GERMANY'S CHINA EXPEDITION.

Divergent Opinions Expressed the Papers of the Empire.

BERLIN, May 29.-The papers devote much space to reviews of Germany's China expedition, showing widely diverg-ent opinions. While the Berliner Tage-blatt claims that Count von Bulow's origi-nal programme has been literally carried out, and the Politische Machrichten an-serts that 'our mission in China is completed," the Kreus Zeltung admits that great difficulties remain, mentioning the Manchurian and Corean questions. The Post deprecates "the policy of certain papers in inventing grand plans for Ger-many originally, and then claiming that have not been fulfilled." The Kleines Journal admits that 'our national consolousness was so aroused that en-thusiasm conceived alms which, after the German fashion, were beforged in bound-

STATE DEPARTMENT NOTIFIED.

Nothing to Do With the Selection of

Nothing to be With the selection of Von Waldersec's Successor. WASHINGTON, May 25.-The Depart-ment of State has been informed reliably that the Chinese Government has issued a decree agreeing to pay an indemsily of 40,000,000 tacks, equivalent to about \$337,-600,000, at the present rate of exchange. It is known now that the whole subject of indemnity will be closed up before the end of the present month. If that is not done, and evacuation is not under way on ione, and evacuation is not under way on a large scale, then the Chinese Govern-ment must be assessed \$1,000,000 each day after June 1 next to compensate the pow-ers for the maintenance of their military forces in China. Under this whip the Chi-ness Government has been forced to yield. It is not known that the powers have agreed on the form and extent of guaran-

Gibbons Prolonging His Stay.

BOME, May 22 .- Cardinal Gibbons has determined to prolong his stay in Rome, and will remain here during the greater part of June. The cardinal says the ap-pointment of a rector of the American College here to succeed Monsignore O'Conneil, the bishop of Portland, Me. becomen, set and the stage where any statement can be made. It is understood the cardinal, during the audience he had with the pope, explained at length the views of the Government at Washington regarding the religious matters in the Philippines. Cardinal Gibbons is also advising the pope to consider the question of a successor to Cardinal Martinelli, as pupel delegate to the United States, but it is understood that the difficulties enconsistent in selecting a successor are so great that there is little prospect of the early departure of Cardinal Martinelli from the United States.

Business Transacted on the Closing Day of the Session.

DES MOINES, Ia., May 23.-At the open-ing of the closing day of the session of the General Assembly of the United Presbyterian Church, the committee on bills and overtures on the memberahip covenant reported that there was a de-mand for a change in the form of questions put when members are being received. The committee held, however, that none of the memorials submitted cover all the points desired, and recom-mended that a committee of five be ap-

The recommendations were adopted and the appointment of a committee referred to the committee on nominations, which was instructed to publish its report not later than January 1, 1902. The assembly voted against the recom-mendation of Dr. Samuel Collins for the appointment of a committee to prepare a list of consanguinity and affinity within

The following resolution was passed: "Inasmuch as the doctrine of confes-sion that marriage ought not to be within the degree of consanguinity and affinity forbidden in the word, nor can such incestuous marriages ever be made lawful by any law of man or consent of parties so as these persons may live together as man and wife, was not touched by the overture and stands unimpaired as to the general law of the church, by which the courts of the church are to be guided in determining particular cases as they may, it is the judgment of this assembly that

such sanction contemplated in the request is not required and the request is not granted." The committee appointed to make a re-vision of the membership covenant of the church is composed of Rev. J. T. Mc-Creery, Pittsburg; Rev. E. S. McKitt-rick, Los Angeles; Rev. T. H. Hanna, Monmouth, Ill.; Rev. J. D. Kennedy, Ohio, and Rev. C. S. Cleland, Phila-

Amicable Understanding Between Hill-Morgan and Harriman.

NEW YORK, May 30.—Peace has been patched up between the Hill-Morgan com-bination, according to the World, and the Harriman-Kuhn-Loeb syndicate in the struggle for the control of the Northern Pacific road. The friendliest feeling now exists, and an agreement has practically been reached which will prevent any rebeen reached which will prevent any re-newal of the strife. The amicable under-standing was brought about through the friendly offices of George Gould and William K. Vanderbilt. Each side has ceased talking about its respective holdings in Northern Pacific stock. It is said that the Union Pacific Railroad owns over \$59,-

He has been in conference with representatives of the Northern Pacific and Union Pacific ever since his arrival. NO ACTION WILL BE TAKEN

Washington Will Not Approve or Reject Cuban Convention's Work.

WASHINGTON, May 29.-Secretary Root has received a cablegram from Gov-ernor-General Wood, at Havana, briefly confirming the press report of the adoption of the report of the committee on relations with the United States, accepting in behalf of the convention the terms of the Platt amendment. It is understood that without undertaking materially to change the language of the Platt amend-ment the convention by the adoption of reports of interviews with Secretary Root and otherwise has placed upon the amend-ment itself a construction that will re-quire very serious consideration. Secretary Root has been in daily communica-tion by cable with General Wood, and is acquainted with the proceedings of the delegates and the negotiations which led up to yesterday's action. General Wood, in turn, has acquainted the constitutional delegates with the Secretary's views in answer to their efforts to place a construction upon the Platt amendment, Hence the weight of opinion inclines to the belief that even as it stands the convention's act yesterday will not be dis-approved at Washington. It is sug-gested by officials that there is no occasion at present for the Washington Gov ernment to take action upon this matter either by accepting or rejecting the convention's work.

APPENDIX TO THE CONSTITUTION. Terms of the Acceptance of the Platt

Amendment. NEW YORK, May 29 .- A dispatch to the Tribune from Havana says: The exact terms of acceptance have not been fully understood in the United States, especially since the revised and modified

report was the basis of the convention's latest action. As it stands, the constitu-tional convention has adopted an appen-dix to the constitution, which it formally adopted in February last. This appendix gives the terms of the Platt amendment gives the terms of the Platt amendment and a summary in concise form of inter-views with Secretary Root and his inter-pretation of the legislation of Congress. It also quoted the letter from Military Governor Wood transmitting the letter from the Secretary of War on the same subject as having the value of an official dependent and the state in second

The Charge, Which Was Libel, Was Made by Mrs. Josephine A. Woodbury, of Boston.

BOSTON, May 28.-The jury trial of the suit of Mrs. Josephine A. Woodbury, of this city, claiming \$159,000 damages from Mrs. Mary Baker G. Eddy, of Concord, N. H., founder of the Christian Science sect, for libel, was begun in the Suffolk County Supreme Court here today, and according to the statement of the de-fendant counsel, it is likely to consume the greater portion of three weeks. The suit was brought by Mrs. Woodbury on the ground that two years ago Mrs. Eddy. in a message to the First Christian Sci-entist Church here, which was read four times and afterward published in a local paper, had in mind Mrs. Woodbury when she used the words, "the doom of the Babyionish woman referred to in the book of Revelations is being fulfilled."Previous to this Mrs. Woodbury had been excom-

In her answer Mrs. Eddy admits that the particular address was delivered on the days and at the times named in the declaration of the plaintiff, but declares that neither Mrs. Woodbury nor any other human being was meant by the term "Babylonish woman," the phrase being used simply to describe a type of sin. Mrs. Woodbury was present in court to-day, but Mrs. Eddy would not appear, her deposition having been taken for intro-duction in the case as evidence. The courtroom was crowded with appetators when the case was called, while several hundred men and women clamored in vain for admission. Before the selection of a jury Mr. Peabody, counsel for Mrs. Wood-bury, offered an affidavit bearing on the case, which he claimed was made new sary through the absence of Judge S. Hanna, a prominent member of the mother church, who, he said, caused the message of Mrs. Eddy to be published in the local papers. The court took the affidavit with the understanding that it should be admitted later in the case, should the evidence warrant it. A jury was then em-paneled, and the plaintiff's declaration read.

Mr. Peabody said that a large number of the witnesses in the court for the de-fense believed in Mrs. Eddy as a marvel-ous woman, second only to Christ, and ous woman, second only to Christ, and that they were prompted to stand by her through religious motives. He asked that they be excluded from the courtroom. Judge Bell refused to grant Mr. Peabody's request.

William F. Cross, one of the editors of the Christian Science Journal, described the positions held by Judge Hanna and Mrs. Eddy in the society. He testified that be did not know where Judge Hanna was at the present time. Witness was dismissed, but was stopped by Mr. Pea-body asking him if he had not refused from selling oleo for butter, and makes It compulsory upon each dealer to secure 3 permit from the Agricultural Department before handling cleanargerine. He stated that he had been called up on the 'phone in a blunt and surly manner, and that no reason for the request made had been given. He did not feel called upon to answer the questions of persons who said the truth was not to be obtained at the Christian Science office. William B. Mr. Peabody stated that Mrs. Eddy mads the alleged libelous declara-tion with a full knowledge of the fact that they would be construed as they were. held in the West Hotel. The convention is dignified by the presence of Ming Susan B. Anthony, the venerable honorary presi-dent, who has probably done more than any other one woman for the cause of suffrage. She, with the younger women about her, who are known as "Aunt Susan's girls," form an interesting group. The present officers are Mrs. Cartle Chap-man Catt, president: Mrs. Harriett Tay-lor Upton, treasurer; Rev. Anna H. Shaw, vice-president-at-large: Mrs. Rachel were

The court ruled that the time was too remote and excluded the testimony, Mr. Peabody taking exception. Potter, now general manager of the Pennsylvania lines west of Pittsburg, to the same position in the Baltimore & Ohio. The Pennsylvania interests, while desir-

R. Rea, of the Pennsylvania, withdrawing therefrom, and he has been elected general counsel, succeeding the New York firm of Guthrie, Cravath & Henderson, that firm being retained as special counsel. Mr. Cowen, on being asked what the changes meant, repiled that he thought the action of the board

spoke for itself. He had resigned the presidency, and would continue as general counsel of the company. It is understood that Mr. Cowen is to act as consulting counsel for the Pennsylvania system.
