1900, is set down at \$27,765,100. This, ac-cording to the War Department's statement, was the greatest importation for a single year in the history of the archipelago. In 1899 the imports amounted to \$20,440,074 in value, thus showing an in anted to crease of nearly 36 per cent in favor of 1900. The approximate value of imports into the Philippine Islands for 1895 was \$7,915,600, for 1896 \$9,292,500, and for 1897 85,120,000. During the four years 1887-1891 the average annual value of imports from the United States amounted to \$129,from the United States amounted to \$130,-552, during the five years 1802-56 the aver-age annual imports amounted to \$138,228, in 1809 the imports were \$1,357,634, and in 1900 \$2,153,138. The total imports from China and Hong Kong for 1909 amounted to \$3,535,443, and for 1809 \$5,661,535. It has been shown as research the sta-It has been shown, as regards the sta-tistics of imports into the islands, from the United States, that they do not in-

clude a large amount of merchandise that is imported indirectly, including such staples as wheat, flour, meat products, common manufactures and many other articles. A large proportion of this trade is recorded as imports from Hong Kong, which are undoubtedly re-exported from that port to the islands. The imports from the United States di-

rect for 1500 show an increase of \$800.384 over those of 1805, while the imports from Hong Kong in 1900 show a material de-crease from the estimated figures of 1809. This would indicate that as the shipping facilities in Manila Harbor are being im-proved direct abiuments to Manila are proved, direct shipments to Manila are increasing, and there is a corresponding increasing, and there is a corresponding decrease in the re-exportation of mer-chandise from Hong Kong to the Phil-ippines. The imports into the Philip-pines from the United States direct in 1990 of 25 1960 show an increase over 1899 of 50 per cent. The total value of merchandise, gold

and silver exported from the Philippines during the calendar year 1900 amounted to \$55,731,463, against \$15,773,386 for 1869, and an average from 1890 to 1894 of 130.536,961. The exports to the United States in-creased from \$4,040,355 in 1899 to \$6,968,881 in 1900

City Full of Soldiers and Officers Returning Home.

TIEN TSIN, June 30 .- The City of Tien Tsin is now more crowded than ever. Officers of all nations are here en route for their homes, and the hotels are placing cots in every available place. Apart-ments have been prepared at the Uni-versity of Tien Tsin for Prince Chuan versity of Tien Tsin for Prince Chuan and his suite of 40, who will remain there for three days before leaving for Ger-many to make formal apology for the murder of Baron von Ketteler. Mr. Denby, who, when the foreign troops arrived, was appointed by the Chi-nese Merchants' Company to protect its property, says the company, in its claim against the United States Government, did not use the word "loot" against the against the United States Government, did not use the word "loot" against the marines, but merely held them responsi-ble. The greater part of the company's property consisted of rice, which was af-terwards distributed under orders from the British and American Generals to assist those in need. Mr. Denby thinks the company's claim should have been added to the indemnity as legitimate ex-penditure. Other merchants say the com-pany never had 300,000 tasks' worth of property here. It is pointed out that the company stored three boxes of valuables with the chartered bank before the trou-ble began and did nor withdraw these until October, and that, consequently, it is quite improbable any jewels were left quite improbable any jewels were left

OPENING OF TACHTING SEASON.

Constitution and Columbia Will Bace at Newport Today.

NEWPORT, R. I. June 30.-The racht-ing season for the big 30-footers, and also the first of the runing-up races of the in-tended cup-defender Constitution, will begin tomorrow with a 30-mile race between the new Herreshoff production and the champion of 1839, the Columbia. The start will be made at 11 o'clock. A large fleet of yachts is clustered about the racers, and will go out for the sport to-morrow. That the race will be an inter. esting one is acknowledged on every hand. While Mr. Herreshoff has un-doubtedly made many improvements in the Constitution, the great speed and all-around ability of the Columbia make her still a great favorite among many who have been work to this port two wetks ago saw her work in this port two weeks ago and because of her superiority over the Shamrock in the cup races. Another element of interest is the rivalry between Captain Rhodes, of the Constitution, and Captain Barr, of the Columbia. The start will be made at Brenton's Reef lightship, two miles off Bateman's Point, and can be seen from shore. It is thought the course tomorrow will be 30 miles to the course tomorrow will be or hints to the windward or leeward. The committee, however, has the option of running the yachts over a triangular course 10 miles on a side. The race tomorrow and that of Wednesday will be under the auspices of Wednesday will be under th of the New York Yacht Club.

MISSION FROM THIBET.

The Lama Is Sending an Envoy to St. Petersburg.

ST. PETERSBURG, June 30 -A special n from the Delai Lama of Thibet to the Emperor is expected to arrive short-ly in Odessa. Speculative politicians have for several months anticipated the arrival of this mission, and have woven it into all sorts of guesswork schemes and plans connected with Russia's advance into Chinese Turkestan and Mongolia. The will of a Moscow millionaire, M. Solodovnikoff, bequeathing princely sums for educational purposes, has just been approved by the courts after a hard legal atruggle. The relatives receive modest al-lowances. The remainder of the estate, estimated at \$10,500,000, is to be used for the establishment of elmentary and pro-fessional schools and the erection of work.

ingmen's dwellings. The Emperor has sanctioned the emis-sion by the Senate of Finland of a loan of 35,000,000 marks, interest not to exceed 4 per cent, to run not exceeding 56 years, Like many another broth, the stew between the Berlin Stock Exchange and the Ruslan Ministry of Finance will probably not be eaten as hot as it was cooked. Local financiers point out that the prac-tical carrying out of M. de Wilte's re-tallatory measures would probably cause as much or more mischief in Russia than

Independence's Fast Sailing. NEW LONDON, Conn., June 30.-That the Independence is possessed of great capabilities was shown today in her run from Vineyard Haven to New London, a distance of 75 miles, in exactly 15 hours, The first 30 miles was a dead beat down Vineyard Sound, but the remaining 55 miles were made in two iong hitches and a short one, the yacht sailing nearly the entire distance under three lower sails and a working topsail. The sea was com-paratively smooth, except from Gayhead to Point Judith, but the yacht met heavy rollers between these two points very eas. ity, showing but little tendency to pound and thrash. The wind avaraged about 10

ties, has adjourned without having on a wage scale. John Mitchell, National president of the miners' organization, left for Indianapolis last night, but will return again July 15, when another attempt will be made to come to an agreement, The conference for district No. 14, including Bates, Barton and Vernon Coun. ties, Missouri, and all of Kansas except Leavenworth County, adjourned after having finally arranged a satisfactory ontract for next year in all of the sub listricts.

Outing Camp for Strikers.

CINCINNATI, O., June 30 .-- The project of an outing camp for the striking machinists will be carried out this week. To-morrow tents and other shelters will be put up in Myers Grove, on the outskirts of Dayton, Ky. The place has been se-cured for the use of the men for the next few weeks as a means of lightening the expense of carrying on the strike, as well as to keep the men all together. The camp will be thoroughly organized and equipped.

The Cash Register Strike.

WASHINGTON. June 38 -- The confernce today between the representatives of the employes of the National Cash Reg ister Company, of Dayton, O., and of the company itself was not entirely satisfactory. The machinists were granted what they asked-nine hours' work at the rate of pay hitherto prevailing, but the pol-ishers, buffers and glassmolders will have to fight for what they demand,

Chicago Woodwovkers May Ge Out. CHICAGO, June 30 -- Woodworkers to the number of 3000, employed in the manufac-ture of bar, store and office fixtures in Chicago, in all probability will be called out on strike Tuesday. The present agree-ment of the union men with the manufacturers expired today. A counter proposition from the manufacturers was re-jected today by the union.
