Draft of the Protocol Signed by the Commissioners at Pekin-Important to the Pacific Coast.

WASHINGTON, Aug. 12 .- The State Department has received a cablegram from Mr. Rockhill at Pekin reporting that the draft of the final protocol has been agreed n. A tariff of 5 per cent ad valorem be put in force two months after the signing of the final protocol, except-ing on goods shipped within 10 days after signing, and will continue until the conversion to specific rates has been effected by the expert commission. The Chinese free list will include rice, foreign cereals and flour, gold and silver bullion and coin. This inclusion of flour in the free and flour, list is of much importance, particularly to Pacific Coast shippers. Mr. Rockhill's advices that cereals and

In 1899 these amounted to \$2,25,633, which was almost double the shipments of the preceding year. It appears now from Mr. Rockhill's dispatch that the 5 per cent tariff on this article has been wiped out, and hereafter it will go to

China free of duty. The American shipments of rice and the other articles mentioned are not very large, and the inclusion of rice on the free list is chiefly due to China's needs of this staple food. Owing to the frequency of drouth and framine in China the local of drouth and famine in China the local production of rice often has been curntied, and it has been necessary to meet tremendous demands by allowing rice to ne in free of duty from Siam and other rice-producing countries.

the Siege of Fekin. WASHINGTON, Aug. 12-The Acting Secretary of the Navy, Mr. Hackett, to-day sent to Captain J. N. Hall, who commanded the Legation guard at Pekin Sur-ing a part of the crisis there, a letter of commendation for the heroic services of those under his command during the try-ing circumstances. The department had sent a letter of commendation to Capital Myers, who was the senior of four in command, but who gave way to Capital Hall on being wounded. A sim-liar letter would have been seni to Cap-tain Hall, but at that time he was under charges made by officials of the America Legation relative to his course during the slege. A court of inquiry, however, fully exonerated Captain Hall. The letter of

mmendation is as follows: "The department desires to commend In the highest terms the Legation guard under your command from July 21 to August 17, 1900. During this period each member of the guard behaved in the most creditable manner, under very trying cir-cumstances. Especially are to be mentioned and commended. Sergeant Edward A. Walker, M. Mr. Crane objected to this view and pressed the commission for a clearer exposition of its powers. The chairman somewhat testily told Mr. Crane he must not interrogate the commissioners. Mr. Crane divided the claimants into three classes-those deported for causes other than the plot against Lord Roberts, those wrongfully deported, and those accused of complicity in the plot. He objected to the term "act of grace." used by Chairman Milvain, saying it was an act of diplomacy for the preservation of the comity of nations. If, in diplomacy, an Ambassador was told his government's representations were only considered as an "act of grace," it might be dangerous.
