The betting on the American team, which began at 5 to 5, closed tonight at 16 to 1 in their favor. Nevertheless, Paul North and the American leaders declare that all the members of the team are shooting far beneath their usual level. It was fully expected that the team could kill 90 per cent of the birds, but today's results showed less than 87 per cent. The high winds and the unfamiliar surrounds had much to do with this. READY FOR THE CONTEST.

Martin Denny is Potting on Finishing Touches of His Training.

Martin Denny, the clever Australian, is putting on the finishing touches for his contest tomorrow evening with Tobe Irwin, the fast lightweight, whose training has been carefully watched by the local experts. Martin Denny was seen to the training over the training the training over the training over the training over the training the training over the training the training over the training the training training the training training the training training the training training training the training training training the training yesterday afternoon at his training quarters at Second and Glisan by a number who were admitted to see the fast light-weight at work, among them several reporters. In form the two men are evenly matched. They are about several level. matched. They are about equal in size and in cleverness there is hardly a shade of difference. Denny is already a little below his desired weight, and is still strong and fast. Yesterday he took his usual road work in the morning and in the afternoon did his bag punching, rope skipping, dumb bell swinging and boxed several fast rounds with Tom Travey and Murphy. Denny is one of the strongest Murphy. Denny is one of the strongest men of his weight and the hardest hitter of any man that has stepped in a ring in Portland. He is hard to hit and can stand all kinds of punishment. In the fight with Jimmie Riley he showed his

From the condition that the two men are in it seems certain that the fight will last about the limit, 20 rounds, although the pace that the men are pre-paring to hit up at the start may shorten it several rounds. Denny has developed great hitting power and has made all kinds of friends in Astoria where he has kinds of friends in Astoria, where he has appeared several times, and Astoria money is coming up in lumps to back the Australian.

Ine bulk of testimony was brought out entrances to the Ridge Building at the time of the murder to prevent Kennedy's escape. Although the defense tried to prove that they had lett the older Prince's poolroom after the shooting occurred, the time given by the witnesses varied from 5:10 to 5:40. The shooting took piace at

testuy, and his entrance into the courtroom caused a buzz among the spectators, who craned their necks to get a gimpse of the man whom the state is trying to prove was the chief actor in the alleged conspiracy to kill Kennedy. The prisoner brightened perceptibly at the entrance or her brother, whose testimony she followed closely. She appeared perfectly well today. Prince denied that he had ever exercised mesmeric powers over anyone, denied that he accompanied his slater down town the day of the murder. and said the revolver used in the killing was not his. He knew of the murder only after it had been committed

Thomas H. Ridge, the first witness, told of the scene in the Ridge Building at the time of the murder. He had come upon the scene soon after a policeman arrived. Mrs. Kennedy had requested the officer to loose his hold on her hands, the doctor had said Kennedy was dead, and then Mrs. Kennedy, stepping to the prostrate form, had kicked him in the side of the head and remarked: "He'll never seduce

another girl."
Through T. J. Noble, the defense endeavored to prove that the time of the murder as set by the state's witnesses was incorrect, but his statements in that respect did not differ materially from the evidence already adduced. Will Prince then took the stand. He

is a prepossessing man of 30. He re-sembles his sister in features, and looked at her constantly while giving his evi-dence. He kissed his mother and mar-ried sister, Mrs. Leon, as he passed them and patted the prisoner on the shoulder. Will Prince, according to a theory of the prosecution, was a professional mesmerist, and in nerving her up to commit the murder of Kennedy, exercised his hypnotic power over Mrs. Kennedy. Prince denied that he was a mesmerist or that he ever mesmerized a person, and said he had never been a prizefighter, as had been alleged. Prince detailed his whereabouts on the day of the murder, He had been with his patent attorneys during the morning, he said, talking over a patent that he intended placing on the market, and went home about noon, re-maining there until 3:30, when he returned to town alone. He went to his father's place of business, and at 4 o'clock Mrs. Kennedy followed. He denied having acompanied Mrs. Kennedy to town a few ours before the murder, when she was supposed to have been en route to Kennedy's office.

The state tried to show that Prince left home with his sister on the afternoon of the murder, furnishing her with a revol ver en route and instructing her in what she should do when she went to her husband's office.

Prince testified to leaving his father's place of business at 5:29, and going to the Ridge Building, where, attracted by a woman's screams, he went to the second floor and saw a man choking his sister. He had thought the man was Philip Kennedy, but found he was the latter's brother, and left the scene. Prince, con-tinuing, told of his sister's condition after the forced marriage to Kennedy, when he had refused to live with her. She was despondent, he said, and confined herself

# EX-STUDENT INDICTED.

Mahel L. Burt Will Be Tried for Lasceny From Smith College. NORTHAMPTON, Mass., June 11,-The

grand jury this afternoon found an in-dictment against Mabel L. Burt, the Smith College ex-student, on 11 counts for the larceny of money and jewelry. She was arraigned before Judge Pierce, and on ion of counsel waived the reading of the ndictment and pleaded not guilty, retracting her plea of guilty in the lower court. Counsel asked for a continuance and for moderate ball. Judge Pierce named \$1000. Mr. Burt, the father, produced sureties, and, with his wife and daughter, left, accompanied by Dr. Mary Brewster, the Smith College physician. Miss Burt seemed quite nervous, but did not break down. Her mother was in

tears during the proceedings.
In an interview, Mr. Burt said that he would return to Bridgetown, N. J., and that he would place his daughter in a sanitarium in Pennsylvania. Regarding the alleged departure of two young men from this city, the police say no action has been taken looking to further arrests in the case. It was also said that the Worcester police had secured from one of the young men a \$150 ring, which he had admitted he had received from Miss Burt, and which has been identified, since its return, by a Smith College stu-dent as her property. The II counts in the indictment against Miss Burt charge larceny of property to the approximate val-

A little less than a month ago he met his wife, whom he had married after a brief acquaintance, and who was said to be a Russian, and renewed his relations with her. The elder Hartman learned of the fresh outbreak of infatuation and tried to persuade his son to leave her. Two weeks ago young Hartman and his wife went to Reading, Pa., but the father foilowed and brought his son back to the city. A week ago Sunday the young man once more disappeared and his parent traced him to a boarding-house in this city. Mr. Hartman called on the young woman, who was found at the house, and had a long talk with her, in the course of which she assured him that his son was not there, and said she had not seen him. Mr. man left after threatening her wi rest if it should appear that she had deceived him, and the same night he set a watch on the house. Young Hartman and his wife cluded the sentinel that night and left the city. The father traced then to several cities, but failed to find them."

before his inauguration as Governor, but it was believed immediate danger of death was passed. While in Tuscaloosa, how-ever, his illness returned with renewed violence and he became so dangerously sick that the physicians feared to remove him to Montgomery. Yesterday, Governor Samford was thought to be improving, but he grew worse today and succumbed tonight at 10:10 o'clock.

Governor Samford was 54 years of age and was a native of Alabama. He had served in the State Senate and in Congress; was a member of the constitu-tional convention of 1875 and held other important public offices. He was elected Governor in August of last year and was inaugurated December 1 last. W. D. Jolks, President of the State Senate, will succeed him as Governor.

ST. PAUL, June 11,-The 12th blennial head camp of the Modern Woodmen of America assembled at the Auditorium at 10 o'clock this morning, the full comment of 629 delegates being present. was decided to appoint a committee of 10 delegates to act upon the revision of the ritual, as submitted by Head Consul Northcott. The question of admitting Chicago and five other large cities, that are now excluded from membership in the order, was precipitated by an amendment to the laws committee, presented by Dele-gate Aleshire, but a decision was not arrived at. This question took up most of the afternoon session, and was fully dis-cussed. J. G. Johnson, of Kansas, led the opposition, and argued that if the larger cities were admitted they would soon get the muchinery of the order into their own hands and could in a few years control its policy. The matter was made a spe-cial order for 9 o'clock tomorrow morning, and indications point to the defeat of the proposition for admission. A resolu-tion was adopted, providing that each state shall hereafter be entitled to a head physician. At the meeting two years ag-several of the states were grouped under the supervision of a head physician, but it was claimed that this did not work well. The reports of the Wood-men head officers show a net gain of 2il,-370 in new members since the meeting of two years ago, carrying total insurance of \$355,560,000. During the two years [38] new local camps were organized. In his opening address Consul Northcott said: "This rapid growth has never been equaled by any fraternal society or life insurance order in the world's history. We have 630,000 members, and 9700 local odges. With morning and night parades, a ses-

sion of the imperial council and sight-seeing, the Shriners have spent an exccedingly busy day. The imperial officers were escerted from the Hotel Baltimore to the Standard Theater this morning by all the uniformed Shriners and a large number in carriages. After the welcoming speeches at the theater, all but delegutes were excluded, and the council entered upon its business, considering reports of officers and committees. The session adjourned at 1 P. M., until 9 o'clock

tomorrow morning, when officers and the next place of meeting will be chosen. The downtown streets were given over tonight to brass bands and marching Shriners in brilliant Oriental costumes, with an accompaniment of fireworks and the booming of mortars. The splendor of the costumes of the Arab patrols was enhanced by the electric lights and by the pyrotechnics set off by the Topcka Flam. eau Club, which led the procession Ararat Temple, of this city, furnished one of the most attractive features of the parade. Twenty-four of its members, who are connected with the Livestock Ex. change, were organized as a mounted pa-trol. They were turbans and flowing robes of vellow and white, and were mounted on jet black steeds and armed with long spears. The regular patrol of Ararat Temple was garbed in velvet, satin and fine cloth. The other organiza-tions were no less brilliantly arrayed in purple and scarlet, chrome yellow and ultramarine blue, and all the extreme tints in the category of colors were seen. Some of the best bands in the country were in the procession, and the strains of martial music were continuous.

A unique feature of the parade was the Indian Temple patrol, from Oklahoma City, which indulged in typical Indian war dances at regular intervals, Zuhroh Temple patrol, from Minneapolls, was also in special favor with the crowds, Perhaps the most picturesque division of the pageant was the mounted patrol from Washington, D. C. This patrol, each member of which wore the costume of an Arab sheik, belongs to the Almas Temple. The Aladdin patrol, from Columhus, O., was brilliantly costumed, and was a general favorite. Next was the patrol of Medinah Temple, from Chicago. with 24 men, whose marching tactics aroused much interest. A gorgeous patrol was that of the Moolah Temple, from St. Louis. The Abdallah Temple, of Leav. enworth, consisted of 40 men, and their costumes were wonderful. The men wore long coats made of goods of Persian design, and wore turbans on their heads Ahead of them was the executive of the temple, a big-bearded man with a cutlass on his shoulder.

The head of the parade reached Con-vention Hall at 10 o'clock. The Arab patrols, each company headed by a band passed in at the main entrance at the south end of the building. The entire arena floor was set apart for the maneu vers of the patrols, and after an exhibi-tion of fancy drilling they marched out through the north end of the building. The seating capacity of the hall, in the boxes and in the balconies and the space in the roof garden was reserved for No men were admitted, other than those having to do with the management of the entertainment.

### AMERICAN SAMOA.

Commander Tilley Proud of the islanders tader his Rule.

SAN FRANCISCO, June 11 .- Commander B. F. Tilley, United states Navy, Governor of the United States possessions in Samoa, arrived today on the steamer Ventura from Pango Pango. Governor Tilley has returned to this country on a leave of absence. After a two days visit in this city he will go to Wasnington. Discussing conditions in Samon, Governor Tilley said:
"The natives are now docile and con-

tented. When I was boarding the Ventura they gave me a 'sieva,' or sumoan charivari, to show tacir good will. Ten gir.s and ten men tollowed the boil singing and making music by beating mats with sticks. A great many tarewest tokens were pressed upon me, but the customs ourcers demand dury on them, nd the presents were harmy worth the

"We have permitted the natives to for low their own customs when they were not pernicious. It was necessary to reform their code regulating marriage The uniquetions of the consistions and the remotences from nigher authority compilies me to act the part of a supreme law-giver as well as that of an executive officer. We issued or-dinances forb.dding the transfer of real roperty to waites by natives and regulating contracts between natives and whiten. the general laws of the United States do not fit the conditions in the islands. "The possessions are divided into you

ties, each governed by a native officer appointed by the American commander This system has pleased the Samoans Recently the chiefs at Fago Togo offered the waterfront land to the city govern that they would build a Presbyterian Church with the money. The London patives are Christians and extremely religious, although their morals are quite up to the standard. They go church every day and always say grace before meals

"Peace was what the islanders needed. They had been warring perpetually, and the warfare interfered with production. occanuts and everything the Samoans require to eat, and there is really no more reason why they should work. It is not surprising, therefore, that they are inclined to idleness. Under the American stimulus the product possessions ought to double within year or two. The area of plantations is increasing. Copra is the principal product, although the cocoa and tobacco crops are worth notice. The white popu

"Evidence of the docility of the natives

The Samoans are not permitted to have whisky, but they do not like it anyway, and there is no trouble keeping them sober. They are a brave, warlike people, quite the finest 'natives' I have ever seen. Our government ought, if possible, preserve the race from admixture. have enlisted 48 Samoans in the navy as landsmen, ordinary seamen, seamen and petty officers. They are kept ashore and are the military force of the island. They are wonderfully proud of the uniform and felt like magnificos with rifles in their grasp. They take to firearms like ducks to water, and rapidly become experts in the school of the soldfer. An enlisted Samoon drawing \$16, \$20 or \$30 in American money is a fremendous swell among fighting being the Samoan specialty.

"I don't think the commerce of the islands will ever amount to a great deal. The chief value of the islands to this country is the great harbor, which is pro-tected against hurricanes and can easily be made secure against an enemy. Congress has passed an appropriation to en-able us to enlarge the coal storage capac-ity of the harbor to 10,000 tons, enough to al a fleet. The harbor is 2000 miles from Honolulu, 1600 from Auckland and about German Samon is 2000 from Sydney, doing weil under Governor Solf, a broad-minded man. Lieutenant-Commander Born is now in command at Samoa.

# OREGON AT HONOLULU.

Accident While the Ship Was Coming to Anchor Off the Port.

HONOLULU. June 5 .- The battle-ship Oregon arrived here on the morning of May 30, on her way home from the Orient, She was dropping her anchor off port when an accident occurred, resulting in a serious injury to Boatswain J. E. Murphy, who was one of the men who helped Lieutenant Hobson to sink the Merrimac at the entrance to Santiago Harbor. The Oregon's anchor chain parted as her port anchor was go-ing down, and Murphy, who was superin-tending the dropping of the anchor chain, was struck by the chain as the end came back. His leg was broken, and he was dashed against some machinery, receiving a dangerous gash on the head. The Ore-gon is taking coal here, and is about ready to leave for San Francisco. The Hawaiian Bar Association held a

meeting on the 29th ult., and by a vote of 37 to 7 adopted a resolution asking for the removal of First Circuit Judge Humys. The resolution adopted states the Judge has been conducting a partisan newspaper; that he has continued to be a political leader; that his con-

## HOW TO FIND OUT.

Fill a bottle or common glass with your water and let it stand 24 hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains the inen it is evidence of kidney trouble; too frequent desire to pass it, or pain back is also convincing proof that the kidneys and bladder are out of order.

#### WHAT TO DO.

There is comfort in the knowledge so ften expressed that Dr. Kilmer's Swamp-Root, the great kidney and bladder rem-edy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordlinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. So.d by druggists in 50-cent and \$1 sizes.

You may have a sample bettle of Swamp-Root and a book that tells more about it, both sent absolutely free by mail. Address Dr. Klimer & Co., Binghamton, N. Y. When writing mention that you read this generous offer in The Portland Dalle Opposed Portland Daily Oregonian.

The Court of Claims, created by the recent Legislature to hear claims for losses caused by the great fire that grew out of an order by the Board of Health to destroy a dwelling in which a plague case had occurred, has been in session a little over a week, and aircady has, it is said, much more business than it can attended to in its allotted term of six months. Japanese Consul Miki Saito has about 2000 claims, with inventories taken after the fire, in behalf of his country men. The largest single claim so far put in is for \$7,000, asked by a Chinese merchandise firm for a building and stock that went up in smoke,
