

CITY NEWS IN BRIEF

Amusements. BASEBALL-Tacoma vs. Portland. Grounds 2nd and Vaughn. Game called 3:30 P. M. AFFRICATIONS. Hon. Clarke Froud, of Holt County, Missouri, formerly Treasurer of that county, who, in company with his wife, is making a tour of the Pacific Coast, has been in the city for several days, and left yesterday for Eugene. He has been visiting friends here, among them Adam Kilpiper, whom he had not seen since they used to be neighbors in Missouri. Mr. Froud was very favorably impressed with Oregon, and especially in San Francisco. The luxuriant grass, the abundance of flowers, the roses, the wealth of foliage everywhere, and the splendid appearance of crops were favorably commented upon by him. He took in the city generally, and was especially pleased with the abundance of wheat wharves, where he saw a cargo of wheat being put on board a big four-masted sailing vessel. Coming from an inland state, the huge vessel was quite a novelty to him, and he was much impressed with vast piles of wheat and of the quantity exported from this port. A seaport city that has a country back of it capable of producing such quantities of wheat, Mr. Froud said, was bound to become one of the great cities of the Nation. HITCH IN A CONTRACT-There is a hitch in the matter of the contract for furnishing meat for the Poor Farm, and new bids may be advertised for. In answer to an advertisement recently inserted, but one bid was received, and that from the Union Meat Company. The Zimmerman Packing Company, which had the contract before, put in no bid, and has explained that they believed they had a contract for a year. When the County Commissioners and District Attorney made an examination it was found that the contract with the Zimmerman Packing Company called for 3000 pounds of meat. In view of the misunderstanding, Commissioner Mack thinks the company ought to be allowed to bid. The question is, How can this be done if the bid of the Union Meat Company has been expensed. SAN FRANCISCO MORE DANGEROUS THAN LUZON-A squad of the Forty-fifth Volunteers passed through Portland on their way home to Wisconsin yesterday. Like all the returning soldiers, they expressed themselves as glad to be back in "God's country," and think they had all of the Philippines they wanted. They consider the war over on the islands, but think it will take some years to suppress the robber bands that persist in keeping the people in more or less turmoil. The Forty-fifth, although seeing much active service during its 18 months "making Luzon," did not suffer many losses. These boys said they found San Francisco more dangerous than the islands, as thugs abounded on every hand in the Golden City, and the blue-coated victors are likely to be held up in broad daylight. CRUISEES GROWL AT THE WEATHER-Besides strawberry-growers and Summer hotel-keepers, there are others complaining in the manner in which the hot weather holds off. These are the cruisees, who are compelled to make their way all day through the wet brush, while estimating the amount of timber in a given area. A pine cruiser, who returned yesterday from the base of Mount Adams said they had a rough time, and were wet through from dawn till dark. "If it rained a shower in the morning," one of the party said, "it might just as well rain all day, as the brush would be dripping wet, all the same." They will not try it again until assured of decent summer weather. TACOMA'S FIRST GAME TODAY- Wet grounds made a ball game yesterday out of the question, and Captain McCloskey had to nurse for another day his ambition to pound the leather all over the field and make sprites of Portland's crack players. Tacoma will open today just as full of ginger as if there had been no postponement and just as determined to leave Tacoma with a better record than it first place. Game will be called at 3:30. This will be ladies' day. The game scheduled for yesterday was postponed on account of rain until tomorrow. WILD TOOT THE FOX HORN-Lightship 50 is expected to arrive in this city tomorrow afternoon, in tow of the steamer Oklahoma. She will be docked at the Willamette Iron & Steel Works, where her boilers will be overhauled, as they have suffered considerably in the salt sea air during their term of idleness while the vessel was stranded at McKenzie Head. The big fog horn on board the lightship is tooted as she approaches the city, to show how proud she feels over being again afloat, after so many experts had given her up as hopelessly lost. LOCOMOTIVE ENGINEERS' RECEPTION TO SALEM, Sunday, June 3, 1901. Tickets for sale at Woodard, Clarke & Co., Southern Pacific ticket office, Engle's cigar store, Third and Alder; Fred Lent's cigar store, Seventh and Washington; Sig Wertheimer, Sixth and Washington; and Alder; Love's drug store, Grand avenue and East Burnside; Weather's ice cream parlor, Grand avenue and East Morrison; Watts' drug store, Russell street, Upper Albion; Lowry cigar store, Russell street, Lower Albion. DROWNED WHILE FISHING-Santo Bonati, an elderly Italian, residing at 364 Front street, was drowned yesterday afternoon off the Main-street dock. He was seated on a boat fishing when the support broke, precipitating him into the water. bystanders say he made little effort to save himself, and sank immediately to the bottom. Some young men at a boat-house near by recovered the body with grappling irons about 5 o'clock, and the remains were taken to the morgue. HAND CRUSHED-George Gruel, employed in the cracker department of the Pacific Coast Biscuit Company, on North Sixth street, met with an accident yesterday morning which will lay him up for some time. His right arm was caught by the "mixer" and badly crushed, two fingers of the hand being almost torn off. The "mixer" is a cast-iron wheel, which revolves in a bin of flour in making dough. The injured man was taken to St. Vincent's Hospital. REMOVAL SALE-This afternoon and Friday afternoon will see the close of the rummage sale conducted by the Council of Jewish Women. This sale has been very successful, and the management now is willing to let goods go at any price. During the sale yesterday a value bearing European labels was sold by mistake, and the management will be glad to refund the price and a profit to the buyer for its return. Telephone North 2021. WHY NOT spend the vacation at Yaquina Bay, where can be had excellent fish, good fishing, good boating, safe bathing, alluring rides and rambles? The courses and exercises of the Summer School of 1901 at Newport will afford great variety of instruction, diversion and entertainment. For further particulars, apply to the management, 201 Commercial street, corner Taylor, where he will be ready to give treatments by Saturday, June 8. The Piedmont institute will close Thursday at 3 P. M. FOURTH OF JULY COMMITTEES-The general committee and the finance committee for the Fourth of July celebration will meet at 8 o'clock, sharp, tonight in room 308 Chamber of Commerce building, the Manufacturers' Association headquarters. A full attendance is urged, as the time for preparation is short. NATIVE DAUGHTERS' GRAND CABIN-The Native Daughters of Oregon will hold their second annual session in this city in the Knights of Pythias Hall (Auditorium building), June 13, commencing at 10:30 A. M. There are 23 subordinate cabins in Oregon. CONDUCTORS' excursion Sunday, June 23. Portland to Seaside and return, 1c.

PINK TEMPORARY IMPROVEMENT-The systematic and thorough manner in which the City & Suburban Railway Company is proceeding with the temporary improvement of its tracks and right of way on Morrison street, from the Exposition building to Front street, attracts the attention and favorable notice of all who see the work going on. The ends of the rails are placed on the asphalt pavement and earth between the rails and for eight inches on the outside of each track is removed down to the ties. The ends of the rails are next cleaned with an electric sand blast until they are perfectly bright, and then the welding machine is brought into play and the rails are welded solidly, making the track as continuous as rail. Next, six stringers are laid on the ties, and on these 4x4 planks of the proper length are laid between the rails, after which the track is covered with a perfectly smooth, solid and level roadway, which will last for years, and will also form a bicycle path. Good grade is then laid on this, and a temporary improvement is made, to last until the new seven-inch rails can be laid, when the street is to be permanently improved, in a very fine and substantial piece of work. OREGON BUTTER IN ALASKA-A Front-street commission-house yesterday received word from Dawson that a large shipment of the produce made some time ago had arrived there in first-class shape. This is good news, especially to the Oregon butter industry, for it shows that the former product is winning deserved recognition in Alaska. Several other shipments have been made since the one just arrived was sent from Portland, and more orders will be filled yet this summer. The same commission-house has prepared two more carloads of supplies for Dawson, one of butter and the other of eggs, cheese, lemons and dried fruits. The butter is in two grades, the first being hermetically sealed, and will keep indefinitely. Eastern product has been given some preference in Alaska, but Oregon is making its way in the Northern markets, and building up a reputation. HOOD RIVER CROPS-A Portland man returned from Hood River yesterday, and reported that crops in that district are flourishing. A light rain has fallen there recently, which has much benefited strawberries and other fruits. He said that the cherry crop will be lighter this year than last, and perhaps the early apple crop, and that grapes will attain a full yield. All grains are looking well. The strawberry crop, which has made Hood River famous, is shipped to all parts of the Northwest in larger quantities than ever before. Puget Sound has greatly increased its requisitions this year. Several hundred crates passed through Portland yesterday for the Northern markets. There will be no trouble in disposing of the berry crop, because the market for the fruit has expanded in the same degree that the yield has increased. PEASANTLY IN SEASON-The Oregon State Board of Pharmacy examined candidates yesterday. Twenty-six came before the board, eight of them being seniors from the new school of pharmacy, and the balance candidates for admission. The board members present were C. G. Huntley, who succeeds Dr. Steiner, and John M. A. Luse and L. W. Moody, of the Portland College of Pharmacy. The board reports read a gratifying condition of affairs. The board will be in session today, when the papers will be passed upon and the candidates receiving a preliminary diploma will be granted certificates of registration. NEWSPAPER MAN MISSING-John L. Huffman, a resident of Canyon City, who came to Portland May 25, to purchase a newspaper plant for the new town of Whitney, is missing. His relatives in Baker City yesterday telephoned to the Imperial Hotel, asking for information in regard to him, but they found the fact that he registered at the hotel May 25, no tidings could be given. Inquiries at the American Type Foundry's office in this city were also fruitless, as the young man had not been there. Whitney, where he was to start the paper, is the new terminus of the Sumpter Valley Railroad. ABANDONED BICYCLE TRIP-Two young wheelmen, from Anacortes, Wash., arrived here yesterday on a bicycle trip. They were worn out after plowing through weary miles of mud or carrying their wheels bodily over long trestles. They were originally attired in gray bike suits, but these, as well as their wheels, looked considerably the worse for wear and mud. They were told that the roads of the Willamette Valley were hardly in condition for the kind of trip they had undertaken. They abandoned their idea of wheeling to San Francisco, and bought tickets over the railroad. WILL BE CHARGED WITH FRAUD-Lee Wing, the wily Chinese, who sold bogus lottery tickets to Mrs. R. D. Graves, was about to be prosecuted for obtaining money under false pretenses yesterday, when the district attorney found a section in Hill's Code better fitted to the case. This is section 1884, which makes the selling of bogus lottery tickets a felony, punishable by imprisonment in the penitentiary from one to three years. The style of the complaint will be "selling fictitious lottery tickets," and Wing will be given a hearing today in the Municipal Court. CIVIL SERVICE EXAMINATION-The United States Civil Service Commission announces that an examination will be held in this city June 23 for the position of secretary of the National Bureau of Statistics, in the Department of Commerce. The eligible results from the examination, certification will be made to fill this position at a salary of \$2000 per annum, plus the regular cost of living, and once apply to the Commission, Washington, D. C., for application blanks. WILL BOOM 1905 FAIR-Albert Totier, first vice-president of the National Editorial Association, who is en route to Buffalo, N. Y., to attend the annual convention of that body, yesterday, as follows: "Oregon, Washington and Idaho Press Association delegations to Buffalo unanimously vote to hold the Lewis and Clark Centennial Exposition in Portland, Or., to Portland, Me., and pledge the Northwest Commissioners most hearty support." FEATURE FOR THE FOURTH-One of the novelties planned for the Fourth of July celebration is an exhibition of fancy riding by the Portland Hunt Club. The proposal has been made that equestrian events be arranged for the Fourth. This will be certain to draw large crowds, and be among the most attractive novelties provided for the public. Prominent members of the club have taken up the matter with the Fourth of July Committee. GOOD OPPORTUNITY for two men to make from \$2 per day upwards each is offered in the sale of the Portland agency and plant of the Pacific Coast Beer Pipe Cleaning Company. Apply at 324 Fifth street. SWAMPBOAT excursion next Sunday. Bring the children. Dancing going and returning. Harvest Green leaves foot of Ash street at 9 A. M. LOST-J. G. C. to H. H. H. on back. Finder please return to N. F. Hildebrand, 409 Washington street, and receive reward. DR. G. M. KELLER'S Hydropathic Institute, formerly of Piedmont, is now permanently located at 201 Fourteenth street, corner Taylor. ATTEND the bear chase, to be given next Sunday, June 8, Sandy Bridge. Good sport, chicken dinner. Entry, \$1 a head. FISHERS' ART EXHIBIT, corner Third and Alder. Last exhibition, tonight, 7:30. Open for inspection after 10 A. M. AN EXCURSION to Champego will be given by the Grace M. on June 23. Church Saturday, June 15. FOR LEASE-Gambirino Garden, for picnic or season. Max Smith, Vienna Cafe, 251 Morrison. HOTEL at Cascade Warm Springs now open. Regulator line to Moffett's Landing. John Cran & Co., white lawns, piques, organdies, Summer underwear, undressed and dressed, and other work, underwear, etc. 256 Washington street.

WIDENING UNION AVENUE

Proposed widening of Union Avenue.

In order to have a fine street in front of the property. The owners of the Piedmont tract dedicated 80 feet for a street on the Union avenue side, but only 35 feet for the street on the west side of the tract. This width was decided on for the reason it would best harmonize the street lines. In this respect there is much confusion. The opening of the street 70 feet wide to Dekum avenue will provide direct and easy access to the heart of the city for all the Northeast, embraced by Piedmont, Goverdale, Rowland, Woodlawn Heights, etc., which are now greatly hampered. It was decided to stop at Dekum avenue, and thus avoid the difficulty of extending the avenue through the Love tract. A jury has already decided that Lewis Love should be entitled to \$5000 if the avenue should be extended through his farm. Many efforts have been made to get Union avenue widened and improved, but they have so far failed for various reasons; but the prospects for success this time are considered encouraging. Mr. Henry feels quite confident. He has been informed that the Portland Railway Company will lower the grade of the roadbed and put down a double track to Woodlawn, and then give a 10-minute car service.

GROWTH OF DAILY PAPERS

The Metropolitan Dailies Now Cover Every Part of the United States. The growth of the metropolitan daily from publication to local importance only through series of rapid steps to its present position is due primarily to the increasing demand of the rural districts for news. The demand for news and population for the improved news service which only the largest of daily papers are able to offer. The people of Ashland, Roseburg and Eugene, and the other prosperous inland cities of Western Oregon today, as well as the residents of Pendleton, Baker City, Walla Walla, Boise and other prominent populous centers of the vast interior sections of the tributary to Portland look to The Oregonian for their information of the daily happenings of the world, which are regularly chronicled in the columns of this paper. The standard of intelligence of the masses of the people is raised, there is the accompanying effort on the part of publishers of metropolitan dailies to cater to the demand for news which this higher intellectual status implies. The increase in the running time of standard passenger and mail trains all over the country, the ramifications of the telegraph lines with improved and cheapened facilities afforded for gathering news, and the ability to profit by experience shown by newspaper men themselves, all combine to make the metropolitan daily more and more the new medium of vast interior sections of populous territory that formerly relied for their information of the world's events on the special class of publications that catered to this class of readers. Science is rapidly adding to the comforts of life among those who live remote from the large centers of population, and no advancement of the interior communities is more marked than is noted in the constantly increasing demand from the smaller centers of population for the daily paper, which affords the same news facilities to the country subscriber as is regularly enjoyed by the metropolitan resident. The following clipping from a recent issue of the National Advertiser of New York as an authoritative utterance of a man who has satisfied himself regarding the great value of the daily paper from the general advertiser's standpoint may prove of some interest to those who have watched carefully the growth of the leading dailies of the country during the past 10 years. W. A. Marble, vice-president of the R. &

GOOD PROSPECTS FOR SUCCESS OF THE MOVEMENT.

Committee in Charge is Expected to Report This Evening to the Sub-Board of Trade. Charles K. Henry, M. Billings and John Epperly, a committee from the Eleventh Ward Sub-Board of Trade, are expected to report on the proposed widening of Union avenue to 70 feet, from Alberta street to Dekum avenue, at the board meeting this evening. This committee was instructed by the sub-board to take steps to open the street 70 feet wide, and excellent progress has been made in that direction. To do this will take about 10 feet from lots on the east side of the avenue between Alberta street and Almsworth avenue, and the most of the owners have already expressed their willingness to make the sacrifice.

COMING ATTRACTIONS.

"Ten Nights in a Barroom." The attraction at Cordray's Theater, beginning Sunday, June 9, will be James M. Ward and his own excellent company, presenting two of the most popular pieces ever presented on the American stage, the new "Ten Nights in a Barroom" and "Through by Daylight," the opening of which will be on the 10th of June. The new version of which has lately been presented for the first time on the Pacific Coast at the Central Theater, San Francisco, is the largest troupe of instruments the already strong play being the great Carrie Nation saloon-smashing scene, which never fails to bring great rounds of applause from the audience, and is accompanied with anything short of four or five curtain calls. "Through by Daylight" will be the bill for Tuesday and Wednesday nights.

Camilla Uro. The greatest of woman violinists, Camilla Uro, will give two concerts at the Marquam Monday and Thursday of next week. Uro has a reputation as wide as the world, and of the thousands of people who have heard her play not one has not been willing to admit that her work on the kind of instruments is a revelation. The violin is particularly suited to the interpretation of the feeling which a woman knows so well how to impart, and some of the greatest of composers among the other sex never equaled her in some of her best work.

Norris & Rowe's Shows Next Week. Norris & Rowe's big trained animal show will exhibit in this city for four nights and five matinees, commencing Monday afternoon next, under their large waterproof tents, which will be located at the corner of Eleventh and Clay streets. Performances will be given daily at 2:30 and 8 P. M. A grand free street parade will be given Monday morning at 10 o'clock, at which time the entire company of 200 animal actors will be seen decked out in their gorgeous trappings. Among this season's special features are Herr Setler and his troupe of trained elephants, and a new and especially imported from Berlin, by Norris & Rowe, for this season's tour. Mr. Woodruff and his school of educated seals and sea lions is another special feature. The aggregation numbers over 300 elephants, zebras, zebras, seals, dogs, ponies, monkeys, goats, pigs and antelopes, and is the largest in the world. All the little children attend each matinee. A corps of gentlemen attendants will be in attendance to see that all the little ones receive a free ride.

SUNDAY EXCURSIONS.

Every Sunday during the Summer season the O. R. & N. Co. will sell round-trip tickets Portland to Bonneville at rate of \$1.00. Trains leave Union Depot 9 A. M., returning leave Bonneville 7:30 P. M., arriving Portland at 4:30. This convenient schedule allows five hours at Bonneville. Tickets on sale Saturdays at O. R. & N. ticket office, Third and Washington, and on Sunday mornings at Union Depot.

WHERE TO DINE TODAY.

Plenty of fruit, rich ice cream, strawberry shortcake and other delicacies at the Portland restaurant, 205 Washington. Try Webb's Merchants' Lunch, 11:30 to 2. Private lunch rooms. 255 Wash.

WELL BRE(A)D.

As the white loaf said to the dark loaf, "you'd be better bread were you made of Premium flour."

New Overland Ticket Office.

For all points East. Lowest rates. Superior attractions. Excellent service. Personally conducted excursions daily. Via Rio Grande Western Railway, 122 A Third street, entrance new Falling building.

WINS RAPID PROMOTION.

Creditable Record of Lieut. Steuenberg in the Philippines. George Steuenberg, Second Lieutenant in the First Idaho volunteers during the war with Spain, is winning additional honor for himself in the Philippines. After being mustered out of the Idaho regiment he enlisted as a private in the Eleventh Cavalry. He has since worked up from private to corporal and from corporal to sergeant, and now holds a commission as First Lieutenant and Battalion Adjutant. Lieutenant Steuenberg's impetuosity during his service with the Idaho regiment involved him in some personal difficulty with a superior officer. His prestige, after the mustering out of the Idaho regiment, was to go to South Africa and enlist under the flag of the Transvaal, but he concluded that inasmuch as he had come under the disapproval of United States officers, he would seek vindication under his own flag. This led him to enlist, and his friends are proud that he has so well vindicated himself. His offending at no time reflected in any way upon his character, but at the worst was merely a breach of discipline. Lieutenant Steuenberg is a brother of ex-Governor Frank Steuenberg, of Idaho. He writes that he will return to the United States sometime in the present month, his regiment having been ordered home, and that he will visit Portland.

A PIPE DREAM

Is not a circumstance to that feeling of solid comfort and keen enjoyment that comes from smoking a La Sinceridad cigar. Impalpably fine, adhesive, harmless, describes beautifying Satin-Skin Powder.

The White Carnival

The White Days are here, and the carload of White sewing-machines have arrived. White is king. Every lady should have a White machine. What is home without a White? Most of his cures are made when all else has failed. It cures many troubles that medicine cannot. The treatment is absolutely safe. It does not produce any disease to cure another. It removes the cause of the disease. Improvement continues after treatment and the cure is permanent. The system is not saturated with dangerous drugs. It is more pleasant to take than any other treatment. The method of treatment appeals to the common sense of intelligent people to cure. The thousands who have tried it are enthusiastic in its praise. Consultation and examination free. Dr. W. Rogers, of his cures, 215 North Marquam bldg. Literature free. Phone Main 27.

SAPOLIO

BRIEF TRUTHS

A thoroughly equipped optical institute is a credit to any city. It means perfect restored vision to unfortunate whose light has faded. It means scientific adjustment of lenses to slight changes of eyesight, and a guarantee of perfect results. The institute established by me in 1887 meets these requirements. My dark room, so essential in complicated cases, constructed according to standard dimensions, is the only one on the coast. Alleged opticians may measure some cases. My instruments detect the slightest abnormal variation from true vision in all cases, and indicate its correction. My work is necessarily the most accurate in the city, and in spite of kindly inspired suggestions to the contrary, my prices are low as the lowest. As a proof I sell highest quality steel frame spectacles and eyeglasses, adjusted to requirements, for \$1.00, \$1.50 and \$2.50. Gold and gold-filled frames are sold at proportionate rates, and complicated cases are treated as reasonably as painstaking work allows. Above all, the priceless gift of sight is restored to every pair of eyes, and the use of spectacles that leaves my establishment.
