Ranchman Murders His Partner

With a Sledge Hammer.

VICTORIA, B. C., July 31.-A special

from New Westminster says:

A terrible tragedy was enacted in the quiet farming settlement of Mud Bay, near this city, last night. Two young men who lived together on a ranch on the McLelian road had been drinking considerably of late and got into a row, which resulted fatally to one of them, as he was mudared by his compade.

POINT STRIKE TURNS ON

BAX FRANCISCO STRUGGLE WILL HINGE ON COAL SUPPLY.

San Francisco Will Make Special Effort to Keep the Present Embargo Intact.

SAN FRANCISCO, July 31 .- There were but few changes in the local labor situation today. Both employers and strik ers are standing firm and each side claims confidence in winning out without draw-ing on their reserves. No serious dis-turbance of the peace occurred. The strikers are strictly observing the in-junction to abstain from any violence.

The employers hold out no hope for a speedy settlement of the trouble, and say there is nothing in sight but a hard battle. Two of the big steamship companies claim that they are getting nonunion men to fill the places of some of the strikers and half they are getting the strikers. and believe they can, within a short time, secure all the men needed to operate their boats. An intimation was made that the steamship companies would if necessary bring men to San Francisco from other places in the United States.

A few nonunion men were employed as longshoremen on the docks of the Ocean-ic Company and the Pacific Coast Steamship Company. On the former a gang worked half the night putting cargo aboard the steamer Sierra, which is due to sail for Australia tomorrow. Arriving vessels today were deserted by their crews, who immediately reported as the headquarters of the Sailors' Union, Several foreign vessels are being loaded by their own crews, who have no connection with local labor unions

The drivers of the Pacific Transfer Company were called out today. This will have a serious effect on the handling of baggage. The sand teamsters were also ordered out. This new development may put a stop to building operations throughout the city. It is declared by the best-informed stu-

dents of the situation that the outcome of the contention is mainly dependent upon the coal supply. Only one large bunker was in operation this morning, and it is thought there is not enough coal in the city to meet the demand longer than two weeks. A scarcity of fuel will not only cripple the manufacturing interests, but will be felt by every household in the

From remarks dropped by some of the From remarks dropped by some of the Federation leaders this morning, it is apparent that the importance of preventing the loading of coal is fully realized by them, and that especial effort will be made to keep the embargo intact. The City Front Federation granted permission this morning to a number of teams to this morning to a number of teams to saul coal to the lighthouse tender so there will be no stoppage of the light-house service. Permission has also been granted to the charitable institutions spitals to receive supplies hauled by union teamsters.

While five steamers are being loaded today, the general appearance of the harbor is one of inactivity. There are scores of vessels awaiting cargo, which is ready to be put aboard when men are found to handle it.

Mayor Phelan held a conference with both sides to the controversy today. Although no definite result was accom-plished the Mayor said:

The situation looks better than it did yesterday. The employers seem willing to reinstate the striking teamsters if the latter will agree not to engage in sympathetic strikes and not to attempt to force their fellow-workers into the union. The teamsters appear to be willing to return to work, but they want a guar-antee that their employers will not discriminate against union men nor attempt to coerce establishments that employ un-ion labor. The difference does not seem to be very great-at least, not so bad

that it cannot be settled."
"The strike is more general today," said
President Goff, of the Labor Council. "All shipping is tied up, and as the days pass, the effect of the strike will be felt everywhere throughout the city. It is in the power of the employers to end this trouble, and if they do not, the city can hold them alone responsible. We can not retire from our present position and will not retire until we have won our battle. It is a fight for the union principle-a fight that must succeed. There are now over 20,000 men involved in the strike, now over 20,000 men involved in the strike, and possibly before the week ends the number will be increased to 25,000."

M. F. Michael, attorney for the Employers' Association, said:

"The situation as far as the association is concerned presents nothing new. There has been no change in the attitude of the employers, and no change has been discussed or considered. No confer-ence with the unions has been proposed and none is expected. Men are steadily obtained to fill the st places. The draymen have a large force at work, and I understand other branches

at work, and I understand other branches are meeting with like success."

The strike of the packers has forced the American Can Company to close down throwing 400 persons out of employ-ment. Canneries dependent upon it for their supply of cans employ 5000 men women and children, and unless the fac tory can start up again within a few. days, they will all be thrown out of em-

When the Umatilia arrived from Puget Sound, her crew with the excep-tion of the firemen, quit work. Thirty-five nonunion men were found and the work of discharging cargo was begun.

At the Spear-street dock, where the O.

SEATTLE WORKMEN MAY QUIT. Strike of All the Union Men There Is Said to Be Imminent.

SEATTLE, July 31.-According to a widespread rumor in circles of organized labor, a general strike of all unions, which will be as fatal to business interests as has been the San Francisco walkout, is imminent in Seattle. It is stated on good authority that the proposition is being earnestly considered that all union workingmen walk out simpultaneously, in sympathy with the Ma-

Indiam Will Not Be Deported.

October 29, 1846

HELENA, Mont., July 31.-Governor coole today received formal notice from the Secretary of the Interior that the Government would not deport the Cree Indians, wards of the British Government, who are now wandering about the state. The vagabond Crees have spread smallpox through several Montana Indian reservations, and for years have been an an-noyance to settlers and the state au. horities. Inspector McLaughlin recently recommended that the Government deport the Indians, but the Commissioner of Indian Affairs, whose recommendation has been adopted by the Secretary, says the Government cannot assist the state authorities.

NEW SCALP LAW AT WORK

BOUNTY BUSINESS SHOWS GREAT GAIN SINCE FEBRUARY 26.

Over \$18,000 Has Been Paid Out of the State Treasury in Four Months.

SALEM, July 31.—Secretary of State Dunbar today issued a statement showing the number of scalps delivered to the several County Courts during semi-annual periods since the enactment of the scalpbounty law of 1899. The statement shows the results of both the law of 1899 and, in a measure, the law of 1901, up to June 30 1901. It will be seen from the follow. 30, 1901. It will be seen from the follow-ing table that the number of scalps pre-sented during the six months just past is nearly as large as the number pre-sented during the corresponding period last year. However, nearly two months of

a drunken row, and Springer, seizing a sledge hammer, went after Thomson. A farmer's boy passing by heard Thomson's iast year. However, nearly two months of this period was included in the operations of the old law, the new law not taking effect until February 28, 1901.

not yet reported their June scalps, which went to the scene of the murder. When would be acted upon at the July term of court. As several of them are large producers of scalps, it is safe to say that "Ight." He had also set the house on the scalp-bounty business is on the in-crease. It will be seen that Umatilla County, which less reported for the month of June, has increased to 2950, as compared with 1675 for the same period last year. Several other counties also show

Under the old law there was a question whether the scalp-bounty warrants would ever be paid, hence the hunters were forced to discount their warrants from 20 to 30 per cent, and even more. Under the new law the warrants are worth their face, hence there is an additional incentive to the hunters. Each scalp is worth \$2. Under the present law the county pays one-third of the amount and the state pays two-thirds. The county pays for the scalps in the first instance and the state then reimburses the county for two-thirds of the amount. The state ap-propriation is \$50,000 for two years, and

to the statement, several counties have Mr. Woodward and his hired man also

fire. Mr. Woodward and the other man tried to put the fire out, supposing Thomson was inside. In the meantime Springer escaped to the woods, and has not been seen since. The provincial police are searching for him. Thomson's body was found hidden in the bushes near the house formerly occupied by the two men. It is in a terribly mangled condition.

Gets Four Years at Salem for Stealing a Purse and Fifty Cents.

ASTORIA, July M .- In the Circuit Court this morning the District Attorney returned a true bill against Joseph Hoff on the charge of larceny from a store. Hoff was arraigned this afternoon, pleaded guilty and was sentenced to four

years in the penitentiary. The specific charge against Hoff was that while in a local saloon he grabbed a purse from the hands of a man named George Hill and ran away with it. The purse contained 50 cents. He, however, is an old offender and it is said his principal occupation was robbing drunken men. This was the first time that con-clusive evidence was secured against him and the Prosecuting Attorney re-quested the court to give the defendant more than the lowest penalty so that he would be out of temporation for a while would be out of temptation for a while,

OREGON CITY, July 31 .- Local merchants held a meeting in the County Courtroom of the Courthouse last night and effected a permanent organization of the retail merchants of Oregon City. The following officers were elected after adopting the constitution submitted by a special committee: President, Charles O. Albright; vice-president, Frank Busch; secretary, C. Schuebel; treasurer, Frank T. Barlow. The board of directors will be elected at a meeting to be held next Tuesday evening, when permanent com-mittees will be appointed. The objects of the new association, as announced, are to foster a social feeling among the local merchants, to devise ways of improving the retal trade, advance the general commercial interests, improve roads leading to the city and protect matters of mutual concern.

E. C. Hamilton, a local merchant, re-turned from Dawson City last night, having made the trip in 12 days, including a stopover at Victoria. Mr. Hamilton had been there since last November, looking after some mining interests near Daw-son. He stated that business of all kinds

A Whole City Delighted With the Results of a Test of Coke Dandruff Cure.

The sales of Coke Dandruff Cure have more than doubled in the past week. Our customers are delighted with the results of this great preparation since the Free Sample test made at our store, to prove to the people of Portland its great worth.

Admiral George Dewey writes: "I have used Coke Dandruff Cure for the past year and found it an excellent prepara

their certificates of birth in the Recorder's office many years after the births occurred, whereas the law requires that they shall be recorded within 30 days. Emery sees in this violation of the law a chance for the Celestials to evade the exclusion act by sending the certificates to Chinese in the Orient who are desirous of quitting China, and who use this method to defeat the ends of the act.

Seattle-Victoria Rate War Ended. SHATTLE, July 31 .- An agreement has been reached between the rival steamship companies operating on the Seatttle-Vic-toria route, and the rate war, which has been on for over a year, will close to-night. The old rates will be in effect tomorrow, being \$2.50 for the round trip. The single fare will be \$2, with intermediate points corresponding. The warring companies met this morning in the office of the Alaska Steamship Company, and after a lengthy meeting brought about the end of the greatest rate war in the history of the Sound. For a time one could buy round-trip tickets for 25 cents, and freight rates were correspondingly
