#### COMMERCIAL AND FINANCIAL NEWS

The markets showed no important changes side of the market. That is to say, stocks yesterday. Eggs sustained present quotations had to be bought under the rule to close the much better than it was expected they would, contract, thus creating a forced demand which and although a trifle weak, seemed to be kept up prices. The firm's accounts covered steader than the day before. The market was steadier than the day before. The market was rather active, several dealers being sold out. Receipts have been coming in freely, but as yet not in sufficient quantity for the accumulation of much surplus. Butter is still firm in creamery and weak in store produce. From present indications, the market will probably go well over into July before an advance, for production shows no sign of abatement. Chessis weak and quiet, and will probably decline next week. Young chickens and good bans had a fairly active market yesterday at low prices. Meat quotations are lower, especially those of mutton. Oregon potatoes are weak, ewing to continued easy supply and abundance. go well over into July before an advance, for production shows no sign of abatement. Choose is weak and quiet, and will probably decline next work. Young chickens and good home had a fairly active market yesterday at low prices. Meat quotations are lower, especially those of mutten. Oregon potatoes are weak, owing to continued easy supply and abundance of California product. Strawberries were a Vegetables are in full variety and peas lower. Cherries and Californa fruits rule re lower. Cherries and Californa fruits rule leady. New supply of California fruits and roduce is due to arrive this evening.

The slump in the East yesterday, like the advance of the day previous, falled to awaken any signs of life in the wheat market in this city, and the season is drifting out without any new business reported. Quotations are nominal at about 57 cents for Walia Walia and 58% cents for bluestern, but there is not enough business offering to enable a test of the market to be made. Until port stocks are materially smaller than they now are, there will be but little doing in wheat. No new engagements is ships are reported for Portland, but a new season ship is reported fixed for San Francisco loading at 38s 2d, a slight re-

uction from former rates. Wheat-Walla Walla, export value, 570 per bushel; bluestem, 58%; Valley, nominal. Flour-Rest grades, \$2 9063 40 per burrel;

NEW YORK STOCK MARKET. Anomalous Advance in the General

Level of Prices. NEW YORK, June 28.-A strong advance in rices of stocks on the day of the failure of a important stock exchange house and on day following a failure of a clearing-house bank is an anomaly in Wall street. The ac-tion of the market was the more notable as coming on practically the last day available for the money preparations for the dividend and interest disbursements due on the first of the month, which is Monday next. Stock mar-lest borrowing made on Friday and

most at a standstill.

The expectation among traders was that with
the conclusion of the settlement prices would
sag away again, but after the sales under the
rule had ceased to make their appearance on
the tape the money rate began to yield under
large offerings of loanable funds. Equally significant of the relaxation from the money at uniton of the reinzation from the money sit-uation was the sharp recovery in sterling ex-change and Berlin exchange from their down-ward course of yesterday. The covering move-ment in the last heur was the most active during the day, and resulted in establishing a final level of prices which is quite generally a point or more above last night. The most con-sultance were Alchiego.

point or more above last night. The most conspleuous stocks in the advance were Atchison and St. Paul, which gained 2% each. There were gains of 2 points or over also by Louisville. Erie first preferred, Chicago, Indianapolis & Louisville, Lackawanna. Denver & Rio Grande and Illinois Central, Among the specialties there were gains of 2½ to 3½ by Tennessee Coal, Colorado Fuel, North American, General Electric and American Linseed preferred. A more cheerful situation is reported in Berlin, and was a factor in the strength of the market.

The bond market was quiet, but prices advanced in sympathy with stocks. Total sales. vanced in aympathy with stocks. Total sales \$2,800,000. United States bonds were all un-changed on the jast call,

Foreign Financial News. NEW YORK, June 28.—The Commercial Advertiser's London financial cablegram says: The stock market today was still quiet, but

Fork helped things along by sending buying orders in Atchison and Union Pacific, while Erie shares were heavily bought by a big 70 and condition of the wheat and rye fields of 70 minto speculator. The close was buoyant. The best market observers and authorities believe that a recovery is fairly started. As to the immediae outlook, it is argued that next month's dividends will accelerate the upward movement. Money is in great demand at 3% per cent.

Chicago Grain and Provisions. Chicago Grain and Provisions.

CHICAGO, June 28.—Disappointing cables and excellent crop prospects were the features which caused a weak opening in the wheat market. Early in the session the selling was quite general for both the local and outside accounts. The buying, however, was confined mostly to profit-taking shorts, who bought freely on the decline, buying in their short stuff, and prices railled somewhat. September opened the lower, at 65% 65%, but dropped to 60% on commission selling. On covering to 66% on commission selling. On covering by shorts there was a slight raily, and the close

was %GMc lower, at 00%c.
Corn opened easier on favorable weather and in sympathy with wheat. Reports of poorcrops in Kansas and Nebraska caused a firmer feeling to prevail. September closed unchanged

market, but the price range was narrow. Sep-tember closed a shade lower at 23%@25%c. Wenkoess prevailed in provisions, and the opening was unchanged to 25 to lower. Prices held steady during the day on demand for september lard, which was wanted by commission houses. There was considerable seiling of July ribs by commission houses. September

EUROPEAN WHEAT CROP. Decrease in French and German Yields Will Be Large.

NEW YORK, June 28 .- A special to the Herild from Washington says: Much interest is manifested here in the reports from Paris stating that the shortage in the French wheat crop would probably neces-sitate the importation of at least 30,000,000 bushels this year. France gels wheat from outside, chiefly from the United States and the Argentine Republic, but the duties imposed of erican wheat and flour have been practical-954 bushels, valued at \$12,530,822. In 1602 the exports ruse to \$2,130,488 bushels, valued at \$43,718,633. In 1900 they were 1,237,247 bushels. For 11 months of this fiscal year America has exported only 1,006,011 bushels of wheat to France.

at from \$5 47 to \$5 66 per 220 pounds not to the farmer. Imported wheat sold for \$4 55, duty added. The fact that foreign wheat can be imported during years of French plenty and sold for more than the demestic crop arises largely from the application of a law remitting the duty on wheat made into flour for expect. By imposing a duty on wheat imand interest dishursements due on the first of the month, which is Monday next. Stock market borrowing made on Friday carries over until Monday.

This anomaly in the movement of prices is undoubtedly due, in part, to the fact that the bears were overconfident in their anticipations of the effects of the effects of the failure of the selling that has test in a seasons of pienty, however, French millers continued to import wheat and secure effects of the failure of the Seventh National Hank are now regarded as pretty well distouted to the service of the failure of the selling that has tended to repurchase the stocks sold, in the belief that prices were going to sag still further. New for export. By imposing a duty on wheat im-ported for consumption and remitting the duty

Sugar—Raw, steady; fair refining, 3 9-16c; centrifugal, 96 test, 4 7-32c; molasses sugar, 3 3-16c. Refined, steady; crushed, \$6; pow-dered, \$5 00; granulated, \$5 50. NEW YORK, June 28 .- The Coffee Exchange

will be closed July 5 and 6. Hops at London. LIVERPOOL, June 28-Hope at London-Pa-cific Coast, steady, 14 4eff4 16s.

Cotton. NEW YORK, June 28.—Cotton—Futures at the close were steady but 387 points lower.

METAL AND MINERAL OUTPUT Full Estimates for the United States Last Year.

NEW YORK, June 28.-The Engineering and Mining Journal, in its issue today, published the full estimates of metal and mineral output for the United States in 1900. The table shows that the total value at the place of production of the output was \$1.365,608,583, as compared with \$1.218,216,637 in 1899, a gain of \$147,393,945 for the year.

Of these vast sums, which are without precedent in the history of the mineral industry, ores and minerals contributed \$672,000,416 in 1900 and \$587,583,798 in 1899; metals, \$524,432,533 in 1900 and \$496,067,320 in 1899; secondary products, \$72,720,835 in 1900 and \$64,416,979 in 1899, while the value of metals melted or refined from foreign material was \$53,568,598 in 1900 and \$70,471 material was \$56,364,939 in 1900 and \$70,471, 549 in 1839. The chief item of our great mineral

production, in quantity, value and economic importance, was coal, with the production in 1900 of 268,315.431 short tons, an increase of 16,210,044 tons, or 6 per cent over 1899.

Pig iron was second in order of val-

ues, as well as in economic choice. The total in 1900 was 13,533.265 long tone, with an approximate value of \$273,119,322. It is these two products, coal and iron, which we produce more abundantly and more cheaply than any other country in the world, that are giving the United States the economic leadership in the world and will enable the nation to hold that place. In point of value copper comes third on the list, its production last year being 600,832,506 pounds, with a value of \$97.756. 449. The increase over 1899 was compar-

atively small.
Gold holds only the fifth place, with a total value of \$75,150,674—less than one-fourth of the value of coal, or one-third of that of pig-iron. It was nearly ap-proached in value by petroleum, with a total of \$74,385,582; and was exceeded by the clay products, with a total of \$75,704,-

# Downing, Hopkins & Co.

WHEAT AND STOCK BROKERS

Room 4, Ground Floor

Chamber of Commerce

Few people would suppose that the varied clay products-brick, tile, pipe and the like-exceeded in their total values that of our large output of gold, but such is the fact.

The production of silver had a market value of only \$35,756,900.

Foreclosing on Flour Mills. NEW YORK, June 28.-The Journal of

Commerce says:
"Decrea of foreclosure on the mills of the United States Flour Milling Company have now been entered in all states and districts with the exception of the south-ern district of New York, where a decree weeks before the various plants can be turned over to the Standard Milling Company, the successor corporation. In the case of the Hecker-Jones-Jewell Milling Company, which is also in the hands of a receiver, a foreclosure will not be necessary, because that company is in a solvent condition and it is expected that the receiver will be discharged atan early

SPRINGFIELD, Mo., June 28 .- Tennes see officers who practically kidnapped Hugh Matthews, a wealthy machinist, and J. W., Hill, his chief assistant, at Kansas City last night, were served here today with a writ of haheas corpus. At several points along the line efforts were made to serve the writs, but they were un-successful until Springfield was reached. Mr. Matthews says that Mr. Hill, as his agent, met Henry A. Klyce, of Dyersburg at South Stillwater, Minn. Klyce, pur chased an engine there for a mill in Dy ersburg, and Hill put the engine up, Klyce, he says, refused to pay Hill for his services, and Hill concealed one of the engine's important valves. Upon hearing of Hill's action, Matthews says.

missing piece of machinery, and Hill had done so. Klyce, in turn, charged the men with stealing a part of the engine. Judge Neville, of the Circuit Court, released the prisoners without bond on their promise to appear in court tomorrow. The guard placed over the two men was dispense with. Mr Matthews bays the arrest is case of spite work.

LONDON, Ky., June 28.-Henry Barrett, when driving last night on a road near Sexton's Creek, met Henry Turner, Will liam Turner, Sr., and his nephew, William Turner, Jr. A fight occurred in which will be entered July 1. It will then be revolvers were used freely, and when necessary to advertise the sale of the properties so that it will probably be six dead with three bullets in his body, and the Turners were unhurt,
