"It is a crime to experiment with the health of the people," says Dr. J. Henri Kessler, manager of the Old St. Louis Dispensary at Portland. "If I did not know positively and abso lutely that my new home treatment will cure all diseases of men, even when all other methods of ireatment fail, I would consider I was committing a crime to make such a statement to the public. Nothing is so precious to a man as his health-nothing so horrible as an Insane Asylum or the grave. Little ills, if not prompfly cured, often result in obstinate chronic diseases. I know that my new dis-covery is the most marvelous treatment ever known, and I intend to give Its benefit to the world. I intend that every man, woman and child who comes for treatment shall have it. I propose to tell the sick, absolutely free of charge, if they may be restored to perfect health. I would rather

be a benefactor to the sick man than to have the wealth of Croseus." The above are remarkable words, but those who know Dr. Kessler, and have tried his treatment, can youch for their absolute truthfulness.
