**EGYPTIAN DEITIES.**

**THE PRESIDENT OF THE EAGLES**  
Official Visit to the Local Lodge—Progress of the Order.

Del Cary Smith, of Spokane, grand worthy president of the Fraternal Order of Eagles, is at the Imperial with his wife. He has just returned from an extended trip through the Eastern States in the interest of the order, which he says is spreading everywhere. "We number over 40,000," he said, "although the order is only four years old. Our principles take well with the American people, as the eagle is an American bird and our colors are the Stars and Stripes. Ours is not an insurance organization, but a lowly sick and death benefit, and our social features render it popular."  
"It was started in Seattle as a social club, without any idea of becoming a secret order, but its growth was so phenomenal that it soon ranked with other orders in numbers and influence."  
Mr. Smith visited the Portland lodge last night in his official capacity.

**THE NEWS IN PORTLAND.**  
**Profound Sorrow Over the Attempted Assassination.**  
The news of the attempted assassination of President McKinley created great excitement in Portland yesterday, and all afternoon after the receipt of the news business was practically at a standstill, while crowds hung around the Oregonian bulletin board anxiously awaiting each word of news from the bedside of the suffering head of the nation.  
It was an occasion where patriotism and humanity rose above partyship, and all of all political faiths and all walks of life joined in expressions of profound sorrow at the attempt to kill the Chief Magistrate, and deep indignation against his assassin.  
There was but one subject of conversation in all places where men are wont to congregate in the hotels, the clubs, the business houses, the cigar stands, the saloons. Everyone discussed the President and joined in condemning the doings of anarchist societies in general, and the policy of the Government that allows the followers of the red flag domicile within its borders.  
Until an early hour this morning the telephone in the editorial rooms of The Oregonian was kept busy by people anxious to hear the very latest news.

**"Webfoot" Hard-Wheat Flour** is made to be superior.

**MOHONK COLLAR**

Last day of the great sale of "Mill Ends" of Embroideries.

## WILL BUILD A FINE HOME

GERMAN SOCIETIES FORM A CENTRAL ORGANIZATION.

Will incorporate for \$100,000—Resolutions of Sympathy Telegraphed to Mrs. McKinley.

Representatives of 44 German societies met in Turn Hall last night to organize the German Central Bund, the purpose of which will be to aid the home of the German organizations. Before business was taken up an inquiry was made of the condition of President McKinley. Had the President passed away the meeting would have adjourned out of respect, but as he was still alive it was voted to send a resolution of sympathy to Mrs. McKinley. The following, which was offered by Charles J. Schmalz, was unanimously adopted by a rousing vote and telegraphed to Buffalo:

PORTLAND, Or., Sept. 6.—To Mrs. William McKinley, Buffalo, N. Y. The general committee representing all of the German inhabitants and societies of Portland, Or., in open meeting assembled, heartily join in the spontaneous and universal expressions of sorrow and regret that our President and your beloved husband should have been selected as a subject and martyr to an assassin's bullet. We pledged to accept our sympathy and sincere hope of his speedy recovery.

**JOHN WAGNER, President.**  
The meeting decided to form an organization which shall be Deutscher Central Verband. It will be incorporated for \$100,000, and will build a costly home either on German day at the Fall or separate societies or on land hereafter to be purchased. The Turn Verein owns the Turn Hall property at Fourth and Yamhill streets, which is valued at \$40,000, and the German Aid Society owns 100x150 feet at Eleventh and Morrison, which is valued at \$30,000. Either of these pieces would make a suitable site for a large modern building.

**WHY PRICES ADVANCE.**  
**Common-Point Rates Enhance Value of Timber Lands.**  
The leading city hotels are frequented by a German club. In a general way it will be patterned after similar buildings in the East, which are the pride of the German people. Impetus will be given to the movement on German day at the Fall carnival. About that time an effort will be made to hold a mass meeting of Germans from all parts of the state.

**A Mistake Corrected.**  
PORTLAND, Sept. 6.—(To the Editor.)—E. J. Geer, of Eastern Oregon, father of the Governor, is reported in your issue of this morning as expressing the hope that the state will never be divided, and declaring that "the turning down of our insane asylum in Union County went further towards disintegrating our people than any one thing the Legislature of Oregon ever did." Mr. Geer is mistaken. The Legislature provided for the location and building of a branch asylum there, but the Supreme Court, assuming the legislative power to supervise the laws of the Legislature, which power was never conferred upon it by the constitution, nullified the action of the Legislature by an unwarranted judicial decision. Mr. Geer must thank the Supreme Court and not

the Legislature for being unjust to Eastern Oregon.  
The same State Board that has been sued for the \$21,000 stolen by a state officer appointed by it, in obedience to law, also expended the \$25,000 in obedience to a law which the Supreme Court has held to have been void. Is not the Attorney General negligent in his duty in not suing it for the \$25,000 also? X.

## DOES NOT APPLY TO THE CITY

One Opinion as to the Effect of the Mortgage Tax Law.

The suit of J. Thorburn Ross, trustee, to restrain the city from selling the Marquam Grand and other property for mortgage taxes, is based upon the principle that a general state law cannot be made to apply to a city charter unless it is part of the charter, and is referred to in the title of the act. W. A. Munly and E. B. Seabrook, attorneys for the plaintiff, made the following statement of the case yesterday:  
"We hold that the mortgage tax law could not amend the charter of any city, and that it did not attempt to amend the charter of Portland, and that if it did attempt to do so it would be unconstitutional. The only way that it could be made to apply to a city would be by special reference and special application of the provisions of the mortgage tax to the tax laws of the city. In other words, the charter would have to refer specifically to the mortgage tax law. None of the Portland charters enacted since 1855, the year the mortgage tax law was passed, has made any specific reference to the mortgage tax law. In fact, the provision for assessment and taxation for the city purposes is the same now as it was in the charter at the time the mortgage tax law was enacted. As a consequence, there has been in this respect no amendment whatever to the city charter by which the mortgage tax law has been made to apply to the City of Portland."
