LONDON, June 18 .- The Daily Mail, in an editorial, urges the British Govern-ment to retain Lord Pauncefote at Washington, as several thorny questions are still awaiting settlement. The editorial in question further advocates giving the United States every facility to construct the Nicaragua Canal, provided its neutrality and an open door be guaranteed. The Daily Mail says it is quite immaterial whether the canal be fortified or not, be cause an enemy desiring to use the canal against the wishes of the United States would find himself engaged in a disastrous venture. A ton of dynamite, judiciously applied, would bottle him up in Lake Nic arauga till the war was over.

That was the statement made by Lieunant-Governor Coates, of Colorado. "I do not yet know officially that the portion of the bill has been stolen, but I shall investigate. If the bill, or a portion of it has been stolen, it has been done de-liberately, and with the sole intent of invalidating the law. When the bill was pending it was bitterly fought. Every effort was made to defeat it. The duplicate copies will do us no good. The courts will accept only the original. I do not suspect any person or persons in this work. I do not know whether the part of the record alleged to be missing disappeared after it was given to the Secretary of State or before. I am, however, inclined to believe that the portion was stolen be-fore it reached the Secretary of State. This theft comes as a stunning blow to the working people of Colorado. It was

BOERS GAINING STRENGTH. Taking On Many Recruits From

Dutch Districts of Cape Colony. NEW YORK, June 17,-The situation in South Africa is far from satisfactory just now to Englishmen, says the Tribune's London correspondent. It is believed that the Boers are gaining many recruits from the Dutch districts of Cape Colony, and in spite of Mr. Chamberlain's calm asser-tion that the embers of war are only smoldering, it looks very much as if they

had burst into flame.

A question will shortly be put in the Liberal benches in the House of Commons as to the proposed suspension of the constitution in Cape Colony. There is a general belief that Mr. Chamberlain and Lord Milner will hesitate before taking this step. Lawyers are of the opinion that the only way it could be legally accom-plished would be by an act of Parliament, and in the present state of public busi-ness the government will scarcely care to invite opposition on such an issue

to Agree. VANCOUVER, B. C., June 17,-The salmon and the fishermen of the Frager River are now at a deadlock and an-other fishermen's strike, on practically the same grounds as last Summer, seems inevitable. After repeated conferences, committees representing the two parties to the controversy held a final session this afternoon. The camers offered 12% cents per fish from July 1 to August 2. This offer was rejected by the fishermen who submitted a counter offer of 12% cents straight through the season. After consideration the canners rejected this, and then withdrew all offers of conces-

sions of any sort which had been made, The fishermen's union, including the In-dians, who have a quasi recognition, and the Japanese, who are practically con-trolled by the action of the white sal-mon catchers, represents 6000 fishermen, whose earnings aggregate a million dol-lars every Summer. Forty-nine canneries, representing an aggregate output of 900. 600 cases are affected by the strike. The run of salmon will soon begin, and a profitable season had been expected. It was hoped that a large run this year would make up for losses of recent scaons, especially because of the disas-

MONTREAL, June 17 .- Officials of the Trackmen's Union announce that between 2000 and 2500 of the Canadian Pacific's trackmen struck today for an increase of pay. The trackmen receive an average of \$1 15 a day, and want an increase of from 10 to 20 cents a day, according to locality. They assert that while the Can-adian Pacific pretended to increase their wages 5 per cent a day, it had previously decreased the week's wage by 57% cents through cutting down trackwalking so that the company, with the apparent inutill had the better of nen by 271/2 cents a week. The company

asserts that the men are as well paid as those of any other road.
