## COMMERCIAL AND FINANCIAL

Local markets yesterday had their usual amount of Monday business. Dressed meats are lower, decline being most conspicuous in lamb, mutton and pork. 
Veal is a little steadler. Receipts of mutton from Eastern Oregon since shearing demand on the part of outside public, time have much enlarged, and meat that went into cold storage last week on account of cold weather is now decressing operators and the larger speculative intercount of cold weather is now decressing operators and the larger speculative intercount of cold weather is now depressing operators and the larger speculative inter-the market. Poultry was very dull yes, sats, much of the buying is predicated terday, stocks carried over from last week being sufficient for all orders. Eggs were powerful financial interests of the counweak and unchanged. Supply continues large. Best butter was firm and store weak. Demand for the latter firm, Callfornia has been light recently. Designs do not regard advance in creamery as probable at recessor.

able at present. Strawberries are coming in freely and yesterday declined to loc. Local fruit is taking the place of Hood River and Southern Oregon, although held back by cool weather. Part of the weakness of meat and eggs to attributed to consum: tion of strawberries. The vegetable mar. ket is well stocked with home supply, and importations from California are small. Oregon cabbage and cucumbers are in-creasing in receipts. California cherries, apricots, peaches and other fruits are in

PORTLAND MARKETS.

Grain, Flour, Etc. The July option was showing considerable strength in the East yesterday and the close was a cent above Saturday's figures. The European market was steady on futures, and higher on cargoes. The local market is a little firmer, but 80 cents was the best bid for Walla Walla yesterday, with no sales reported. There is no spot or near-by tonnage offering, and that which is under charter is so well provided for, that buyers are not forcing matters. The business from now on unthe new crop commences to move will be largely of a "cleaning up" nature. Freights are firm, with no new transac-

NEW YORK STOCK MARKET. Speculation Was Spirited, but Largely Professional.

> YORK, June 3.-Speculation in was again very animated today,

powerful financial interests of the con try have reached a determination by tacit agreement to advance prices to a higher

level again and to attempt to renew the speculative conditions prevailing before the upset in the second week of May. Buyers of last week were very heavy sellers to take profits today, and this selling caused a very general reaction after the opening advance. After the first general reaction the policy was adopted to advance first one and then another stock in sequence. Realizing was continu-ous under cover of these movements, but the net result of the day's trading was a substantially higher level of prices. At the close, after a day of great activity and variety, the steel stocks were conspicnously under pressure of realizing after the opening rise and closed on the down grade with only fractional gains.

Very conspicuous strength was shown by St. Paul, Union Pacific, Southern Pacific, Missouri Pacific and, in the final dealings, the Readings and Eries. There was an improvement of great speculative activity in Sugar, which carried that stock up an extreme 5 points. Amalgam-ated Copper gained 3%. The tobacco stocks, Colorado Fuel, Consolidated Gas, General Electric and Pacific Mail rose from 2 to 4%. Sugar was affected by the renewed conviction that an understanding existed between the competing interests. In the market there was large specific news to account for the activity and strength beyond the general belief ar-rived at in the Northern Pacific dispute carried with it an assurance of concord among all the great railroad powers.

Northern Pacific stock sold at 150, and the closing was 100 bid and 180 asked. Only 100 shares were dealt in. One of the rumors current was that Northern Pacific stocks would be exchanged for bonds to be jointly guaranteed by Union Pacific, St. Paul, Great Northern and Cicago &

St. Paul, Great Northern and Cicago St. Paul, Great Northern and C tions, so that with speculative losses adjusted a renewed advance was in order. The belief is prevalent that still further large readjustments in the relations and holdings of the great railroad systems looking towards additional stability of conditions are still in contemplation, and it is argued that the panic in itself may have facilitated efforts to concentrate holdings of railroad securities with these ends in view.

An easier tone in the exchange market indicated less probability of gold exports this week. Bonds were active and strong in sympathy with stocks. Total sales, par value, 14,700,000. United States bonds were unchanged on the last call.

Business was considerably better to day. It was in the American department, however, that activity was most marked and these shares furnished the bulk of business. The buying of Americans went on steadily throughout the session. Prices railled as a result of buying on curb after the exchange closed. The favorites were Erie and Southern Pacific, but the feature was easily United States Steel. Pre-dictions were that a dividend of a per

· Chiengo Grain and Provisions. CHICAGO, June 1.-Disappointing cables, decrease of quantity on passage and reports of rains exerted a bearish influence at the opening of the wheat mar-ket. Under liberal offerings the July de-livery opened & to 1/2 lower at 74%675c. Nearly all the wheat put out was taken quickly by a few commission houses which apparently had instructions to buy, ir-respective of crop conditions, and thenceforth the weather ceased to be a factor.

The crowd that had sold early, having learned where their wheat was going, clamored to buy back at the market. It was rumored that a large commission to have bought 10,000,000 bushels of July last week, was preparing to execute a squeeze. This became the ruling influence, and July advanced sharply to 76%c. The temptation to take profits resulted in a reaction to 76%c, but under bull support and an unexpectedly

big decrease in the visible, the upward movement was resumed until 750 was reached. Here the leader credited with reached. Here the leader credited with building the corner put out 75,000 bushels and for a moment the market declined 4c. Holders of long lines were obstin-ate, however, and again the price ad-vanced, shorts bidding to 784c. At this price there was considerable liquidation, causing a slight decline. The close was strong and 24624c higher at 7746773c. The corn market was as dull as wheat was active, but secured considerable bens-fit from the strength in wheat. The close

was steady and %c lower at 45c for the July option. The oats market was fairly active. July closed steady, a shade lower at 2814c. Provisions were dull, but the dragging, market was helped by the strength in wheat. Toward the clese there was considerable selling of pork by commission houses. July pork closed 10c lower, lard was unchanged and ribs were 5c lower.

bearish monthly statistics the market rallied later in the day on local covering, bringing values back about 25 points. At that level the market closed steady, with

spot tin quoted at \$28.

At London values were reduced about £2 since last Friday, spot closing at £128 12s 6d, and futures at £126 12s 6d. An increase in tin of 565 tons was shown in the American visible supply of this month. Copper at London declined 2s 6d under liquidation, and closed easy at £69 5s for spot and £69 15s on futures. The situation locally was dull at \$17 for Lake Superior, and \$16 62½ for casting and electrolytic. Exports of copper for the month of May footed up 10,920 tons, making the total for the first live months 39,937 tons, against a total for the same period last year of 69,723 tons, a decrease of 29,826

Lead, while ruling steady, remains un changed at \$4 37% for lots of 50 tons over. At London prices were, as last quoted, £12 6s 3d. Spelter was a shade steadler here and points higher on asking rates, closing at \$3 95@4 05, while at London values re-main unchanged. The easier undertone manifested in iron was the result of a lack of demand, but prices were without change, though in buyers' favor.

Pig iron warrants, \$9 50@10 50; Northern foundry, \$15 25@16 50; Southern foundry, \$14@15 50, and soft Southern, \$13@15 50. Glasgow warrants closed at 63s 8d, and Middlesboro 45s 6d. Bar silver, 60c.

Gift of J. Plerpont Morgan. NEW YORK, June 3.-J. Pierpont Morgan has presented to the Museum for the Arts of Decoration of Cooper Union the Bodia collection of Barcelona, the Rivas collection of Madrid, and the Baron col-lection of Paris. These collections include examples of textile fabrics and designs from the Middle Ages to the present, and are said to be three of the most valuable collections in Europe. They are expected to reach here near the end of this week, and will be placed in Cooper Union Mu-seum at once. With these additions it is thought the Cooper Union's collection will surpass any other in this country. The gift was entirely unexpected.

Directors of Great Copper Company. NEW YORK, June 3.—At the annual meeting of the stockholders of the Amalgamated Copper Company in Jersey City today the following directors were elected: H. H. Rogers, James Stillman, Robert Bacon, F. P. Olcott, A. R. Flower, A. C. Burrage and W. G. Rockefeller. Mr. Rockefeller fills the vacancy caused by the death of Marcus Daly.
