NEW YORK STOCK MARKET.

Uncertainty Causes Severe Liquida-

tion and Heavy Slumps. NEW YORK, July 10.-With call loan rates NEW YORK, July 10.—With call loan rates reaching to a lower figure it was nevertheless apparent today that uneasliess over the future of the money market was the principal cause of the renewed weakness in stocks. Anxioty on this point was somewhat relieved yesterday by the indications that July disburnements were beginning to come again into the market, but it was revived today by the engagement for export of \$150,000 in gold. Liquidation was in large volume during tha latter part of the day and seemed to come from all quarters. The selling by commission houses reflected the outside public's share in the movement.

The larger part of the dealings and the most per cent. baul, Rock Island, A'chison, Union Pacific, LONDON, July 10.—Atchison, 84%; Canadian

Testerday's market was featureless though trade in both retail and wholesale lines is reported as good, and nearly all stocks are moving quite freely. The reduction in Lion collect holds, but otherwise groceries are mormal and in good demand. Two carleads of Arbuckle's coffee were received this morning from New York. Trade in meats is better than last week, but there are no visible or probable changes in prices. Provisions are unchanged.

Fruits are going well, especially the fresh home products, while the warmer weather may bettered the demand for lemone. Oranges are scarfer, most dealers taking the opportunity to work off old stocks, while bananas.

that money conditions they are better again. that money conditions might be worse before they are better again.

The gold export was the most important factor in causing this feeling. The fact that interior banks are already feeling the demand for money from the agricultural centers is an indication that that demand on New York will come unusually early this year. A possible source of relief was by imports of gold from abroad, and foreign money markets have calculated upon supplying gold for such a movement. An outward movement of gold after the July settlements abroad and when exchange bills against future payments on grain are already in large supply in the New York market comes as a shock. Probably the unsettled financial conditions in Germany explain the movement, which must be a special one, although the plans of the Austro-Hungarian government to attract gold for currency purposes may have its part.

The announcement of the engagement found the market well above last night's level on a continuance of yesterday's recovery, but liquidation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation set in at once and was continued in undentation at once and was continued in undentation and and an administration and an administration and an administration and an a

dation set in at once and was continued in in-creasing volume until the close, which was active and weak, at about the lowest. DESCRIPTION.

outs, as promising better results to buyers under existing hot weather conditions. The demand was mostly by shorts, while commission houses were the sellers. September opened \$65% higher, at 64%664%c, and advanced steadily, closing %c higher, at 64%c, the high results of the day. point of the day.

Exceedingly hot temperature over a large section of the country created excitement in the corn pit at the opening. There was an enormous demand, both local and on outside rders, as scarcely any corn was on the mar ket, and what was for sale was held by thos waiting to take profits. Heavy realising on the advance caused a sharp decline, but on renewed buying prices rallied again. Septem-ber corn closed %6% higher, at \$9%c.

GOVERNMENT CROP REPORT.

Improvement in the Condition of Winter and Spring Wheat.

WASHINGTON, July 10.—Preliminary turns to the Statistician of the Departmen

WASHINGTON, July 10.—Preliminary returns to the Statistician of the Department of Agriculture on the acreage of corn planted indicate a reduction of about 400,000 acrea, or 50%, 50% of the 22 states having 1,000,000 acres or upward in corn in 1900, 12 show a decrease or 1,200,000 acres, while in the remaining 10 an increase of about 900,000 acres is shown. The average condition of the growing crop is 81.3, as compared with 89.5 on July 1, 1900; 89.5 at the corresponding date in 1809, and a 10-year average of 90.3.

The condition of Winter wheat improved during the rear, being 88.3, on July 1, as compared with 87.5 on Juny 1, 80.8 on July 1, 1900; 65.6 at the corresponding date in 1809 and a 10-year average of 80.2. The average condition of Spring wheat also improved during the month, being 95.6 on July 1, as compared with 92.0 one month ago 95.2 on July 1, 1900; 91.7 at the corresponding date in 1839 and a 10-year average of 85.6. The condition of Spring and Winter wheat combined on July 1 was 21.1, against 69.8 on July 1, 1900, and 70.2 at the corresponding date in 1859. The amount of wheat remaining in the hands of farmers on July 1 is estimated at about 51,000,000 bushels, or the equivalent of 5.85 percent of the crop of 1900.

The average condition of the oat crop is do pfd
S. Rubber com
do pfd
U. S. Steel Co. com
do gfd
U. S. Steel Co. com

83.7 as compared with \$5.3 one month ago; \$5.5 on July I, 1900; 90.0 at the corresponding date in 1899, and a 10-year average of \$7.7 The average condition of barley is \$1.3, as against 91.0 one month ago, 76.3 on July I, 1900; \$2.0 at the corresponding date in 1809, and a 10-year average of \$7.1.

The average condition of Winter rye is \$3.0, as compared with 89.0 on July I, 1900, \$3.3 at the corresponding date in 1899, and a 10-year average of \$6.2. The average condition of Spring rye is 93.3, as compared with 60.1 on July I, 1900, \$9.7 at the corresponding date in 1899, and a 10-year average of \$7.3.

There is an indicated \$7.4 as of \$7.3 as compared with a 10-year average of \$7.3.

Reports on the hay crop use in the main unfavorable, there being a decrease from the condition as reported on the 1st of last mignin in a majority of the more important hay producing states. The condition of pastures has suffered impairment during the month, and in several important states is considerably below the 10-year averages. In some states, however, including California, the pondition is exceleint, being 6 to 8 points above the pros-Poreign Financial News.

NEW TORK, July 10.—The Commercial Advertiser's London financial cablegram says:
The stock market today was much more cheerful than yesterday, but it was rather a reaction from weakness than anything really specifie in the way of improvement. Business was only moderate, save in the American department, which was more active than lately. The strength and buoyancy exhibited in New York yesterday decidedly demoralized the local bears and today there was a fress crop of buils, particularly in Atchison. The Continent was a slight seller only. New York buying gave an early boost to Louisville, which was talked of as going on a 6 per contusts. On the official opening Atchison was sold heavily, causing a flat finish. Louisville & Nashville alone maintaining strength. The weakness was partly due to talk about a western heat wave. ever, including California, the condition is ex-cellent, being 6 to 8 points above the pros-pective yearly average. While there has been a general decline in the condition of apples and peaches as compared with last month, almost every important peach-growing state has the promise of more than an aver-age crop, but in the apple-producing states the crop will be generally poor. The condi-tion of grapes is excellent.

The wool report indicates the average weight per fleece as being 6.15 pounds, as against 6.17 pounds in 1800.

Boston Wool Market Stronger. BOSTON, July 10.-The American Wool and Cotton Reporter will say tomorrow:

The wool market has been less active the past week, the intevention of a holiday, combined with the dull and unfavorable opening at the London auctions, naturally tending to restrict business. Reports received since the opening of the London sales indicate some improvement. The trade is feeding better than

provement. The trade is feeling better than at the beginning of the week under review, and this feeling has been greatly strengthened by the tenor of the reports from the oods market.

Another fact which has also tended to impart strength to the market is the continued firm

medium stock is reported to have sold at 14c. Indications are that wools will be cleaned up as thoroughly in Montans as they were in Idaho and as they have been in most of the The sales for the week in Boston amounted

to 3.670,000 pounds demostic and 212,200 pounds foreign, making a total of 3,882,700 pounds against a total of 6,195,000 for the previous week and a total of 1,318,000 pounds for the corresponding week last year.

The sales since January 1 amounted to 114.802,000 pounds, against 70,272,800 pounds for
the corresponding time last year.

The Motal Market.

NEW YORK, July 10.-The feature of the metal market today was the heavy decline of fil2 in the price of spot tin in London, the closing figures being £128. Futures declined £2 to £118 5s. This great break in prices for spot tin was due, it is said, to the miscalculation of the clique as to the necessities of spo buyers. There was no demand for spot the.
The local market was influenced to some extent
by the break abroad, and the spot price at
New York was marked down 75 points, with the closing price standing at \$27 25@27 75, and the tone was weak at the close. Copper was inactive here, but nominally un-changed, with Lake quoted at \$17 and casting at \$16 624. The London market was 3s bd better, closing with spot at \$65 and futures at

Lead in New York was dull and unchanged, with \$4 374 quoted, while London was is 3d lower, at \$12 5s. lower, at £12 5s.

Pig-iron warrants, quiet, \$9 50@10. The English markets were duil, with Glasgow closing at 51s and Middleeboro at 44s ½d.

Spelter, dull and unchanged at \$3 90@3 55.

Bar sliver, 58%c. SAN FRANCISCO, July 10 .- Bar silver, 58%c

LONDON, July 10 .- Bar silver, dull, 26 15-16d

LONDON, July 10.—The offerings at the wool auction sales today numbered 14,173 bales. American buyers purchased a fair share of superior merines, including New South Wates, Victoria and Tasmanian greasy. A fair supply of scoureds and cross-breds sold readily. Faikland Islands and Punta Arenas were in tale demand at unchanged prices. each month, Earnings 5 to 10 tin savings banks, Investment, to 10 tin fair demand at unchanged prices.

NEW YORK, July 10 - The directors of the Cieveland, Cineinnati, Chicago & St. Louis Railroad Company have declared a semi-annual dividend of 2 per cent on its common stock, an increase of ½ of 1 per cent, as compared with the last dividend.

Increased Dividends.

Coffee and Sugar, NEW YORK, July 10.—Coffee — Options closed steady and unchanged to 5 points lower; sales, 5500 hags, including September at \$5.05; October, \$5.10; November, \$5.15; December, \$5.30; January, \$5.35; July, \$5.55. Spot, Rio.

The Silence of the Too Few.

New York Times. In their Fourth of July address to the American people the Anti-Imperialistic Leagues say that they "have been slient since the Presidential election"; also that "where Benjamin Harrison nobly led too few have followed."

This implies either that the anti-im-perialistic gentlemen are fighting windmills or that the rest of the American people are sunk in a slothful and revolt-ing complacency, going about their ordi-nary concerns with shocking calmness, freedom shrieks and their country is in danger.

A perusal of the anti-imperialist address confirms our confidence in the peo-ple and establishes the theory of the windmills. It also explains why too few have followed. The decisions of the Su-preme Court, the establishment of civil government in the Philippines, and the wise and prudent measures by which the way is prepared for the establishment of the independent Cuban Republic had fore-stalled the criticisms and complaints of anti-imperialism and left it nothing to say to which open and sensible minds will give attention. The settlement of all the questions arising out of the new responsibilities is in the hands of the American people. The people are neither foolish nor incapable. The present basis of anti-imperialism is the rooted belief that they are foolish and incapable.

Our Barbarous Fourth.

Chicago Record-Herald. The mortality list of the glorious Fourth is not complete yet, but it is large enough and to spare, while the record of injuries mounts up well toward 2000. The celebration throughout the country was as usual a murderous and a barbarous affair, compounded of minor hurts and fatalities and n hideous noise and racket. From the Chinese, who are civilized in many respects, we again borrowed the most de-testable of their institutions and again

Persons suffering from sick headache, dizziness, nausea, constipation, pain in the side, are asked to try one vial of Carter's Little Liver Pills. TRAVELERS' GUIDE.
