COMMERCIAL AND FINANCIAL NEWS

Business opened up rather lively for Monday, and receipts of produce were much larger than usual. California strawberries were too plentiful for a good demand, and prices are easier. Receipts of Oregon strawberries are light, but the public was not eager for the few that came in at 20 cents per box. A fine lot of cucumbers came in from La Camas yesterday, and sold at $1 50 per dozen. The egg market was very weak again yesterday, and it was a difficult matter to move round lots at 12 cents, while single case lots were not doing very well at 12½ cents. The California steamer, which arrived late last evening, brought considerable garden truck, which will be on the street this morning. Potatoes are a shade easier for common grades, but choice stock will still move all right at quotations. New potatoes and new onions from California are plentiful.

PORTLAND MARKETS.

Grain, Flour, Etc.

The wheat market in the East braced up a little yesterday morning, in response to a big decrease in the American visible and firmer cables from the other side. The only American markets showing weakness were on the Pacific Coast, and these were lower on account of steadily advancing freights. As high as 40 shillings is paid as far away as next January, and some owners have advanced their limits to 41s 3d and 42s 6d for distant ships. The only business doing in wheat in the local market is an occasional small lot taken up for milling purposes, and for this as high as 61 cents has been paid for Walla Walla. Exporters are holding off, being unable to make both ends meet at these rates.

Wheat—Walla Walla, nominal, 60c; bluestem, 61@62c; Valley, nominal.

Flour—Best grades, $2 90@3 40 per barrel; graham, $2 60.

Oats—White, $1 35@1 40; gray, $1 30@1 32½ per cental.

Barley—Feed, $17@17 50; brewing, $17@17 50 per ton.

Millstuffs—Bran, $17 per ton; middlings, $21 50; shorts, $20; chop, $16.

Hay—Timothy, $12 50@14; clover, $7@9 50; Oregon wild hay, $6@7 per ton.

NEW YORK STOCK MARKET.

Public Left Speculation Largely to Professional Operators.

NEW YORK, May 20.—The late upward movement of stocks last week failed to continue today, although there was some resistance at times in the way of strength of individual stocks. There was a progressive decline in the influence of those special movements, and the day closed with the market quite active and decidedly at about the lowest of the day all around. There were one or two unfavorable new features during the day, but there were also some developments which had a favorable interpretation. The market was not very manifestly influenced by the news of the day, but seemed rather to move as the result of technical causes.

Taking of profits on last week's late rise was the principal of these causes. The market gave growing evidence of its abandonment to the class of professional operators, some of them of large means and broad methods, but with the public evidently not a factor in the market and disinclined to respond to the temptation of price movements. The maxim of the professional operator to sell stocks on a show of strength and to buy them in on a decline comes in to interrupt the movement of prices before it has extended far in either direction and to bring the market constantly nearer to a state of equilibrium.

The market opened irregular and then yielded all around to the realizing, but recovered quite strongly in response to a movement in the coalers. There was some strength also among the Southwesterns, apparently on the score of published reports of a projected new steamship line from a Mexican port to the Orient. The obvious fact that the struggle for control of the transportation of future trade products to the Orient lies at the root of most of the movements working out in the transcontinental railroad territory gives any suggestion in this line an influence. The market in the coalers was apparently speculative.

The strength in St. Paul was not explained by any news, but the buying was called good. The stock yielded, however, in the late weakness, and closed at a net loss. The weakness of Union Pacific was an effective factor in upsetting the market. Allegations of a further issue of convertible bonds to finance the purchases of Northern Pacific stock were the prime factors in the stock's weakness. It closed at par, 7 points below Saturday's close, and at the lowest of the day. Other notable weak stocks were Atchison, which lost 4½; Consolidated Gas, as much; Sugar 3½, Manhattan 3½, Rock Island and Metropolitan Street Railway 3, Louisville 2¾, Amalgamated Copper 2½, and a large number of stocks from 1 to 2. A number of the minor industrials showed notable strength, although their best prices were reduced by the late weakness. Among them were the international paper stocks, American Linseed stocks, United States Rubber stocks, National Lead stocks and the rubber goods stocks. In American Linseed preferred and United States Rubber preferred the gains had reached about 5 points. There was large buying of Burlington for cash, which was apparently connected with the fact of the proposition of the Burlington deal being conditioned upon the deposit of at least two-thirds of the capital stock on or before May 20.

The beginning of the machinists' strike and fears of a spread of labor troubles was the depressing influence, and the advance in sterling exchange rates with the decline of sterling at Paris, indicating further shipments of gold from here, as well as the heavy receipts of the Treasury which are usurped for May, discouraged the borrowing of money for speculative purposes.

The bond market generally was dull and irregular, yielding in the late trading in sympathy with stocks. Total sales, par value, $3,330,000.

United States bonds were all unchanged on the last call.

Foreign Financial News.

NEW YORK, May 20.—The Commercial Advertiser's London financial cablegram says:

Speculation was dormant on the stock exchange here today. The tone of the general market, however, was steady. There are many signs of returning confidence in American shares. They opened well, with some activity, though about $1 below parity, and early sales by cable here for New York caused some sagging. Then, however, there was a rally to the best prices of the day, under the leadership of the coalers. Northern Pacific spurted 10 points. Money was firm.

Hides—Steady.

Chicago Grain and Provisions.

CHICAGO, May 20.—In response to the Liverpool market, which failed to follow Saturday's advance on this side, July wheat opened ⅛c lower to unchanged, at 72¼@72⅜c. During the forenoon, however, the price rose to 73¼c. This was based chiefly on the purchase of approximately 2,000,000 bushels by a single firm, although the statistics were sufficiently bullish to aid materially in enhancing the values. Traders who were short of July in most cases covered on the advance. At 73¼c the upward movement was checked by the heavy sales of an influential operator. He unloaded about 2,000,000 bushels at 73c or better, and sold until the price reached 72⅝c. The market closed steady, July unchanged at 72¾c.

Corn held firm in the face of very heavy receipts, because one firm bought a quantity estimated at 2,500,000 bushels of July, believed to be mostly for shorts. May was also in demand. July closed ⅜@½c higher, at 44⅞c; May closed 1½c higher, at 48c.

Oats were active and strong on a demand from country interests. July closed ⅛@¼c higher, at 28⅜@28½c.

Strength in lard was the feature in speculative trading in provisions. The market was also helped by the corn strength. July pork closed 7½c higher; lard, 10c up, and ribs, 5@7½c improved.

The Metal Markets.

NEW YORK, May 20.—Another pronounced advance was noted in tin, both at New York and London, particularly at the latter place. Prices there rose £2 5s on spot, and £3 15s on futures before the demand subsided. The close was strong, with spot quoted at £126 7s 6d, and futures £125 17s 6d. On receipt of this information values here advanced about 60 points, and are now about the same as London figures, not counting freight charges and other expenses.

The market here was not as active as in London, but showed considerable strength, closing strong, at $27 50@28, despite the fact that supplies in this country are still heavy. The improvement at London was due to a speculative movement, rather than to consumptive demand, and still higher values are looked for. The volume of business at London reached large proportions.

The rest of the metal list was in strong contrast to tin, as prices on mostly all grades were largely nominal and unchanged.

Copper ruled at $17 for Lake Superior, and $15 62½ for casting and electrolytic in the local market, while at London it had a firm to steady start, but closed easy under realizing, with spot quoted at £60 19s 9d, and futures at £70 8s 9d.

Lead ruled unchanged, both here and in London, closing at $4 37½ and £12, respectively.

Spelter, while displaying some strength abroad, was quite easy here.

Domestic iron markets ruled dull and nominally easy at old prices. Pittsburg reports very quiet markets in iron and steel.

Pig iron warrants, $9 50@10 50; Northern foundry, $15 50@16 50.

London Wool Auctions.

LONDON, May 20.—The wool auction sales closed today with offerings of 11,953 bales. Competition was fair, and prices were generaly firm. At the opening of the season merinos met with a good demand at unchanged rates. German, French and the home buyers operated with great freedom, particularly when New South Wales and Queensland fine-haired stock was offered. This competition soon advanced the price of these grades 5 to 7½ per cent. Medium and inferior grades also hardened 5 per cent, but later, owing to the falling off in the volume of Continental competition, values receded somewhat. The close, however, was firm at par to 5 per cent above the March average. During the series 228,517 bales were catalogued, of which 103,000 bales were sold to the Continent, 4000 to America, 48,000 held over, and the remainder to the home trade.

PACIFIC COAST FISHERIES.

Washington Leads in Output and Value of Product.

Pacific Coast fisheries employed 19,528 persons in 1899, according to a statistical bulletin which has just been issued by George M. Bowers, United States Fish Commissioner. Of these, Washington reported 9911, Oregon 5643 and California, 3974. The fishing industry represents property valued at $12,873,377, of which $4,720,677 is cash capital. Washington leads in gross value of property and cash capital, with Oregon second and California third.

The total fish product of the Pacific Coast in 1899 was 219,337,816 pounds, valued at $6,316,171. Washington led with 121,630,226 pounds, valued at $2,884,908; California second, with 74,462,089 pounds valued at $2,568,383; Oregon, third, with 23,245,501 pounds, valued at $862,880.

The salmon-canning industry is at its best in the Pacific Northwest. The total pack of the three states in 1899 was 1,417,360 cases, valued at $6,139,032. California packed 34,180 cases, valued at $159,468; Washington, 1,041,883 cases, valued at $4,275,339; and Oregon, 341,297 cases, valued at $1,704,235.
