SALEM, Or., June 25 .- A. T. Kelliher, 1 well-known timber-land cruiser, of Sa-lem, has just returned from the East, he went about four months ago to sell timber lands. While he was gone Mr. Kelliher visked Maine, Massachusetts New York, Michigan, Wisconsin, Minnenota and other states. His dealings were principally with men who are heavily in-terested in humbering, shipbuilding or tim-ber land speculation, but he had oppor-tunity ag meet men of all orcupations.

Mr. Keiliher says as soon as Eastern people find that a man is from the Coast they ply bim, with questions regarding the country and the opportunities for homemaking or the investment of capital. Ha found people better informed on the State of Washington than on Oregon, and quilte naturally they have formed the more favorable opinion of the northern state. However, Mr. Kelliher says Ore-gon is getting no small share of the im-migration now coming to the Coast, al-though the people here do not notice the impressed in their promisition

increase in their population. Oregon is a big state, with plenty of wacant land, and a thousand families can he and make their homes in the valleys prairies within its boun As Clerk M. L. Chamberlain, of the State Land Office, remarked recently, the state alone has sold nearly 100 improved farms to Eastern people who have brought their families here, but this fact would pass unobserved but for a reference to the transactions of the office. As Mr. Kelliher says, because we are making very little noise, it must not be concluded that there is no increase in the population of

Oregon. When asked what he thought of the future of the timber land business in Ore-gon, Mr. Kelifher said much of the land recently bought in Oregon has gone into the hands of people who want to hold It. They bought the land cheap and by its forcease in value have made enormous fortunes, which will continue to grow until their descendants will inherit thereby al-most imperial wealth. But not all the imber land has been purchased with a lew to holding it, as a time investment, Pacific Coast jumber is known in the that purpose

East, and in every large lumber yard west of Maine and north of the Ohio River, may be found products of Oreron and Washington forests. Most of the Coast lumber shipped East is in the form of long, heavy timbers, for use in bridges docks, etc. Thus far Washington has se sured the most of this Eastern trade, bu Opegon timber is becoming better known and is recognized as being of as good a quality as that of Washington, Charles Gilbert, a prominent lumbering man of Duluth, Minn., has invested in 25,000 acres of Umber land in Tillsmook County, and siso in large tracts in Washington. He therefore feels confident that within a few years some of the large shipbuild-ing firms of Bath, Me., will move their plants to the Coast. He thinks it would require but little effort to induce some of these concerns to come here now and e Oregon matérials and Oregon labor in e building of wooden sailing vessels. ## METHODIST CAMPMEETING.

Annual Event of Moscow District Being Held at Colfax.

COLFAX, Wash., June 25.-The Mos-cow District Methodist Episcopal camp-meeting is fairly under way. The meeting opened June 20, and will continue over Sunday at the grounds of the church, six miles east of Colfax. Cold and unfavorable weather, together with attractions in the near-by country, have so far served to diminish the attendance, but as the meetings draw to a close the crowds will swell. If the last day is a bright one, 5000 people at least are expected. The grounds where the meetings are being held were recently purchased by the church for \$20, and \$500 has been spent in improvements. They will be still further improved, year by year. The meetings are in charge of Rev.

Charles E. Gibson, presiding elder of the district, assisted by Rev. G. M. Booth, of Moscow, Idaho. Other minis-ters present and aiding in the work are: Rev. O. W. Minizer, of Pullman, Wash.; Rev. John W. Flesher, of Colfax; Rev. W. C. Evans, of Oakesdale; Rev. T. C. the form of onplism to the neglect of Rev. O. W. NEW INTEREST TAKEN IN INSTI-TUTE AT SALEM.

State Superintendent Ackerman and Superintendent Robinson, of Multnomah, Principal Speakers.

SALEM, Or., June 25 .- The second day's session of the Marion County teachers' institute opened with a greatly increased attendance, 170 teachers being present. It noticeable that the plan of holding all the sessions in one room, instead of dividing the teachers into classes, is a good one, and adds in no small degree to the interest and effectiveness of the institute. The teachers attend promptly and remain until the close of each session. Each teacher gets the benefit of all the lectures and each speaker has the advantage of a good-sized audience. The work of the in-stitute partakes more of the nature of

lectures than of individual instruction in the details of the various subjects. Superintendent of Public Instruction Ackerman was not able to be present at the sessions yesterday, as he was away

from the city, working in the effort to bring the National Editorial Association to Portland in 1902. He was present today, however, and gave an instructive explanation of many of the new features of the public school act passed by the last Legislature.

Superintendent Robinson, of Multhomah County, addressed the teachers upon the principle of phonics and upon the subject "2x4-8." In this latter discussion he ll-lustrated many effective uses for this quation in almost all mathematical com-

putations, in which factors are or have een used. At the afternoon session Superintendent Ackerman addressed the teachers upon the

principles of education, basing his remarks upon White's Elements of Pedagogy, the

ext-book in use in Oregon. Superintendent Robinson gave a helpful talk on the teaching of commercial geog-raphy. He had many little schemes for impressing this subject upon the minds of the children. As an illustration of this he said it would take a train of wagons drawn up 26 abreast and extending from Salem to Potrland, to contain all the

wheat that passes through Portland. Mrs. Ellen M. Punnell explained the course of study in English literature for seventh, eighth and ninth grades, as taught at the Monmouth Normal School, In the seventh grade the pupils study the "Alhambra" and "Evangeline"; in the eighth grade, "Evangeline" and the "Mer-chant of Venice"; ninth grade, "American Authors." Mrs. Pennell gave an instruc-tive illustration of the manner of teaching a class in English literature. a he

cers of this section of the country When asked whether Eastern capitalists dil continue to invest in Oregogn timber ands, Mr. Kelliher quoted Howard M. will er de Laittre, vice-president of the Bovey-deLaittre Lumber Company, of Minneap-olis, as saying that since the white pine timber lands in the Northwest are cor-nered, and are practically all in the hands of capitalists, who can and will hold them until they get the price at which they think the lands should sell, the price will never go any lower; and as the opportunity for investing in such lands is prac-signily exhausted, he believed 75 per cent of the money realized from the sale of white plue stumpage in the next few years would be re-invested in other timber lands on the Coast. He estimates that the money realized on white pine stumpage in the Northwest, in the next few years will amount to \$300,000,000 pear year. Mer who have been making from 10 to 50 per cent per annum on their timber-land inrestments will never be content to put their money into bonds or other glit-edge securities, which yield a profit of only 2% to 4 per cent. They will continue to look for timber land investments, and conse-quently the activity in timber-land transactions and in the development of the

actions and in the development of the Jumbering industry will steadily increase. Mr. Kelliber will remain in Oregon about rix weeks to make the formal transfers of some isrge tracts of timber bud he has sold recently, and will then return to the East.

## NENALEM RIVER CHARTER.

Portland Company May Intend to Start a City at Mouth of Stream. ST. HELENS, Or., June 25.-Joseph Gas-ton, president, E. H. Kilham, secretary, and W. T. Webber, surveyor of the New York & Oregon Coal & Timber Com-pany, of Partland, have filed in the office of the County Clerk a map and charter of the Nehalem River and its tributaries within the bounds of Columbia County. The impression is general here that the many has taken out this charter with the intention of starting a city at the mouth of the Nehalem River, and will put in saw mills and shingle mills to work up the raw material as it shall be

floated down the Nehnlem River. The New York and Oregon Conl Com. pany was organized several months be fore the session of the Legislature which enacted the law under which the com-

pany claims the exclusive right to fix rates of toll for logging on the Nehalem River. When first organized, the company was going to build a rallroad into the Nehalem Valley, and sought by variou means to control the timber of the valley even trying to get options to the amount of 50,000 acres, which it promised to buy, Another view is that Mr. Gaston and his company are seeking to control the Nehalem River for their own accommodation and gain,

much as the other denominations, whose members are known to be on the average more wealthy. He admitted that this have some weight as to the Pressecret session of the department encamp-ment of the G. A. R. and W. R. C.. Two byterians and Congregationalists, but said the Methodists are no more able to give

hundred soldiers arrived this morning than the Baptists. To show further that the Baptists are not helping in the spread of the gospel from different parts of the state. The evercises at the camp grounds this as much as are other denominations, he produced other statistics to show that in

contributions per capita and per hundred dollars of church property, the Baptist Church stands ninth 4n the list. These statistics did not please the speaker, and he wanted to know whether Baptists were consistent in permitting eight denominations who were held to be disloyal to the teachings of the gospel to

excel them in the work of spreading that Rev. W. Hopkins, formerly a missionary in India, gave a lively description of the condition of the work in that field. The

afternoon session closed with five-minute addresses by Revs. Palmer, Beaven and Varney. This evening Rev. C. A. Wooddy preached a doctrinal sermon, taking as a

tent "God So Loved the World," etc. A greaf fact, a great act, a great compact vere the three thoughts around which the sermon clustered-a great fact, God loved the world; a great act, God gave his Son; a great compact, that whosoever would believe on him might have eternal life.

The world recognizes the existence and power of God and yearns for his love, said Rev. Mr. Wooddy, but would never have known It if he had not revealed it in this great act; in this act we have the assurance of our salvation

# SVFFERING WOMEN

## Marshall, Texas, Aug. 12, 1900.

I am so grateful to you'for your valuable feedicine. Wine of Cardul. It is wonderful and should be brought to all suffering women. My periods lasted too long. Now they have become regular and have the right color. The pains are not severe and 1 am strong. The blindness has left me. I feel all right and I know your medicine has cured me. CORA ANN GARRETT.

There are many more sick women than there are well ones in this city to-day. The duties which wifehood and motherhood impose too often break the health years before a woman should be past her prime. In thousands of homes every month brings dreadful days spent in suffering the agonies of disordered menses. Nature never intended as necessary and important a function as menstruation to be the cause of pain. We say emphatically and positively that this suffering can be avoided. There is no excuse for racking menstrual pains when Wine of Cardui, the great natural emmenagogue, will bring a quick cure.

# WINE or CARDUI

regulates the menstrual flow perfectly. It not only banishes the pain but forestalls and cures distressing cases of leucorrhoea. Every woman knows the cutting, burning pains of falling of the womb that shoot through the entire body. Wine of Cardui has cured a million such cases. Thedford's Black-Draught is a valuable laxative made to assist Wine of Cardui by regulating the bowels and invigorating the torpid liver. No woman taking Wine of Cardui and Thedford's Black-Draught has failed of a permanent cure of menstrual troubles when the medicines were used according to directions. Read again what Mrs. Garrett wrote. Your druggist sells Wine of Cardui and Thedford's Black-Draught.
