## COMMERCIAL AND FINANCIAL

Business shaded a bit quieter yesterday, but continued in good volume and devoid of any motable features. Telegraphic advices state the atventh of the gaseral situation contain advance of 5c per hundred on certain grades of refined sugar by the American Sugar Refining Company. Local firms had not been motified and were inclined to view the change as an adjustment to meet changed freight rates or other contingencies, not as an indication of the course of the sugar market. A corresponding change in the Western product cannot yet be predicted with any certainty. Groceries, meats, etc., are as before Commission business is somewhat quieter on account of the cooler weather. Peaches in larger sizes are scarcer and ramps from 50c to 70c. A trial shipment of Watsonville guiness hus been received and is soiling at \$1 per box. A carload of Central American bananas is expected tobay. Potates main guotations, but are a triffe weaker, as the Mindle West States are expected to be able to supply themselves in a week or two. Poultry continues overplentiful. Eggs are source and firm. Butter is up another noted. Poultry continues overplentiful, Eggs are scarce and firm. Butter is up another notch, now selling at 27% for fancy stuff. The judgment of butter judges is more charitable than before and second grades are even scarcer than first. Outside demand is still urgent and any decline is not recombined. any decline is not probable at present. Cheese is in good demand and firm at quoted prices.

#### PORTLAND MARKETS.

Grain, Flour, Etc.

The local wheat market continues dull at 55c, or a dogree lower. The cereal is arriving in some quantity from the interior, but not in sufficient amount to load the ships in port. Many farmers persevere in their opinion that the ruling price is too low, but they are met by experience who look upon the present tendency of the market as showing that questions are still supervise alone persent lendency. tendency of the market as showing that quotations are still somewhat above normal level. The weak feeling in the cereal causes duliness by postponing purchases, and sellers on their side are either too busy to come into market or are holding off for more favorable terms. The tonnage in port, although rather large, is not urgent. Weakpress prayable in freights and no improvement is noted, the depressing tendency perhaps being a little more manifest. Several ships are reported to be officing under 42 shillings. The engagement of a vessel at 40 shillings at Puget Sound is quoted in favor of exporters.

ASKS FOR RECEIVER.

Litigation Involving the Glit Edge

Mine.

NEW YORK, Sept. 6.-The Tribune says; A bill has been filed in the United States

Circuit in this city asking for the ap-pointment of a receiver for the Great Northern Mining & Development Compa-

ny, and summonses have been served on Albert R. Ledoux and Cortland Betts, re-

spectively president and secretary of the company. The institution of this suit

Great Northern, who it is said had acquired what they thought was a valid title to the Gilt Edge mine in 1896.

Robert A. Ammon became interested in the Glit Edge mine in 1833. In 1894 the managers were hard pressed for money

though it was not subject to relocation and that after "jumping" the claim, Lit-tlejohn disposed of it to L. G. Phelps, who

thereafter disposed of it to the Great Northern Company for \$15,000 and some-thing like 20 per cent of the stock.

Receiver for Gramaphone Company.

Grand Excursion to Castle Rock.

For those who wish to witness the climbing feats at Castle Rock next Suniay, September S, the O. R. & N. has aranged for a one dollar rate, going up by frain and return by steamer. Tickets low on sale at Third and Washington, where full particulars can be obtained.

#### DUN'S TRADE REVIEW. Iron and Steel Stronger, Cereals Are

Little Altered.

NEW YORK, Sept. 6.—R. G. Dun & Co.'s review of the trade tomorrow will say:

A holiday reduced the volume of legitimate husiness, while speculative operations were seriously curtailed by the general closing of exchanges from Friday atternoon to Tuesday morning. In the movement of merchandise and in many manufacturing lines there has been an effort to make up the loss by workbeen an effort to make up the loss by working overtime, but the week's record will fall behind those immediately preceding. Actual sales of many iron and steel products are reckoned at material advances, and the tone reckoned at material advances, and the tone throughout has been hardened by a vigorous demand. Placing of sample orders for Spring footwear is of such character as to indicate a healthy market, and some jobbers are so anxious for early delivery that contracts are being closed now. Despite the activity in the market for cotton goods and placing of Government contracts, the staple shows no great strength. Although unsettled in tone, little siteration occurred in the principal cereals. Trading was restricted, and there was an apparent declination to assume an aggressive

parent declination to assume an aggressive stand on either side of the market. Commercial failures during the month of August were 803 in number, and 89,455,898 in amount of liabilities. Compared with the same month last year the statement is most

#### WEEKLY FINANCIAL REVIEW. Unfavorable Bank Statement Causes Change in Sentiment.

satisfactory.

set-back.

NEW YORK, Sept. 6 .- Bradstreet's financial review will say temorrow:

As the stock exchange was closed Saturday until Monday, which was a legal heliday. Wall street had a short week. When business was resumed on Tuesday there was a decided change in sentiment, due to the fact that last week's bank statement was more unfavorable. week's bank statement was more unfavorable than had been anticipated. The loss of \$6,000,000 in reserve by the banks, and the reduction of surplus reerves to about \$11,000,000, created more or less apprehension regarding the money market, which was increased by the reduction in the supply of time money and the hardening of call loan rates, which advanced to 3½ per cent. The idea found expression that if the experiences of two years ago were repeated and the bank reserves were further depoted and the bank reserves were further depoted and the bank reserves. pleted exceedingly firm rates for money might result, and the stock market receive a decided

NEW YORK, Sept. 6.—The following table compiled by Bradstreet, shows the bank clear ings at the principal cities for the week ended September 5, with the percentage of increase
