CITY NEWS IN BRIEF

Amusements.

BASEBALL—3:30 P. M. at 24th and Vaughn streets.

FLURRY IN THE POTATO MARKET.—There was a flurry in potatoes yesterday, owing to the fact that growers are not able to dig their crops fast enough to keep the market supplied. A buyer was out among the growers east of the city a day or two ago, offering $1 15 per cental, but he was told that men could not be hired to dig and sack them. Yesterday any one bringing potatos to town could get $1 20 per cental for them. Buyers say this price cannot be maintained, and that the market will settle in a day or two. Growers say the late-planted potatos are going to be a poor crop, small and few of them, and so they expect prices to be pretty well maintained.

CAUGHT 1000 TROUT.—Abe Tichenor, who has returned from Trout Lake, near Mount Adams, says a man from The Dalles who came away when he did, brought home about a 1000 trout. This man had been at the lake for some time and had built a live box in which to keep his trout. When he fished he had an arrangement attached to keep his fish in, and every day when he was done fishing he put the catch in his live box, which was fastened with a Yale lock. Early on the morning he left for home he dressed his fish and packed them carefully, and will arrive at The Dalles with them all in prime condition.

NEW MODERN BOILER SHOP.—The old Willamette Iron Works on Front street are being torn down to make room for a modern boiler shop, 85x160 feet, which will have a new wharf in the rear. These works, though not the first in Portland, have stood for over a generation, and from the smoke-grimed condition of the timbers one might imagine that Tubal Cain has his forge there. A donkey engine and steel cable are being used to tear out the lower story, so that the upper part can come down in a heap, and a great ripping and tearing and splintering of lumber is going on there, and the debris is accumulating all around. It will take some time to get the ground cleared for the new building. It will be erected by the Willamette Boiler Company, and be fitted with all the latest and most improved machinery and appliances for boiler-making. The first iron works in Portland were owned by Delschneider, a pioneer citizen, who was lost in the Brother Jonathan. David Monnastes, who died a year or so ago, started the second iron works established here, and the Willamette Iron Works came next.

DINING-ROOM AT UNION DEPOT.—The dining-room, lunch-counter, kitchen and storeroom connected with the Union Depot have been leased to the Pacific Hotel Company, J. E. Markel, manager, who will have everything in readiness to begin business by September 15. This company has a hotel in Omaha, and controls all the eating-houses on the Union Pacific and Oregon Short Line Railroads between Omaha and Huntington. The Union Depot was opened five years ago, but the dining-room and lunch-counter have never been used. A number of applications have been received from persons desirous of leasing them, but the management has discouraged such applicants, believing that the time had not arrived when they could be operated successfully. Now that travel has increased and there is a constant inquiry for the dining-room and lunch-counter by travelers, the Pacific Hotel Company has been permitted to take the job of feeding hungry travelers.

TO SEASIDE AND RETURN FOR $2.50.—Large crowds are taking advantage of cheap round-trip excursion rate of the A. & C. R. R. from Portland to Clatsop Beach. Tickets on sale every Saturday, good to return on Sunday, at $2.50 for the round trip. The Portland-Seaside Express leaves Union Depot every Saturday at 2:30 P. M., and runs through direct, without change of cars, arriving at Astoria at 5:50 P. M., Gearhart 6:40 P. M., and Seaside 6:50 P. M., making direct connection at Warrenton for Flavel, also connecting at Astoria with steamer T. J. Potter for all North Beach points. *

ALASKA DOES NOT NEED A BISHOP.—It is reported that the Catholic population of Alaska is to have a Bishop, that Archbishop Christie has sent to Rome the names of three candidates, and that Rev. J. H. Black, rector of St. Francis' Church, East Side, is one of the three. Archbishop Christie says there is no truth in the story. Only part of Alaska, he said yesterday, is in his province, and the work there is in charge of Prefect Rene, of Juneau. In the judgment of the Archbishop it will be some time before the churches and missions of Alaska will require a Bishop.

NEW CORPORATIONS.—The Ophir Mining Company filed articles of incorporation yesterday. The duration is 50 years and the place of business is Portland. L. Hansen, N. Gibson and H. D. Staley are the incorporators. The Empire Gold Dredging & Mining Company was incorporated by J. H. Pomeroy, W. G. Brown and T. H. Crawford. Capital stock, $100,000. The Tyler Mining Company was incorporated by A. E. Rockey, O. F. Paxton and F. C. Hooker. Capital stock, $100,000.

APPOINTED A DEPUTY SHERIFF.—H. F. Labrecque, head nurse at the County Hospital, has been appointed a Deputy Sheriff. As the neighborhood is a quiet one the new official will not be called upon for extensive use of his authority. In the future as in the past his work will mainly consist of caring for the sick and assisting the surgeons in the operations.

NOTICE TO TAXPAYERS, MULTNOMAH COUNTY.—The delinquent tax rolls for the years 1888 to 1896, inclusive, will be opened for collection Thursday, August 22, and will remain open until Tuesday, September 3, on which day the Sheriff will proceed to sell all property bid in by Multnomah County for the said years, the taxes on which still remain unpaid. *

DREDGING NEAR ST. JOHNS.—The dredge Portland is working near St. Johns. She was obliged to stop work on a lump in the channel at the lower end of town, because there is no place to put the gravel dredged. A bulkhead will be built behind which the gravel can be placed. When this is done the dredge will come back and finish removing the lump.

LAST TRIP OF THE POTTER.—The steamer T. J. Potter will make her last seaside trip of the season, leaving Portland September 7, and leaving Ilwaco next day on her return. This will end the excursion business of the Potter for the season.

DR. G. M. WELLS has returned from the East. Regular office hours, Abington building; residence, 221 Thirteenth st. *

WE have a fine collection of moulding and make a specialty of framing. E. H. Moorehouse & Co., 305 Alder, near 5th. *

DR. M. C. HOLBROOK, Dentist, 117 Abington bldg., has returned from his vacation. *

DR. E. C. BROWN, eye and ear specialist, has returned. Office 626-7 Marquam building. *

I. D. BOYER, gents' and ladies' tailor, has moved to room 502, Marquam bldg. *

R. S. GREENLEAF, Deputy County Surveyor, room 70, McKay bldg, 3d and Stark.

DR. SHANE has returned. Macleay bldg.*

BAILEY GATZERT, DALLES EXCURSIONS.—Daily, from foot Alder street, 7 A. M., except Monday, for Cascade Locks, St. Martin's Hot Springs, White Salmon, Hood River and Lyle, arriving The Dalles 3 P. M. Leaving, 4 P. M., arrive Portland 10 P. M. "This is the scenic route of the world. Waterfalls, peaks, crags, canyons, palisades, all pass before you so quick and fast that you wonder why you have waited so long to take this trip. Music by orchestra.. Meals for only 25c that will suit the palate of the epicure. Next Sunday the Seventh Regiment United States Infantry Band, from Vancouver Barracks, will accompany the boat. Their delightful music will add to the pleasure of the trip. Office "Dalles" electric sign.

BOTH STRUCK FIRST.—Jack Davidson and Charles Ames were convicted of fighting in the Municipal Cuort yesterday, and fined $10 each. They were drinking in a Whitechapel saloon, but not together, and one walked up and punched the other in the face. It was difficult to determine which struck first, so both were served alike. Harry Kennedy was fined $5 for assault and battery on Ed Schmeer. He pleaded guilty, and excused himself by saying that Schmeer talked about him and on being expostulated with called him vile names.

FED HIS HORSE IN THE STREET.—Otto Rudy, a Pleasant Valley farmer, thought he would feed his team in the street yesterday, not being aware of an ordinance forbidding it. The place selected was an unfortunate one, however, as it was right opposite the police station, on Oak street. Here he unhitched his horse and threw down a big pile of hay on the pavement. He was arrested by a patrolman, who marched him in before Captain Moore. Rudy was indignant, but he put up $3 for his appearance in the Municipal Court today.

SIDEWALK SCORCHER FINED.—James Bennett was fined $1 in the Municipal Court yesterday for riding a bicycle on a sidewalk in South Portland. Considerable complaint has reached the police lately from that quarter of the city, and an officer was detailed to arrest sidewalk riders there. Bennett was informed that the fine would be $10 next time.

DR. JOSEPHI has returned.

EAST SIDE NEWS.

Narrow Escape of a Boy in a Runaway Mix-Up.

Glen Livingston, a boy of 14, came out of a runaway accident yesterday morning with nearly a dozen severe bruises, and his escape from fatal injury was wonderful. He drives the delivery wagon of the meat market on Hawthorne avenue, between Grand avenue and East Sixth street. The horse and wagon were about 75 feet from the market. The stable is in the rear of the market. Livingston was ordered to put the nag in the stable. Scarcely was he seated in the wagon when the horse was off like a shot. He dashed past the market and made a square turn in the alley leading back to the stable. In making the turn the wagon collided with a post. The boy was thrown upward about 10 feet. He dropped into the wagon, but bounced out, falling heavily on the plank roadway. Glen was stunned at first, but picked himself up. Dr. Johnson examined him, but found no bones broken. On both legs were several ugly bruises. His chin also showed evidence of severe contusion, and the jaws were injured. The physician said after examination that it is sometimes hard to kill a boy. The boy's injuries would have laid a man up for a month, but after putting on a few plasters this youngster went ahead with his work.

Cycle Path Wanted on Williams Avenue.

The condition of Williams avenue between Stanton and Alberta streets almost precludes the use of bicycles, and yet the street is important, as it connects at Alberta street with the paths to the Columbia River and University Park. The University Park Sub-Board of Trade has taken the matter up. Secretary A. L. DuPuy, of the board, has asked the cooperation of the Eleventh Ward and other boards in working to secure a path to connect with the Columbia River path. He says: "As any of your wheelmen know, it is extremely hard on wheels and so arranged that a bicycle behind a wagon cannot pass without using the sidewalk, which is against the law."

Williams avenue has double tracks. The planks of the old roadway were cut in the middle and laid outside the tracks, providing eight-foot driveways on each side. Between these and the curbs are narrow spaces that might be used for paths.

Improvement Rally in Albina.

A rally of the various Sub-Boards of Trade will be held in the Manley building, Williams avenue, Saturday evening. The following call for the meeting has been issued:

"Recognizing the many benefits to be derived from a strong and concerted pull, it has been deemed advisable to call a mass meeting of the sub-boards of the Tenth and Eleventh Wards of our city, and others who may desire to attend. The purpose of this meeting will be to organize a working and representative body to press our joint claims before the proper authorities, and by reason of our concerted action secure us more advantages than we may otherwise be able to obtain."

Closing Up District Work.

Rev. L. E. Rockwell, presiding elder for Portland district, of the Methodist Episcopal Church, held a meeting at Clackamas station last evening, for the purpose of arranging a circuit composed of Clackamas and Damascus. These places have heretofore been attached to Sellwood, but feel strong enough to be made a district by themselves. This will relieve Sellwood. Dr. Rockwell is pushing work all over his large district, closing up affairs of the churches, preparatory for the annual conference, which will meet at Hillsboro September 25.

East Side Notes.

C. C. Murphy, of the street department, returned yesterday from the seaside to his home, 662 East Main, considerably improved.

The Eleventh Ward Sub-Board will meet this evening at Piedmont, and the James B. Stephens Sub-Board will hold a meeting at Gruner's Hall.

Wise Bros., dentists, both 'phones. The Failing.

PORTLAND MAN WILL GET IT

New Secretary of Democratic Committee to Be Chosen.

It is announced from Baker City that Samuel White, chairman of the Democratic State Central Committee, will appoint a Portland man secretary of the committee to succeed W. E. Burke, of this city, who resigned recently. It is said that the place will go either to Robert J. O'Neil or George L. Curry. Mr. O'Neil is a well-known attorney and was a member of the Second Oregon. Mr. Curry is a son of ex-Governor Curry. Both he and Mr. O'Neil are active and enthusiastic Democrats. It is expected that the appointment will be made within a few days.

WHERE TO DINE TODAY.

Ice cream, appetizing desserts, hot weather specialties and substantial viands. Portland restaurant, 305 Washington.

For home-like cooking go to E. House's Cafe, 128 Third street; he only buys the best; fresh eggs, milk and cream from his own ranch daily.

The 25-cent lunch at the Perkins, 108 Fifth, is a fine dinner. White cooks.

FREE BATH IS ASSURED

SUBSCRIBERS WILL MEET MONDAY NIGHT TO ORGANIZE.

Lawn Fete to Be Held on the Plaza Blocks to Raise Money for the Undertaking.

Portland will have a free swimming bath, and it will be ready for boys and girls when the warm season opens next year. Less than $1500 remains to be raised and it is as good as in the bank. L. Samuel and Edward Holman, who have promoted the undertaking, decided yesterday that the prospect for success is good enough to justify permanent organization. They have called a meeting of the subscribers to the fund for Monday evening, at which officers will be elected. The time and place of the meeting will be announced in The Oregonian Monday.

By far the most important step to complete the fund has been taken by Miss Carrye B. Clark, of 685 Kearney street. She is arranging to hold a lawn fete on the plaza blocks on the night of September 3. Mayor Rowe has consented to be present and a number of musicians have volunteered their services. Miss Clark will be assisted by a large number of women. It is expected that this fete will make a substantial addition to the fund. No matter what may be the condition of the fund after Miss Clark's lawn party, Messrs. Samuel and Holman say the bath house is a go. If any amount remains to be raised they intend to collect it.

An alphabetical list of subscribers is being prepared for publication in Monday's Oregonian. The purpose of this is to check up the pledges and if there have been any omissions from the statements published from time to time to make them good.

All interested in the free swimming bath are invited to attend a lawn social at 235 Broadway, East Side, this evening. The party will be under the charge of Misses Mary Sharkey, Edna Baugham, Lillie Hughes and Mary Hays.

ITS SCENES OF SPLENDOR.

Carnival Will Be Most Brilliantly Illuminated.

Actual work has been begun in transforming the big Exposition building into the thing of beauty it will be during the Carnival. Superintendent E. W. Rowe has located his desk in the building and has established his headquarters there and started a force of carpenters to work. An immense amount of transforming will be necessary, and it will be pushed with vigor. All the fittings and conveniences will be made more attractive and better than ever. Some of the larger exhibitors were out at the building yesterday and engaged space.

At the Carnival the Exposition building will be the most brilliantly illuminated edifice on the Pacific Coast. There will be 3500 incandescent lights and 120 arc lights used, which will be more than were ever used there before. Such a scene and such a flood of light are pleasing to all and well worth coming miles to see.

The general committee held its regular meeting last evening, with the president, General O. Summers, presiding. Considerable business was transacted and much headway was made. In regard to the important matter of concessions it was decided that the concessions committee meet this evening at the store of A. B. Steinbach to transact important business.

A resolution was adopted requesting R. B. Lamson to take charge of the department of amateur photography. Mr. Lamson's good work in this department at former expositions is well remembered.

The department of agriculture and horticulture is making good headway, and Captain Edawards is being ably seconded by Colonel R. C. Judson, industrial agent of the O. R. & N. Co., who is collecting material most energetically.

The committee appointed Mrs. H. E. Batten as superintendent of the women's department.

The committee will meet again next Monday evening instead of Wednesday.

Military Tournament.

Already General Gantenbein has received several entries in the military tournament. Two of the entries are from companies outside of the state. One is from Company D, of the Washington National Guard; another is from a company at Colusa, Cal. The Carnival committee will furnish rations and quarters for soldiers coming from outside of Oregon. There are good prospects of the cavalry companies at Sumpter and Lebanon and the battery at Baker City coming to Portland to participate in the tournament.

Hatching Salmon.

There will be a complete salmon-hatching plant at the Carnival. Captain E. S. Edwards, who has charge of that department, has arranged with E. N. Carter, superintendent of United States hatcheries, to have a complete hatchery put into the Exposition building, in the same location as that occupied by the former hatchery, but on a much larger scale. As Captain Edwards expresses it, the plant will be 700 times better than the old one. It will be complete in every particular. At former expositions the miniature hatchery attracted much attention and was highly commended. This year the hatchery will be one of the finest features of the Carnival and will be very interesting and instructive, showing the very inception of the foundation of a great industry.

Lumber Exhibit.

The matter of having an exhibit of the lumbering industry of the Northwest at the Carnival is assuming definite shape. Some of the prominent lumbermen of the Northwest have taken the matter up with the Carnival committee, and liberal space has been reserved for the lumber exhibit.

May Buy Building.

Portland possesses one of the most spacious Exposition buildings on the Pacific Coast, and one that is centrally located and well fitted for its purpose. The Carnival committee is favorably considering a proposition to buy the building and retain it for the use of the people. A subcommittee has been appointed to consider ways and means, and capitalists have signified their willingness to enter into the proposition.

Athletic Sports.

The Multnomah Field, on which the Carnival athletic sports will occur, contains five acres, and will be made brilliant by many electric lights. An outline of the main features of the programme is as follows:

First night, a general field meet, participated in by athletes from San Francisco, Spokane, Puget Sound, Oregon State University and the Multnomah Club.

There will be a night devoted to wrestling, which will be a post-championship meet. Also a wrestling tournament for local men of the Multnomah Club—lightweights, feather-weights and welterweights.

There will be three special matches between Kahn of Multnomah, McKenzie of San Francisco, and Price and DeFrance of Multnomah, and Bullivant of Spokane and J. McCallig, of Multnomah.

There will be a football game by electric light at night, and a basket-ball match between the ladies of the Turn Verien and the Y. M. C. A.

There will be a general athletic night, filled with all sports—bar work, tumbling, diving, tennis, etc.

Thousands of children will be assembled by Professor Krohn and maneuvered in the evening in an immense drill, with calcium lights and other brilliant effects.

WAS TOLD TO HELP HIMSELF

Clothing Thief Throws the Blame on a Fellow Prisoner.

H. P. Fryar, of Gresham, who was recently in jail for stealing bicycles, was charged in the Municipal Court yesterday with stealing from Charles Clements. He said that when he was in jail on the bicycle charge he formed the acquaintance of one Matthew Olsen, who told him to go to his room, 38 California lodging-house, when he got out, and help himself to a suit of Olsen's clothes. Fryar went to the room and put the suit on over his old one, although the day was hot and the proposed bicycle ride to Gresham a tiresome one. He was gruffly stopped on the street by the landlord and the owner of the clothes, and although he apologized for his mistake, was rushed off to jail, a very ungenerous way, he thought, to treat an innocent man. The prosecution dubbed his story as "fishy," and the case was continued until today, when the defense will try to introduce Olsen's testimony on Fryar's behalf, if Olsen can be found.
