

SHAMROCK'S FINAL TRIAL

CHALLENGER AGAIN BEAT THE OLD BOAT AT ROTHESAY.

Dismantling of the New Yacht, Preparatory to Her Trip Across the Atlantic; Begun.

ROTHESAY, Firth of Clyde, July 15.—The final racing trial of the two Shamrock today was over a 30-mile course, from Craigmillar to Skelmorlie, thence to Tomon-end, off Largs, and back to the starting point. This course was sailed twice over. A fresh, strong westerly wind from 12 to 15 knots was blowing. The challenger had the best of the maneuvering for position, and led the Shamrock I over the line by about three lengths. The run to Skelmorlie was dead down the wind, and the challenger, rapidly increasing her lead, rounded the first mark at Skelmorlie one minute and 57 seconds ahead of the Shamrock I. On the broad, easy reach to Tomon-end the challenger increased her lead until she was 2 1/2 minutes ahead, when she encountered the westerly wind and the ex-challenger closed up. Turning the Erin, off Tomon-end, the Shamrock II was one minute and 43 seconds ahead.

The boats could have fetched home from this point, but in order to give a turn to windward, the Erin steamed away and laid a new mark off Mount Stewart. The yachts then beat across the firth on short tacks, the challenger gaining on every beat. After a four-mile beat, the two boats rounded the Erin, the Shamrock II two minutes and 20 seconds ahead of the older boat. Reaching the top of the channel, the challenger, outstriking the older boat, and the timing at the turn at Inverkeppel Bay showed a difference of nine minutes in favor of the Shamrock II. The boats then reached for Largs, where the Shamrock II was still nine minutes ahead of the old boat. During the run home from Largs, the Shamrock I experienced a big lull and closed up her distance, maintaining 15 minutes ahead of the Shamrock II. On the last leg, the Shamrock I was helped by a rain squall, which did not touch the challenger and enabled the ex-challenger to close the separating gap. The corrected time of the finish was: Shamrock II, 3 hours, 23 minutes, 5 seconds. Shamrock I, 3 hours, 40 minutes, 45 seconds.

BLUE RIBBON MEETING

GRAND TROTTING CIRCUIT OPENED AT DETROIT.

Star Pugh Won the Chamber of Commerce Stakes—The Great M. & M. Race Will Be Run Today.

DETROIT, July 15.—Perfect weather, splendid racing and a large crowd combined this afternoon to make the thirteenth annual Blue Ribbon meeting of the Detroit Driving Club and the opening of the Grand trotting circuit, on the Grose Point track, a success. The sun was hot enough to bring out all the speed in the horses, and a gentle breeze kept the occupants of the stands comfortable. The feature of the afternoon, the Chamber of Commerce stakes for 2 1/4 class trotters, was won with comparative ease by Star Pugh, a chestnut gelding, bred at Jackson, Mich., and owned by Edgar Bronk of Chicago. Pugh was the favorite in the betting, although there was considerable play on Harry Logan and Plenty, a bay gelding owned by Goodell Bros. of Sioux City. In the first heat Star Pugh took the lead at the start and held it to the wire, with Harry Logan second. Logan got off in the lead in the second heat, but as they turned into the back stretch, Pugh went out in front and stayed there. In the last heat, Pugh led all the way.

The first event of the afternoon, the 2 1/4 class, trotting, was won by the third, four and sixth heats, best time 2:13 1/4. Dr. Book won the first and second heats, best time 2:12 1/4. PRIZE FIGHTS AT BUTTE.

Lafontie Given the Decision Over Barry After Twenty Rounds.

BUTTE, Mont., July 15.—Mose Lafontie, of Butte, was given the decision over Dave Barry, of Canada, in a 20-round go-round. Lafontie was the aggressor almost entirely throughout the fight, and kept playing for Barry's face. Before the fight was half over Barry was spilling blood, and he was apparently not worrying over the punishment. In only one round, the nineteenth, was Barry the aggressor, and then Lafontie met him half way. At the end of the twentieth round the referee, Harry Jones, awarded the fight to Lafontie, the decision being received with satisfaction. In the preliminaries Jack Wade, of Salt Lake, knocked out Jimmy Daly, of San Francisco, in two minutes and 45 seconds. Wade was the aggressor, and the decision over Young Tim, of Butte, in six rounds.

NEGROES AND MEXICANS.

Fetched Battle and Wholesale Killing in New Mexico.

HERSFORD, Tex., July 15.—Word reached here this place today of a regular pitched battle and wholesale killing between two Mexicans and negroes, who are working on the New Rock Island extension in New Mexico, 100 miles west of here. The trouble originated in the killing of a Mexican by a negro some weeks since. The authorities undertook to arrest the assailant, but his friends interfered, and they were obliged to withdraw. Last week some 25 or 30 Mexicans armed themselves with Winchester repeaters and went after the negro. A battle took place, in which 15 negroes were killed outright and several wounded. The casualties among the Mexicans cannot be learned. The trouble occurred at Spencer's railroad camp, near Liberty, N. M., in a sparsely settled portion of the territory, where peace officers are few and the law is not rigidly enforced.

HIS AIM WAS BAD.

Butte Man Narrowly Escaped Being Shot by a Double Murderer.

BUTTE, Mont., July 15.—James W. James, fireman at the Gagnon mine, only missed being a double murderer today through his quickness and good aim. His stepdaughter, Sadie Langren, has been engaged to George W. Schindler for some time. The stepfather has been opposed to the marriage. This morning, while James was at work, the young couple went off and got married. When James returned home this afternoon and heard of it he wanted to talk it over with them and make up. The young couple went to the house of James. After a few friendly words James jumped up excitedly, and drawing his pistol, took two shots at Schindler and his wife. Either his excitement was too great or his aim was too poor. He missed both shots. Before he could shoot again a policeman, who was near by, rushed in and arrested him. The charge will be attempted murder. James had made a mistake, the young couple were in case they married.

Shot by a Game Warden.

DELTA, Colo., July 15.—Deputy Game Warden F. A. McLaughlin, a half-breed Indian, shot and killed W. A. Womack, and fatally wounded L. L. Hinchman, who, it is claimed, resisted arrest when illegally fishing in Grand Mead Lake. McLaughney gave himself up and was taken to the county jail, where he is being held against him among people in the vicinity of the lake is very bitter. For several years there has been friction between the citizens of Delta County and the game warden, who was stationed at the lake to prevent the public from fishing there. The citizens claim that the lake is public land, stocked with fish. William Radcliffe, on the other hand, claims exclusive fishing privileges on an account of stocking the lakes and by virtue of state law, and employed the game warden to protect his rights.

ANNEXED BY RUSSIA.

Official Announcement of the Taking Over of Niu Chwang.

LONDON, July 15.—"The Russian civil administrator here," says a dispatch to the Morning Post from Niu Chwang, dated July 15, "has proclaimed the annexation of Niu Chwang to the Russian Empire. This will be issued on receipt of the official document from Peking. The proclamation declares that all property, real and personal, is to be transferred to the Russian government, and that a tax of 60 cents per month, and all Chinese a poll tax of \$1.50 a month. It will direct that various professions must be denoted by various clothing."

THE QUELPART UPRISING.

It May Lead to Foreign Intervention.

WASHINGTON, July 15.—Full mail reports that reach Washington respecting the recent uprising on the Korean island of Quelpart say that it is not improbable that the appearance on the scene of the trouble of two French gunboats and one Japanese warship may lead to foreign intervention. If the islanders persist in their rebellious attitude it will be difficult for the government to put it down without foreign aid. The French Minister at Seoul reports that the employment of native Catholics to collect excise taxes caused the natives to persecute the Catholics. It is now apparent from reports which have reached the State Department from China that it was solely due to the moderation and humanity exercised by the United States representatives at Peking by the President's direction in the early negotiations for a settlement of the Boxer trouble that a number of innocent lives were saved. These reports also indicate that a more sober and painstaking inquiry has developed the fact that some of the Chinese officials supposed to have been connected with the Boxer outrages, whose names were on the list of capital sentences, have been proved to be entirely innocent of the charges made against them. In many other cases proof has been furnished that the officials with which the Chinese officials were charged were not nearly so grave as was supposed at first by the foreign representatives in Peking. It is regarded here by officials as a very important step in the direction of the Conger and Rockhill moved with deliberation and acted as a restraining influence in the matter of punishment, for not only were lives saved, but, under their influence, the whole list of capital sentences was reduced from 10 to four, and mitigation of other offenses was obtained. The last mail from the East has brought detailed news of the shooting at Peking, which has resulted in a German claim against the United States. The account, which appears in a Japanese newspaper, states that an American sentry had been killed at the western extremity of Legation street, close to where the new American legation is building. That portion of Legation street which had been barricaded and rolled. A barricade had been put up, and Major Robertson had posted a sentry on the spot to warn persons not to ride over the newly-made road, pedestrian traffic being allowed to travel only in German official cars riding along, knocked down both the sentry and the barricade and galloped across the forbidden road. The sentry was killed, and a German shot after the officer, but missed, and the bullet lodged in the leg of a German sentry standing on duty half way down the street. The newspaper states that the sentry was killed, and that the German imprisonment and fined a month's pay, "presumably for hitting the wrong man."

COMPLIED WITH DEMANDS.

China Suspends Examinations for Period of Five Years.

NEW YORK, July 15.—A dispatch from the Washington Herald says that the Chinese have formally complied with the demands of the powers that she suspend "for five years all official examinations in all the cities where foreigners have been massacred." The examinations are to be suspended for a period of five years. Instead of announcing that this is a result of the Imperial edicts, the Chinese government has announced that the Emperor desires to give the students in every province an opportunity to prepare for an entirely new and modern system of examinations. The United States has not agreed to the official looking to the advisability of the foreign Ministers in Peking demanding that a special punishment be administered in the case of the Chinese who were outraged. This government is anxious that the powers should retire from China as promptly as possible. While China has in the terms of the agreement, a number of demands are exceedingly rigorous, and it will be difficult for the Imperial Government to comply with them and at the same time preserve its prestige at home.

Prince Chu at Woo Sung.

SHANGHAI, July 15.—Prince Chu, who left Peking on his way to Berlin to apologize to Emperor Wilhelm for the murder of Baron von Ketteler, the German Minister to China, arrived today at Woo Sung, 15 miles north of here. No official reception was given to him, but he is being against such recognition of Prince Chu. There have been disastrous floods on the Yangtze Kiang River near Hankow, in which hundreds of lives were lost.

To Build Railways in China.

LONDON, July 15.—"A great Belgian, Russian and French syndicate is forming here," says the Brussels correspondent of the Morning Post, "to construct railways in China. It will have a capital of 1,000,000,000 francs."

HARK FROM THE TOMBS.

Here is a Democrat Who Gives His Party Good Advice.

PORTLAND, July 15.—(To the Editor.)—All along the line we hear the distant rattle of the 1902 election in Oregon. There are many possible candidates, with but few probabilities. It is the duty of every citizen in the gift of the dear people. Already the G. O. P. have commenced the printing of pictures of their candidates, in blocks of four for Governor, in blocks of two for State, and a line of five for State Printer, with Graham Glass to hear from. There is another party in which I have a deep interest—to whom I have given my earnest support since the days when Horatio Seymour and Frank P. Blair were the Presidential nominees. Through all these years I have been steadfast in the principles set forth by the National Democratic convention. To me, it appears, we have lost our rudder, and are simply drifting, and with each new commander we have drifted on the rocks of political disappointment, and were shipwrecked. We have allowed our party to be drawn into dangerous channels by indulging too many "isms." We have taken the party in large doses of the Democrats of Oregon have elected a Republican United States Senator, and if there is one of those so-called Democrats who has drifted on the rocks, he is the man who has drifted on the rocks, and he has the best interests of his party by so doing, he will probably be rewarded.

THE A. R. BREMER CO.

Challenges the Citizens of Portland.

A PUBLIC TEST TO BE MADE

And the Result to Be Published in This Paper.

This important challenge is not only to the citizens of Portland, but to the entire civilized world. The public will be interested in the outcome of this investigation to prove the great merits of their already famous discovery. The offer made by the A. R. Bremer Company in their challenge above alluded to is a plainly worded one. They assert that their discovery, Coke Dandruff Cure, will positively cure the most stubborn and common of all troubles, dandruff and falling hair, which 90 per cent of the people are annoyed with. It is thought that the best possible way to publicly determine the merit of Coke Dandruff Cure is to give away to all those interested in this matter a sample bottle, and to have it done in such an open manner that none can question the honesty of the test. A large number of samples have been sent to Woodward, Clarke & Co.'s drug store, Fourth and Washington streets, and will be given out to all those troubled with dandruff, falling hair or any disease of the scalp. Apply today between 8 A. M. and 8 P. M.
