

REAFFIRMED: THE STATUS OF THE ASSOCIATION DECLARED FOR NATIONAL UNIVERSITY.

Dr. William M. Bearshar, of Iowa, Was Elected President for Examining Year—Department Meetings.

DETROIT, July 11.—The National Educational Association today reaffirmed its resolution for a National University at Washington, to be supported by the Government. After taking this action, the Association adjourned for the summer recess.

At the opening of the business session, despite strong opposition on the part of those who were opposed to the resolution, the Association accepted the resolution reaffirming its former declaration in favor of such a university. The resolution, which was adopted by a vote of 1,000 to 100, was as follows:

"Resolved, That this association hereby reaffirms its former declaration in favor of the establishment by the National Government of a National University devoted not to collegiate, but to true university work."

Dr. H. H. Butler, of New York, moved that it be laid on the table. This motion was voted down overwhelmingly and the original resolution adopted.

The report of the committee on nominations, which named Dr. Bearshar for president and Mr. Keyes for treasurer, was adopted, and Dr. Bearshar was invited to deliver the address at the opening of the session.

The afternoon was occupied by meetings of 12 departments. In the department of art education, Frederick W. Coburn, of New York, read the paper of the afternoon on the "Economic Value of Art Education."

Following the president's address in the department of business education, I. O. Crissy, of Albany, N. Y., read a paper on "Business Education." He said: "The term 'business education' has many meanings. In a broad sense, any and all education that will aid one in business, either in planning and transacting it or in recording it when transacted, is business education."

SCIENTIFIC STUDY. The teacher must look beyond the mere facts of a subject to the true content that furnishes the reason for its introduction into the curriculum.

WYOMING WOOLGROWERS MET. President Springer's Optimistic View of Livestock Industry.

DOUGLASS, Wyo., July 11.—Today's session of the Eastern Wyoming Woolgrowers' convention was occupied with addresses by Governor Richards, President Springer, of the National Livestock Association, Professors Foster and Nelson, of the University of Wyoming, and Secretary Snow, of the State Board of Sheep Commissioners, Hon. B. B. Brooks, Hon. C. W. Burdick and others.

President Springer took an optimistic view of the livestock industry, which was never in a more prosperous condition than now. He urged the election of members to Congress who will be favorable to the growth of livestock. He said that Secretary of Agriculture Wilson had acceded to the wish of the association and would maintain a livestock bureau in the department to be gathered semi-annually. He also said that the association would urge the passage of a bill at the next session of Congress which would authorize the tagging all clothing so as to show the percentage of shoddy material.

Governor Richards showed that it is not profitable to raise sheep and cattle together, but it is also more profitable than conducting the two industries separately. He said that the idea that sheep raising is a profitable business in Wyoming instances where sheep grazing had improved the range 50 per cent.

OHIO BAR ASSOCIATION. Judge Day Spoke on Our Place in the International Family.

PUT-IN-BAY, O., July 11.—The Hon. William R. Day, ex-Secretary of State, was the principal speaker at the annual meeting of the Ohio Bar Association here today. His subject was "Our Place in the International Family," and he said: "The United States is now regarded as a world power, and it is one of the world's problems, in which she is interested. Nothing can be better settled than the purpose of the American people to maintain the Monroe doctrine in its true interpretation, as preventing the imposition of monarchical government upon unwilling Americans or the further extension of European control over the American soil. That our relations to the outside world will be extended, and opportunity for trade and commerce greatly advanced, cannot be doubted. This new touch with the affairs of the world brings new opportunities and involves new responsibilities. We must prepare for the growth of the United States in a manner creditable to our traditions."

Convention of Universalists. ROCHESTER, N. Y., July 11.—Two thousand delegates from various parts of the world are attending the annual convention of the Universalist denomination at Rochester, N. Y. The convention opened today. The morning session was devoted in character to the report of the executive board, which contains the following recommendations: "That a union at large without representation be created; that the unions be urged to contribute to the permanent mission of the Universalist denomination; that the adoption of one of the amendments now pending regarding delegates to the annual convention; that the executive board be authorized to make such statement or settlement as may seem to it just and right with the several states delinquent in the matter of assessment, except that such statement or settlement shall not apply to its assessment levied for the year 1900-1."

Trans-Mississippi Congress. CRIPPLE CREEK, Colo., July 11.—Delegates to the 13th session of the Trans-Mississippi Congress, which will meet in this city Tuesday night, are beginning to arrive. All work incident to the congress is completed. Delegates from 15 states and 10 foreign countries will be the largest in the history of the congress. Among the Governors who will be present to represent their states are: of Kansas, Jenkins; of Oklahoma, Sawyer; of Texas, Murphy; of Arizona, Orman; of Colorado, and Van Sant of Minnesota. A number of Senators and Congressmen will also be present. The cities in the contest for the next place of holding the meeting are New Orleans, Oklahoma City, Minneapolis and Seattle.

It Was Drummers' Day. BUFFALO, N. Y., July 11.—This was Commercial Travelers' day at the Pan-American Exposition. There was a parade this morning, and the drummers, who were marching in line with numerous bands of music.

TURNED THE HOSE ON THEM. Evanston Authorities Dispersed a Meeting of Dowiettes.

CHICAGO, July 11.—Followers of John Alexander Dowie attempted to hold another meeting at Evanston, Ill., today, but were roughly handled. In addition to being pelted with eggs and decayed vegetables, they were drenched with a four-foot stream of water from a fire hydrant. The fire engine then turned the hose on them, and they were dispersed with police force. They, however, stubbornly stood their ground in the face of a police charge. Before the train pulled out, a crowd of Dowiettes, and women and men were thrown down and sent rolling in the mud. Elder Piper and 29 of his followers were arrested, and the others fled in disorderly rout from the town.

Corporation Counsel Paden, of Evanston, upon whose advice Mayor Patten acted, held the meeting those he turned upon the "Dowiettes," said: "The 'Dowiettes' were arrested not because they came here to preach, but because they blocked one of the streets with their meeting house, and refused to move on when told to do so. They clearly violated a city ordinance."

Following is a list of those seriously injured during the melee: Overseer J. G. Speiser, on the shoulder; W. O. Demius, head cut; Elizabeth Van Horn, back injured; F. F. Morris, cut over the eye; Carloline Hartman, cut over eye and shoulder; Missed; P. Graves, face cut; O. C. Kibby, cut about the head; Norris Van Horn, badly hurt from blows on the head and shoulders; Mrs. Jennie Plank, back and shoulders hurt.

Increasing the Interest. PHILADELPHIA, July 11.—The City Council today passed an amended ordinance increasing the interest on the \$2,000,000 loan to improve the water supply. The only objection to the measure, which is likely to be very different from what they would be if it were believed that the knowledge of a few animal forms or a few experiments in physics were the purpose of

SHOT DOWN A NATIVE

LIEUTENANT BROWN ON TRIAL AT MANILA FOR MURDER.

Commander Schroeder Modifies His Criticism of the Marines at Guam—A Philippine Scout Order.

MANILA, July 11.—The trial of Lieutenant Brown, of the Second Infantry, charged with murdering, near Binangonan, Infanta Province, a native who was suspected of responsibility in the death of soldiers, began today. The soldier was reported to be drowned while a detachment of the Second Infantry was swimming a river under fire. The Lieutenant, at the time of the occurrence, questioned the native and the latter bolted, whereupon Brown shot him dead.

Commander Schroeder, also of the Second Infantry, was called to the stand to testify. He testified that he was present at the scene of the shooting, and that he saw Lieutenant Brown shoot the native. He also testified that he saw the native bolt and that he saw Brown shoot him.

Commander Schroeder also testified that he was present at the scene of the shooting, and that he saw Lieutenant Brown shoot the native. He also testified that he saw the native bolt and that he saw Brown shoot him.

Commander Schroeder also testified that he was present at the scene of the shooting, and that he saw Lieutenant Brown shoot the native. He also testified that he saw the native bolt and that he saw Brown shoot him.

Commander Schroeder also testified that he was present at the scene of the shooting, and that he saw Lieutenant Brown shoot the native. He also testified that he saw the native bolt and that he saw Brown shoot him.

INCREASING THE ARTILLERY.

Promotion of Several Officers Is the Result.

WASHINGTON, July 11.—An order of the War Department provides for another increase of the artillery under the last fiscal year. July 1. The arrangement provides that the increase shall be made as fast as the enlistments are completed.

For convenience, the total increase is divided into sixths. The new order authorizing an increase on the first of this month is for one-sixth, amounting to about 1800 men. As the increase is made in the number of enlisted men, there is also an increase in the number of officers, which results in promotions of artillery officers now in the service. Under the new order, the following promotions will occur all advancing one grade: Lieutenant-Colonel D. H. Kinzie, to Colonel; Majors G. G. Greenough and S. A. Day, to Lieutenant-Colonels; Cap-

tain Francis H. Fremont, also of the Second Infantry, is being tried for striking a soldier. The court has requested that Captain Wright, now in Washington, be ordered here to testify. As an outgrowth of the ill-feeling existing in some quarters, it developed recently that El Phelps Whitmarsh, the Governor of Benguet, the charges against which will be investigated, had a physical encounter with Secretary Otto Scherer, of that province, who disapproves the Governor's administration.

WASHINGTON, July 11.—The Navy Department has taken no action in the case of Commander Schroeder's criticism of the United States Marines at Guam since Assistant Secretary Hackett wrote him a letter of inquiry about two weeks ago concerning the proclamation he had issued. The first order of the kind relating to the other arms of the service, and from the men appointed from the volunteers and the line. The new batteries to be organized will not be made up fully from the results of the more elaborate, but the older organizations will be divided so that about half of each new organization will be composed of experienced men.

THE ALTON TRAIN WRECK

LIST OF DEAD NOW NUMBERS NINETEEN.

Of the Injured, Five Are Likely to Die—Many of the Victims Were Epworth League Excursionists.

KANSAS CITY, July 11.—Of the 24 persons injured in the Alton wreck who are still in Kansas City hospitals, two are not likely to live through the night, and three others are fatally hurt, but will probably survive until tomorrow. Five of the injured left for their homes this morning. A revised list of the 19 dead follows: Mrs. J. D. Adair, aged 28, Hoopston, Ill.; Mrs. Hulda Hayslip, aged 38, Chenoa, Ill.; Mrs. S. A. D. Harry, aged 60, Hoopston, Ill.; Rev. D. W. Hooker, aged 61, Syracuse, N. Y.; Mabel Ross, aged about 25, Kansas City, Mo.

Of the injured, five are likely to die. Many of the victims were Epworth League excursionists. The wreck occurred on the morning of July 10, when a passenger train from Alton, Ill., to Kansas City, Mo., was derailed by a large stone abutment. The train was wrecked and distorted into one huge mass. The three cars containing the stone were broken to bits, and the railway track obliterated in the pile.

HEAT CAUSED EXPLOSION.

Dynamite Magazine Blew Up, Killing Two Men.

DENVER, July 11.—A magazine of dynamite located near the Grant smelter exploded this morning, killing two men and injuring several others. The dead are: Domenico Muto, 27, and Tony West.

These two men were in the magazine getting a supply of dynamite for blasting when the explosion occurred. They were blown to pieces and the fragments strewn over the prairie for hundreds of yards. The dynamite was in the vicinity were thrown to the ground and stunned. The shock was felt a mile away. All the windows in the neighborhood were shattered. The damage is estimated at \$6000.

Accident at a Glass Works. KOKOMO, Ind., July 11.—The breaking of a glass at the plate glass works here last night inflicted frightful injuries on five of the ten men who were carrying the glass upright from the furnace to the grinding table. The injured are: Herman Meyer, Anthony McAlle, August Gruebe, William Abney and Peter Ryug.

The injured men were employed in preparing slag from the smelter to be used for ballasting on the Burlington & Missouri River. The explosion is believed to have been caused by the terrific heat.

Summer Breakfast Should Be Commenced With Malt Breakfast Food

Satisfying and Comforting.

A partially predigested grain food—one that is easily digested, quickly assimilated, and that yields ample nutriment for the building up of blood and brain tissues is the diet best adapted for a Summer Breakfast.

Malt Breakfast Food has a delicious flavor that is refreshing and invigorating, and that tempers the weakest appetite. Malt Breakfast Food pleases the whole family; it captivates the old and young, the strong and weak. Your grocer has it.

The quantity of ammoniates alone would justify the company in going into the cotton seed oil business, but aside from that it is, when properly conducted, intrinsically a profitable business, and would have the further advantage of placing the company more closely in touch with the fertilizer trade. It is for the purpose of buying up established cotton oil plants, or establishing new ones, that the capital stock of the company is to be increased to \$200,000.
