallow-ing corrosive sublimate, and who was mentioned in yesterday's dispatch as Mr. Maltle, an American evangelical minister, proves the suicide to have been the Rev. Mathle Davenport Babcock.

NEW YORK, May 19.—One of the closest riends whom Dr. Babcock has in this friends whom Dr. Babcock has in this city was W. D. Barbour, a member of the Brick Prespyterian Church congrega-tion. It was Mr. Barbour who yesterday received the cablegram announcing the fact that Dr. Babcock had died in Naples of Mediterranean fever, and he at once cabled back for particulars. He had re-ceived no reply tonight, and the first in-

ilmation that he had that there was an element of sucide it. the case was when he was shown tonight the Associated Press dispatch from Naples. He said:

"If this dispatch is correct, and I do not doubt that it is, then Dr. Babcock was out of his head if he took his life. Dr. Babcock saw everything in the sunniest light, and he was just bubbling over with good health, and was an athlete."

Dr. Babcock had been pastor of the Brick Church since November 1, 1893, coming from Brown Memorial Church in Baltimore. He received a salary of \$12,000 a year. Though a young man, Dr. Bab-

year. Though a young man, Dr. Bab-cock attained eminence as a pulpit orator and theologian. He had the reputation of being a scholar and a worker, full of energy and fearless in his methods of thought. Dr. Babcock was a graduate of the Syracuse University. His first charge was the Pirst Presbyterian Church of Lockport, N. Y.

Fights at Spanish Elections, MADRID, May 19.—The elections to the new Chamber of Deputies were held to-day. At Bilbao, in a quarrel between a Ministerialist and a Socialist, the latter was killed. Another person was killed at Cuence. Serious conflicts occurred in Barcelona, where Senor Cubelles, an electoral commissioner was killed with a decemcommissioner, was killed with a dagger. People were injured at several other towns. All the Ministerial candidates in Madrid were successful. Sufficient re-turns have been received to show that the government has obtained a working majority in the Chamber.

PARIS, May 19. — The revolutionary groups celebrated as usual today the anniversary of the commune, marching in batches to the cemetery of Pere la Chaise and depositing wreaths at the foot of the wall where the Communists were shot. Stringent measures were taken by the po-lice to preserve order, and a number of demonstrators who shouted "vive la commune" and "vive la revolution" arrested, although most of them were

In Honor of Sir Arthur Sullivan. LONDON, May 19.—The dean and chap-ter of St. Paul's Cathedral have given their approval to the suggestion of friends and admirers of the late Sir Arthur Suflivan that a monument to his memory be placed in the cathedral and an influential committee has been formed to carry out the idea. It is also proposed by the committee to endow a scholarship to be called the Arthur Stillivan Scholarship at the Royal Academy of Music, and to erect a statue to the composer on the

VICTOR, Colo., May 19.—The dams of two reserveirs of the Victor Water Com-pany at the head of Little Beaver Creek, were carried out tonight by a cloud-burst, and a flood rushed down the canyon, demolishing several miners cab-ins. So far as known, no lives were lost and the property damage will not be great. One span of a treatie on the Crip-ple Creek Short Line was carried out.

Cornwall and York in Brisbane. BRISBANE, May 10.—The Duke and Duchess of Cornwall and York arrived here this morning, overland, from Mei-bourne. The city is beautifully decorated

THE RAINBOW CITY.

Dedication of the Pan-American Exposition Will Occur Today.

BUFFALO, May 19.-The eve of the ded-BUFFALO, May 18.—The eve of the dedication of the Pan-American Exposition sees a welcome break in a cheerless rain storm, a city gay in a dress of bunting, and a happy people, proud of the tealization of their hope and work of two years. Tomorrow at noon, after a parade partly military and partly civio, with ceremonies of disnith becoming the occasion, the great fair will be dedicated to the liberal and peaceful arts which it twides. Ded. and peaceful arts which it typines. Dedication day will find Rainbow City almost ready for its pleasure-seeking population. The great buildings in the Exposition City are practically completed, but the Installation of exhibits has proceeded very slowly, and completeness in that re-spect stretches away to some indefinite date in June. There has been a concentration of energy in the effort to prepare the exposition grounds for the opening ceremonies, and an immense amount has been accomplished in the last 24 hours. The King is putting his house in order with a vengeance. The Prince Consort's and thousands of carpenters, painters and thousands of carpenters, painters and other artisans are at work on and in the years by Queen Victoria's order, and which were kept as they were at the buildings. The last of the network of which were kept as they were at the scaffolding that for weeks has enveloped time of his death, have been opened and refurnishd in modern style, and the state apartments have marred by but few signs of incomplete-

The scenes within the grounds today were interesting ones. The sun fought and a bright afternoon brought thousands of vicitors. The tenants of the Midway were idle today, and many attendants at the foreign exhibits, mingling with the crowd, gave it a cosmopolitan air. The Mexican band gave a concert in the plaza

and drew a large crowd.

The city is rapidly filling with visitors, and if tomorrow dawns bright, it is cetimated that 150,000 persons will participate in the ceremonies. Vice-President Roose-veit, accompanied by the members of his family, arrived tonight. Senators Hanna and Henry Cabot Lodge reached here today and spent the afternoon at the grounds, and the members of the St. Louis Exposition directorate were also conspicuous visitors. The directors of the St. Louis Exposition were banqueied tonight by the directors of the Pan-Amer

BALDWIN'S EXPEDITION.

Arrangements Completed for the Trip to the Arctic.

NEW YORK, May 19 .- Evelyn B. Baldwin, of the Baldwin-Zeigler Arctic expedition, arrived here today on the steamship Umbria, after a month's trip abroad, completing arrangements for the expedition. Tonight Mr. Baldwin said that he would leave early next month for Dun dee, Scotland, and sail on the America for Tromsoe, Norway. There he will meet the supply ship Frithjof, and the expedition will sall for Franz Josefland. where they will make their headquarters for the Winter.

"The arrangements are about completed for the expedition," he said, "and we are magnificently equipped. We expect to sail with 40 men, 15 Siberian ponies and 400 dogs to carry adequate supplies of the very best sort, so that we shall have every advantage possible for the work we are to undertake. Naturally, there being so many interesting and new problems for us to approach, I do not care to say what we intend to do. When we have done it will be time enough to talk. Neither do I care, at this time, to announce the personnel of the expedition."

Domestic and Foreign Ports. ASTORIA, May 19.—Arrived at 8 A. M. and left up at 11:10. British steamer Indrapura, from San Francisco; arrived at 10 A. M. and left up at 11:40, steamer Alliance, from San Francisco. Arrived down at 11 P. M. Saturday, and salled at 2 P. M. Sunday, British steamer Ocopack, for Manila. Condition of the bar at 5 P. M., rough; wind, southwest; weather, clear.

clear.

New York, May 13.—Arrived—Steamer Dumbria, from Liverpool and Queenstown; L'Aquitaine, from Havre; Mesaba, from London; Astoria, from Glasgow and hunt for and destroy the derelicts.

CUBANS ARE DIMIDED

IAJORITY AND MINORITY REPORTS ON THE PLATT AMENDMENT.

Pormer Accepts It With Many Changes, Latter Rejects Most of the Clauses.

HAVANA, May 19.-The committee on mayana, May 19.—The committee on relations of the Cuban constitutional convention will submit majority and minority reports to the convention tomorrow. The majority report, in an introduction, quotes article 1, of the Tresty of Paris, the joint resolution of the United States Congress and the Platt amendment, and then proceeds as follows:

proceeds as follows:
"Inasmuch as Secretary Root, being authorized by President McKinley, says that
the Platt law has for its object the guaranteeing of the independence of Cuba, and anteeing of the independence of Cuba, and does not mean interference with its government or the exercise of a protectorate or of sovereignty, and also that intervention will only take flace when independence is endangered by outside powers or grave interior disturbances, creating anarchy, and linasmuch as Secretary Root has said that the naval stations will not be used as vantage points. tions will not be used as vantage points after intervention, but only to protect Cuba against foreign powers, we report as follows:

That in virtue of the fact that the Platt law, in its preamble, says it is a fur, ment of the joint resolution and has been adopted by Congress with the prin-cipal object of ertablishing independence. we do propose to the convention to accept the following as an appendix to the onstitution."
The first, second, fourth and fifth clauses

The first, second, fourth and fifth clauses are quoted in their entirety. The third clause has the following addition:

"It being understood that the United States has the right to intervence to prevent the action of a foreign power or disturbances causing a state of anarchy, and that the intervention shall always be the act of the United States and not of isolated agents. The intervention shall suppose neither sovereignty nor a protecsuppose neither sovereignty nor a protec-torate and shall only last sufficiently long torate and shall only last aufficiently long to establish narmal conditions. Said intervention, it is also understood, shall not have the right to interfere in the government, but only the right to preserve independence."

An addition to the sixth clause says that the ownership of the isle of Pines shall be settled by a future treaty. An addition to the seventh clause says: "It shall be understood that the naval stations do not give the United States the right to interfere with the interior

the right to interfere with the interior givernment, but are established for the sole purpose of protecting American waters from foreign invasion directed against Cuba or the United States. Cuba will sell or lease the necessary lands at points to be agreed upon later." An addition to the eighth clause says that the Government of Cuba suggests at

the same time a treaty of commerce based on reciprocity.
The minority report says:
"The explanations given to the com-

"The explanations given to the committee in Washington show that the
Platt law does not express the wishes of
the United States. It was intended to
protect the independence of Cuba, but the
wording gives other interpretations. The
United States is inconsistent in asking
naval stations when the amendment provides that no concessions shall be given
to foreign powers. Such a demand raises
the question whether the United States
does not consider Cuba a part of its
possessions."

possessions."

The report of the minority virtually accepts the first and second clauses. For the third clause, the following is substituted: That the Government of Cuba scribes to the Monroe Doctrine and wil

help the United States to enforce

against other nations trying to violate For the fourth clause the following is "Cuba does not recognize acts of intervention which are not in conformity with the Foraker resolution and the laws of the United States."

The seventh clause reads: "Cuba will maintain naval stations, handing them over to the United States in time of war.' The report of the minority recommends

a commercial treaty based upon reciproity.

The report of the majority has cause considerable surprise. It was generally believed that the committee on rela-tions would recommend acceptance of the Platt amendment on the basis of the interpretation given by Secretary Root,

but it was not expected that such addi-tions would be made to various clauses as the majority recommends. A promi-nent Cubin lawyer said today: "The majority report is not an ac-ceptance of the Platt amendment, as it distinguishes intervention on different

A person who is in close touch with

A person who is in close touch with the Spanish government made the following statement to a representative of the Associated Press:

"It is a fact, to which the attention of all Americans should be catled, that not only Spain, but Spanish residents in Cuba-both those who have retained their Spanish nationality by inscription and those who have become Cuban by not inscribing are closely watching developscribing—are closely watching develop ments in this matter of the relations be tween the United States and Cuba. Thi is a question which seems to involve more than the Platt amendment merely. It seems to tend ultimately toward an

"Spaniards here and in Spain favor annexation. Not only do they fear that any government by Cubans, not con-troiled by the United States. would en-danger property and even life, but they also favor annexation because they be lieve it would restore the Spanish in-fluence in politics, because with the al-liance they would make with the former autonomists, the conservative Cubans and autonomiats, the conservative Cubans and the Americans who belong here, they would control the politics of the island by an overwhelming majority. This condition would meet with the approval of Spain because in her commercial relations with Cuba, she would be benefited by preponderance of Spains lin-fluence. Spain has great influence in South America and is trying to maintain her influence in Cuba. The only solution of the problem is annexation. Spaniards will not become Cubans, but they are ready to become citizens of the United States.

the United States.

"All the Spaniards in Cuba and the conservative Cubans desire that the Platt amendment should not be accepted, hoping that, in such an event, the next Congress will take a more annexationist view of the relations between the United States and Cuba. Indeed, some of our most prominent Spaniards and Cubans have gone as far as to approach Governor-General Wood to tell him that the most conservative and American solution of the present problem would be the rejection of the Platt amendment, and urge that the United States should take special notice of the situation in order to special notice of the situation in order to see what deep root the desire for an-nexation has taken."

Dangerous Derelicts Reported. NEW YORK, May 19. — Two liners, L'Aquitaine, from Havre, and Messha, from London, which came into port today, reported they passed dangerous derelicts, which, if met with in the night time, would certainly have resulted in deaster. These wrecks are drifting in the ocean lanes, which are now being daily traversed by liners. The Government will be asked to send out one of the small gunboats to

(Continued from first page.) nces between the Roll-turners' Union and the Republic Iron & Steel Company may union and sign the scale agreed up

is stated that the Steel Hoop Company is willing to pay more than the scale, but will not recognise the union. Agreement With the Big Four. INDIANAPOLIS, May 19.-One hundred and seventy-four machinists out of 828 in this city, and 20 boiler-makers out of 62, will strike tomorrow. The Big Four has settled with its men on a scale of 25% cents an hour straight and aine hours to the day, and the Indiana, Decatur & Western Railway will settle with their men on the same terms.

St. Paul Not Concerned.

ST. PAUL, May 19.—So far as this city is concerned, the order for the strike of machinists will not be obeyed. With the exception of those employed in the big railway shops, the machinists as a rule do not belong to the international organization. The railroad shop men de-cided some time ago that they would not obey the order.

No Strike at Denver. DENVER, May 19. - The th -The threatened strike of the machinists of Denvar has been averted, the local members of the National Metal Trades Association hav-ing granted the nine-hour day and the scale of wages demanded by the machinlate' union.

St. Louis Firms Sign. ST. LOUIS. May 18.—Forty-four of the largest machine shops in the city have signed the nine-hour agreement, leaving only four large concerns which have not signed. Three of the latter decided today to continue at work in hope of effecting a compromise.

Southern Railway Shop Mes. KNOXVILLE, Tenn., May 18.—The de-mand of the Machinists Union of the shops of the Southern Railway has not been directly answered by the officials of the railway, but General Manager Gan-non will confer with representatives of the men tomorrow,

Railronds Refuse Demands. WILKESBARRE, Pa., May 19.—The Le-sigh Valley Railroad and the Central Railroad of New Jersey have declined to grant the demands of the machinists em-ployed in their shops here and the men will go out on strike tomorrow. About 1400 men are affected.

The Call at Wilmington WHATINGTON, Del., May 19.—Officials of the Machinists Union in this city said tonight that a strike would be ordered in all Wilmington shops with two exceptions. They say that at least 50 men will answer the call.

Will Not Strike at Salt Lake. SA. P LAKE, May 19 .- Although a ma-ority of the 800 machinists employed in he various railway shops in this city are union men, it is not believed that they will participate in the general strike On the Lehigh Valley System

BUFFALO, May B.—All the machinists employed by the Lehigh Valley Railroad system will strike tomorrow. About 1200 machinists in all will be out in Buffalo.

One Louisville Shop Acceded LOUISVILLE, May 19.—The indications are tonight that 500 machinists in Louisville will be idle tomorrow, only one employer having granted the men's demands.

STRIKE AT SAN FRANCISCO.

Machinists at Union and Risdon Iron Iron Works May Walk Out Today. SAN FRANCISCO, May 19.—There seems to doubt that there will be a walkout tomorrow of the machinists in the Union Iron Works and the Risdon Iron Works. The number of men affected is not yet

A long memorial emanating from the San Francisco Labor Council has been presented to President McKinley. It ascribes the present differences between employers and employes to the possibility of Congress not taking any action in reference to the further continuance of the president laws may be force. erance to the turther continuance of the exclusion laws now in force. The policy of territorial expansion is combatted, and the request is made that with the acquisition of outlying lands, the doctrine of exclusion of Asiatics be enforced.

FORMING A UNION AT VICTORIA. Work on a Steamer Brought From Senttle Was Stopped.

VICTORIA, B. C., May 19.—It is not likely that the Albion Iron Works Com-pany, of this city, will be able to fulfill its contract to complete the work on the steamer Garonne, which was brought here on account of a strike of metal workers

acid. Britton left a note asking that his body be shipped to his mother, hirs. Susan B. Franklin, Lexington, Ky. Britton the bollers-makers, who belong to the integration of the proper in the same wages for its same wages for wages for its same wages for its s likewise refused to work on her. The machinists are not organized, but met teday for that purpose. Those present decided to work until Tuesday night, when it is anticipated a union will be formed. The company offered, hesides paying the same wages for eight hours as they pay for 10, not to accept any more work from the Sound on which the union metal workers had refused to work. ers had refused to work.

ECLIPSE SHADOW BANDS.

Photographed by a Massachusetts Party in Sumatra.

Photographed by a harmatra.

BOSTON, May B.-President Pritchett, of the Massachusetts Institute of Technology, today received a cable message from Prof. Burton, in charge of the Technology eclipse party, announcing that important results had been obtained. The weather was cloudy during a portion of the eclipse, but all four contacts were observed and a beilitant corona was seen at totality, which lasted nearly six minutes. Photographs of the corona were obtained.

But the most interesting and povel work of the party consisted in the observations obtained photographically of the shadow bands. Those were curious black bands which are seen reaching along the earth's surface just before and just after the moon's shadow. Great doubt has been expressed of their reality and, various attempts have been made to describe their size and direction. No attempt has ever been made to photograph them, and the success of Prof. Burton and his party in this attempt will settle a most puzzling question.

Prof. Burton reports also a slight change of the magnitometer daving totality and also the completion of pendulum observations at the observing station. By waiting until his photograph had been developed, his message has been dalayed a day, but on the other hand this delay enabled him to cable results of the highest interest.

enabled him to cable results of the est interest. Weston Hawland Dend. FAIRHAVEN, Mass. May 19. Weston Howland, the discoverer of the method of refining petroleum, died tonight, aged 80

Tutt's Pills Cure All

Liver Ills. Tried Friends Best. For thirty years Tutt's Pills have proven a blessing to the invalid.

Are truly the sick man's friend. A Known Fact For bilious headache, dyspepsia sour stomach, malaria, constipation and all kindred diseases.

TUTT'S Liver PILLS

AN ABSOLUTE CURE.

A SECOND YO

AY again be yours if you are MORBED and MELLANCHOLY—if you are NERV-OUS and your system is all BROKEN DOWN—if you will quit doping yourself with strong drugs, and properly apply ELECTRICTY. Drugs, if you persist in their use, will entirely wreck your constitution and nervous system. Electricity stands today alone unassallable as a curative agent for all chronic allments and WEAKNESSES with which men and women may be afflicted. The United States Government, as a reward for my study and discovery has given me the saclusive use of my method of applying Electricity to the human system; a method which I guarantee to cure all those Weaknesses and Nervooue allments in every case. I guarantee the cure, and if my Electric Beit fails it does not cost you a cent.

Dr. Bennett's Electric Belt

Is entirely different and must not be confused with the many so-called electric beits now being offered the public.

It has soft, silken, chamois-covered sponge electrodes which prevent that frightful burning and blistering caused by other belts which have bare metal electrodes. Mine has interchangeable Battery Cells and can be renewed for only 75c when burned out; others cannot be renewed for any price.

If your Vigor and Vitality have forsaken you, and you are Weak you must apply the right current of Electricity in the right manner before you can regain that strength, ambition an energy Nature intended you to have.

My Belt is absolutely guaranteed to cure Varicocele and all Weaknessees in either sex; restore Lost Vigor and Vitality, cure all forms of Nervous Allments. Rheumatism in any guise, Kidney, Liver and Bladder Troubles, Constipation, Stomach Disorders, all Pemale Complaints, etc.

Write me today, Sacredly confidential, I will send tree, postpaid, to any one my books on Nervous Allments and their cure by Electricity, Correspondence sacredly confidential. No charge for diagnosis, Sold only by

Dr. Bennett Electric Belt Co.
