ARRESTED AN ALLEGED REBEL

He Wrapped Himself in Kaiser's Colors for Protection, but They Were Torn From Him and Dubbed a "Dirty Rag."

NEW YORK, July 29.—The Hamburg-merican line steamer Allegheny, which arrived here today, reported that she was held in the harbor of Savanilla, Colombia, for 12 hours. Passengers on the Alle-gheny report that Abel Murrillo was arrested on the ship at Cartagena and taken ashore by the Colombian authorities. Murrillo protested against his arrest, alleging that he was entitled to the protec-tion of the German flag. Murrillo is said to be the secretary of General Uribe-

When the vessel arrived at Cartagena she was ordered detained by the authori-ties there. The captain protested that he was sailing under the Gorman flag, and no official of Colombia had a right to stop the vessel for any purpose whatever. This protest was unheeded, however, and search was made for Murrillo, who was found on deck. He declared he would not be arrested, and, running to one of the ship's masts, he seized the German flag which was lying there and wrapped it which was lying there and wrapped it about him. Then he stood forward and "I am under the protection of the Ger-

man flag, and you have no right to ar-According to the passengers on the Allegheny, the Colombian officers, notwith-standing the protest, seized the man and dragged him from the vessel. According to a signed statement made by three of the Allegheny's passengers, Murrillo left the United States about four months ago on a passport signed by the Colombian Minister in Washington. On his arrival at Savanilla he was arrested and taken Bogota where he was released on the to Rogota, where he was released on the to isogota, where he was released on the understanding that he would sail on the first vessel for the United States. This Murrillo did, boarding the Allegheny at Savanilla. He expressed fears that he would be arrested at Cartagena, and when the vessel arrived at that port he refused to go ashore when word was brought that

the Governor wanted to see him. His ar-rest followed.

The statement made by the passengers then says that Captain Lowe, of the Alle-gheny, protested against the arrest, saying it was against international law, and at the same time the captain told the mate to put the German flag on the gang-way, so the Colombian officers would have to tread on it if they took Murrilio. The arrest did not take place at this time, and the police withdrew on the captain's protest. Later, however, the ship's clearance papers were refused, and the statement was made that they would not be furnished until Murrillo was surrendered. A stend statement concerning the inch A signed statement concerning the inci-dent then says: "The captain then went on land, and after a while returned with more policemen, and we then thought he more policemen, and we then thought he was going to give up the passenger in exchange for his papers. The police then went up to Murrillo, and, tearing from him the 'dirty rag,' as they called the flag of Kalser Wilhelm, took the prisoner from the ship." This statement is signed by Edward J. White, a British subject; Alme Van Den Bogaerda, a Belgian, and Charles F. Pope, a citizen of the United States, Neither the officers of the Allesheny nor officials of the line would make

He said, however, that he understood that Uribe-Uribe had again become active, and when it was learned that Murrillo, who was Uribe-Uribe's secretary, was sailing on the Allegheny, General Vilez, of the department of Bolivar, sent soldiers on board to request Murrillo to visit him. He refused, and the ship was detained. The refused, and the ship was detained. The Consul said he did not think the man was mprisoned, but simply prevented from

I have placed the whole matter before the home office," he said, " and it will de-cide whether or not to take any action. I am not an international lawyer, and do

not know whether there remains anything for the German Government to do. At any rate, it is out of my hands." Martinez Perez, a prominent Colombian here, says Murillo will no doubt be con-fined in the old Spanish prison in Carthagena. This prison is below the surface of the sea, and prisoners confined there, he says, invariably contract malaria, and their health breaks down. Letters have been received from a Colombian Conserv-ative, local Colombians say, asserting that this Conservative tried to have fruits and

delicacies taken to Murillo in prison, but the efforts failed. This occurred in Bo-gota. It indicates, the Colombians here say, how bitter the feeling against Murillo must be, when even a Conservative was refused the opportunity to show him kind-ness. Perez said the reason Murillo took the peace manifesto to Colombia was that was necessary that someone must go to show its authenticity. Accordingly, Murillo, as General Uribe-Uribe's private

secretary, carried the document.

A, J, Restpo, agent of the Colombian insurgents in this city, says, in connection with Murillo's answer, that the reports of General Uribe-Uribe's whereabouts are contradictory. Colombian officials tell where he is, according to best information, but they do not know. He says further that General Uribe-Uribe's whereabouts are certainly known to the representatives of the insurgents here, but they cannot be told at present. He predicts that within a few days all will know where the General is, and what he is doing. According to letters received here today Restpo avers Marin, the Colombian Vice-President, who had previously overthrown President Clement, has himself been over-thrown, and imprisoned by the Secretary of State, Quintero Calderon. Restpo pre-dicts more usurpation of power of this sort, but he thinks that after a short, fierce struggle the revolutionary troubles in Colombia will be over in a few months. Letters, he says, tell of great successes by General Marin in the Interior, Marin, ac-cording to these letters, has taken two important towns, Harin and Girardot,

Springfield Facton Controls Social Democratic Party.

INDIANAPOLIS, July 29.-The first business coming before the united con-vention of the Social Democratic party, assembled today, resulted in a wrangle that threatened for a time, at least, to put an end to the further deliberations of the 150 delegates present. The "Spring-field" wing, the "Chicago" division, and the "Independent," faction were aligned against each other, Professor George D. Herron, formerly of Grinnell, Ia., was

elected cha'rman of the body.

As the afternoon session advanced was brought to light that Eugene V. Debs, who had headed the Social ticker in the last campaign as the party's presidential candidate, had been shelved. At the same time the fact became more and more apparent that the Chicago faction had lost its leadership, and the Spring, field wing dominated the assemblage, practically to the exclusion of the Chi-cago and independent delegates. Mr. Debs himself wired his congratulations to the convention, deploring the fact of his ina-bility to attend, but gave no excuse. A wrangle arose over the report returned by the committee on rules, which report-ed in favor of the convention voting on all questions by employing the roll-call method. G. C. Clemens, of Topeka, Kan., cousin of Mark Twain, bolted the con-vention during the excitement, followed by a dozen others. He was the representative of the Chicago, or Debs faction, and a conference was held by him and his followers. They were induced to return and Mr. Clemens took the floor. He said:

"I know that the Chicago faction down, never to regain its prestige. I know that this convention is to be dominated by the Springfield wing, and I know the end of the gallant leadership of Eugene V. Debs has come."

A compromise resolution was adopted and the session adjourned. The fight Reno district wheel was that of Stephen A. over the rules was made for a test, and Holcomb, of Pauls Valley, I. T., for a demonstrated the leadership of the Spring-

The funds he is able to secure will be sent direct to Pretoria.

Regarding the outcome of the strug-gle, Mr. Brockhuysen is still optimistic. He believes the Boers will continue fighting until they eventually tire out Great Britain. "It is quite impossible to esti-mate the number of burghers now in the field," he said, "but the force is un-doubtedly much larger than when Pretoria was taken."

A few days before leaving Europe Mr. Brockhuysen visited President Kruger, and when he asked the doughty old Boer what message he would send to the American people, Kruger replied: "Tell them they are helping the Eng-

lish to slaughter our people, by supply-ing them with horses, mules and the munitions of war."

DEFENDER WITHDRAWN

Duncan Will Not Enter Her in Any More Races Until Her Rig Shall Have Been Changed-Taken to Bristol.

NEWPORT, R. L. July 29.—Columbia today defeated Constitution in a splendid race by two minutes and 54 seconds, and won the \$1000 cup presented by John Jacob Astor. Her victory was decisive and convincing. The behavior of the Constitution, on the other hand, was dis-appointing in the extreme, and this evening Mr. Duncan announced his boat would not take part in further races until her rig had been altered. He de-clared the Constitution is not doing herself justice; that she is not going well, and there is no use in racing her fur-

ther until she is put in proper shape.

The Constitution will not participate in the Newport yacht-racing events of Thursday and Saturday of tihs week as a competitor of the Independence. The Columbia, however, has been entered for these races, and will sail against the Bos-ton boat. The Constitution will go to Bristol at once to have the alterations made. If this change in the plans of the Constitution does not prevent, the next races in which she will start will take place over the Newport course August 12-14. The regatta will be under the auspices of the New York Yacht Club. In one of these races the cup offered by Sir Thomas Lipton will be sailed for. The regular trial races for the purpose of selecting the defender of the America's cup will be held here August 31 and September 1-3.

The wind today never exceeded 12 knots, and although there was, a long roll of the sea setting in from the Southwest, the water was by no means rough. In fact, Newport cat boats took it quite kindly, with a single reef in their mainsails. The course was a total distance of 38 nautical miles. The wind was north by east at the start, and north-north-east at the finish. It started with a force of about nine knots when the preparatory gun was fired, and freshening preducible of the race apparatus of the sace apparatu gradually as the race progressed, it attained a strength of 13 to 14 knots when Columbia was greeted as the winner It is not easy for the best friend of Constitution to make plausible excuses for her most palpable defeat. She was for her most paipable deleat. She was beaten fairly and squarely on her merits. Running almost dead before the wind on the first leg of the course, she at first opened quite a gap of clear water between herself and Columbia, and it looked as though she would have a long All had been in readiness for hours. The Government clerks finished the task of placing the envelopes of the applicants in lead in the run down the wind. So long as the wind continued light, she had it all her own way, but when it freshened, envelopes and of tying them in hundles ready to be placed in the wheels. The wheels had been tested for the last time Columbia slowly, but surely, overhauled her, and when they got to the first mark was only a few lengths astern. two 90-footers rounded the Block Island ing of the envelopes within the oblong re-ceptacles. They were young boys of good families, and were named at the last momark. Constitution had the weather berth. She did not keep it long. Instead of a beat to windward, the beat to the second mark resolved itself into a very long leg on the port tack, with a couple of short hitches on the starboard stretch. Columbin covered this long leg three minutes and 19 seconds faster than the new boat, WICHITA, Kan., July 29.-Miss Mattle This settled the race, for Constitution was unable to even cut down this lead on the short run home, and so the yachts at the Lawton district drawing, works in the Central Telephone office in this
