CENTRAL ALBINA SUB-BOARD

Inspector Miller Makes His First Report on Beech-Street Sewer.

A special meeting of the Albina Sub-Board of Trade was held last night in the Mississippi avenue engine house, M. E. Thompson, president, presided. After reading and approving the minutes the board took up the Beech-street sewer system, now under construction. J. C. Miller, inspector, appointed on request of the board, made an extended report of the condition of affairs. He took up about an hour making his report and answering questions. Mr. Miller said that he had been on duty about a week. A portion of the work had been done before his appointment. He said as far as he could judge a first-class job is being done, and that the stone mason and brick-layers employed are men who understand their work. He explained that there is considerable difference between laying brick in a wall and in a sewer, but so far as the skill of the men is concerned he had no fault to find. Where the sewer is being carried through the tunnel under Willamette boulevard the work is being thoroughly done. The walls of the conduit are being thoroughly backed and tamped. Mr. Miller made extensive explanations and answered every question to the satisfaction of all present. According to his report the Beech-street sewer will be the best constructed in the city.

President Thompson called attention to the necessity of getting in motion petitions for important laterals. He said that it took considerable time to get the preliminaries through the council, and the matter should receive immediate attention, if the laying of laterals are not done in the winter. The matter was deferred until a regular meeting.

The committee on street sprinkling reported nothing done. The board decided to make a determined effort to get streets in the Eleventh Ward sprinkled. It was stated at the meeting that in the Tenth Ward streets are being sprinkled, but not a single sprinkling wagon had been seen in the Eleventh Ward, all of which is regarded as unjust and unfair. The committee was instructed to make a demand for a street sprinkler for Mutnomah in a way that cannot be misunderstood.

M. E. Thompson, of the committee on widening of Vancouver avenue, between Alberta and Morris streets, reported some progress. He said that out of 9500 they had secured 2700 feet, with good prospect of getting more. Mr. Thompson said the committee had been over the street from one end to the other, explaining and arguing with property owners in the effort to show the advantage of widening the avenue. Some who had been opposed to the widening, he said, have come around in favor of it, but others still oppose it. On the whole Mr. Thompson said he was not discouraged and believes the widening will be accomplished.
