

DEMAND MUST BE MET

FARMERS' INSTITUTE WORK CAN NOT BE CURTAILED.

Report of Station Committee of Board of Regents of Oregon Agricultural College.

CORVALLIS, Or., July 19.—The station committee of the Oregon Agricultural College submitted the following report at the annual meeting of the regents, just concluded:

"The station committee respectfully submits the following report of the operations of the station for the year ending June 30, 1901.

"The station organization is working smoothly and efficiently. The most notable feature of the experiments at the station the past year has been the use of clover and vetches for ensilage. We regard it as now established that both red clover and vetches can be economically allowed.

"The continued demand for farmers' institutes has been met during the year and a great deal of time has been spent by the station staff in this work, and we do not see how this work can be curtailed. We are in a transitional stage for wheat-growing, dairying, stock-raising and diversified farming, and there is great demand for information along new lines.

"With the phenomenal growth of the college, large demands are being made on the station for the instruction of the agricultural students who come in contact, in the class and lecture-rooms, with the experts and scientists of the station. In order to keep up efficiently the instruction, the work, teaching of agricultural science and agricultural investigation, we think that there should be employed active, well-trained young men and women, unless, except of seniors, who should be taught by the heads of station departments. A man tired out by class work in the forenoon is of little value for the instruction in the afternoon. We are of the opinion that station investigations should be diligently carried on with a view to the development of instruction, and that the employment on the farm for the young and old, those not able to go out and do a full day's work, to the end that families can be kept together and children raised at home under parental control, and the old saved from penury and want.

"Dairying, which was inaugurated here six years ago, is furnishing a great deal of fairly remunerative employment to the classes above mentioned and others.

"We recommend that the station during the coming year make investigations, with reference to cold storage of animals, in the keeping time of onions, cabbages, fruits and potatoes could be extended it would be vastly profitable to the growers of these products, and the station should believe the subject of curing hops with less heat should be taken up by the station. The high-priced Scotchmen and Hagers, who are raising great quantities of hops, should be given an account of the cost of labor, the process requiring a great deal of handling. By excessive heat the valuable part of the hop, the lupulin, is oxidized, volatile and passes off with the heated air and steam. It may be that some device can be invented for passing air more readily and more at a distance over the hops.

"By the present silo process forage plants lose about 10 per cent of their food value, and some silage is injurious to some extent to the digestive organs of animals. If forage plants could be preserved sweet, without fermentation, and thus 30 per cent of food value retained, it would be a great achievement. It is suggested that Fall be going to try an experiment in the production of sweet, or canned, ensilage. A great deal of experimental chemical work has already been done on this matter.

"If something can be allowed from the recent state appropriations for station work, it can be economically and profitably used for agricultural experimentation in very wide.

"BENTON KILLIN, "G. B. LEEDY, "J. K. WEATHERFORD."

Class Work of Station Staff. The number of actual recitations held by each professor, according to their respective reports filed, was as follows:

Table with columns: Name, Term, Total. Lists names like James Withcombe, R. K. Killin, A. B. Ordway, etc.

The income of the State Agricultural College for the year ending June 30, as shown by the treasurer's report to the Board of Regents, Wednesday evening, was \$90,275.68. The balance on hand at the beginning of the fiscal year, July 1, 1900, was \$83,521.85, making a total available funds for the year \$173,797.53. The income was as follows:

Table with columns: Station-Hatch fund, College-McKenney fund, etc. Total available funds: \$173,797.53.

The disbursements for the year were \$90,521.94, and by departments were as follows:

Table with columns: Printing, Agriculture, Horticulture, Botany, Chemistry, etc. Total disbursements: \$90,521.94.

More Help Needed in Postoffice. Charles Hedges, assistant superintendent of the free delivery system of the Postoffice Department, was in Baker City yesterday, looking over the free delivery routes in that city. He is of the opinion that there is no necessity for increasing the number of carriers, but he is decidedly of the opinion that more help is needed in the postoffice. It is probable, however, that their mail through the Baker City office, and all it has to be sorted and made up here. It is quite probable that two or three additional carriers will be added to the force about September 1.

FOR BENEFIT OF STRIKERS. Astoria Federation of Labor Must Pay Assessment. ASTORIA, July 19.—Astoria Council, Federation of Labor, has received a communication from the American Federation of Labor, stating that a 5 cent per capita assessment had been placed on the members of the local unions for the benefit of the striking machinists throughout the country. This assessment will cause about \$50 to be raised in Astoria for the purpose.

Fair Grounds Work to Be Resumed. SALEM, July 19.—The lumber attached at the state fair grounds as the property of R. T. Denham, the contractor, has been released from the attachment, and the work on the buildings will continue.

Stock Inspector of Marion County. SALEM, July 19.—The Marion County Court has appointed D. D. Keeler stock inspector. He is of the opinion that the whole term of the Keeler's salary was fixed at \$300 per year.

TO RECOVER ROYALTIES. Dawson Miners Have Joined in a Movement Against Canada. SEATTLE, July 19.—Advices from Dawson...

IS FELT IN WASHINGTON

EASTERN IRON AND STEEL STRIKE MAY WORK A HARDSHIP.

Shingle Mills Will Soon Be Short of Bands and a Shut-Down Is Imminent.

OLYMPIA, Wash., July 19.—The steel and iron strike in the East is being felt in his section, and unless it is soon settled it will work a great hardship on the shingle industry. It is said there is a shortage in shingle bands, the strips of iron used to bind shingles in bunches. For several weeks past the price of shingle bands has been steadily advancing, and in the hope of a fall in prices, most of the mills on Puget Sound have been holding back their orders. Now that the strike has come on, the result is that but few mills have bands ahead. As a matter of fact, it is understood that F. G. Downing and G. Richardson, of this city, are the only two millmen in this vicinity who have a supply of bands ahead. Both these gentlemen have exercised fore-

cast convey the information that a well-supported movement is on foot there to recover the royalties paid the Canadian government on gold mined in 1885. All of the most interested mineowners of that period have joined together as plaintiffs, and many who have since moved over to the American side are joining the movement. The contention of the plaintiffs is that the royalties were illegally collected, on the ground that the grants from the government, for which the applicants paid a fee, expressly stated that the grantees were entitled to "all" the gold taken from their respective claims. Leading lawyers assert that the case is a good one.

TROOPS FOR FORT WALLA WALLA. Cavalrymen on Way Home From Philippines to Be Sent There. WALLA WALLA, July 19.—Orders have been received at Fort Walla Walla to prepare quarters and stables for three troops of the Fourth Cavalry. If the battery of artillery now here is retained, there will be about 400 troops at the garrison, including about 20 officers of different ranks. A large amount of hay, oats, barley and straw have been purchased and stored at the garrison in readiness for the return of the soldiers from China and the Philippines. As the

NEWLY ELECTED PRESIDENT OF BOARD OF REGENTS OF OREGON AGRICULTURAL COLLEGE. ALBANY, July 19.—Hon. J. K. Weatherford, the newly elected president of the Board of Regents of the Oregon Agricultural College, was born in Missouri in 1850. He came to Linn County in 1863. He graduated from the Oregon Agricultural College in 1873, and was admitted to the bar in 1875. In 1874 he was elected State Superintendent of Linn County. In 1876 he became a member of the State Legislature, and Speaker of the lower house. He has been a Senator twice, and the President of the State and for Congress. He has been a member of the local Board of School Directors for many years, taking an active part in the upbuilding of the schools of Albany. His election to the important office of president of the Board of Regents of the state's agricultural colleges is a just recognition of his work for the cause of education. Mr. Weatherford is also prominent as an Odd Fellow. He fills the principal chairs of the grand lodge of Oregon, and is at present supreme representative.

REFUSES TO PUBLISH TAX LIST. County Objected to Printing It. OLYMPIA, Wash., July 19.—Franklin County, which has 450 population, according to the last census, also has but one newspaper, but from present appearances the proprietor of that newspaper has a pretty good thing in sight. Under the law the delinquent tax list must be printed in a paper published in the county. The Franklin County publisher refuses to publish the tax list at the maximum amount allowed by law, 10 cents a description, and the Board of Commissioners is alarmed at what may be the result. Attorney-General Stratton has been asked for advice, the board wanting to know whether the printing must be awarded to the Franklin County publisher at any price to pay, or whether a newspaper published outside the county and having a general circulation in the county will not answer the purpose. While the Attorney-General has as yet given no formal opinion in the matter, it is probable he will hold that the Franklin County publisher has it all his own way.

AN OREGON PIONEER OF 1847. The Late Mrs. Rachel Laughlin Barney, nee of Walla Walla. WALLA WALLA, Wash., July 19.—Mrs. Rachel Laughlin Barney, who died here July 12, 1899, was the daughter of Samuel and Naomi Laughlin, and was born in Lincoln County, Missouri, December 26, 1828. In May, 1846, she married Thomas B. Hutt. In 1847, with her husband and

Aberteen Brevities. ABERTEEN, Wash., July 19.—This week was settled one of the most spirited contests ever known on Gray's Harbor, between two lodges, the order of Elks and the Degree of Honor, over a piano violin, in the shape of a ticket given away by merchants, which had been carried on for several months. The contest became so bitter that charges of dishonesty in the count were made by the Degree of Honor and considerable ill-feeling was engendered. The Elks won by 40,000 votes out of 300,000 cast. The end of the contest was made the occasion of a great demonstration by the Elks. They invited members of all the lodges on Gray's Harbor, hired a band, carried the piano through the streets on a dandy decorated truck, and members of the lodge swayed behind. A big supper and ball will be given later on, also in honor of the event. Aberteen is to have a new hotel. It will be less than last year. The fund was unusually large last year, owing to the fact that special inducements in the way of a reduction in the rate of interest had been offered to those who paid up arrears.

SUMMER SCHOOL OPENS. About 1000 Persons From All Parts of Northwest at Newport. NEWPORT, Or., July 19.—The Summer school at Newport opened Wednesday evening with a large attendance, there being present about 1000 persons from various parts of the Northwest. The exercises of the evening consisted of a musical recital given by Dr. Z. M. Parvin, of Salem; Miss Howard, Mrs. Edwin Stone and Clyde Fox, of Albany, supplemented with an address by Dr. E. J. Thompson, of Independence. Yesterday classes in amateur photography, normal school work, science and nature study, art, vocal and instrumental music, stenography, physical culture, history, elocution and German were organized.

The Yaquina Bay News will begin its daily edition for the convenience of those interested in the Summer school, and the citizens of Newport, Yaquina City and Toledo will take especial pains to administer to the comfort and pleasure of the visiting teachers and friends. The people of Lincoln County are alive to the fact that this is the opportunity of a lifetime.

"Mother" "My mother was troubled with consumption for many years. At last she was given up to die. Then she tried Ayer's Cherry Pectoral, and was speedily cured."—D. P. Jolly, Avoca, N. Y.

"The Dalles Will Hold Street Fair. THE DALLES, Or., July 19.—A committee appointed to inquire into the feasibility of holding a street fair and carnival in The Dalles some time in the early Fall has met with sufficient encouragement to begin raising funds and making preliminary arrangements. The committee are: J. S. Fish, J. C. Hostetter, H. J. Mater, E. M. Williams, L. E. Crowe, Charles Michaelbach and E. C. Pease.

ST. HELENS, Or., July 19.—E. George, who came to Oregon in 1862, died at his home at Deer Island Station yesterday at 88 years. Mr. George was a native of Illinois. In 1862 he came to Oregon from California, and settled at what is now Deer Island, where he had since resided. He was married in 1866 to a daughter of Joseph Merrill, of Columbia County. He had been paralyzed since 1877, when he was hurt by his team running away. A wife and four children survive him.

SALEM, July 19.—B. P. Taylor, of Pomona, Cal., arrived from the Quartzville mining district, on the Santiam, this morning, and will leave for Colorado Springs tomorrow. He has secured Colorado mining men, have recently acquired the 10 claims commonly known as the Savage-Mohney mine, and are now making arrangements for the development of the property. The other gentlemen returned to Colorado about 10 days ago, after making a personal examination of the mine, and Mr. Taylor will return three weeks hence to take charge of the development work. Opening the road will take so much time that it is probable that no mining machinery can be taken in before the Fall rains begin, and for that reason the mines will not be worked to any great extent until next Spring. New Lewis, the miner who had his

WALLA WALLA, Wash., July 19.—The balance on hand July 1, 1901, \$1,064,938 11. CASH IN STATE TREASURY

SEMI-ANNUAL REPORT OF STATE TREASURER MOORE.

Money to Be Paid to Schools Next Month Will Be Less Than Last Year.

SALEM, July 19.—State Treasurer C. S. Moore today filed in the office of the Secretary of State his semi-annual account, showing cash on hand to the amount of \$1,064,938 11. This is \$4,000 more than was in the Treasury at the same time last year. The report covers the six months ending June 30. The report is as follows:

Table with columns: Balance on hand January 1, 1901, as per semi-annual report, \$94,623 40. Received since January 1, 1901, to the various funds as follows: General fund, \$618,980 17; Common school fund, \$24,840 28; Common school fund, interest, \$9,619 14; Agricultural College interest, \$6,833 96; Agricultural College fund, interest, \$4,606 25; University fund, principal, \$9,787 05; University fund, interest, \$3,554 32; Thurston monument fund, principal, \$129 36; Thurston monument fund, interest, \$11 19; Oregon Soldiers' Home National fund, sale fund, \$11,703 45; Oregon Soldiers' Home National fund, interest, \$1,756 26; State Board of Examiners' fund, \$354 00; Hatchery fund, district No. 1, \$3,900 07; Hatchery fund, district No. 2, \$7 50; Hatchery fund, district No. 3, \$184 00; Hatchery fund, district No. 4, \$69 00; Hatchery fund, district No. 5, \$1,621 00; Oregon stove foundry fund, \$14,250 00; Oregon postage railway fund, \$74 50; Military fund, \$1,817 37; Hatchery fund, district No. 6, \$27,490 29; Bounty fund, \$74,719 85— 1,108,060 14.

Disbursements. Disbursed since January 1, 1901, and charged to the various funds as follows: Common school fund, principal, \$297,497 10; interest, \$7,704 01; Agricultural College interest, \$17,925 00; Agricultural College fund, interest, \$6,794 50; University fund, principal, \$10,965 44; University fund, interest, \$2,245 92; Oregon state fund, sale fund, \$11,832 02; Oregon Soldiers' Home National fund, \$1,741 08; State Board of Examiners' fund, \$496 93; Common school fund, \$10,961 60; Hatchery fund, district No. 1, \$613 20; Hatchery fund, district No. 2, \$738 96; Hatchery fund, district No. 3, \$1,639 29; Hatchery fund, district No. 4, \$116 68; Hatchery fund, district No. 5, \$1,818 05; Hatchery fund, district No. 6, \$1,818 05; Oregon stove foundry fund, \$42,980 34; Oregon postage railway fund, \$74 50; Military fund, \$1,818 05; Bounty fund, \$1,818 05— 668,185 48.

Balance on hand July 1, 1901, \$1,064,938 11.
