Harvest Hands Killed in Collision.
JAMESTOWN, N. D., Sept. 8.—Five men were killed and six others seriously injured, two of whom have since died, in a collision early today. A mixed train on the Northern Pacific came in from Oakes, carrying 17 men on a flat car. As the train passed the station a road engine was struck, and the force of the collision caused the flat car to collapse. The names of the dead and injured could not be learned. They were harvest hands who had boarded the car at Lamoure.

HOPES ARE REVIVED

The President's Chances of Life Have Brightened.

PHYSICIANS ARE CONFIDENT

The Critical Day Passed With No Unfavorable Signs—No Symptom of Peritonitis Has Appeared—Buoyant Feeling at Buffalo.

MILBURN HOUSE, Buffalo, Sept. 8.—Tonight is included in the time critical to the President. He is holding his own as Secretary Cortelyou expressed it, and if he successfully passes the night without loss of strength or the intervention of threatening conditions, his ultimate chances of recovery will be increased. He was seen tonight by all of the physicians and surgeons who are treating him, and their opinion, as expressed by the night bulletin, was favorable. They found his general condition to be unchanged and their examination did not disclose anything of an unfavorable nature. They believe that the President is in a serious condition and that the crisis will not be passed for another 48 hours. The professional men and officials hope for the best, but until the case has run through the doubtful days they will not be reassured.

MILBURN HOUSE, Buffalo, Sept. 8, 1:30 A. M.—No additional bulletin has been issued by the President's physicians. The condition of the President is reported as unchanged.

2:30 A. M.—Harry Hamlin has just left the Milburn house. He said: "There has been no change."

9:45 A. M.—Up to this time the expected morning bulletin from the physicians of the President has not been issued. The President is reported to be resting well. His condition remains unchanged.

The Physicians' Bulletin.
BUFFALO, Sept. 8.—The following bulletin was issued at 9 A. M. by the President's physicians:

"The President passed a good night and his condition this morning is quite encouraging. His mind is clear and he is resting well; wound dressed at 8:30 and found in a very satisfactory condition. There is no indication of peritonitis. Pulse, 128; temperature, 102.8; respiration, 24.

The following bulletin was issued at 12 o'clock, noon:

"The improvement in the President's condition has continued since last bulletin. Pulse, 128; temperature, 101 degrees; respiration, 27.

"P. M. RIXEY.

"Dr. McBurney is here and will meet the President's physicians in consultation at 3 o'clock.

"GEORGE B. CORTELYOU.

"Secretary to the President."

The following bulletin was issued at 4 P. M.

"The President, since last bulletin, has slept quietly four hours altogether since 9 o'clock. His condition is satisfactory to all the physicians present. Pulse, 128; temperature, 101; respiration, 28.

THE PRESIDENT IMPROVING.

Reassuring News From the Milburn Residence.

BUFFALO, Sept. 8.—Through this quiet, peaceful Sunday every word that came from the big, vine-clad house in Delaware avenue, in which the stricken Chief Magistrate of the Nation lies battling for life, was reassuring and tonight the chances of his recovery are so greatly improved that all of those who have kept the patient vigil at his bedside feel strongly that his life will be spared.

The developments of last night and today were deemed, but hour after hour passed and the distinguished patient, struggling beneath the watchful eyes of physicians and trained nurses, showed no unfavorable signs. Five times during the day the doctors and surgeons assembled for consultation, and each time the verdict was unanimous that what change had occurred was for the better.

Not the slightest premonitory symptom of peritonitis appeared and the fresh hope, born with the morning, grew stronger and stronger as the day advanced until, toward evening, the confidence expressed in the President's recovery seemed almost too sanguine.

Dr. Charles McBurney, the famous New York surgeon, who had been summoned in consultation, after a thorough examination, in which he said he had found not a single unfavorable symptom, joined in the late afternoon bulletin which declared that the President's condition was satisfactory to the physicians present.

It is not strange, therefore, that the Vice-President, the members of the Cabinet and other distinguished visitors who called came away with lighter hearts and buoyant tread and gave expression to the most optimistic sentiments.

Encouraging News Spread.

The encouraging news spread over the exposition city with great rapidity and thousands came in carriages, in street-cars and afoot to learn for themselves of the faith and confidence that existed about the Milburn house. The brightness of the day, with its cool, bracing atmosphere, added to the general cheerfulness, and when a score of newsmen darted into the crowd about 6 o'clock shouting "Extra, the President will live," it was with difficulty that they could suppress the shouts of thanksgiving that rose in their throats. And the newspaper men, many of whom have been at their posts for 48 hours continuously, remained steadfastly throughout the day in the little white-walled tents across the street from the house where the country's patient lay and flashed the news over the land and the sea.

And yet, despite all this optimism, the President is by no means out of danger. Not one of his physicians; not one of his advisers who is admitted to the inner councils has the temerity to go so far as to declare that he is out. But he is expected to improve for one day more, the danger of peritonitis, which is most dreaded, will have practically disappeared. Yesterday one of the doctors thought 48 hours would be the limit of the danger from that source, but his more conservative colleagues believe at least 24 hours, possibly 36, from this time must elapse before the possibility of peritonitis shall have vanished. That disposed of, still other complications may arise. Blood poisoning may set in or an abscess form where the bullet is imbedded in the muscles of the back.

Thus far the ball of the assassin, which is still in the body, gives the physicians no anxiety. But if the slightest inflammation appears in the region of the head, it will be immediately extracted. No difficulty is anticipated in this regard.

X-Rays Not Used.

One of Edison's best X-ray machines and his most skilled and trusted operator, Dr. H. A. Knolls, arrived today. The batteries were charged and the machine is ready for instant use. With it the physicians say there is a ray, the slightest doubt that the ball can be located perfectly for an operation. They do not deem it advisable to sap any of the President's strength at this time. All this reserve is needed now to resist the danger of peritonitis and septic poisoning. Besides, if inflammation does not set in around the bullet, it will soon become encysted.

All the effects of the ether which was administered when the operation was performed on the exposition grounds had disappeared this morning and the President's mind was perfectly clear during the time he was awake today.

Today for the first time he enjoyed natural sleep. While he was still more or less under the influence of the anesthetic his slumber was restless and disturbed and did him little real good. Today, between 3 and 4 o'clock, he had the solace of natural slumber for about four hours and the physicians stated officially that he had had "rest and refreshment."

First Nourishment Taken.

Today also for the first time nourishment was administered. It was in liquid form and was injected hypodermically, to avoid the possibility of irritating the walls of the stomach.

The exterior wound dressed this morning and is progressing satisfactorily. All day the members of the Cabinet and others associated with the President in public life came solicited and unsolicited to the exposition grounds, all reflecting the hopeful outlook at the Milburn house.

Vice-President Roosevelt received the earlier bulletins and after going to church hurried to the residence. There he was joined by Senator Hanna. They came away together and gave expression to the most confident and encouraging sentiments. The Vice-President not only shared the cheerful feeling, but was extremely optimistic.

Senator Hanna came again during the afternoon and was seldom far removed from the Milburn house. Secretary Root has taken up quarters immediately next door and was in frequent consultation with those inside. He and Secretary Gage, Secretary Hitchcock and Attorney-General Knox called together about noon and indeed there was no time during the day when some member of the Cabinet was not in the house where his stricken chief lay.

Even those most prominent in public life did not see him, as the doctors would not relax the isolation rule they have laid down to prevent the least drain upon his energies and vitality. Those who came and went moved slightly and reverently, receiving the latest statements from the doctors and departing.

All the members of the Cabinet are now here except Secretaries Hay and Long. The former telegraphed today that he would start from New York tomorrow and would probably be here tomorrow night. Secretary Long telegraphed that he was coming, but did not specify the time.

Cabinet Members Discuss Crisis.

The Cabinet members feel it to be their duty to be here in this crisis to meet any emergency. They are holding no formal meetings, although there are some matters of public business which they daily discuss informally and the possible contingencies should the President grow worse are also thoroughly canvassed.

They do not believe that there is the most remote possibility that Vice-President Roosevelt will be called upon to exercise the functions of Chief Magistrate under the disability clause of the Constitution while the President lies. CAUSE OF THE CRIME

Emma Goldman Was in Buffalo Monday.

POLICE LOOKING FOR HER

She Is Said to Have Occupied a House a Few Doors From Where Czolgosz Lived—Authorities Asked to Arrest Her.

BUFFALO, Sept. 8.—It is reported here that Emma Goldman, the anarchist leader, was here last Monday, and that she occupied a house a few doors from where Czolgosz lived. Superintendent Bull is

MRS. MCKINLEY.

said to have asked New York to arrest her. New York police are said to be investigating the case at the request of Governor Odell.

The members of the Cabinet are doing everything in their power to prevent the sensational exploitation of Czolgosz, because he undoubtedly craves notoriety, and because his fellow-anarchists throughout the country love him. They do not desire to place any stone in the path of the authorities who are laboring to unravel the plot, if any plot existed, and all the machinery of the Government is being put to work to find out the truth.

It is said that the Chicago Police are not permitted to see or interview the prisoner, nor will they discuss the methods or the results of their efforts to discover the originators of the plot. All that has leaked out from the jail shows that the prisoner is vain and boastful of his crime and would, if given an opportunity, fill the newspapers with columns of his vainglorious boasts.

There is no truth in the reports that the Cabinet discussed the question of the wholesale arrest of anarchists in different parts of the country, although in the informal way they have naturally talked over the danger from those advocates of the destruction of all governments and the advisability of possible legislation upon the subject. Neither have they consented, so far as can be learned, the advisability of a proclamation to foreign countries concerning the catastrophe. The necessity for such a notification would seem useless, as every government in the world has already taken cognizance of the crime, as is evident from the cables from all parts of the world that have poured in here.

A member of the firm of Wallbridge & Co. is said, has identified the box in which was the revolver with which Czolgosz shot President McKinley, as having the price marked on it. It is supposed the weapon was sold on Tuesday last. It is not known whether it was personally purchased by Czolgosz. Only the empty box was found in Czolgosz's bag.

Superintendent Bull said today that he had been advised of the arrests at Chicago and that he was making a careful inquiry aimed at showing any connection that may exist between the men in custody and his prisoner.

Czolgosz still continues to eat well and sleep well, and seems absolutely indifferent to his fate. He makes no inquiries as to the condition of the President and apparently cares nothing at all as to the outcome of his injuries.

The police continue their precautions for the protection of Czolgosz from mob violence. Although there does not seem to be the slightest danger of another demonstration against him, the guards were kept posted during the night around the police station where he is a prisoner and a reserve force was held subject to immediate call. Lotteries who were found about the station were promptly ordered to move on.

Alfonso Stutz, a German, 33 years of age, has been arrested here. He is said to have arrived here within an hour of Czolgosz and to have a room adjoining Nowak's on Broadway. At police headquarters it was said today that he had no connection with the anarchists. The fact that he arrived so soon after Czolgosz, and was stopping in the same house, aroused suspicion and he was placed under arrest. Brass knuckles were found on him.

Superintendent of Police Bull clears Alfonso Stutz of any part in the plot against the life of President McKinley. Discussing his arrest with an Associated Press representative today he said:

"We are satisfied that Stutz did not know Czolgosz in Chicago. He is said nothing to do with the crime. He arrived here the day Czolgosz did and roomed near him. We rounded him up along with several others who were believed might have been implicated. We found a pair of brass knuckles on him and as that was an offense we held him for it. He was formerly a Lieutenant in the

German Army and arrived in America by the steamship Deutschland about 10 days ago."

Emma Goldman Was in St. Louis. ST. LOUIS, Sept. 8.—Emma Goldman, the anarchist lecturer who wrote the book that bore the title "Anarchism and Its Principles," was in St. Louis Monday night, arrived in St. Louis Thursday night. She was in the city all day Friday, the day the President was shot. She stopped at 1331 South Thirteenth, where she occupied a room until 7 o'clock Saturday evening. The police believe she departed later the same evening for Chicago or Buffalo. A woman of her description bought an order for a ticket to Chicago at a ticket office opposite the Union Station early that evening, but subsequently the ticket was sold to another person. Whether she left the city or not the police and the Federal officers are making efforts to find her.
