

ARRESTED IN CALIFORNIA

MAN WANTED IN NEW YORK FOR THE LARCENY OF \$10,000.

Edgar Gierhafer Said to Have Swindled His Employers Out of a Large Sum—Other Crimes.

NEW YORK, June 9.—Detective Sergeant Pfister, who is in charge of the detective bureau at Police headquarters tonight, said that word had been received in this city of the arrest Saturday in San Rafael, Cal., of Edgar Gierhafer, who is wanted in this city for the larceny, it is said of \$10,000.

Captain Titus when seen said: "Gierhafer has, so far as I have been able to ascertain, never been arrested on a criminal charge. He has no criminal record, and it is in the guilt of the present offense that it is a criminal offense."

In his complaint against Gierhafer, Auerbach stated that the man had been introduced to him as the promoter of the Universal Automobile Company, a company which had never been incorporated. Mr. Auerbach became interested in the scheme, the success of which it appears depended largely upon the success in the market for automobiles. He alleges that from time to time he advanced money in the form of undorsed notes to Gierhafer to be invested in the company.

SAN FRANCISCO, June 9.—Edgar Gierhafer, alias Howard, is the name which he claims to be the vice-president of the Universal Automobile Company, with offices in the Parrott Building, was arrested in Escalades last night by Sheriff Palford of Marin County, and Detective Archie Hamill, of this city.

He was apprehended on a bench warrant issued in New York. He was charged with grand larceny, it is claimed, of \$10,000, committed by Gierhafer in New York last March against a firm employing him netting him \$10,000.

Headless Body of a Woman. Evidence of a Murder Found Near a Massachusetts Town.

LOWELL, Mass., June 9.—The headless and decomposed body of a young woman was found under a heap of brush near Chelmsford this afternoon. Murder had been committed in the vicinity, it is believed, as the head had been separated from the trunk by a series of slashes with a dull weapon. The meager clothing affords no clue to the identity of the victim and the circumstances of the crime.

Notorious Foreign Swindler. Arrested by New York Officers for Larceny Committed in London.

NEW YORK, June 9.—In the Grand Central station this morning a tall, well-dressed man of foreign appearance, accompanied by a woman, was arrested by a United States Deputy Marshal and a Pinkerton detective. The man, who is believed to be the same man that was arrested on a matter of the alleged larceny of \$500 in England, taken from the Deutsche Bank of London. The man protested that his arrest was a mistake. He was driven away, got into a cab and was driven away. The prisoner was taken to Ludlow-street jail and will be arraigned tomorrow.

Court in a Grove. Unusual Scene at Hearing of Mrs. Stallion and the Crabtree.

GALENA, Mo., June 9.—An unusual scene is presented here at the preliminary hearing of Mrs. John Stallion, her father James Crabtree, and his two sons, Frank and Charles Crabtree, for the murder of Alice Stallion, the woman's only daughter. The hearing is being held in a grove, the two Justices sitting at a table under a tree and 2000 people, attracted from points near and far, forming a circle about the court and defendants. Notwithstanding, no overt act has been attempted yet, threats have been made against the Crabtree boys by many of the strangers in town, and the county officials are taking all precaution possible to protect the prisoners.

Army Prisoners Escape. Fugitives Embarked on a Raft and Sailed.

NEW YORK, June 9.—Some time this afternoon two United States Army prisoners who were serving sentences on Governor's Island for desertion escaped. They embarked upon an improvised raft and drifted away from the island on the strong flood tide. It has been learned by Army officers that the men were picked up by a tugboat and landed in New York. A detail of six men in charge of a Corporal were sent to the island to search for the city tonight looking for them.

THE SUSQUEHANNA SAFE

OVERDUE COAL SHIP ARRIVES AT MANILA.

Fifty-five Per Cent Insurance Had Been Quoted on Her—Skipper's Lonely Trip Across the Ocean.

SAN FRANCISCO, June 9.—The Merchants' Exchange has received advice from Manila announcing the arrival there of the American ship Susquehanna, on which 5 per cent reinsurance was quoted. The Susquehanna left Baltimore 174 days ago with a cargo of coal for the naval station at Cavite.

Lonely Trip Across the Atlantic. Gloucester, Mass., June 9.—In his 25-foot sloop, the Great Republic, Captain Howard Blackburn, of this city, this

REMEMBERED HIS FRIEND

STRAITON REDEEMED THE MATCHLESS MINE AT LEADVILLE.

He Will Turn It Over to Mrs. Tabor, Whose Husband Befriended Him Years Ago.

LEADVILLE, Colo., June 9.—Winfield R. Stratton, the millionaire mineowner of Cripple Creek, has redeemed the Matchless mine in Leadville for the widow of the late Senator Tabor. Years ago Senator Tabor advanced some money to Stratton when Stratton was a poor, struggling miner, and he never forgot it. When Tabor died he had lost almost everything, and he was vainly endeavoring to save the Matchless mine, which he always insisted still contained millions in its lower contacts never explored. The property was

SLUGGISH STOCK MARKET.

Epsom Races Interfered With Trading in London.

LONDON, June 9.—In spite of the reduction of the bank rate, accompanied by easy money and encouraging New York quotations last week, the Stock Exchange was decidedly sluggish at the end. This stagnation is attributed largely to the Epsom attractions, which drew off a majority of the large operators. The weakness of the railway shares and other domestic securities added a depressing effect. As a matter of fact, the Stock Exchange is not yet in a humor to respond to the favorable prospect ahead and hesitates before assuming rational operations, so severely checked by the Northern Pacific excitement. There is no doubt, how-

THREE CANDIDATES FOR SECRETARY OF STATE

received over Secretary Kincaid, who was a candidate for re-election on the Union ticket.

In the field against Secretary Dunbar next year will be Philip S. Malcolm, of Portland, and State Senator J. N. Williamson, of Prineville. Mr. Malcolm was elected Recorder of Multnomah County in 1896, and again in 1898, defeating Charles A. Burckhardt each time by a narrow margin. Senator Williamson is well known in Eastern Oregon, whose interests, especially those of the sheepowners, he has championed. There was some talk last year that Mr. Williamson would be a candidate for the Republican nomination for Congress next year, but before the Congressional convention met he was put up for Senator. He served his district with ability in the session of the Legislature last winter.

over, that London business is on the eve of a revival and American securities offer the only attractive field of operations. Tomorrow the Stock Exchange committee for general purposes will take up the question of rescinding the Northern Pacific suspension order, but it is authoritatively asserted that the shorts have all settled. Optimists count upon South African receipts fortifying London's gold position in the Autumn, and, consequently, they prophesy a continuance of easy money.

INSPECTION OF A NEW ROAD

Trip Over the Pacific & Idaho Northern Railway.

WEISER, Idaho, June 9.—Upon the invitation of General Manager Shelby, of the Pacific & Idaho Northern Railway, a party of prominent citizens of Idaho, headed by Governor Hunt, made a tour of inspection over the road today to Council, the present terminus. The party was made up of about 50 prominent business men of Southern Idaho. Representatives of six banks were on board, who, with leading capitalists of the party, represented a combined capital of about \$3,000,000.

Ten miles out from Weiser a force of men were found at work on the new 2000-foot copper-gold smelter, the foundations for which will be completed by July 1. The contract for the erection of the smelter calls for its completion by November 1, but the contractors say they will finish it by September 1. This smelter is a very important factor in the working of the mines in Southwest Idaho and is the nearest smelter capable of treating ore from here or over 500 miles distant. At the town of Council the entire party was entertained at the Seven Devils country at once.

ROCKEFELLER'S GIFT

His Plans for Aiding in Scientific Research Not Yet Completed.

CLEVELAND, June 9.—Dr. H. F. Biggar, of this city, the family physician of John D. Rockefeller, in speaking of Mr. Rockefeller's recent gift of a large sum of money for medical research, said tonight:

"Mr. Rockefeller has put his suggestion of medical research into the hands of a number of famous medical scientists, among them representatives of the Columbia and Johns Hopkins Universities, the University of Pennsylvania, the University of Chicago, and other institutions. These gentlemen will look over the ground and make such recommendations as they regard as practical. Until then, I don't believe Mr. Rockefeller will form his plans. Dr. Biggar then went into detail in reviewing the efforts of the English Government in endeavoring to check tuberculosis and the City of Buffalo in the matter of learning the origin of cancer, and said that their work would probably be along these lines."

DIED IN CHINATOWN.

Stranger Succumbs This Morning After Asking for Tea.

An unknown man, about 30 years old, and weighing 160 pounds, died suddenly, early this morning, in a Chinese shop kept by What Kee, at 874 Second street. The stranger visited the shop about 9 o'clock last night, and told the Chinaman to repair his umbrella and shoes, and said he would sleep until the work was completed. About midnight, he awoke and complained of sickness, and asked for tea. While this was being prepared, the stranger died. His body was taken to Holman's undertaking parlors and What Kee was arrested by Policeman Reisch to await the instructions of the coroner. The dead man was well dressed.

Students Threaten to Leave.

SALINA, Kan., June 9.—A committee representing the students of the Kansas Wesleyan University, who are a unit in defense of Dr. Frank D. Tubbs, professor of natural science, dismissed last week the faculty of the university, has issued a manifesto denouncing the board of trustees for "duplicitous and unfairness." The board has agreed to allow Dr. Tubbs a hearing next week, but still positively refuses to reinstate him. The incoming junior and senior classes still seem determined to carry out their threat to leave the university if the trustees do not accede to their demands.

SALE OF TRIN CITY RAPID TRANSIT.

MINNEAPOLIS, June 9.—The Times tomorrow will say: The control of the Twin City Rapid Transit Company, it is stated on good authority, has passed from Thomas Lowrey to a syndicate of Toronto capitalists. Mr. Lowrey says he has not sold a single share of the stock of the company. The syndicate has been pending for some two months, it is said to have been engineered by a firm of Montreal bankers, in behalf of their Toronto clients. What price was paid for the stock cannot be ascertained, but the market reports quote Twin City common stock at \$5. C. G. Goodrich, the vice-president of the company, when asked about the reported sale of the road, referred all inquiries to Mr. Lowrey, who insisted that there had been no transfer of stock. The Times' informant also said that, according to the plans, Mr. Goodrich, as well as W. H. Field, the general manager of the system, would retire from the company. Mr. Field remains the nominal head of the system, but will devote his attention to the Soo road, of which he is president. The stock of the company is composed of \$4,000,000 1 per cent preferred and \$5,000,000 common.

Bought a Mexican Railroad.

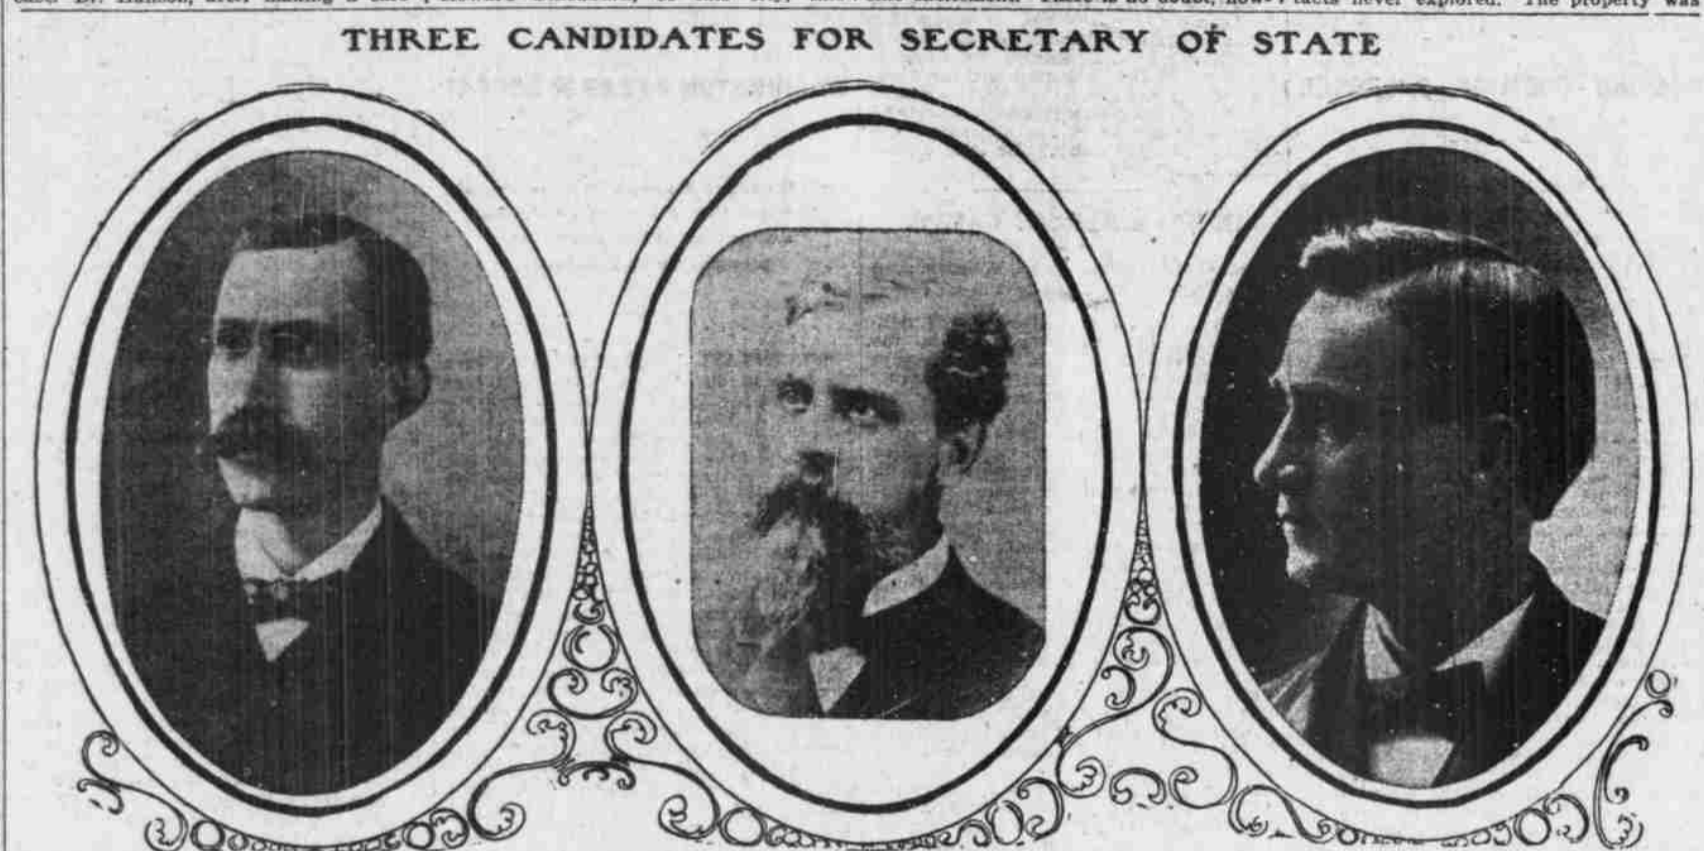

CITY OF MEXICO, June 9.—The still well known group of American capitalists have purchased the Pachuca, Xacupatlan & Ampliata Railroad from the Mexican Government. The amount paid was \$1,000,000 gold and 35 per cent of the common stock of the company to be organized. The road will be extended from San Salvador to Tampico, making a short line of 12 hours between this city and northern Gulf ports.

LIGHTS FOR OREGON CITY.

OREGON CITY, Or., June 9.—The city officials are receiving some very liberal propositions in the matter of street lighting as the result of the effort to induce the Portland General Electric Company to grant a reduction in the cost of municipal arc lights. J. M. Hamilton, of Treka, Cal., who was here yesterday, offers to install a pilot and furnish the power to the city at the rate of \$5.00 each per month, provided that he can secure the exclusive pole privilege from the city. In the event that he is granted this concession, he also would guarantee that incandescent lights for business houses and dwellings would not cost over 50 or 55 cents each. Mr. Hamilton and his associates have electric-lighting plants in operation in three Northern California towns, and these are the prevailing prices charged for lights. In one town almost every dwelling uses an electric lamp. The cost of the building, Mr. Hamilton says that there is very little profit in furnishing arc lights for \$5.00 each per month, as it costs, with a steam plant, \$2.50 to produce an arc light, where the works are operated on an economic plan. However, the profits are more than made up in furnishing a sufficient number of incandescent lights at from 50 to 55 cents each.

WOODMEN'S MEMORIAL EXERCISES.

The Woodmen of the World held memorial services at Mountain View cemetery this afternoon and unveiled monu-

FRANK L. DUNBAR. PHILIP S. MALCOLM. J. N. WILLIAMSON

Three candidates—all men of ability—are in the field for the Republican nomination for Secretary of State. Secretary Dunbar will be up for re-nomination. He will stand on his record as an efficient officer, who has introduced up-to-date methods in keeping the state's accounts, and who has the approval of a Legislative expert committee for the business-like system which he has adopted. Secretary Dunbar won his first nomination after the hardest kind of a fight in the famous convention at Astoria, in 1898. He went into the contest with a few votes, and his winning out was one of the surprises of a day that was full of unexpected turns. His popularity was proved by the handsome majority which he

received over Secretary Kincaid, who was a candidate for re-election on the Union ticket. In the field against Secretary Dunbar next year will be Philip S. Malcolm, of Portland, and State Senator J. N. Williamson, of Prineville. Mr. Malcolm was elected Recorder of Multnomah County in 1896, and again in 1898, defeating Charles A. Burckhardt each time by a narrow margin. Senator Williamson is well known in Eastern Oregon, whose interests, especially those of the sheepowners, he has championed. There was some talk last year that Mr. Williamson would be a candidate for the Republican nomination for Congress next year, but before the Congressional convention met he was put up for Senator. He served his district with ability in the session of the Legislature last winter.

ever, that London business is on the eve of a revival and American securities offer the only attractive field of operations. Optimists count upon South African receipts fortifying London's gold position in the Autumn, and, consequently, they prophesy a continuance of easy money.

DULL WEEK IN BERLIN.

BERLIN, June 9.—Throughout last week the Berlin stock market was dull and unexciting. The influence of New York, and this fact, coupled with the very considerable depression now existing in business, made the week one of the dulliest known for years. The extraordinary abundance of money did not exert a stimulating influence, but, on the contrary, a panicky feeling was often shown by sudden declines in values on very small fluctuations. Speculation in Americans wholly ceased and but little was done in Canadian. Not even the reduction of the Bank of England rate had a favorable effect here, and the same will apply to the rest of the world. The German Bourse law at the meeting to be held Tuesday. Bank shares dropped slightly during the week, but there were hardly any dealings in them. The Reichsbank is preparing for a strain when large American grain purchases must be made as a result of the deficiency in the Prussian crops. The Hamburg municipality has appropriated \$2,000,000 marks for harbor improvements.

LONDON WOOL AUCTION SALES.

LONDON, June 9.—The arrivals to date for the next series of wool auction sales number 147,732 bales, of which 21,900 were forwarded direct.

AFFILIATED SCHOOLS.

CHICAGO, June 9.—President Harper, of the University of Chicago, announces that the university has begun to establish affiliated preparatory schools in different parts of Europe. These schools will be branches of academies which are affiliated with the university in this country. The purpose of this plan is to give opportunity to children of college age, whose parents are traveling abroad during the year, to have the benefits of foreign residence without obstructing the progress of their studies. Paris will be invaded first, and the American Home School for Girls will be opened at 20 Rue de Longchamps October 15. The work of the Paris school will be to prepare the students of Miss Elizabeth Wallace, heretofore instructor of French in the University of Chicago, and Miss Emma Baird, for many years principal of a girls' school in Kansas City, Berlin, according to President Harper's plans, is next in the line of march after Paris.

THE BINGHAMTON EXPLOSION.

BINGHAMTON, N. Y., June 9.—Five men were killed and seven injured in last night's wreck at Vestal. The dead are: John W. Kelley, head brakeman of the wildcat train, S. R. Polhemus, conductor of train No. 61, Elmer Polhemus, trainman of No. 61, John Cook, fireman first engine of the wildcat train, Fred Witherby, freeman second engine of the wildcat train. Several of those who were thought to be fatally hurt last night recovered from the concussion, and today are not figured in the list of fatally injured. All through the night morning hours the rescuers toiled about and among the burning freight cars at the scene of the explosion, but it was not until late this afternoon that portions of the last dismembered body were discovered a quarter of a mile from where the explosion occurred. The tracks of the Delaware, Lackawanna & Western Railroad were completely blocked until past midday.

THE DEATH ROLL.

NEW YORK, June 9.—Edward Moran, the eminent marine and landscape painter, died this morning in his apartment, not far from his studio in Fifth avenue from uraemic poison, superinduced by a complication of diseases from which he had been suffering for about a year. He was born in England in 1828. When he was 12 years old the family came to America and settled in Maryland. Later they went to Philadelphia, but 23 years ago he came to New York, where he has since made his home.

SOUTHERN INDUSTRIES.

Programme of the Convention Which Opens at Philadelphia Tuesday.

PHILADELPHIA, June 9.—Most of the delegates who will attend the Southern Industrial Convention, which will open here Tuesday morning, are expected to arrive tomorrow morning. The opening session will begin at 10 o'clock, Tuesday morning, and will be called to order by H. H. Hargrave, president of the Southern Industrial Association. There will be addresses by Governor Stone, Mayor Ashbridge, Theodore C. Sears, John H. Conner by President Harper, Governor A. H. Longino, of Mississippi, and Mayor J. W. Riggins, of Waco, Tex. During the afternoon, there will be an excursion on the Delaware River, and in the evening a session, at which Hon. Hoke Smith, ex-Secretary of the Interior, of Atlanta, Ga., will deliver an address on "The Resources of the South," and Robert C. Ogden, president of the Southern Education Conference, on "Popular Education, the Tower of Industrial Progress."

CLEVELAND, June 9.—Dr. H. F. Biggar, of this city, the family physician of John D. Rockefeller, in speaking of Mr. Rockefeller's recent gift of a large sum of money for medical research, said tonight:

"Mr. Rockefeller has put his suggestion of medical research into the hands of a number of famous medical scientists, among them representatives of the Columbia and Johns Hopkins Universities, the University of Pennsylvania, the University of Chicago, and other institutions. These gentlemen will look over the ground and make such recommendations as they regard as practical. Until then, I don't believe Mr. Rockefeller will form his plans. Dr. Biggar then went into detail in reviewing the efforts of the English Government in endeavoring to check tuberculosis and the City of Buffalo in the matter of learning the origin of cancer, and said that their work would probably be along these lines."
