

FIFTEEN START

AMERICAN DERBY WILL BE RUN AT WASHINGTON PARK TODAY.

The Parader Regarded as the Most Probable Winner—Track Promises to Be Fairly Good.

CHICAGO, June 21.—All is in readiness for the fourteenth running of the American Derby at the Washington Park track tomorrow afternoon. Fourteen candidates are announced to go to the post, and while one or two of these are likely to be scratched tomorrow, there is also the possibility of an added starter, so that the field may be the second largest in the history of the classic, 15 having run in 1883. The promise tonight is for a fairly good track. The track in fact at present, but there is every indication of a thunder shower before morning. Whether this will be heavy enough to make the track loose is problematical. The field that promises to go to the post, together with the betting and the jockeys, is as follows:

Table listing horse names, jockeys, weights, and betting odds for the American Derby. Includes names like 'Parade', 'Lucky', 'Speed', etc.

Local opinion is in favor of the fact that there never was such a diversity of opinion, and it is pronounced on all sides a very open race. His Eminence and Bonaparte, however, have the biggest following, with the Schorr stable and Terminus next. Lady Schorr today seemed to have turned quite out of her lameness of yesterday.

The indications are that fully 50,000 people will see the race. Mayor Harrison and Chief of Police O'Neill have both declared there will be no open betting. It is believed the New York system of betting will be followed.

Races at Sheepshead Bay. NEW YORK, June 21.—Following was the summary at Sheepshead Bay: Selling, six furlongs—Reinhold won, Ante Up second, Irene Lindsay third; time, 1:13 4/5.

Selling, six furlongs—Rouble six won, Spary second, Princeton Girl third; time, 1:15.

The Daisey, five furlongs—Leonora Long won, Sombrero second, Loodice third; time, 1:30 3/4.

The speedwell handicap, six and a half furlongs—Glen Nettle won, Sadance second, Himself third; time, 1:15 1/4.

Five furlongs—Play Like won, Fonda second, Linaora third; time, 1:09 1/4.

One mile and an eighth on turf—Destiny won, Prince Richard second, All Gold third; time, 1:13 3/4.

Races at Detroit. DETROIT, June 21.—Following is the Highland Park summary: Seven furlongs, selling—The Brother won, Custodian second, Sempre third; time, 1:21.

Four and a half furlongs—Lawano won, Orion second, Easter Boy third; time, 0:57 1/4.

Six furlongs—St. David won, Scorp second, River Princess third; time, 1:24 1/2.

Five furlongs, selling—Vanden Tree won, St. Her second, Halmetta third; time, 1:30.

Stale and a sixteenth, selling—Filibuster won, Wine Pie second, Montana Cent third; time, 1:50 3/4.

Six furlongs—Rotterdam won, Speak Easy second, The Gezer third; time, 1:19 1/4.

Races at Newport. CINCINNATI, O., June 21.—Following is the result at Newport today: Seven furlongs—Nels Morris won, Fusion second, River Princess third; time, 1:24 1/2.

Five furlongs, selling—Sidera won, Billy Mason second, Ethel Davis third; time, 1:04.

Four and a half furlongs—Dougherty won, Georgiana second, Reclusa third; time, 0:57.

Six and a half furlongs—Banquo II won, Calocan second, Lady Eeell third; time, 1:23.

One mile, selling—Brother Fred won, Pine Chip second, Quaver third; time, 1:45 1/2.

Five furlongs, selling—Rice won, Nancy Till second, Gold C third; time, 1:19 1/2.

GOOD LUCK TO GET A GOOD DAY AND TRACK WHEN HE STARTS TO RACE.

Mr. Ketcham says Cresceus has only three engagements to race this season, and at present there are no other engagements scheduled for the same dates as the meeting in New York, some other course must be chosen. Although the Detroit Driving Club has offered a purse of \$2500 for a free-for-all trotting race at the Grand Circuit meeting next month, it is not probable that Cresceus will start in a race until the meet at Brighton Beach August 1. Mr. Ketcham says he will start his horse up for the contest by working him alongside a running horse.

Ejected Horseman Wants Damages. CHICAGO, June 21.—Edward D. Rose, a horseman, has brought suit against Washington Park Club and its secretary for \$50,000 damages for alleged injuries received in being ruled off the track June 19. Mr. Rose also is a defendant.

NATIONAL LEAGUE. Brooklyn Made Twenty-six Hits Off Cincinnati. BROOKLYN, June 21.—Brooklyn made 26 hits for a total of 34 bases against Cincinnati today and won in a canter. Kennedy was in good form and held the visitors well in hand. Attendance, 1900. Score: Brooklyn 26, Cincinnati 2.

New York Beat Pittsburg. NEW YORK, June 21.—The New Yorks played splendidly today, scoring a clever win over Pittsburg. Taylor's pitching pleased the visitors. Attendance, 400. Score: New York 5, Pittsburg 0.

Boston Beat Chicago. BOSTON, June 21.—Boston had no trouble in winning today, making it five straight from Chicago. Attendance, 500. Score: Boston 3, Chicago 0.

Philadelphia Beat St. Louis. PHILADELPHIA, June 21.—St. Louis could do nothing with Orth's pitching today, and the Phillies won in an interesting game. Attendance, 75. Score: Philadelphia 3, St. Louis 0.

Chicago Beats Out Philadelphia. PHILADELPHIA, June 21.—Inability to home team today at the hands of Chicago. Attendance, 181. Score: Philadelphia 0, Chicago 1.

Boston Beat Cleveland. BOSTON, June 21.—Boston won the game in the third inning, two hits and three errors netting three runs. Lewis was hit hard, but was steady at critical times. Dowling pitched a fine game. Attendance, 266. Score: Boston 4, Cleveland 2.

Baltimore Beat Detroit. BALTIMORE, June 21.—Today's game between Baltimore and Detroit was a pitchers' battle in which McGinnity had the better of the contest. Score: Baltimore 4, Detroit 0.

Washington Beat Milwaukee. WASHINGTON, June 21.—Milwaukee won today's game by punching hits in the second and fourth innings. Attendance, 284. Score: Washington 3, Milwaukee 0.

Lawns Tennis in the Middle West. NEW YORK, June 21.—The United States National Lawn Tennis Association held its 21st annual tournament for the championship of the United States for men's doubles on the grounds of the Orange Lawn Tennis Club at Mountain Station near Orange, N. J., July 1 and 2.

London, June 21.—At Ascot, E. Corrigan, a filly Rose Tree, by Bonavista-Fannie Reip, won the Workham stakes (handicap) of 25 sovereigns, each, with 500 sovereigns added for 3-year-olds and upward, distance the last three-quarters of the mile. J. D. Wardell's Newton was colt, by St. Florian-Chance, was second, and W. C. Whittier's regally Spectrum (L. Ref), by Orville-False Light, was third. Twenty horses ran. Rose Tree was ridden by Charles A. Thorne, and Newton by J. E. Moore. American jockeys rode winners in six out of the seven events in which they contested.

Cresceus in Fine Condition. Ketcham Has Made Only Three Engagements for His Trotter. NEW YORK, June 21.—The Herald says: "Cresceus never before pleased me as much as he does this season," said Mr. Ketcham. "He is feeling like a lightning cock and just wants to run. I am going to let him step his first mile below 2:25 just before I left Cleveland. It was trotted in 2:21 with the last eighth in 1/16 seconds, and Cresceus was actually going within himself at the finish. I believe his record will be 2:30 or better before the end of the season, provided he has the

JUNIORS ON THE TRACK

YOUNG ATHLETES TO CONTEST ON MULTINOMAH OVAL TODAY.

Field Day Institutes Policy of Outdoor Committee in Building Up Track Athletics.

The field day for which the juniors of the Multnomah Club have been carefully training for the past month will be held this afternoon at 2:30 on the Multnomah oval. The Multnomah Club has started in to build up track athletics at the very bottom. The outdoor athletic committee, which has initiated and consistently followed this policy, hopes by the means of the junior field day to develop in a few years, from the junior race to athletes that can take the place of the heroes of the past, whose memory the "knockers" cherish at the club keeps continually green.

The youngsters are a clever lot, and they will contest every event with nerve and vigor. Under the direction of Instructor Krohn, try-out were held at the club last week, and the juniors divided into six divisions, according to the relative ability of the contestants. This will insure fairness and a good afternoon's sport. Any one interested in the future of track athletics in the city and the Multnomah Club in particular, should not fail to be present to see the wealth of material that is being developed in the future, if carefully trained and followed.

The following is the list of events: First division—100-yard dash, 100-yard hurdle, throwing baseball. Second division—Broad-high jump, 100-yard dash, 100-yard hurdle, throwing baseball. Third division—100-yard dash, broad jump, 100-yard hurdle, 150-yard dash, 100-yard hurdle, run and walk race, one lap. Sixth division—60-yard dash, 50-yard hurdle, 50-yard soursault race.

Ten First Rounds. DENVER, June 21.—Morgan Williams, of Victor City, Colorado, tonight drew Ryan fought 10 fast rounds to draw before the Colorado Athletic Club here tonight. While Ryan landed the greater number of blows, Williams was a lot stronger and his blows carried more steam. In the second round, Ryan landed a hard left jab on the nose, which started the blood, and throughout the remainder of the fight, Williams kept bleeding profusely. Ryan's clever ducking throughout was a feature.

Woman's Golf Championship. GLEN COVE, L. I., June 21.—The Woman's Metropolitan Golf Championship tournament has reached the last stage. Today the semi-finals were played on the links of the Nassau Country Club and tomorrow the final will be played on the links of the Essex Country Club. The contestants are Miss Genevieve Hecker, of the Essex Country Club, and Miss Ruth Underhill, of the Nassau Country Club. In the semi-finals today Miss Underhill defeated Miss C. G. Willis by five up and four to play, while Miss Hecke won from Mrs. H. B. Ashmore, of Baltusrol, on the home green by one up.

Matched for a Wrestling. NEW YORK, June 21.—Bob Fitzsimmons and Gus Ruhlin were matched today to meet in a wrestling match at Madison Square Garden on the night of July 3. Graeco-Roman or Greco-Roman style falls out of three to be declared the victor. Charley White will be referee.

Kiel Regatta. BERLIN, June 21.—At the Kiel regatta today 74 yachts entered in the races. Neither the Iduna, belonging to the Empress of Germany, nor any of the other noted yachts at the gathering won a first prize.

SUMMER BOARD FOR DOGS.

Luxuries, Including a Swimming Pool Provided. New York Sun. "Are all your arrangements made?" a woman asked recently of a friend about to sail for Europe.

"Almost," was the reply, "all but deciding where to send Fido. He must have air that agrees with him and the best of care. It really is as much bother to find a boarding place for one's dog as to get a child established at school."

As few hotels permit guests to bring dogs, the proprietors of boarding kennels do a good business between May and October. The kennel in which the dogs are fed on a regular basis provides in a substantial building separate pen for each dog, to be occupied at night and on stormy days; ample grounds for exercise and a force of attendants to feed, wash and exercise the boards.

A model establishment in New Jersey, where board costs from \$5 to \$9 a month, has a separate run for each large dog, and a large enclosure in which the little dogs play together. Dogs that object to wire fences are chained to trees. Every morning all the larger dogs are taken by an attendant to the water and given two meals a day are served. Puppies biscuits and the gravy of stewed meat and meat for older ones.

"We don't care for even those of the same age, alike," said the superintendent of the kennels to a visitor. "When we find what diet a dog thrives on, we feed on that. Milk and other luxuries are fed on, but they don't always take to lack of exercise. Its mistress has made herself sick giving over it."

"See that swimming pool by the bridge?" we dammed the brook to make that for the dogs. "Of course they have their regular baths besides. Every dog is washed and treated antiseptically twice a week. The pens are cleaned daily and washed with carbolic solution once a week."

"Every dog receives a medical examination upon his arrival. If he has any contagious disease he is sent to the hospital. Slight ailments are treated here free of charge, but hospital treatment is extra."

"Are the dogs ever homesick?" was asked. "For the first day they are likely to be, that is, if their owners come with them. If they are sent alone by train or with a servant, they usually don't mind. But owners, women especially, make a good deal of fuss over saying good-by, and that makes the dogs feel bad."

"I never stay around at these times. I know the kind of things a woman wants to say to her dog when she is leaving him, and I can't help but sympathize with the people to hear them. Generally she wants

FREEDOM OR SLAVERY.

Great Question as to the Future of the Chinese.

The following interesting letter concerning the future of the Chinese has been received by a Portland business man from a friend in Shanghai:

SHANGHAI, China. I have heard here we are in the midst of world politics that is a growing and constant puzzle, and there are only a few signals that indicate the North-west, have constituted exceptions to the general rule. I have heard that the most significant feature noted for some time past is that presented this week in regard to the prices of a number of leading commodities. Cotton goods, notably print cloths, bleached goods, and a number of standard products, have been advanced, and an increase in prices of raw material is as much due to the better trade advices at home and abroad, as to crop damage reports from the South. Hides and leather, long threatening an advance, have at last succeeded in this respect. In addition, corn and oats among the cereals, lard among hog products, cheese among dairy products, and coffee and tin are all higher in price, due mainly to a heavy reduction being in force, the only important liquidation of the July option, as much as to continued good crop advices. European advices favor the idea that the price of raw materials will be a heavy buyer the coming year.

"Iron and steel lost nothing in strength as the turn of the year approaches. Reports of activity in pig iron at the close of last week are favorable. Chicago and St. Louis are of sales of fully 75,000 tons of Bessemer pig, and of considerable quantities of other iron. Foundry products of Europe are called at some markets. New demand for finished material is quiet as a whole, but mill products likewise show a seasonal shrinkage, and manufacturers are still eight or ten weeks in arrears. The market reports some good orders for steel rail in the market with \$30 demanded where business has actually been consummated, and structural materials are a firm at that market. Building hardware is in enormous demand the country over, and wire and nails are especially in demand. A better feeling is being felt in the Southern pig iron market.

"Woolen goods trade advices are quite cheerful, and clothing manufacturers are reported clothing quite confident as to the outlook for the coming year. No particular change is noted in wool prices, but there is a good volume of business at the East and leading interior markets. Wool shipments to the West and higher in the East. At Chicago leather is active and strong, in sympathy with hides, and stocks of upper leather are reported light. The market for shoes and shoe shipments for the week aggregated 5,529,531 bushels, against 5,719,103 last week; 4,645,100 bushels in the corresponding week of 1900, 4,746,103 bushels in 1899, and 5,799,407 bushels in 1898. From July 1 to date, this season's wheat exports were 21,512,214 bushels, against 196,489,126 bushels last season, and 221,183,576 bushels in 1898-99.

"Failures in Canada for the week numbered 26, against 17 last week, 28 in this week a year ago, 129 in 1899, 220 in 1898, and 215 in 1897.

"Failures in Canada for the week numbered 26, against 17 last week, 28 in this week a year ago, 129 in 1899, 220 in 1898, and 215 in 1897.

The week in Wall Street. FIRM INTEREST RATES NECESSARY UNTIL JULY PAYMENTS ARE MADE.

NEW YORK, June 21.—Bradstreet's financial review tomorrow will say: "Subsiding activity and an easing off of quotations have marked the present week in Wall Street. The decline has not been severe, and there has been no decided sign of liquidation. It would seem, however, that a number of causes combined to check speculative securities at high prices, and to create a conservative feeling on the part of the large interests, which have been leading the market. While there is no fear at present of a stringency in the money market, the reduction of the New York bank surplus reserves to \$18,000,000 last Saturday, and the shipment of some \$4,600,000 gold to Germany this week, created a feeling that financial rates of interest were necessary and unavoidable, at least until the July interest and dividend payments are completed. These payments will be the largest on record, and though the shifting of balances from July 1 to now, as indicated by such a disturbance of the market, another factor which impresses the sanguine views held a week ago about the probability of a big deal in connection with the St. Paul road. It now seems that the community of interest principle will be applied in the case of St. Paul and the other Western roads, but that there will be no exchange of securities at high figures and assumption of control by the Union Pacific."

DUN'S REVIEW. Distribution of Merchandise Tells of Widespread Confidence.

NEW YORK, June 21.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: "Increasing distribution of merchandise, particularly in the territory beyond the Ohio River, including the far Northwest, is a feature of general business conditions, and tells of widespread prosperity and confidence. The situation is carrying more goods than ever before, and in spite of Wall Street's slightly higher money market the rule and free will go on in any line of legitimate trade.

"Crop news continues good. There is less trouble from disagreements with labor, and the cotton market has recovered slightly. Less interest is shown in controversies at machine shops makes the iron and steel industry more fully employed than in recent weeks, and for another week there are assurances of vigorous activity at mills and furnaces. In many instances, promised deliveries cannot be made before July 1, and urgent business that is now offered cannot be undertaken. It is also noticed that much foreign business is available, but manufacturers refuse to make bids. On the other hand, it is stated that quiet conditions prevail in the iron and steel industry, and that the usual Summer overhauling. This may be the case at a few plants, although the requirements of railroads and other known needs are such as to render any general suspension improbable.

Large sales of Bessemer pig iron reported last week have since been denied, and country iron is now the favorite, especially at Southern points. No alteration is recorded in prices, aside from a moderate reduction in gray iron.

"No increase is shown in shipments of boots and shoes from Boston, forwarded

WEEKLY TRADE REVIEWS

THE CROP SITUATION, ON THE WHOLE, REMAINS GOOD.

Only Important Reduction in Prices Was Made in Wheat-Iron and Steel Lost Nothing.

NEW YORK, June 21.—Bradstreet's review will say: "The outlook is one of sustained strength in some lines, and further improvement in others. The crop situation, of course, remains the main subject of interest, and on the whole, is a good one, although too much rain in the south Atlantic States, and too little in Texas, with the lack of warm weather for corn in the Northwest, have constituted exceptions to the general rule. I have heard that the most significant feature noted for some time past is that presented this week in regard to the prices of a number of leading commodities. Cotton goods, notably print cloths, bleached goods, and a number of standard products, have been advanced, and an increase in prices of raw material is as much due to the better trade advices at home and abroad, as to crop damage reports from the South. Hides and leather, long threatening an advance, have at last succeeded in this respect. GIVE THE POTATO ITS DUE.

Apotheosis to the Humble Tuber That is Found on Every Table.

Kansas City Journal. A writer in one of the current monthlies undertakes to enumerate the good things which America has given to the world. He lists maple sugar, the turkey, the tomato, the cucumber, the potato, most of other things, but totally neglects the potato, which is in more general use than any other vegetable. And this reminds us that one of the lesser encyclopedias gravely declares that the potato is a native of Great Britain and that it was brought to the American settlements from Ireland—a half truth which is quite as reprehensible as a full falsehood.

The potato is not a native of Mexico they found the native potato, as one of the chroniclers of that day quaintly said, "certain roots or bulbs which grow at the ends of stems in the ground and which are called 'batatas.'" The standard encyclopedias note that the potato is a native of South America, Mexico and other tropical American countries and that it made its first appearance in Europe when carried from Ireland to Peru by Sebastian Pinello at the beginning of the 16th century. It also was found in Florida and from there was carried to Virginia and thence to England by Sir John Hawkins in 1565. A century later it was introduced into Ireland by the chroniclers of that day quaintly said, "certain roots or bulbs which grow at the ends of stems in the ground and which are called 'batatas.'" It also was found in Florida and from there was carried to Virginia and thence to England by Sir John Hawkins in 1565. A century later it was introduced into Ireland by the chroniclers of that day quaintly said, "certain roots or bulbs which grow at the ends of stems in the ground and which are called 'batatas.'" The standard encyclopedias note that the potato is a native of South America, Mexico and other tropical American countries and that it made its first appearance in Europe when carried from Ireland to Peru by Sebastian Pinello at the beginning of the 16th century.
