## **BANISHMENT OF BOERS**

LATEST ENGLISH PROCLAMATION ISSUED BY LORD KITCHENER.

All Officers Who Befuse to Surrender, Shall Be Compelled to Leave South Africa.

LONDON, Aug. 8.-A parliamentary pa-per has been issued containing the proc-lamation issued by Lord Kitchener, August 7, in accordance with instructions from the Imperial Government, the Gov-ernments of Cape Colony and Natal conrring. The proclamation says: "All Commandants, Field Cornets and

leaders of armed bands, being burghers of the late republic and still engaged in resisting His Majesty's forces, whether in the Orange Colony, the Transvaal or other portions of His Majesty's South African dominions, and all members of the late Governments of the Orange Free State and Transvaal, shall, unless they surrender before September 15, be permently banished from South Africa. The cost of maintenance of families of all burghers in the field who have not surrendered by September 15 shall be re-coverable from such burghers, and shal be a charge upon their property, removable and immovable, in the two colonies." The preliminary correspondence shows that the proclamation is based upon suggestions which the Government of Natal forwarded to Colonial Secretary Cham-beriain July 4, and that the date, September 15, was recommended by Lord Mil-

The reasons of the Government for the proclamation are set forth in a preamble to the proclamation as follows:

"Whereas, the late Orange Free State and South African Republic have been annexed to His Majesty's dominions; and annexed to His Majesty's dominions; and "Whereas, His Majesty's forces are, and have been for some considerable time, in complete possession of the seats of government of both of the aforesaid territories with their public offices and the whole machinery of administration, as wel as of the principal towns and the whole of the relivence and whole of the railways, and,

Whereas, a great majority of the burghers of the late republics, to the num-ber of \$5,000, exclusive of those who have fallen in the war, are now either pris-oners or have submitted to His Majesty's Government and are living peaceably in towns and camps under control of His Majesty's forces; and,

Majesty's forces; and, "Whereas the burghers of the late republics still in arms are not only few in number, but have lost almost all their guns and munitions of war, and are unable to offer any organized resistance to His Majesty's forces in any part of the ntry; and,

Whereas, these burghers who are still in arms, though unable to carry on regular warfare, continue to make isolated attacks upon small posts and detach-ments of His Majesty's forces, to plunder destroy property and to damage rallway and telegraph property; and,

"Whereas, the country is thus kept in a state of disturbance, checking the re-sumption of agricultural and industrial ursuits; and

Whereas, His Majesty's Government is determined to put an end to the state of igs which is aimlessly prolonging adshed and destruction and inflicting ruin upon a great majority of the in-habitants who are anxious to live in peace and earn a ivelihood for themelves and families; and,

"Whereas, it is just to proceed against those still resisting, and especially against those persons who, being in a position of authority, are responsible for the con-tinuance of the present state of lawlessness, and are instigating their fellow burghers to continue their hopeless re-sistance to His Majesty's Government." Then follows the proclamation as given

The afternoon papers comment ap provingly upon the proclamation. Even the Westminster Gazette suys there is no fault to find with it, nor is there any objection to make on the score of jus-tice. It thinks, however, that it is ex-tremely doubtful if it will have any effect on shortening the war. Most of the fighting Boers are already completely ruined, and nothing restrains them, ow-

Men are the masters of their hands and of their labor; the liberty is their to work or not to work, provided they understand the consequences that follow, and resolve to accept and endure such consequences. Not only, indeed, is this liberty at all times theirs, but we must furthermore grant that occasions may arise and do arise when a strike, however serious the consequences for the workmen, is a means, and at times, perhaps, the sole means, through which rights appertaining to them and which are of vital importance to their ultimate welfare can be secured. It appears certain that the proclamation

was wholly inspired by the Government of Natal. Mr. Chamberlain is on one side praised as a strong statesman, and on the other hand despised as a weakling for ac-cepting Natal's advice. Generally the proclamation is approved as a common sense, justifiable measure, but no great hopes are raised by it.
