CRESCEUS LOWERS WORLD'S REC- Crack Western Horses Will Meet the ORD AT CLEVELAND.

Time Also Establishes a New Trotting Record for Both Sexes-Other Races.

CLEVELAND, July 26.-Amid the enthusiastic cheers of nearly 10,000 people, Cresceus, the world's champion trotting stallion, again demonstrated that he is the peer of all trotters by trotting a mile this afternoon over the Gienville track in 2:02%. This establishes a new world's trotting record for both sexes, replacing the former world's record of replacing the former world's record of 2:05%, held by The Abbot. Owing to the heavy rains of last night, the track was not in the best of condition today, and it was about 6:20 P. M. before the track was deemed to be in sufficiently good shape to warrant making the attempt. At that time, the sun's heat had bee replaced by cool breezes. Even then the were few horsemen who looked for a mi better than 2.05. After having been give several preliminary miles, George Ketch um came out with the stallion to attemp what seemed an impossible feat. Ketchu nodded for the word on the third scor

the horse trotting like a machine.

Accompanied by a runner, the chestnu stallion fairly flew to the quarter, th timers' watches registering just 30 sec onds. As Cresceus swung into the back stretch, he was joined by a second run ner, and although many predicted tha the footing was such as would retard hi speed, he reached the half in 1:01. As the time was hung out, the immense crowd broke into cheers. The three-quarter pole was reached in 1:31%, and as the great stallion trotted into the stretch, a runner on either side, his frictionless, maner on either side, his incloners, ma-chine-like stride was fairly eating up the distance. Never once faltering, notwith-standing the terrific cilp, he fairly flew to the wire, not being touched once by the whip, his sole urging being the driver's voice, and the thundering hoof-beats f the accompanying runners.
As the time for the mile was announced

2:07%, and the immense crowd realized that a new world's record had been es-tablished, Keichum and his favorlie stajlion received an ovation such as has been seidom witnessed on a race track. Thou-sands of enthusiastic people rushed out on the track, and Ketchum was lifted from the sulky and carried to the grand-stand on the shoulders of admirers. Cheer after cheer rent the air, and the name of Cresceus was upon the lips of every one present, "Ketchum! Ketchum!" yelled the crowd, and the owner of the sturdy son of Robert McGregor was almost carried to the judges' stand, where he delivered a brief address. Cresceus now not only holds the world's

trotting record for both sexes, but last week, at the Detroit Grand Circuit meeting, by trotting in 2:06% and 2:06 in his race against Charile Herr, secured the world's record for the two fastest heats ever trotted in a race, his second mile in 2.85 also being a new world's record for the fastest mile ever trotted in a race, and also the fastest second heat ever

trotted. Summary: 2:18 class, trotting, purse \$1500—Charley Mac won first, fifth and sixth heats; best time, 2:14%. All Right won third and fourth heats; best time, 2:12. Susie J. won second heat in 2:15. Alice Carr, Eula Mc., Round, Stockton, Effie G. and Oneonta also started.

ARE NOT "NUISANCES."

Reply to Mr. Yerex's Arraignment of Missionaries.

PORTLAND, July 25,--(To the Editor.)-I have greatly enjoyed the letters of Mr. Yerex in The Oregonian from the Orient. What he has to say on the missionary question is, however, so much at variance with the facts and the question is of such vital importance to the countries concerned that a few comments seem called for. Having spent some years as a teacher in Singapore, my opportunities for observation of missionary work in that part of the world have been far suly adhering to the missionary exclusion law, which prohibits the introduction of missionary work in the territory under their control, leaving the natives to work out their salvation according to the dic-tates of their conscience, and the prosecutates of their conscience, and the prosecu-tion of the work of civilization in the hands of the traders." Inasmuch as I am personally acquainted with a half dozen missionaries who are doing or have been doing missionary work under the protection of the Dutch Government in the Dutch East Indies, it necessarily fol-lows that the Dutch Government is not "universally commended," for adhering to "universally commended" for adhering to an exclusion law which does not exist. The idea that any civilized government would leave "the prosecution of the work of civilization in the hands of traders" Is amusing, to say the least. It is a well-known fact that the trader takes debauchery and moral ruin whenever he goes among a so-called "heathen" peo-ple, and it is often beyond the abilities of the missionaries who follow the traders to restore the people to a moral condi-tion equal to that which existed before the arrival of Mr. Yerex's civilizers. In his letter from Colombo, published in The Oregonian, Mr. Yerex says: "It is practically the universal opinion of business men throughout Asia that the missionaries are a very undesirable adjunct to the population." How strange, then, that the British Government gives so many thousands of pounds annually to the support of missionary institutions in its Asiatic possessions! I have myself heard the late Governor of the Straits Settlement speak more than once in pub-

lic in highly commendatory terms of the work of the American Methodist mission in Singapore. The President of the mu-nicipality, the Secretary. Assistant Sec-retary and Superintendent of Public Works at Singapore are all friends and nations of missions. A. W. Verey works patrons of missions. As Mr. Yerex wrote in his letter from Singapore, the Chinese are "by far the most important factor in the development of the country and foreign trade." That these "business men" do not consider missionaries a "confounded nuisance" is evident from the founded nuisance." Is evident from the property of the confounded nuisance." Is evident from the confounded nuisance." Is evident from the confounded nuisance." Is evident from the confounded nuisance. founded nuisance" is evident from the rough 12, fact that they have contributed thouers, for the most part. For their sake alone, if for no other reason, is missionary work justified. ### Americans Regard Bill as Bad.

BERLIN, July 28.-The text of the tariff neasure appeared too late for commen the evening papers. Comment in Ber lin commercial circles, however, is that the amended schedules are monstrous, in-volving a great burden for Germany's industrial and commercial classes, together with serious injury to foreign trade, tariff wars and hindrances to commercial treaties. Americans in business in Berlin regard the bill as exceedingly had for Germany and the United States, Be-sides the agricultural schedules, the Americans express keen disappointment at the heavy increases in machinery, The present duties, ranging from 25 to 8½ marks per hundredweight, are in many cases more than doubled. In the case of saws they are quadrupled. American woods are also hard hit

### RISING IN MANCHURIA.

Rebels Are Burning, Pillaging and Killing in Many Districts.

VICTORIA, B. C., July 26.-Advices by the steamer Duke of Fife, from the Ori-ent, include details of the rising in Man-churia. Refugees from the affected district are reaching Che Foo, and the Japanese Mall says they report the whole Province of Shing King in a state of insurrection. Rebels are pillaging, burning and killing around Moukden. All the vil-lages and hamlets have been burned, and hundreds of the inhabitants who offered resistance have been killed. The Russian forces are entirely insufficient to main-tain order in Southern Manchuria. At Antung, in the southeastern part of Shing King, the insurgents are daily de-veloping strength. They now number several thousand, and have possession of Kiulien Ching as well as Antung. The effects of the disturbances are felt even in Wiju, beyond the Manchurlan frontier. The Russian garrison in Fenchwang does not seem to be sufficient to cope with the movement, and reinforcements will have to be sent from Port Arthur or Moukden, an operation requiring some time. A great number of Chinese men and women are reported to have fled from Tatung to Che Foo, the insurgents having brought the former place within the sphere of their operations. The rising in the neighborhood of Fenchwangtien is continually gaining strength, and it is believed that there is practically no government in Manchuria

men. The number of men assembled at Antung is some 2000, and the inhabitants of Wiju are much perturbed, being apprehensive of an irruption across the Yalu. This intelligence suggests that there are two bodies of insurgents.

Fugitives arriving in the Foo give serious accounts of the state of affairs. They represent the whole of Shing King as in a state of unrest, even to the gates of Moukden, and they declare Russia has not sufficient force to preserve order. The Japanese Consul at Che Foo, in his report to the government, states that the pirates who recently appeared along the coast of Shan Tung and Line Tung were pursued by a Chinese Government trans-port, and a number of them were decapt-tated by the Taotai of Che Foo, and in consequence these places were liberated from piratical depredations. The Rus-sians have dispatched a force from Hai Cheng to attack the insurgents. News was also received that an organization called the Velage Union (Lien Chuan Hai) has risen in five districts north of Pao Ting. Inquiries made by the French from Pas Ting have discovered that the insurgents who have their headounters at Yen Chow, number 29.
