WANT NOYES REMOVED

MEMBERS OF THE NOME BAR ASK MCKINLEY TO OUST HIM.

Dubose, the Nome Attorney, in Jail for Contempt of Court. Moves for a Rehearing.

SAN FRANCISCO, Aug. 27.—A petition signed by 22 members of the Nome bar, addressed to President McKinley, asking for the removal of Judge Arthur H. Noyes, of the United States District Court of Alaska, has arrived here. Dudley Dubose, the Nome attorney, who is serving a six months' sentence in the Alameda County Jail, for contempt of court in connection with the Cape Nome mining cases, filed a petition in the United States Circuit Court today asking for a rehearing.

THE SAN FRANCISCO STRIKE. Efforts to Bring About a Settlement Come to Nothing.

SAN FRANCISCO, Aug. 27.—Nothing was accomplished today by the various parties who are endeavoring to effect an amicable settlement of the strike, and the outlook is not promising for a speedy termination of the trouble. A fair amount of work was done on the water front, though the movement of freight was very slow. A number of assaults on nonunion men occurred and several arrests were made. On the whole, the situation may be described as practically unchanged.

Armed Mob Attacked Miners.

SAN FRANCISCO, Aug. 27.—Advice from Nome told of a mob of 70 masked men at Glacier Creek, the outcome of litigation over mining claims. Richard O'Connor, one of the parties attacked in a camp, the occupants of which were forced to leave, was shot through the groin and was at death's door when the steamer St. Paul left Nome. Warrants were issued for the arrest of the attacking party and were placed in the hands of deputies who were awaiting the result of O'Connor's wounds before making arrests.

Fees Coming Out of the Fair Estate.

SAN FRANCISCO, Aug. 27.—The fees and commissions, amounting to \$40,000, which Judge Trout has awarded to attorneys and executors of the James J. Fair estate, in addition to the \$20,000 given each of the executors by the New York Probate Court for the administration of the portion of the estate located in that city. The total valuation on which the executors' commissions were computed is \$17,724,645. Other heavy fees are yet to be paid, but it is estimated that \$5,000,000 will remain for each of the late Senator Fair's three children.

Prune-Crop Contract Rescind.

SAN FRANCISCO, Aug. 27.—The Chronicle says that the California Packers' Company has rescinded its contract with the California Cured Fruit Association so far as the coming crop of prunes is concerned, although the remainder of last year's crop will be sold under the contract which has existed since the organization of the two companies.

Many People Will Leave Nome.

SAN FRANCISCO, Aug. 27.—Officers of the steamer St. Paul bring the information that at least 600 or 700 persons intend to come back to the United States from Nome the present season, though it is doubtful whether the steamers now plying in Alaska will be able to bring such a large number before navigation closes.

Strike is Helping Astoria Mills.

ASTORIA, Aug. 27.—One result of the continuance of the strike at San Francisco is the receipt of an increased num-

ber of orders by the Astoria mills for boxes to be shipped to various points in California. Many of the orders are, however, refused for the reason that the mills are all raked at present.

Held to Answer Before Grand Jury. SAN FRANCISCO, Aug. 27.—William Hagan, who was arrested with Frank J. Perry and Edward W. Smith for uttering worthless notes of the State Bank of New Brunswick, N. J., which suspended 20 years ago, was examined today before United States Court Commissioner Heacock, and held to answer before the grand jury for violating section 540 of the revised statutes of the United States.

FRUIT MEN ARE MAKING MONEY. This Will Be the Banner Year in the Ashland District.

ASHLAND, Aug. 27.—The present fruit season now gives every promise of being the most profitable one in the history of the industry in this section of the Rogue River Valley. Early Crawford peaches, which have been coming into the market thick and fast for the past 10 days, will be through with about the middle of this present week. There has been a good crop of them, and the prices obtained have been most satisfactory to the growers, the entire yield bringing around 60 cents per box. Many peaches will be in the market about the end of the week and in a few days thereafter they will be shipped in carload lots.

The first shipment of Bartlett pears was made today, 30-pound boxes of this delicious fruit bringing 50 cents per box, free on board. This has been the first year that any large amount of tomatoes has been raised around and shipped from Ashland. They have been in excellent demand at 50 cents per box, and the supply has not been equal to the call for them. This vegetable does splendidly in this section, and experts say it has a better flavor and appearance than obtains in any other locality in Oregon. It is expected that owing to this year's unexpected demand a much larger crop of this profitable and popular vegetable will be grown in this vicinity next year.

J. B. Bolton has been picking and shipping a second crop of strawberries during the past week, which are of excellent size and in the flavor.

Will Compress Hay For Manila. FOREST GROVE, Aug. 27.—Vic Brown, of this place, will start up the Albers and Schneider's hay compressor here in the morning, for the purpose of compressing enough hay to finish out their Government contract for Manila. This plant has been idle this season, owing to Messrs. Albers and Schneider shipping what hay they have bought in this section to Portland, and doing the compressing there. In several instances here, farmers have realized from \$25 to \$30 per acre for hay sold this season.

Medford Fruit Shipments. MEDFORD, Or., Aug. 27.—Fruit-shipments is being carried on full blast. Page & Son today shipped one car of pears and prunes to Cuneo Bros, of Chicago. F. Osenberg also shipped one car of pears to Portland, whence it will be sent East.

INVESTIGATED SIBERIAN TRADE. Canadian Pacific Official Returns From the Orient.

VICTORIA, B. C., Aug. 27.—W. Whyte, general manager of the Canadian Pacific Railway, who left London May 27 to go across Siberia investigating trade possibilities with a view to the establishment of a Canadian Pacific steamer line to Vladivostok, similar to the Empress liners to connect with the Canadian Pacific and Trans-Siberian lines, returned today by the Empress of China. He said in an interview that he could give nothing out regarding the results of his mission until his report had been presented. Speaking of the trade possibilities, he said that the recent tariff imposed by Russia which discriminated against United

States goods, which were levied on higher than other goods, is a handicap to trade, but the market is large in Siberia and the district resourceful, although the people, bowed under militarism and the priesthood, are poor.

He learned while at Khabarovsk that General Gribski, reported to have committed suicide because of the Amur massacre, where 2000 people all told were killed, had been banished to Kamachatka. He says a grave insurrection prevails in Manchuria, and he was warned at Pekin by the British Ambassador not to go through there. The Russians, however, suppressed the details, and he could learn nothing of them.

General Gaselet, commander of the British forces in China, was a passenger on the Empress, bound for London, and another passenger was Lady Blake, wife of the Governor at Hong Kong.

MANGE AMONG HORSES. Wasco County Stock Inspector Says the Animals Must Be Dipped.

HOOD RIVER, Aug. 27.—A. A. Bonney, the Wasco County stock inspector, returned yesterday from a trip to Antelope. He says a grave insurrection prevails in Manchuria, and he was warned at Pekin by the British Ambassador not to go through there. The Russians, however, suppressed the details, and he could learn nothing of them.

Army Board Adjourns. WALLA WALLA, Wash., Aug. 27.—The board of officers having completed the purchase of 280 cavalry horses, which Sheriff Frazier, of Portland, contracted to deliver, has adjourned to allow the contractor to secure 26 more horses to complete the increase in his contract. Colonel James Jackson left for Portland this evening.

Granted a State Certificate. SALEM, Or., Aug. 27.—The State Board of Education has granted a certificate to Olive Ellen Cummings, of Halsey, Linn County. The paper was earned in the regular course of teaching experience.

BICYCLE IN THE ARMY. General Maurice Tried His Plan in England.

NEW YORK, Aug. 27.—Major-General Frederick Maurice attracted considerable attention about a year ago by his attempts to prove to British officers that the bicycle is worth taking more seriously in military maneuvers. He organized a big corps of bicycle volunteers for a test of his scheme, but their evolutions were not a great success at the first trial. Major-General Maurice avers the London correspondent of the Press, has just tried his plan again with a body of 1200 cyclists of Aldershot. His success was so complete that many observers and even some of the professed military critics predict that the cyclist is to be the mounted infantryman of the future. At any rate it is conceded that these Aldershot maneuvers prove the wheel to be much too good for use only in despatch-bearing, scouting and reconnoitering as at present.

The 1200 cyclists, carrying kit, rifle and ammunition, left Aldershot at 8 o'clock in the morning and reached Bagshot in perfect order, with intervals and space preserved, in better time than cavalry make on the same journey. They were inspected by the British officers and then marched and counter-marched, moved double quick, covering 12 miles in 56 minutes and put through all the evolutions that would have been required of them in actual warfare. The number of punctured tires was remarkably small, and there was surprising little confusion.

Provo Jewelry Store Robbed. PROVO, Utah, Aug. 27.—Beck's jewelry store, in this city, was entered by burglars last night, the safe opened and \$300 worth of jewelry and \$15 in cash taken.

WEEKLY CROP BULLETIN

GOOD REPORTS FROM ALL PARTS OF OREGON.

Grain Harvest Almost Over and Yield Satisfactory—Prospects for Hop Crop Never Better.

(United States Department of Agriculture, climate and crop bulletin of the Weather Bureau, Oregon Section, for the week ending Monday, August 26.—Edward A. Beals, Section Director, Portland, Or.)

General Summary. Light showers have occurred during the week in nearly all parts of the state. They did no harm to the ripening grain, and were of great benefit to late crops and pastures. More rain is still needed for late potatoes and to start a new growth of grass in the pastures. The week has averaged nearly 6 deg. cooler than the previous one. The maximum temperatures in Western Oregon ranged between 62 deg. and 91 deg., and the minimum between 46 deg. and 69 deg. In Eastern Oregon the maximum temperatures ranged between 72 deg. and 100 deg., and the minimum between 52 deg. and 64 deg. The grain harvest is now practically finished and threshing is in active progress. Both the yields and the quality continue good, and the crop as a whole is very satisfactory, though not much, if any, more than an average one. The threshing yields reported this week are as follows: Polk County, wheat 25 bushels to the acre, oats 25; Marion, wheat 20 to 31, oats 22 to 50; Clackamas, wheat 20 to 25, oats 25 to 45; Washington, wheat 18 to 20, oats 25 to 50; Benton, wheat about 25, oats about 32; Linn, wheat 19 to 40, oats 12 to 50; Yamhill, wheat and oats 25 to 40; Wasco, wheat 25 to 35, oats 25 to 50; Morrow, wheat 12 to 25; Douglas, wheat about 25, barley 40; Union, wheat 18; Josephine, wheat 12 to 13, oats about 25, barley 30.

Hops continue doing nicely, and there is no complaint of lice or mold. Picking will begin in about a week, and if the weather continues favorable a fair crop of better than the average quality will be harvested. Corn is making good advancement, but the crop is very light, and much of it will be cut for fodder. Early potatoes are plentiful in the market and the plants are showing some improvement, but the crop as a whole promises on account of dry weather to be smaller than usual. In the dairy districts of the state the milk supply continues to shrink because of the drying up of the pastures, but range stock, although losing some flesh, is holding out well.

Fruit is maturing rapidly. The prune crop will be a fair one, but the sizes will be smaller than they were last year, although it is thought that the quality will be better. Early apples are scarce. Willamette Valley. Oswego, Clackamas County: H. Gans—Grain is now all cut and stacked. Threshing has commenced; wheat yields 20 to 30 bushels per acre; oats generally from 40 to 50 bushels, and some 80. Fruit is poor. Vegetables are trying out. Rain is much needed. Grapes are beginning to ripen.

Salem, Marion County: John W. Jory—Threshing is nearly complete. All wheat on Summer fallow has yielded from 18 to 26 bushels an acre; Spring wheat and that sown on stubble from 8 to 15; oats range from 30 to 45. Prunes are a fair crop, but smaller than usual on account of the drought.

Pelee, Polk County: C. W. Pagett—Weather mostly warm, though the 23d and 24th were cloudy and threatening, with a very slight sprinkle of rain on the 23d. Threshing is general and grain is turning out well; wheat averages 25 bushels and oats about 35 bushels to an acre. No Spring wheat has been threshed. Hops have made some improvement and are more promising.

Eugene, Lane County: J. G. Stevenson—Harvesting is progressing nicely; the yield is generally good. Pastures are very dry. The apple crop is proving almost a failure. Prunes are below the average in size, but a rain now would probably do more damage than good on account of the brown rot. The boundary between the brown rot and the healthy part of the week was cool. Spring-sown grain is nearly all out. Threshing of Spring grain is making good progress. Spring grain is yielding better than Fall grain; oats, 30 to 40 bushels an acre; wheat, 20 to 30.

yield is generally good. Pastures are very dry. The apple crop is proving almost a failure. Prunes are below the average in size, but a rain now would probably do more damage than good on account of the brown rot. The boundary between the brown rot and the healthy part of the week was cool. Spring-sown grain is nearly all out. Threshing of Spring grain is making good progress. Spring grain is yielding better than Fall grain; oats, 30 to 40 bushels an acre; wheat, 20 to 30.

Crabtree, Linn County: A. I. Davis—The fore part of the week was cool. Spring-sown grain is nearly all out. Threshing of Spring grain is making good progress. Spring grain is yielding better than Fall grain; oats, 30 to 40 bushels an acre; wheat, 20 to 30.

Neahalem, Tillamook County: E. K. Scott—The last rain that fell here was on July 21. Pastures are drying up and the milk yield is decreasing. Gardens and crop pastures are needing rain very badly. Threshing of Spring grain is making good progress. Spring grain is yielding better than Fall grain; oats, 30 to 40 bushels an acre; wheat, 20 to 30.

Waldport, Lincoln County: David Rubie—It has been very dry, with but little rain since June 1. The upland pastures have dried up, but the tidal pastures are still good. There is no potato blight yet, and a good crop of potatoes is expected. The apple crop is in the bud, and the Columbia River Valley.

Nye, Umatilla County: E. Bianchet—The weather for the past week has been exceedingly warm and dry, with hot winds. Heading is over here, and threshing is in progress; yields are fairly good, especially the Fall-sown crops. Potatoes are nearly ripe and fruit is ripe.

Lexington, Morrow County: Edwin R. Bonds—The weather has been exceedingly warm, with much north wind. Peach plums are ripe and plucked; the same is true of early harvest apples. Other fruit is rapidly ripening, and other plums are beginning to be ripe enough to pick. The wheat yields during the week have averaged from 12 to 25 bushels per acre. The potato crop is badly dried up. Late vegetables are much injured by drought.

Hood River, Wasco County: P. D. Hinrichs—Everything needs rain, except hay, which is drying very fast, and a few days after being cut it is put in the barns or in stacks. Some early corn is now ripe, but little is raised here. Early potatoes are now ripe; they yield well. Early apples are scarce.

Southern Oregon. Ada, Douglas County: James Young—Weather has been variable, with much fog and some dark, cloudy days, which threatened rain. The ground is very dry. Gardens are generally short and grass is poor. There is not sufficient wheat or oats grown here to give threshing yields. Williams, Josephine County: H. H. Sparling—The weather has been dry, but not as hot as it was last week. Threshing is nearly done; the grain is good, but the yield is light; winter wheat yields from 15 to 25 bushels an acre, oats 18 to 20. The second cutting of hay is fair. Hops are ready for picking and look fine.

Platteau Region. Paulina, Crook County: L. D. Claypool—Haying is about done; the crop is much better than was expected; it is as good as usual. Grain crops are short. Some ripe wheat has been threshed; the yield is light. Water is getting low. Spring grain is backward.

contracted for, and they are now in course of construction at the various planing mills. Several Eastern firms doing business in this city have instructed their agents by wire to erect booths and make a display of their goods. The boundary fence has been completed, and the framework of the main entrance is ready for the decorators, who are preparing their material to begin work.

The demand for rooms is increasing every day, and the committee on accommodations is kept busy locating people who have applied for accommodations.

Leads in Race for Carnival Queen. In the contest for carnival queen, Miss Privett leads in the voting. It is expected that the heavy voting will come Wednesday and Thursday, when the contest closes. A large number of votes will be cast for all of the candidates on the last two days.

Attached by Sheriff. Sheriff Huntington has attached the Treadwell and Texan quartz claims of the Richardson Gold Mining Company to satisfy a claim of W. J. Bates, of Portland, for \$50.

Will Not Be in Parade at Portland. Captain Sam White has announced officially that owing to the absence of so many of the members of Company A, O. N. G., of this city, the command will not take part in the great military parade with the rest of the state troops at Portland during the Carnival.

Serious Charge Against Stepmother. Deputy Sheriff Will Howard, of Richardson precinct, brought Samuel Brown in and lodged him in the County Jail yesterday. Brown is charged with the crime of criminal assault committed on his stepdaughter, 15 years of age. He had a preliminary hearing before Justice Frazier, and was bound over under \$400 bonds. His wife and stepdaughter are under surveillance against him.

Branch of the Humane Society. A branch of the Humane Society will be organized in this city tomorrow evening. A large number of prominent citizens signed the charter roll, and will take an active part in the promotion of the objects of the society. A copy of the constitution of the Oregon Humane Society, of which the Baker City organization will be a branch, has been received from Portland.

French Police Watching Anarchists. PARIS, Aug. 27.—The secret police have commenced a special surveillance of anarchists, in view of the Casar's visit. After a meeting of the Bourse du Travail, they arrested August Spangdon, on the ground that he is a dangerous Italian. He was charged with vagabondage. His friends proved that he had means of subsistence and the magistrate had to release him, but he was expelled from the country last night. He went to London. M. Goron, Chief of the Secret Police, says that the anarchist groups are being closely watched. The anarchists who arrived at Dunkirk at the time of the strike last year are under surveillance. All arrivals are being closely questioned.

deporting them from Spring Valley during the big strike of the coal miners is to be brought to the attention of the present Governor as a precedent. This plan was decided upon at the meeting of the committee, executive board, representing the eight local lodges of the Machinists' International Union, Business Agent Arthur E. Ireland called the meeting to empower him to send a letter to the Governor on the subject.

Redmond Coming to America. DUBLIN, Aug. 27.—The directors of the United Irish League met today and requested John Redmond, the Irish leader, to go to the United States, and in conjunction with Michael Davitt place the position of the national movement before the Americans. Mr. Redmond, who will be accompanied by some member of Parliament, will sail for New York early in October.

Cold Storage Plant Burned. NEW YORK, Aug. 27.—The cold storage plant of Armour & Co. at the Pennsylvania freight yard in Jersey City was completely destroyed by fire which broke out shortly after midnight this morning. The loss is estimated at \$200,000. The fire was caused by an explosion of chemicals used in the ice plant.

Knox Returns to Washington. WASHINGTON, Aug. 27.—Attorney-General Knox has returned to the city, presumably to take up, among other things, the charges which have been preferred against Judge Humphreys, of Honolulu.

Hoppeckers. The O. R. & N. Co. will, until further notice, operate the commodious steamer "Clare" to the mouth of the Willamette River, carrying passengers only. Leave Astoria dock, Portland, at 7:30 A. M. Quick service and lowest rates. Ticket office Third and Washington and Ash-street docks.

Strictly Reliable. Dr. Talcott & Co. Diseases and Weakness of MEN ONLY. FACTS!

The skill of a physician is not always determined by the length of time he has resided in a town or city, and while we cannot claim a long residence in Portland, we have been located on the Pacific Coast for the past 22 years, with extensive offices in Los Angeles and San Francisco, where we have thousands of satisfied patients. There are many men from afflicted men, who, living in this great Northwest, were unable to get proper treatment in their vicinity, have pronounced us to be a permanent branch in Portland, where they desire our services, may have the benefit of personal consultation and examination. These troubles being symptomatic of the above mentioned well-defined medical conditions, it seems that even the professional patient must understand that stomach dragging will not cure, but efforts directed toward repairing the damaged tract will restore him in practice such as the case, as the treatment in these three sessions fails to accomplish the desired result. Colored chart of the organs sent on application.

250 1/2 Alder Street, Cor. Third CHAMBERS BUILDING, San Francisco Office, 907 Market street.
