### PLANS ARE MATURING

#### COMMITTEE ON 1901 CARNIVAL GETS DOWN TO WORK.

Athletic Amusements on Extensive Scale Are Projected—Headquarters to Be Opened Today.

The general committee for the 1901 carnival held a meeting last night. Probably the most important matter discussed was that of athletic amusements. While no definite plans were agreed upon, the committee on amusements was instructed to hold a meeting with the special committee appointed by the Multnomah Club with a view to preparing an athletic programme.

It is probable that a championship athletic meet will be held on the Multnomah grounds during the carnival, but this will not by any means be the most interesting feature of the athletic end of the carnival. Several members of the last night's meeting discussed the proposition of having a football game under electric light, and an indoor baseball game, as well as a game of war, wrestling and sparring matches. This matter will be fully discussed at the meeting of the amusement committee to be held next Tuesday night.

The various soliciting committees for the guarantee fund made a partial report last night. Over \$10,000 has already been subscribed, and the intention is to bring this amount up to the full \$15,000 before the meeting of the general committee next Wednesday night, at which time it is hoped to close up the soliciting part of the work.

The secretary was instructed to rent rooms 224 and 226, Chamber of Commerce building, for headquarters for the general committee. This will be done today, and by this afternoon the headquarters will be fully established and open.

It is probable that at the meeting of the general committee next Wednesday night a superintendent for the last night's department of the carnival will be selected. Several applications for the position have been filed.

At next Wednesday's meeting also it is hoped that the amusement committee, of which John F. Cordray is chairman, will be able to present a general outline of the amusements and specialty features of the carnival. While a detailed report of this kind cannot be presented by that time, sufficient data can be given to enable the committee on advertising to issue and circulate some preliminary posters. It is intended to advertise the carnival as far as Western Montana and into California and Utah.

No definite steps have yet been taken in regard to the competitive military drill. This matter will be taken up very shortly, however. The aim is to hang up a prize of sufficient magnitude to enable any military organization in the Northwest to compete for it.

### WILL TRY TO PREVENT SALE

Columbia County's Sheriff Will Sell Property for Taxes.

Lawyer John F. Logan leaves today for St. Helens, Columbia County, to try to prevent the authorities from selling property owned by his clients, heretofore bid in by the county for taxes, to which it has acquired title under the provisions of the tax redemption law. Mr. Logan holds that the Columbia County authorities are acting prematurely in trying to dispose of such property at the present time.

"The law reads that on the first Monday after the first of July the Sheriffs of counties shall proceed to sell such property," went on Mr. Logan. "Now, the Columbia County authorities began in June to advertise the sale of property in their county, so as to be able, as they construe the law, to begin to sell early

In July. The Sheriffs of Multnomah and Clatsop counties have not proceeded in such fashion. In Multnomah County, such properties are to be advertised for sale the present month. Sales will take place in August.

In this connection it is understood that the Clatsop County authorities are not to avail themselves of the provisions of this law, and that if the question is taken into court a defense will be made that the law is unconstitutional.

### MAYOR ROWE BREAKS GROUND

Site Where 1000 Will Be Made Woodmen on August 3.

Fully 2500 Woodmen and "Woodwomen" went out to Mount Tabor last night to see Mayor Rowe break ground where on August 3, 1901, 1000 men will be conducted through the mysteries of perfected woodcraft. The two cars which had been reserved for the Mayor, the orator, J. M. Long, and the committee, left Third and Yamhill streets at 7:30. They were decorated with patriotic colors, flowers and evergreen and presented a beautiful appearance. A band of 50 pieces discoursed music along the route.

On arriving at the hill the party proceeded to the place selected for the ceremonies. George K. Rogers, secretary of the executive committee, presided, acted as chairman of the meeting. He introduced Mayor Rowe, who, after a short talk, eulogizing fraternal orders, in general, stated the origin and development of the Woodmen of the World was best expressed by the fact that his son was a Woodman on his recommendation. The Mayor then grasped the axe with which he had been specially selected and inscribed for the occasion, and, like a true knight of the shovel drove it deep into the earth, bringing up a goodly sheaf of ferns and mosses.

City Attorney J. M. Long was next introduced. Mr. Long is eloquent at all times, and was especially so on this occasion. His address between the forest, "God's first temple," and symbolic woodcraft, were very happy, and he was greeted with words of applause. He stated the origin and development of fraternalism and told of its benefits to mankind. The bulwark of the country, today, he said, is fraternalism. The numerous organizations, present at the home, make better citizens and teach their members to look to the future.

At the close of the oration, refreshments were served. The spot in the ravine selected for the great initiation proved to be all that has been claimed for it, and it will be an inspiring sight to witness the 1000 neophytes go through the ceremonies of the order, with the aides and end of the ravine filled with 10,000 Woodmen onlookers.

### ARSON IS CHARGED.

E. J. Redman Arrested for Firing Great-Street House.

On hearing that there was a warrant out for the arrest, charged with setting fire to the house at 289 Great street, E. J. Redman, colored, called yesterday at the police station and surrendered himself. He was locked up. The warrant for Redman's arrest was issued on the complaint of his father-in-law, Rueben Crawford, a ship caulker, who states that Redman committed arson in setting fire to the Crawford residence, 289 Great street, last Monday morning. The fire caused small damage. In conversation with an Oregonian man last night Redman stated "I am a waiter by trade, and I work for the Northern Pacific Railroad Company. The action of Crawford in getting me arrested is just spite work. I married his daughter, and she and I have not been together for three months, but she sent me letters all the time I worked on the cars, and there is no trouble between us. Last Monday I was not in the neighborhood of 289 Great street. I was then in my own room on Ninth street, and don't know anything about the fire.

Window Shades made to order here. Lowest prices.

Lowest prices on Table Linen, Napkins, Bed Spreads, Towels, Sheets and Pillow Cases.

### LISTING ALL BACK TAXES

#### WORK WILL BE COMPLETED BY AUGUST 1.

Then Delinquents Can Make Good Their Promises to Pay—The Taxes for 1899.

The County Clerk is still engaged in collecting back taxes, as the sale of property by the Sheriff under the new law will not occur until the beginning of August. The delay is because the list of property which is now being prepared will not be finished before that time. This list will bring the delinquent taxes against property for the years 1898 to 1899, inclusive, up to date. When this has been accomplished it will be possible to tell at a glance just how much back taxes are against any piece of property. Many people have not heretofore paid such taxes for the reason that they do not know how much they owe, and the Clerk cannot tell them without searching through the old rolls covering years past. This would sometimes have involved days of labor. They have promised in many instances to settle up when the work now in hand has been completed. Many persons, for example, owe back taxes on long lists of property, and it is no easy task for the deputies in the County Clerk's office to ascertain the amount due, taking in a period of 8 or 10 years, on a long list of property. The rolls since 1895 are in better shape, the property being assessed by description instead of to the name of the owner, and are much more readily gone through. The taxes are being brought forward only to include the year 1898, as under the law the sale covers only property heretofore bid in by the county, to which the county has acquired title, and property for the year 1899 is the last to be included. His stipulations between the forest, "God's first temple," and symbolic woodcraft, were very happy, and he was greeted with words of applause. He stated the origin and development of fraternalism and told of its benefits to mankind. The bulwark of the country, today, he said, is fraternalism. The numerous organizations, present at the home, make better citizens and teach their members to look to the future.

At the close of the oration, refreshments were served. The spot in the ravine selected for the great initiation proved to be all that has been claimed for it, and it will be an inspiring sight to witness the 1000 neophytes go through the ceremonies of the order, with the aides and end of the ravine filled with 10,000 Woodmen onlookers.
