# MORE STREET FIGHTING

UNION TEAMSTERS CLASH WITH POLICE AND NONUNION MEN.

Judge Sloss Issues Injunction in Cooks' and Waiters' Strike-Porters and Packers May Go Out.

SAN FRANCISCO, July 26.-Street fights between union and nonunion teamsters and an injunction in the cooks' and walters' strike were features in the local labor situation today. Judge Sloss, of the Su-perior Court, issued an injunction absoperior Court, issued an injunction abso-lutely prohibiting the strikers from per-euading or inducing persons in the employ of a restaurant-keeper to leave his em-ploy, from seeking to prevent other per-sons dealing with him, and from the use of the word "unfair," or other defama-tory statements calculated to injure his business.

Five of the principal boxmakers of the

city suspended operations today as the result of the teamsters' strike. About 300 men were thrown out of employment. A conference between the president of the Union Iron Works and the machiniste who went out May 29 will be held tomorrow afternoon.

row afternoon. A number of porters and packers ba-came involved in the teamsters' strike to-day. Twenty-two drivers employed by the Standard Oil Company left their wagons, and the bosses ordered porters and packers to drive the teams. The men re-fused and were discharged. Tonight the porters' and packers' union held a meet-ing to discuss the situation and consider advisability of ordering out its mem-

The artisability of victoring out the bers. A number of nonunion drivers from the country went to work today as drivers of heavy drays, and several fights resulted. A clash between union and nonunion men took place at the stables of McNab & Smith, on Brannan street. A dozen non-union teamsters, guarded by the police, were preparing to drive out for the day's work. Just as the drivers left the barn a crowd of 250 union teamsters appeared and importuned the drivers not to go to work. These importunities were met by refusals. The teams were halted, and attempts were made to drag the men from tempts were made to drag the men from the wagons. Bricks, rocks and other missiles were freely thrown, and several per-sons were struck. The police then charged with their clubs, and for a time fighting was general. One or two of the nonunion teamsters were badly beaten and 10 or 12 union men knocked down before the police succeeded in clearing the street. There were many bloody faces in evi-

Another crowd of union teamsters stopped a team belonging to the Califor-nia Canneries Company on Folsom street, between Second and Third, and attacked the driver, who was dragged into the street and unmercifully beaten. While the fight was at its thickest Captain of Police Wilman and a squad of mounted and foot police arrived, and after a vig-orous use of their clubs dispersed the rioters

#### Ex-Treasurer Compromises With Thurston County.

OLYMPIA, July 25.-The suit brought by Robert Frost, ex-County Treasurer, against Thurston County, to recover against \$1200, due him on account of moneys paid for deputy hire, has been withdrawn and a settlement made. Yesterday an agreement was reached whereby Mr. Frost is to receive 500 from the county and with-draw the action. Mr. Frost is to allow as an offset whatever sum the county finds his office was in arrears when he retired, in January last. It is not gener-ally known that when Mr. Frost retired there was a shortage of between \$300 and \$400, and there is yet about \$200 due the county. When this has been credited up to the ex-Treasurer the balance of the \$500 allowed yesterday will be paid him. Mr. Frost was elected on a Populist platform, pledging to run the various offices for the salaries allowed by law. So far as he was concerned, this pledge was extravagant, as it is impossible to run the office for the Treasurer's statutory salary. Tht shortage referred to was due to the primitive methods of man-

Beyond the burning of the timber and Beyond the burning of the timber and some few farm fences, no other destruc-tion is reported, as the blaze is above the resident section. Just how the fire originated is not known. It was first dis-covered in a meadow at the foot of the mountain, where the dry grass and fan-ning breeze apread the flames with such fury as to be beyond control in a short time. It is feared that much more tim-ber will be destroyed before the fire abates, as a brisk north wind is blowing.

#### Brevities From Dallas.

DALLAS, July 26 .- The outlook for a heavy crop of hops is not flattering in this county. Growers say that the vines are not branching properly, as the laterals are too short. The vines seem healthy and the quality will probably be good, Yesterday the wind mill and water tank of W. C. Brown fell and was com-pletely demolished. The tank held 2500 gallons and was full at the time. Considerable damage was done to near-by buildings. Cause, defective construction,

#### Clacksmas County Teazel Crop.

OREGON CITY, July 26 .- About 80 persons will be employed in the Molalia teazel fields for several weeks to handle the crop, which is unusually good. The H. Gregory, Jr., will begin harvesting in his yards at Molalia Wednesday, and S. E. Gregory, of Carus, will commence work Thursday. The returns for last year's teazel crop, sold to New England woolen mills, were very satisfactory.

Full Extent of the Run Cannot Be Accurately Known-Labor Scarce and Wages High.

SALMON STILL RUNNING

ASTORIA, July 26.—Nearly every one connected with the fishing industry ad-mits that the run of salmon now in prog-ress is the largest seen in the Columbia for a great many years. Just how extensive it is will never be known, since, owsive it is will never be known, since, ow-ing to a lack of facilities for handling the catch, fishing has been stopped to a great extent for the past two days. Still a large amount of fish is being put up. Ten cannerles are in operation on the lower river, and their daily pack in cases is about as follows: Suphorn 100, com-

is about as follows: Sanborn, 1100; combine, three canneries, 3900; Co-operative, 1200; Booth, 800; McGowan, at Chinook, 1009; Warren, at Cathlamet, 500; Pillar Rock, 1200; Megler, 800. Total 10,200. Be-sides these, there are five cold-storage plants, which handle daily about 120 tous of fish, equal to 4000 cases. Private par-ties are saiting each day what would equal 1000 cases, and fully as many more

are sent to the canneries at the Cascades. This indicates that the present run of fish means more than \$100,000 daily for Astoria The local canneries and cold-storage plants have not yet entirely recovered from the blockade, but some are now able to receive fish from their own gear. The Co-operative is working two shifts, and by limiting the boats to 500 pounds each one about keen area. Samburn will each, can about keep even. Sanborn will start receiving fish tomorrow morning, and the Combine expects to clean up ev-

erything from its receiving stations by that tme. Booth is taking the catch of his regular fishermen, and expects to be able to continue to do so. The cold-storage plants are all working to their full capacity, with the exception of one, which is short of casks. Lindenberger received no fish today, but will do so tomorrow. Trescott & Co. have been taking fish all day, and this evening shipped four car-loads to Warrendal loads to Warren's cannery at Warrendale. Schmidt & Co. are taking fish only from their own gear, and are kept busy to do

thla Judging from all appearances, the run continues fully as large as during the past two days, and 'ff all the gear was in operation everything would mon be blocked again. The price paid is 6 cents per pound, and the only time it has dropped below that figure was when the fishermen offered their catches for less in order to get rid of them. The scarcity of labor was felt more than ever today, as the crews which have been working over-time are becoming exhausted. At some

of the canneries fishermen were pressed into srvice today. While the gillnetters have had hard luck in the inability of the packers to take all their fish, they are not as badly off as are the seiners. Before the senson opened Mr. Tallant, one of the seiners contracted with a local packer to deliver all his fish to him. Up to Wednesday the seines caught few fish, though Tallant furnished his cannery with more than half the fish packed before the present run commenced. When fish became plenrun commenced. tiful Wednesday, his seines took 30 tons. After 15 tons were delivered, notice was given that no more fish could be accepted. Yesterday Mr. Tallant estimates he could have caught \$5000 worth of salmon on his grounds, but he did not operate.

State University Students Will Accompany New York Party. SEATTLE, July 36 .- The party which is to lay the new cable between Juneau and Alaska will leave this city within the next two weeks, although the exact date is not yet definitely settled. The work will be done by the W. P. Brixey Company, cable manufacturers, of New York City,

will be in charge of George F. Foster, superintendent of the company. Mr. Foster will bring several expert workmen with him from New York, but a part of the force will consist of 10 or 12 electrical engineering students of the State University. The work will not, it is stated, take more than a week at the outside, and the trip will be a pleasant Summer outing for the students. The practical experience will be worth much from an educational standpoint. Professor T. E. Doubt, who has been instrumental n selecting the students who are to take

the trip, has also been invited by Mr. Foster to accompany the expedition. The length of the new line is to be about 125 miles. The cable itself will weigh in the neighborhood of 200 tons. A steame has been chartered and especially fitted up for the purpose, and is now on her way to this city from San Francisco.

# Help for Women Who Are Always Tired.

"I do not feel very well, I am so tired all the time."

You hear these words every day ; as often as you meet your friends just so often are these words repeated. More than likely you speak the same signifi-cant words yourself, and no doubt you do feel far from well most of the time. Mrs. Ella Rice, of Chelsea, Wis.

whose portrait we publish, writes that she suffered for two years with bear-ing-down pains, headache, backache, and had all kinds of miserable feelings,

all of which was caused by falling and inflammation of the womb, and after doctoring with physicians and numer-ous medicines she was entirely cured by Lydia E. Finkham's Vegetable Compound.

If you are troubled with pains, fainting spells, depression of spirits, reluctance to go anywhere, headache, backache, and always tired, please remember that there is an absolute remedy which will relieve you of your suffering as it did Mrs. Rice. Proof is monumental that Lydia E. Pinkham's Vegetable Compound is the greatest medicine for suffering women.
