SHAMROCK DID NOT TAKE HER EX-PECTED SPIN.

Lipton and His Party Will Witness the Race Between Constitution and Columbia Today.

NEW YORK, Aug. 23.—Owing to a mis-understanding of orders, the cup chal-lenger Shamrock II did not have a trial renger Shamrock 11 did not have a trial spin outside of Sandy Hook today. The original programme was to have the yacht towed to Sandy Hook from her anchorage off Stapleton. S. I., starting at II o'clock, and then to have her go out for a trial spin to have her go out for a trial spin to have the america's our course in the over the America's cup course in the afternoon. But the forenoon was spent in making some alterations and repairs to the yacht's rigging. At 2 P. M. Sham-rock, in tow of Erin, started down the

main channel to Sandy Hook.

As the vessels passed out by the Romer beacon, they began to feel the effects of the easterly sea which was rolling in. At 3 P. M. they rounded the southwest spit and headed out to sea. It was then so late that Sir Thomas and the yacht's designer decided it would be better not to attempt to sail over any stated course before dark. So about half a mile east of the bell buoy off Sandy Hook the tow line was cast off, Shamrock's staysall was broken out and under that sail she returned to within a half mile of her mooring buoy in Sandy Hook Bay. She

showed wonderful ability to work to windward under that short sail. Sir Thomas announced that he and his party will witness the race of Columbia and Constitution off Oyster Bay tomor-row. Shamrock will not sail again until Monday, but she will go out every day after that except Sundays, to take trial spins over the America's cup course,

Chagrin Aboard Constitution.

OYSTER BAY, L. I., Aug. M.-This was not a day of rest for the crew of Constitution, now at anchor in the har-bor. They will know no idleness for some time to come, for the captain, in view of yesterday's defeat, is bound to keep all hands at work tuning up until the new boat is able to show all the speed there is in her. There will be little use in denying that there was chagrin among the friends of Constitution over yester-day's defeat. Bad sails, it was said, did not explain it. Whenever the wind held true and showed any strength at all, Co-lumbia simply walked away from Con-stitution, and this, too, in conditions of sea that were altogether favorable to the new boat. Well-known yachtsmen who have followed all the races between the two boats were astounded at the spectacle and unable to explain it.

The Oregonians offer to pay the expenses of the California

able chance for a tle. The American committee has suggested

The games will take place on Berkeley Oval. New York, September 25, at 3 P. M. This was decided tonight. The hurdle race will be run on the cinders, a pronounced disappointment to the English-men. This provisional order of events was adopted, subject to amendment: 100-yard dash, 850-yard run, hammer-throw, 440yard run, running high jump, mile run, 120-yard hurdles (3 feet 6 inches), running broad jump and two-mile run. The visitors favored the nine events. Only firsts are to count. If the games should result in a tie by reason of a dead heat in the deciding event, the tie will stand. At the request of the visitors, the uprights for the high jumps are to be eight feet tall.

The Englishmen Are Confident. NEW YORK, Aug. 23.-H. S. Brooks, one of the graduate managers of the Yale and Harvard teams, and who has just returned from England, where he made arrangements for the track and field sports return match between Oxford and Cambridge and Yale and Har-

vard, says the Englishmen are very confident of victory.
"We concluded matters," said Mr. Brooks, "at Morley's, just before I left, Dr. J. H. Bray, of Cambridge, and C. N. Jackson, the Oxford bursar, being the English representatives. While these gentlemen will not accompany the team on the visit, Lee Knowles, M. P., ex-president of the C. U. A. A., will look after his countrymen's interests.

"It is also expected that Mr. Montague Sherman, who is well known to Ameriin the management,

when Yale and Harvard made their visit conference, and Sir Henry Fowler will a year age, indicating that farmers have in 1899, will make the journey and assist preside over one of the most important large stocks carried over from previous n the management, meetings, A series of supplementary meetings wil be held in several provincial

Western amateur golf championship tournament may go to a representative of Detroit. Raymond Russell, a young player who halls from that city, upset all calculations at Midlothian this afternoon by definition.

ference, who caused the protest, is still at the hotel. He said in an interview:
"I have been staying at this hotel off and on since the beginning of July, and was never better treated anywhere. I regret exceedingly to hear that trouble has been caused by the arrival of Bishops Arnett, Tanner and Derrick. I was in Parls when the protest was made,

"I have met Americans, even from Texas, all over the continent and received warm greetings from them. During my trip through Holland, Belgium, Germany, Switzerland, Italy and France I had not an insult from an American or any one

"I sailed from New York on the St. Louis and was treated like any other cabin passenger. I preached on Sunday at BOSTON, Aug. 23.—The Oxford-Lam-bridge athletes, who have crossed the At-lantic on the steamer Commonwealth to lantic on the steamer Commonwealth to would be the best country in the world if tember 14, and with a team of Yale and it could get rid of its race prejudice. La-

Ireal.

Mr. Knowles, the graduate manager, has a lively debate on his hands with the American graduate managers on the two important points of whether there shall be more than nine events on the programme and whether or not any place than first shall be the same in America."

W. Winfield, manager of the Anglo-American Bank of New York, one of the protesting patrons of the St. Ermins, said: "I do not object personally to Richard Calines on his a same part of the St. Ermins, said: "I do not object personally to Richard Calines on his a same protection of the St. Ermins, said: "I do not object personally to Richard British and St. Ermins, said: "I do not object personally to Richard British and St. Ermins, said: "I do not object personally to Richard British and St. Ermins, said: "I do not object personally to Richard British and St. Ermins, said: "I do not object personally to Richard British and St. Ermins, said: "I do not object personally to Richard British and St. Ermins, said: "I do not object personally to Richard British and Brit sisting of 100, 440, 880-yard, one-mile and two-mile runs, high and long jumps and high hurdles and hammer-throwing. Mr. Knowles' argument is that nine events, first only to count, settles the question of supremacy at once and gives no reasonable chance for a tie.

"It gives me a shock when I see a beaua relay race, which is not favored by the Britishers, as they know nothing about it and have never trained for it.

The games will take place at Polytics for the attitude of Hotel Manager Richardson, I excuse him because he is an Englishman; if he were an American nothing on earth would make me do so, When Europeans get to know the negro as as we know him, they will curtail his

Manager Richardson said: "I received numerous written and verbal messages of congratulation and indorsement of the podtion I have taken."

Arrival of Delegates.

NEW YORK, Aug. 23.—American delegates to the Methodist Ecumenical conference have begun to arrive in London and register their names at the confer-ence book room, City Road, says a dis-patch to the Tribune. Several American Bishops are expected and a large number of ministers. Bishop Hartzell, who takes a strong pro-English view of the English war, has returned from Africa to attend the conference, and Bishops Hurt, Vincent and Hamilton will also be present the first meeting is held early in Septem-

ber, Wesleyan Chapel, City Road, will be the chief center of conference work, but sev-eral meetings will be held in St. James's Hall. Discussion will run on practical lines of work, characteristic of Methodism, such as the liquor traffic, gambling, ef-fective preaching, missions, education and modern indifferentism, and there will be special debates on biblical criticism and protestantism versus sacerdotalism. Hugh Price Hughes, the most eloquent Wesley-an preacher in England, will be kept

away by ill health.

R. W. Perks, Yerkes' associate in the reform of underground London, will take can athletes who have visited England, reform of underground London, will take and Guy C. Vassal, the Oxford captain an active part in the organization of the and to which I agreed was one which will towns after the close of the conference.

TRADE HAS TURNED.

of an Enlarged Business at Stendy or Higher Prices.

the result of real or assumed crop dam

Wheat was weak early on increased supplies affoat, enlarged receipts at the Northwest, and technical market conditions favoring a decline, but strengthened not equal to last week, and general conn-dence in present or better prices being maintained. Corn has sympathized large-ly with wheat, though weakening on its own account on better crop advices from the states east of the Mississippi, where timely rains have fallen. Net changes for the week are slight. Some hog prof-ucts, particularly lard, have sympathized with the strength of corn. with the strength of corn.

Cotton goods have been rather irregular, but it is to be noted that talk of a

reduction in wages and a consequen strike in Fall River has been practically abandoned, and the close of the week finds print cloths firmly held, while other cotton goods are quite steady, though not

wool and woolen goods are strong, the former on active buying by manufac-turers and advice that the new clip in the West has been pretty well cleaned up. Boston and Philadelphia alike report activity in the raw material, without, how-ever, any actual advance in prices. Wool-en mills are fully employed on Fall of-dors while a liberal hunless has been ders, while a liberal business has been booked for Spring delivery. Iron and steel show little change, ac-

desirable lots.
Sugar is lower and rather irregular, but

the decline in this product and in flour and tin are the only important decreases noted for the week. Leather and kindred trades are active at most markets,

record total), and 2,685,168 bushels in the week last year. Wheat exports from July 1 to date (eight weeks) aggregate 50,559,331 bushels, as against 22,640,146 bushels last

season.

Business troubles show no increase, the failures for the week numbering 162, as against 178 last week, 135 in this week a 24, as against 29 last week, 29 a year ago, 32 in 1899, 27 in 1898, and 39 in 1897.

DUN'S WEEKLY TRADE REVIEW. Some Drawbacks, But Business Is of Well-Sustnined Volume.

NEW YORK, Aug. 23.-R. G. Dun & Co.'s weekly review of trade tomorrow will say:

Though there are some drawbacks, no-steel industry, business is of well-sus-tained volume, to which fact payments through the country's clearing houses, rallroad earnings and the strength of prices of staple and partly manufactured

tile markets, sellers of merchandise have an advantage over buyers, and distribu-tion is as large as stocks will permit. The Amalgamated Association of Iron. Steel and Tinplate Workers succeeded in enlisting the sympathy of other workmen, with the result that the output of merchant bar and wire rods is curtailed to the extent of about 40,000 tons monthly. Beyond this defection, wage-earners in all branches of the steel industry have re-fused to break their contracts. Many idle mills resumed during the past week, and even in the tinplate region there is a moderate output. Plates have begun to arrive from abroad and prices in the London market sharply advanced. Hoop and sheet mills increased production daily, and there is no loss in the rail division, but some anxiety is felt regarding supplies of cotton ties as the picking sea-

son has begun in many states.

Exceptional activity is still the rule at shoe shops and promises to continue for some months. One of the most satisfac-tory signs is the evidence that little Summer stocks will have to be carried over. Sole leather continues remarkably strong, union backs gaining another cent, while there is a splendid demand for hemlock, both for domestic use and export. Belting advanced and kangaroo leather is much higher. Hides are without change in price and selling freely. Slightly better terms asked for staple woolen and worsted goods in no way diminished the volume of sales, and the light-weight season promises to be one of activity. In heavy-weights there is also noticed greater interest on the buyers than is customary at this late date. These improved conditions in the manufacture give tone to raw wool despite the heavy arrivals at Eastern markets of the nev

After a season of duliness at 8 cents bound, cotton suddenly developed consid erable animation and strength. The chief influence was unsatisfactory weather in Texas, although there was also ald in the speculative market from covering of the large short interest outstanding. Liverpool quickly responded to better prices here. There was further support in the failure of any agreement regarding wage reduction at Fall River, as a strike would assuredly have followed and consumption of the raw material been materially cur-tailed. Decided interest is shown in Fall goods, the Fall trade being well occupied. In lines exported to China there is a fair Grain quotations eased off somewhat

during the week, though the net decline was small. Corn is still close to the highest price since 1892, even with a host of important influences militating against such figures. Weather conditions stead-ily improve, making the outlook bright for late-planted corn. Foreign customers have been driven away by exorbitant prices to the benefit of Russia and Argentina, and Atlantic exports for three weeks aggregated only 1,862,589 bushels, against 7,636,548 bushels last year, and 12,720,027 bushels two years ago. Meanwhile, in-terior receipts steadily exceed those of a year ago, indicating that farmers have excessive yields. Nevertheless, prices remain above 60 cents.

BRADSTREET'S SAYS THE TIDE OF

Is Setting Strongly in the Direction

NEW YORK, Aug. 23,-Bradstreet's tomorrow will say:
Evidence multiplies that the tide of trade has turned and that it is now setting strongly in the direction of an enlarged business at steady or higher prices. Crop improvement, particularly in the Central West and the Mississippi Valley, has been the mainspring of the more cheerful tone of advices and enlarged Fall trade operations at such cities as Chicago, St. Louis and Kansas City. Even from the so-called drouth-stricken corn beit come advices of a quite satisfactory busi-ness, in some instances reports being of a larger jobbing trade than in the corresponding period a year ago. The not-able strength of cotton, partly, however, age, has been the active feature in the betterment of Southern trade advices. At the great Eastern centers distribution is going forward in as good, if not better, volume than a year ago. Prices, except for some irregularity in the cereals, have been generally quite steady.

later on continued poor crop reports from abroad, fairly large clearances, although not equal to last week, and general confi-

active at first hands.
Wool and woolen goods are strong, the

cessions to the strikers in the case of the leading tube works of the country having been balanced by the reopening of "stuck" mills in the Pittsburg district. Tinplates and sheets are scarce and hard to get, and an order for 50,000 boxes at \$7 per box was refused this week at Pitts-New York Si

WEEKLY FINANCIAL REVIEW.

Better Tone in Stocks, and Traders

Prefer the Bull Side.

nancial review tomorrow will say:

NEW YORK, Aug. 23,-Bradstreet's

In point of activity the stock market howed but little improvement this week,

It continued to be narrow and, in the

main, dull, while professional trading and manipulation by pool interests were ap-

parently responsible for most of the trans-

actions. The tone of the market was better, however, the change in this re-

spect becoming more apparent on Friday

Some slight increase in the amount of commission orders accompanied this move.

street, except as investors, there being a

al absorption of dividend-paying stocks.

The light offerings of securities consti-

tute one of the features of the situa-tion. In fact, in the early part of this week it was the absence of any pressure

when buying power was lacking. Opera-

tors have found that the bear side is now

unprofitable, and it was noted that large Western interests which were active in

depressing stocks for some time back have now changed their position. The large earnings which are reported by the

railroads as a rule seem to have aided

in creating a belief that the damage to

the corn crop will not have any serious

effects on the traffic and revenues of the roads, at least until October or Novem-

ber, when new corn would begin to move,

steady demand for bonds and internati

ment, though on the whole the

seems to be still keeping out of

to sell which maintained prices,
