CITY NEWS IN BRIEF

Amusements Tonight. METROPOLITAN THEATER - "The Village

PULLED THE WRONG STRING.—The life of a street-car conductor is not altogether a happy one these days. As he passes through a car collecting fares and issu-ing and collecting transfers he has to pull ropes and ring gongs first with one hand and then with the other to ring up his fares and transfers, and also has to stop and start the car with other ropes and gongs, not exactly 40,000 times a minute, but so often that in pulling all the ropes has agreed like a man playing on ropes he appears like a man playing on a harp of a thousand strings. Yesterday a conductor on the "Steenth-street line played in unusually hard luck. Two n wearing badges, probably dele-to some convention, tendered for their fares some sort of interchangeable transfers. He told them that he could not accept these transfers. "But they were accepted yesterday." urged one of the women. "Yes'm, I know it. I took 10 of them, and the company would not receive them, and I was obliged to pay 50 bents for them." "I'm glad you had to," rather snappishly remarked the second woman. "I suppose so," replied the conwoman. "I suppose so," replied the con-ductor, who was looking much confused, "but as I work for \$2 a day, I could not very well afford it." The women, womanlike, kept arguing the case, and the con-ductor endeavored to explain, and also to keep his temper, till he was quite exhausted, when the women paid their fares and he blew his whistle as a signal for the-car to stop and let them off. At this uncture a stout woman arose and gave me of the ropes overhead two vigorous jerks and rang up two fares on the register. The conductor looked at the register and—well he just simply did nothing, but he looked volumes. BIG SHIPMENT OF CHEESE .- The largest

shipment of cheese arriving here for some time was seen on the Taylor-street wharf yesterday. It consisted of 200 boxes, containing about 65 pounds each, and came up on the Mascot from the factory of the Woodland Dairy Association, on Lewis River. It is to go to Seattle. The cheese from this factory is in great demand, and shipments arrive here frequently, but not such large ones as this. It is wonderful how many kinds of cheese the milk of the innocent cow can be made into-some of them delicious, and others emitting an aroma that sears the olfactory nerves as it passes over them. The Woodland facory is owned and controlled by a num-er of farmers in the vicinity, and they have employed one of the best cheese makers they could find in the East.

GOOD PRICE FOR POTATOES.-New potatoes are coming in by the wagon-load, and farmers are receiving 1 cent a pound, or about \$1.10 per sack, for them. Those who have early ground and market their potatoes at this price will make money. Potatoes at this season are usually about 65 cents per sack, and there is a poss oility that as soon as many begin to dig and haul, the price will go down. It may, however, keep up for a while, as potatoes are very high in San Francisco, owing to the supply which usually comes from Texas at this time of year being cut off on account of the hot weather. It does rain in Oregon occasionally, and if it did not the farmers would be in the same boat with the Texans and others, who have suffered from too much sun and too

CURED A BALKT HORSE.-A balky horse attached to a delivery wagon interested a crowd yesterday for two hours by refusing even to try to draw the wagon up the ncline from the wharf. If the animal could have understood what was said about him, he would have been ashamed and scared, but he did not appear to care what was said or done. Finally a wise man suggested that a rope be tied around his neck and to a wagon, and that he be pulled up the incline in this manner. Some said it was cruelty, but no sooner did the balky brute feel the rope tighten around his throat than he started in a lively manner, and took good care to keep the rope slack all the way up the incline. Doubtless that trick had been played on him before.

SAYS ARREST IS SPITZWORK,—Josephine Bowers, colored, was arrested last night by Detectives Snow and Kerrigan, charged with the larceny of jewelry. Sheriff Cudi-hee, of Seattle, sent a dispatch to Chief McLauchian yesterday asking that Jose-phine be arrested for the larceny of a laphine be arrested for the larceny of a la-dies' hunting-case watch, bearing the initials "N. W.," with a small diamond on the back of the case, and a diamond ring set with four prongs. The prisoner stated that the ring was her property, and that the watch was given and that the watch was given her by a friend. "The arrest is just spitework." she concluded. The police do not know

CRAWFISH NOT SO PLENTIFUL-Crawfish have not been so plentiful this season as usual, many of the streams having been exhausted. A young fellow named Ames is the great craw-fisher of this section, and he has depopu-lated more streams than all others. But there are many streams flowing toward the Willamette and Columbia, and Ames is still in business, is still in business. He arrived from somewhere down the Columbia yesterday with two large boxes containing 100 dozen of the crustaceans, and had no trouble in disposing of them at once,

NOTICE IS TOO SHORT.-B. F. Thels, con-ractor for cement walks, floors, etc., who s now engaged in laying a concrete side-walk on Pine street from First to Front a front of John Brigham's property, yesterday called attention to a modification needed in Councilman Mulkey's ordinance in regard to sidewalks, now before the

Council. He says that a property-owner should not be required to lay a sidewalk within five days after notice is served upon him. He says at least four weeks' time should be allowed, as no man can find a contractor to lay a cement sidewalk at five days' notice. He has orders ahead for three or four weeks, and times are not now like they were a few years ago, when contractors for cement sidewalks had to wait for weeks for a job. Quite a number of cement sidewalks are being laid, and in other places cement curbs are being put in preparatory to laying cement sidewalks by and by. Mr. Mulkey will look into this matter, and, if found adviswill probably extend the time alowed for beginning work after notice has

been served. COUNTY FINANCES IN BETTER SHAPE. At the meeting of the County Commissioners yesterday Commissioner Mack said that \$276,000 tax moneys recently turned over by the Sheriff to the County

Favorable Sentiment in Mount Ta bor and Woodstock, but Strong Opposition in Montavilla.

Woodstock, Mount Tabor and Monta villa residents are interested in possible changes of the city boundary lines that may be made by the Charter Committee, which will bring them into the city. J. C. Havely, a prominent resident of Wood-stock, who with others has made several efforts to get the boundary changed so as to include Woodstock, sald yesterday that it was very desirable that the Woodstock school district, or rather the main portion of it, be brought in as soon as possible. The new line he proposes is Treasurer will be applied to the payment of back warrants, cleaning them up to July of last year. MONUMENT TO CAPTAIN CLARK

How Sloux City Raised Money for the Floyd Shaft.

University Park Sub-Board of Trade, which is promoting a project to raise at University Park a monument to Captain William Clark, of the Lewis and Clark expedition, is in correspondence with John H. Charles, president of the Sloux City, Ia., association which has tavilla, said yesterday that he had made raised a monument to Sergeant William some investigation and believed that the Floyd, the only member of the party that died in the expedition. Mr. Charles writes to W. J. Peddicord, chairman of the monument committee of the University sub- lation in that suburb, but does not think board, telling how the money was raised that the expense would be very great, for the Floyd shaft at Sloux City. He Some one could be found who would act

"I am in receipt of your letter of the 17th of June, and note its contents. It is and serve for small compensation, with a hard task to say just how to proceed to raise the money to build a monument for even so laudable a purpose as the commemoration of the Lewis and Clark expedition. I have just had a little experience in building a monument to the mem. ory of Sergeant Floyd, who was a mem-ber of that expedition, and who died and was buried within the limits of this town. Finally we have succeeded and finished a monument at an expense of about \$20,000 of which the Government of the United States gave us \$5000, the State of Iowa \$5000 more, and the balance we raised by private subscription, largely from the rail-

"My plan, if I were to direct the movement in your case, would be to form an association in the first place, and ask every old settler and pioneer to become a member by subscribing say \$5, or \$1 even; \$5 would be better. Then, after you have secured the grounds, I would suggest that the State of Oregon give you \$5000 to \$10,000, and the balance then, if you needed anything more, you could get from liberal-minded citizens, who would be willing to donate for so laudable a purpose. In our case here, the first thing was to get a donation from the Government of the United States, which we succeeded in getting through our member of Congress, at that time Hon. George D. Perkins. When that was secured the State of Iowa could not get around, with a full treasury, giving us as much as the Government of the United States did, which made \$10,000. The first thing we did was to purchase 22 acres of ground, for which we paid \$1000. This was around the spot where Floyd was originally buried. It is a very sightly place, and our monument, which is an obelisk over 100 feet high, makes a very

good appearance. At present it is not a hard matter to false from \$18,000 to \$20,000, which will be sufficient to buy you a first-rate bronze statue of heroic size, placed on a nice statue of heroic size, placed on a nice platform or base, which I should think would be about what you would want. He is slowly recovering. However, that will depend upon what your ideas are and what your people would expect to build.

"Now I have barely outlined what my ideas would be if the circumstances are favorable, and which you may use if you wish to, or any part of them. I shall be glad to hear from you at all times, and will be pleased to do what I can to help you with advice and suggestions.

A Day on the Columbia Take the Chicago Special from Grand Central depot at 3 A. M., to Cascade Locks, and return by steamer, arriving in Portland at 4:30 P. M.

until we are taken into the city. The Water Committee has very plainly said that no water mains will be laid outside the city limits. I hope Woodstock will be taken in."

At Mount Tabor, district No. 5, senti-ment seems about evenly divided, aithough the general expectation throughout the district is that the territory will soon be taken into the city. Some who have opposed annexation heretofore are now in favor of it. Two lines are proposed. One is along West avenue, but there is vigor-ous objection to this, as it would divide the school district and leave a considerable section without school facilities.

When the district is brought in it will no doubt come in as a whole, and the line will be over the summit of Mount Tabor. Between the present boundary and West t is north of the Base Line road. There is no fire protection. The recent destrucand the narrow escape of other dwellings in the neighborhood at Mount Tabor this week has brought this matter home to residents, and may affect the question of

annexation favorably,
At Montavilla the sentiment is apparently against annexation but the residents are seriously considering the matter of incorporating. C. A. Aylsworth, of Monpeople there favor incorporating and are opposed to annexation. He is of the opin-ion that there should be some police reguas Mayor for the honor, while a City Marshal and Auditor could be residents

DELAYED ONE DAY.

Grand Lodge, A. O. U. W., Did Not Get Through Its Work.

Both grand lodge of A. O. U. W. and of Honor will have sessions today, routine business yesterday taking more time than was expected,

Delay in deciding the Flaherty claims was the cause of very little business being done by the grand lodge at either of its meetings yesterday, and still no decision was reached when the lodge adjourned, late in the afternoon.

Flaherty was a member of Fidelity Lodge, No. 4, in this city, and died about two months ago. The beneficiary named in his case was his mother, but she had died several months previously, and the papers were not changed. On his deathalong the Powell's Valley road to the old bed he named a sister as the one to whom Milwaukie road, thence south to the south line of Woodstock, and thence west to tution of the grand lodge forbids this method, and so an attempt was made to change the organic law, in order to make the payment to the sister legal. How much longer it will take to decide the question does not appear at present. This morning's session will convene at 9:30, and installation of the new grand lodge officers may occur this aftern The contract for publishing the A. O. W. Reporter was awarded to-J. H. Zane whose bid was 14 cents a year, per copy.

Degree of Honor. The Degree of Honor delegates attrib-ute their delay in bringing the business to a close to the difficulty of making themselves heard in the hall, all speeches, motions and resolutions having to be re peated. This delay was noticeable in the election of grand officers, which was not concluded until toward noon. The order lopes to finish its business and adjourn this forenoon. For grand inside watch, Mrs. Hattle McCormac, Mascot, No. 5. Marshville, was chosen; grand outside watch, Mrs. Harriet C. Looney, Fernleaf, No. 43, Jefferson; superior representatives, Mrs. Ollie F. Stevens, Mrs. Minnie Mason, Mrs. M. E. Herrin; alternates, Mrs. Maggie Baker, of Albany; Mrs. Martha A. Armstrong, of Corvallis; Mrs. Maggie Houston, of Junction.

The Albany representatives of the De-gree of Honor sent the newly elected grand master, C. C. Hogue, a bouquet of

Resolutions of condolence were sent to Mrs. Susan Gwilt for the loss of her husband recently; also to Mrs. Sadie Moore, of Prineville, for a similar affliction. An exhibition drill, given at Arion Hall

by the Fidelity and Port-Indus lodges, Degree of Honor, proved to be a very in-teresting and entertaining exercise. Only members of the order were admitted. The procession, which started from Port-Indus Hall, was quite imposing. Preceded by the drum corps of the Manuai Training School, Fidelity was the first to reach the drillroom. Captain Mrs. Electa Maston used the Washington drill, and for the half hour the lodge was on the floor the exercises were very much admired. Port-Indus, led by their captain, Mrs. M. E. Herrin, used the Nebraska driil.

and are a very young team, only being in training since January. They illustrated the poetry of motion. Touching tableaux at the close of the drill represented Char-ity, Hope and Protection. The team sur-prised their audience by forming into the letters "W. B." in honor of the incoming grand chief, Wilda Belknap. Captain Mrs. Herrin was presented with a bouquet of choice roses by the members of Port-In-dus. Mrs. M. W. Briggs was presented with a golden heart and chain, the heart bearing the motto of the order on one side and on the other the inscription: "Presented to M. W. B., by the D. of H., July 17, 1901." Mrs. Stephens, grand chief of honor, made the presentation speech, to which Mrs. Briggs replied in feeling and appropriate words.

Court Notes. A. H. Black, of Myrtle Point, merchant yesterday filed a petition in bankruptcy in the United States Court. His liabili-ties amount to \$19,443 3L. His assets are

Wetzel of Ti the United States Court. His liabilities amount to \$3000. His assets are trifling and are claimed as exempt.

Ed Wilson has filed a suit in the State Circuit Court against Sam Strebein for the recovery of a horse valued at \$150, and \$300 damages. Wilson charges in his complaint that Strebein unlawfully took possession of the animal at Troutdale. and refuses to give it up.

In the matter of the petition to have Gilbert Bros., of Salem, declared bank-rupts, Judge Bellinger, in the United States Court yesterday, overruled the pleas in abatement, motion to strike out, and motion to dismiss the petition. Gil-bert Bros. will now have to appear and show cause why the petition shall not be granted, and their case take the usual course.

The will of Henry Weber, deceased, was admitted to probate in the County Court yesterday. The property, valued at \$3000, is bequeathed to the wife, Rosa H. Weber, and the children, Rosa Agnew. Dora Pinard, Katie Kassebaum, Amelia Perry, Susa Weber, Henry Weber, Neuman Weber. The instrument provides that Mrs. Weber shall have control of the property during her life, except in the event that she marries again. In that case the property is to be divided at once between her and the children in equal parts.

The inventory and appraisement of the estate of Charles P. Bacon, deceased, filed in the County Court yesterday, shows the appraised value of the property to be \$32,757. The personal estate includes \$823, cash, notes and claims. \$3200, and livestock and horses. There are also notes of the face value of \$2000 Dr. E C BROWN MYE AND EAR DISEASES, which are put down as worthless. The

valuation of the real property is \$72,265. The principal pieces are the S. 1/2 of block 269, Couch addition, at Nineteenth and 289, Couch addition, at Nineteenth and Kearney streets, appraised at \$22,599, and lot 3 and the S. ½ of lot 2, block 17, Pertland, at Second and Stark streets; a farm of 232 acres in Washington County is estimated to be worth \$5000, and a farm comprising 212 acres in Yamhill County, \$5000. The appraisers were A. L. Maxwell, P. W. Gillette and George C. McDonald. George W. Weidler, the executor under the will, was authorized to sell the livestock and horses. the livestock and horses.

F. R. Strong, executor of the will of Joseph Holaday, deceased, filed his second report yesterday. Concerning the op-eration of the Seaside House at Clatsop Beach, the report shows that the re-ceipts were \$598 in 1898, and \$6035 during the Summer of 1900. There was expended for equipment and improvement \$255, and this consumed all of the profits. The executor was authorized to run the house this year in the usual manner. It is stated that a judgment in the United States. Court against Holladay for \$2000, In the case of the United States ex rel. E. McKay, was paid, and that the money was realized from insurance policies on the life of J. F. Steffen. Holladay signed a bond for Steffen to insure the faithful performance of Steffen of a contract for the building of Lightship No. 67. McKay and others filed mechanics' liens. The report further shows the payment of 24807, claims, which include various amounts of taxes.
