ANOTHER CONTEST FILED

MORE FRAUD ALLEGED IN TILLA-MOOK LAND CASES.

Buckley Makes Affidavit Charging Collusion With Claude Thayer, and Also With Hays.

Another character has appeared in the Another character has appeared in the Tillamook land cases. J. A. Buckley, of Portland, has filed in the Oregon City Land Office a contest against nine of the 75 entrymen included in the contests of Charles E. Hays, which were filed some weeks ago, and are now ready to be set for hearing. Hays contested on the ground that the entrymen were in collu-sion with Claude Thayer, Morris Leach and Clark Hadley, of Tillamook, to defraud the Government and share the pro-file from the timber land to be obtained by the proceeding. In the new contest Mr. Buckley alleges fraudulent collasion with Clause Thayer et al., and also col-lusion with Charles E. Hays, who is averred to have filed "several pretended

The entrymen against whom this latest contest is filed are: Eureka H. Quick, George H. Handley, Ashley G. West, Charles Henry Himes, Blanche Newman, Maud Sturgeon, James W. Hunt, Oak Nolan and Mors H. Larsen. The allegations set forth are as follows:

That said entry when made was fraudulent, collusive, speculative, and was not made in good faith for the exclusive use and benefit

That this entryman, so this affiant is in formed and believes, never went upon said land prior to his said entry, nor did he persmally examine the same as by law required.

That said entryman, on and before said entry, conspired with one Claude Thayer,
Morris Leuch and Clark Hadley and others, to fraudulently obtain title to said land and to divide the proceeds of the sale of the same, and that said entry was made in pursuance of

said completary.

That said entryman is making his said entry knowingly and fraudulently subscribed to the affidavits required in making said timber entry, and that the same was a fraudupon the Geovernment of the United States. Affaint further alleges that one Charles E. Hays has filed against sold entry several pretended contests. That said contests, so filed by said Charles E. Hays, are collusive and speculative, and it is alleged by this con-testant, upon information and belief, that said are made in the interest of said

contests are made in the interest of sain entryman and his co-conspirators.

That said entry is illegal, fraudulent and void, and, together with the pretended con-sests of Charles E. Hays, operates to deprive this contestant of his right to make entry of said truct, and this the said contestant is ready to prove at such time and ylace as may be named by the Register and Receiver for a hearing in said case; and he, therefore, asks to be allowed to prove said allegations, to the and that said timber entry No. — may be becared cancelled and forfeited to the United States, he, the said contestant, paying the expense of such hearing.

usual in such cases, This places Buckley in the attitude of junior contestant. It is virtually a chala jumor contestant. It is virtually a char-lenge to fight the winner of the prior con-test of Hays. If Hays shall beat the al-leged Chude Thayer collusion, Buckley will then be in position to have a bout with him. If Hays shall be worsted in the pending case, Buckley will be in po-cition to contest on the allegation of fraud with Thaver. But Buckley must wait until the determination of the Hays contes before getting a hearing on his own affi-Buckley's affidavit is supported by

REPUDIATED HIS CHECK.

J. H. Anderson Sues J. P. Walters for \$400 Alleged to Bave Been Lonned,

J. H. Anderson yesterday filed a suit in the Stafe Circuit Court to recover \$400 from J. P. Walters. In the complaint it is alleged that in July last Walters, tion of \$400 advanced to him by plaintiff, drew his check in Anderson's r for that amount on the First Na tional Bank of this city. It seems that the check was drawn in California. Subbank. As a result, so Anderson alleges, he is out the full amount.

The attorneys for Anderson are John Manning and A. C. Spencer. Mr. Man-ning is out of the city, and Mr. Spencer, when seen last night, said he knew little about fae case other than what was set out in the complaint. He understood, he said, that the transaction was a simple losn on Anderson's part to Walters, and that the latter had repudiated his check.

September Jury Drawn.

Joseph M. Barnett, clerk

John Tanner, capitalist C, Baumgartner, electrician. Gottfried Fick, farmer.

The Jury for the September term of the State Circuit Court was drawn yesterday. The furors are expected to report on Mon day, September 9, at 10 o'clock A. M. Following is a list of the jury;

W. H. Boot, superintendent. John Fansber, farmer. Peter Oisen, carpenter. Frank S. Fields, clerk, C. M. Olsen, expressman, J. A. Waddle, traveling salesman, Albert N. Rice, laborer. ohn Mock, farmer. Charles Osborn, laborer. Alex Harper, salesman A. Niblen, farmer.

R. B. Knight, druggist. . P. Boris, bridge carpenter, P. G. Mitchell, grocer ienry E. Ehlen, florist.

Fred Ellers, planist. J. B. Bridges, contractor. Churles Signton, brick mason. William Bohlander, restaurant-keeper.

C. A. Bauer, artist. H. B. Comson, real estate R. Pittelkau, restaurant-keeper, M. Kallich, fruitraiser. G. D. Stackpole, bookkeeper,

M. W. Parsons, bookkeeper, Frank C. Baker, capitalist. ames Osborn, gardener. Max B. Godfrey, grocer. George H. Lamberson, horticulturist,

August G. Bechroot, millman. H. G. Tarr, capitalist. James W. Applegate, photographer, James J. Baldwin, capitalist.

Court Notes.

The Capital State Bank, Ltd., of Idaho, began suit in the State Circuit Court yes-terday against Franklin W. Merrift to recover \$365 on four promissory notes. Plaintiff also asks for \$350 attorney's fees. E. F. Steel filed a sult against the Orecon & Oriental Steamship Company for \$112 to for services alleged to have been rendered by him. A writ of attachment ras issued against the defendant com-

Ledia B. McKittrick, upon her own application, was yesterday granted letters of administration upon the estate of Clar-ence M. McKittrick, who died intestate August 24. The estate is valued at \$6000. and the bond of the administratrix was fixed at \$12,000. Mrs. McKittrick and an infant child are the only heirs.

FAVOR STATE BOARDOF TRADE Idea Cordinlly Received in Various Parts of Oregon.

The idea of a State Board of Trade, with headquarters in Portland, to advertise Oregon's resources and otherwise promote the general welfare has been cordially received in various towns and there appears to be no doubt that something tangible will come of it. Secretary Miller, of the Portland Board of Trade, which is behind the movement, has received a number of letters pledging support. This evidence of noteworthy considering that Secretary Miller has not yet mailed his letters to Mayors of cities inviting co-operation, and that the only knowledge of the plan has been gained from what has been published in The Oregonian. The

following letter from Fred C. Dunham, of Baker City, is a sample of the kind of encouragement that is coming in: encouragement that is coming in:

I understand that the Portland Board of
Trade is destrous of extending its organization throughout the state, with central organization in Portland, and this prompts me to write you in regard to the plans being pursued along that line. Baker City is a lively and prosperous town and needs an organization such as the one under discussion, and if you have not already made your plans for this city. I should be pleased and willing to do anything in my power towards perfect

ing an organization here. According to present plans, the State Board of Trade will be organized when the mass meeting to discuss 1905 fair, deep channels to the sea, fuel supply and other topics is held at the Marquam Grand about September 10. As the subit is believed that delegates will comfrom all parts of the state to attend the meeting and help to give the new organization its start. When the board is or ganized, steps will be taken to open head-quarters and establish a permanent ex-hibit of the products of the Columbia River Valley.

TEACHERS' EXAMINATION.

The offer to pay expense of hearing is | September 2-4 for Those Whose Certificates Have Expired.

A city examination of teachers whose ertificates will expire before the opening of the schools, or who have not yet re-newed their certificates, will be held in room 1, High School building, Monday, September 2, to Wednesday, September 4 by Cly Superintendent Rigier, County Su perintendent Robinson and Mrs. L. W. Sitton, of the city board of examiners. The sessions begin at 9 A. M. and 1 P. M. The City Superintendent is no longer au-thorized to issue temporary certificates, so that "all teachers whose certificates expire during a given school year are required to take the examination prior to

the opening of the school year.' It is the business of every teacher to keep her certificate in force and to ascertain for herself what steps are necessary that this may be accomplished. The board is prohibited, under penalty of forfeiture of the school fund, from employing teachers without legal certificates. If, therefore, either at the beginning of the school year or at any time thereafter a teacher is found to have neglected this very important legal requirement, she must not omplain when her position is declared

OVER THE \$3500 MARK.

Committee on Free Baths Will Meet Tomorrow to Incorporate.

Several members of the committee on arrangements appointed by the subscrib-ers to the free swimming bath fund met last night in George E. Chamberlain's office and discussed the matter of incorporation. It is believed that business can be better transacted in this manner. Owing to the fact that many of the committeemen are out of the city, an adjournment was taken until Friday night, when the matter of incorporation will probably be definitely decided upon. It was announced at the meeting that several young men who are interested in the bath project will give a picnic for its benefit at Magoon Park in the near

future. The names of the young men were not given out, as the matter has not fully matured. Carpenters will begin work Saturday erecting the booths for the lawn fete to be given on the plazas next Monday afternoon and evening for the bath fund. The women in charge of the fete have al-ready received many donations for it. Twenty-five per cent of the Portland club's share of today's baseball go will be given to the free baths fund. game

Following are yesterday's subscriptions

ASSAULTED WITH STONES.

Street-Car Men Brutally Attacked by Rolling-Mill Hands.

The corner of Twenty-fourth and Savier streets was the scene of a brutal assault on three street-car men by four rolling-mill hands at an early hour Monday morning. T. Foster, a motorman on the "S" line, accompanied by S. M. Nutler and J. Endicott, conductors, were proceeding homeward from the car barn after their day's work, when they were set upon by Charles Baker, O. Dean, Jacob Lyon and Charles Carlson. The attacking force used stones and bricks in the assault, and the street-car men were badly beaten up, though they were ready for duty yes-

It is said the assailants were under the refluence of liquor, and "had it in" for the street-car men for some time. War-rants were issued for their arrest yesterday, and the quartet will very likely have ance to explain themselves in the Mu

BUILDING BETTER BRIDGE

ONE MILE OF NEW ROADWAY TO VANCOUVER.

Straight, Safe Structure From the Columbia Slough to the Columbia River Ferry.

The contractors for building about a mile of new roadway on the Vancouver road long bridge across Columbia Slough to the Columbia River are on the ground preparing to commence work. They are setting up a piledriver, and will have it ready for operation this week. The hammer was taken around to the south end of the long bridge by water. No piles have yet been delivered, but are expected

This is an important road, as all wagon traffic between Clark County, Washing-

New elevated roadway on Vancouver line.

on, and Portland passes over it, and this is not small. It is the intention to straighten the roadway so that there will be a straight bridge across the slough. When this bridge was partly destroyed the north half was built entirely new from the Columbia River to the sharp bend, a distance of nearly one mile, but from that place on to the Columbia Slough road the old portion was patched up until the county felt able to rebuild

it entire. This will now be done.

During the progress of this work there will be no interruption of travel. The new portion will be begun at the sharp bend, and will be built on a straight course about 300 feet west of the old oadway, and will cuf through the higher trestle across the slough at the south end. The landing will be partly on some pri-The new portion will be vate property. above the highest-water mark, corresponding in this respect with the north

Cost of Sewer.

A city official who has made estimates of many of the big sewers and street improvements, and usually comes very close to the actual cost, makes the state-ment that the southern district sewer system, which includes Brooklyn, the car Waverly, Richmond, Kenilworth and a large amount of other territory. will not cost near the figures mentioned at the mass meeting held Monday evening. The estimates at that meeting run up the whole cost as high as \$300,000, and it was said by some of the speakers that the assessment per lot would be equiva-

lent to making a deed to the lot. This official estimates the probable cost of the system at \$160,000, and he does not think he will miss it very far. Regarding the cost per lot, he ridiculed the state-ment of Waldemar Seton that if it would ost him \$150 for his two lots on Milwaukle street, he would not oppose it. He says that there were some lots in the Sunny-side sewer district assessed at \$77, but these were reduced 7 per cent. The assessment per lot for the Beech-street sewer system is from \$20 to \$45 per lot. He says that, from the large district in the southeast included in the system, he does not think that the cost will exceed in any case over \$50 per lot, and it may be much

There is as much misunderstanding about the cost of the proposed sewer in the southeast district as there was in the Beech-street district. It was not until a committee had been appointed to collect information about the cost of other sew-ers that there was light thrown on the subject. As soon as it was known in that district that the entire cost would range from \$20 to \$45 the opposition was withdrawn. The committee appointed by the Brooklyn Sub-Board has access to the

same data. There is a vast amount of work to be done before work can be started on the sewer, and it is estimated that it will be about two years before the contract can be let, and work begun. The route of the main conduits and every prospective lateral will have to be marked out. Rights of way will have to be secured through land, and the mass of detail work will be enormous. The City Engineer does not think that all these matters could be settled, and work started before the Autumn of 1902.

Burned Brush in Sullivan's Gulch, District Engineer Holden burned up the dry brush and rubbish on the south bank of Sullivan's Gulch, between East Seventh and East Eighth streets, Tuesday night. Some one started a small fire in the accumulation, and, going down to see about it, he concluded as there was no wind it would be a good time to burn the mass and get rid of it. He started fires in several places, and in the course of three hours it was reduced to ashes. There were some nervous residents in the neigh-borhood, but there was no danger.

Stock on Cycle Path. Complaint is made that horses and cat-tle are being driven on the Woodstock cycle path, and greatly damaging it. Owners of stock make a practice of leading and driving horses along the path. At this rate it will soon be in bad condition. There is a fine for damaging cycle paths. If the poundmaster should happen along the Woodstock path at an early

the morning he might find cathe loose. Improving Vancouver Road. The county is grading and graveling Vancouver avenue north from the corner of the Piedmont tract. At this place a deep cut has been made, and the old gravel pit filled up. . There is much gravel in the Washington and Ash-street dock

bank, and it is being used to improve the center of the avenue. It is understood that Vancouver avenue will be repaired south to Alberta street.

Enst Side Notes. Constable A. M. Cox, of the East Side Justice Court, has returned from a short

Rev. Jerome R. McGlade, of the Mizpah Presbyterian Church, and wife have returned from their vacation. The Eleventh Ward Sub-Board of Trade

will meet this evening in the hall corner Union and Ainsworth avenues. Rev. E. S. Memminger will return this week in time to occupy his pulpit at the Mount Tabor Methodist Church next Sunday. He has been taking a vacation at Grass Mountain, hunting and fishing,

The painters have finished their work on the inside of the chemical engine-house, on Union and Holladay avenues. Most of the work was done by the firemen themselves, the city furnishing the material. F. Frank Pearson, of Portland, is spend-ing his vacation at the Salmon River postoffice. He caught an 18-inch salmon trout last week, and his friends say that the event has enthused him to such a gree that his salary will have to be increased on his return.

Isaac Kay has contracted for the erec tion of a \$2500 dwelling near the Metho-dist Church of Mount Tabor. Work has been started on the new \$5000 residence of W. A. Laidlaw, Mount Tabor, to replace the one recently destroyed by fire. It will contain seven rooms, and be built partly of stone.

FOR PLACES IN LIBRARY. Competitive Examination to Be Held Next Month.

A competitive examination for positions in the free library-when it shall be made free-will be held in the lectureroom of the Portland Library, on Stark street, September 10. The examiners will be Librarian Leach and the Book Committee, which is composed of Milton W. Smith, Dr. T. L. Ellot, and Miss Mary Failing. The examination will be on lines with which cataloguers and other assistants in libraries should be familiar. It is not known when the successful ones will be placed or how many of them will be required. The object of the examina-tion is to create a list of eligibles from which the governing board of the free library may draw its employes. Applications may be obtained from Librarian

TEAMS CAN NOT CROSS.

Delay in Securing Lumber Makes Morrison-Street Bridge Impassable.

Delay in obtaining plank from the sawmills is keeping the repair of the Morri-son-Street bridge back, and teams are still compelled to cross by other bridges. A gateman is stationed at either end to stop teamsters from crossing, and they meet with considerable opposition, as drivers hate to be stopped. The road-way cannot be barricaded, as street cars have to cross so teams must be kept off by being yelled at. This makes some drivers "hot," and they are likely to do some grumbling, as they back their horses and turn away. If planking could be obtained, teams might have been crossing on Monday. The structure has been closed to vehicles for nine days, but may be opened within a few days.

New York Evening Post, The wealth of periodicals is surprising, Mr. Griffin has, judiciously, we think, adopted a system of alphabetizing con-formable to the first significant word in a title, so the Evening Post, for example, is entered under E. A different system has been employed also, we think, judic-iously, by Mr. Allan B. Slauson in his 'Check List of American Newspapers in the Library of Congress,' Here the ar-rangement is geographical and the sub-arrangement regards the essential and fa-miliar name, putting Evening Post under P. The succeeding general index disarms all criticism by placing the same paper under both E and P. We have finally 'A Calendar of Washington MSS, in the Library of Congress,' compiled 'chrono-logically under the direction of Herbert Friedenwald, with an index forming nearly half the volume, yet purposely exclu-sive of names occurring in manuscripts that have been printed and are easily accessible, though briefly calendered here

ASTORIA REGATTA.

The Royal Route to Astoria Is via the O. R. & N.

Her Gracious Majesty, the Carnival Queen, accompanied by her Royal Admiral in Charge of H. M. Navy, will be carried to her dominions on an O. R. & N. steamer. It is deemed by Her Majesty that if would be a most fitting acknowledgment of the beauties of the river trip and the comfort of the O. R. & N. Co. steamer if all her subjects and allies would also use the royal route. To the end that our gracious queen's wishes may be observed, the O. R. & N. Co. will sell excursion tickets from Portland to Astoria and return at \$2. These will be good on steamer Hassalo August 28, 29, 20, and 31st, and on steamer Potter August 29, 20 and 31; good to return up to and including Sunday, September 1, 1901. On August 29 the Potter will leave Astoria for Portland at 11 P. M., and on August 20 at 11:30 P. M., thus giving Astoria visitors the entire evening. The Royal Route to Astoria Is via

Hoppickers. The O. R. & N. Co. will, until further notice, operate the commodious steamer Elmore to Mission Landing and way points on Willamette River, carrying passengers only. VETERAN OF 41 YEARS' SERVICE IN PORTLAND.

Unlike Kipling's Soldier, Corporal Van Buren Does Not Drink, but He Was Insubordinate.

One of the oldest privates who served in the Spanish-American War is now in Portland, resting and regaining the health he has about lost in the Cuban and Philippine campaigns. He is Corporal Van Buren, 58 years of age, and with 30 years' service in the American Army to his credit. He last served in the Nineteenth Infantry, a portion of which regiment helped quell the insurrection on the Island

of Cebu. Corporal Van Buren has also served in the Spanish Army, having fought the Cuban insurrectos for four years, in order to maintain the flag of the effete old monarchy in the West Indies. He served also under Don Pedro in Brazil, and un-der Maximilian in Mexico, so he has the advantage of being able to compare American Army discipline with that of

other nations, The old veteran is a striking figure Portland streets, as he is as straight as an arrow, and the blue uniform he wears so closely resembles that worn by Union soldiers in the Civil War, that middle aged men think it must have been the same suit he wore at Appomattox. He was not mixed up in that little unpleas-antness, however, as he did not join the United States Army until 1870. With all his soldier record he was never wounded ntil he met the Filipinos, when two Mauser bullets left their mark upon him, one on the breast, and the other on the leg. He has entirely recovered from these younds, and after a few weeks more of test and recuperation in Oregon, he ex pects to enlist the seventh time in the service of Uncle Sam, though he does not expect active service, being now entitled

to retirement. He likes the American service best of all, he says, as the American soldier is better paid, and his liberties are not so badly abridged, "Spain freats her sol-diers very well while they are in garrison," he said, "but the pay is very poor, being only 6 cents a day. In active service this is increased to 36 cents. Spain, however, feeds her soldiers according to the climate they are in, a method the American War Department has yet to

adopt." The reason Corporal Van Buren has not risen from the ranks in all his 41 years of soldiering, he ascribes to his insubordi-nation. "I have never been a drinking man." he explained, "but when som young officer started in to abuse me I would likely to sass back. This is what has kept me from promotion. The highest station I ever reached was ordinance officer in the Brazilian servica" The Corporal was born in the miniature Republic of Andorra, which lies in the

Spain. His countrymen are called Basques, and are known as a hardy, unconquered race of sheepherders. He

THE

Food Cure

Put In the Body What NATURE NEEDS.

Find that in GRAPE-NUTS.

How to Build a Body. One of the most important discoveries

of late is the application of the right kind of food to rebuild the lost substances of the body, thrown off by the active, nerv ous work of Americans. Careful investigation by experts in food and diatetics, has brought out the fact that albumen, which is contained in various foods, is acted upon by phosphate of potash, not such as obtained in drug

stores, but such as is found in certain parts of the field grains in most minute particles, arranged in Nature's laboratory not man's. The part of the grains containing phosphate of potash is used in the manufactire of Grape-Nuts Food, therefore the active, nervous pushing brain worker can feed the body with food that goes directly to the rebuilding of the broken-down gray matter in the brain, solar plexus and nerve centers all ower the body, with the result that the individual who re-

freshes and rebuilds the body with proper material of this sort, obtains a definite result, which he can feel and know of, and which is apparent to his friends. A vigorous brain and nervous system is of the greatest importance to any business man or brain worker.

PORTLAND, OR. speaks seven languages, and should he desire, could tell many interesting storie of the vicissitudes of a soldier's life.

CONVENIENT TIME CARD.

The O. R. & N. service between Portland and the seaside is proving very popular with the public. The steamer T. J. NEW TODAY.

The seat of the Columbia

University is situated on the

high tableland between the Willamette and Columbia rivers and inside the city boundaries of Portland. It has city water, city schools, city telephone service, electric street lights, graded streets, sidewalks, boulevards, cycle paths, and streetcar service to any part of the city for a five-cent fare. It is high, sightly and healthful. The owners of this property have decided to sell one-half of the lots for the purpose of Inducing homebuilders to locate there. Improvements and population bring values. The reserve blocks will not be sold till 1905 when we shall expect to get \$500 each for our cheapest lots. While our reserve lots are advancing, your lots must also advance. The Lewis and Clark Centennial Exposition will surely be held at University Park. Factories that will give employment to thousands of people will soon be built within easy walking distance of University Park. The better class of these people will seek homes at University Park. You can double your money in a short time by investing it in University Park lots. Buy now before the advance. Prices are from \$100 to \$225 per lot, one-tenth cash, balance \$5 per month. No interest on deferred payments. No taxes. Abstract free with every deed. Encourage your sons to invest in this property. It will teach them good habits and they will learn to save what they would otherwise squander. Call on or address

UNIVERSITY LAND CO., Francis I. McKenna, Mgr.
