JUDGE GEORGE DECIDES AGAINST BUILDING ASSOCIATION.

Orders a Suit to Forcelose a Mortgage for an Indefinite Period, Dismissed.

Building and loan association methods received unother blow yesterday in the decision of Judge George in the suit of the Pacific States Lean & Building Com-pany against Mary M. Peterson, Alex Peterson, Katherine E. Sloan and C. E. Griffith, which was in favor of the de-fendants. The suit was to foreclose a mortgage, the original amount of which was \$500, and \$1112 40 was paid. The plain-tiff claims a balance of \$407 and \$85 at-lorney's fees. The defendants set up that there was to be 84 payments of \$13 69 each, all of which were made.

It was alleged in the second answer of

the defendant parties that the mortgage was made payable in California to evade the laws of Oregon regarding the excess of 10 per cent interest per annum, and that the agreement was corrupt. The defendants asked that the sum of \$1142 be applied on the payment of the loan in

The court stated, in giving a review of the testimony, that it felt bound to follow the Supreme Court principles in matters of this kind. Citing the case of the Washington National Building & Loan Investment Association vs. Stanley, he stated that it was held that a bonus, is called a premium within the meaning of the law of building and loan associations. He dwelt upon the usurious practices of corporations in compelling members to pay mlums on loans, and then concluded

'In this case the company required 8 shares of stock to be subscribed and pledged for the \$800 loan; also, 8 more shares which were to serve as a premium to the company, the company to be the full beneficiary of these additional 8 shares but the borrower must keep them paid up to the company, the company to be the full beneficiary of these additional 8 shares but the borrower must keep them paid up in good standing until they matured at some indefinite time in the future at the rate of 60 cents a month on each share. The ruling of our Supreme Court would appear declaive of the case in favor of the defendant. It is, however, contended by the plaintiff in this case that as it is a California corporation having its principal. California corporation, having its principal place of business in San Francisco, and the contract in terms was made payable In that state, that so far as usury is con-cerned it must be governed by the laws of is increased. Judge Frazer, in passing upon the case, said a debt does not ordinarily compre-hend a claim for damages. It did not occur to him that where a man injures another he ought to be allowed to go with impunity. The provision of the law referred to exempting an officer or seaman of a scagoing vessel from arrest for debt does not apply if a person has been arested in a suit for damages for personal injuries or injury to character, It was not intended to protect a man from a tort or a wrong, but to prevent trump-ing up charges of debt against a captain or sailor and detaining a ship about to

proceed on her voyage.

Judge Frazer explained that this law was passed to stop the practice of sallor boarding-house men at Asteria of taking sallors off ships which were about to sail on charges of debt and delaying the vessels. Under this law a person ne trust a sallor, and if he did it was on his own risk.

Captain Shatton filed a bond in the sum of \$500, for his future appearance.

TALK ON FILIPINOS.

Physician From Manila Entertains Members of Y. W. C. A.

Dr. Alice Condict, who has been a prac ticing physician in Manila, gave a de-lightful talk before the Young Women's Christian Association last evening. She explained why the Filipinos had turned from the Roman Catholic Church, and showed that the authority of the pope was growing weak in all parts of the world, except America. The Filipinos she said, having abandoned the faith of their childhood, are showing a disposition to accept Protestantism in its place; and the American missionaries must be ready to meet the call for help. The supreme need in the Islands just now is the trans-lation of the Bible into the Filipino lan-guage. This must be accomplished through

ety and generous donors in private life An amusing incident was related that occurred at a large Sunday gathering on matives under a Protestant preacher. 1 is an excellent illustration of the simplicity and good will of the Filipinos. Before the sermon was quite finished a keg of beer was brought in, and at the close of the service every one present was offered a glass of the foaming beverage with cake. They innocently supposed that, since the American soldiers liked beer, all the American people liked it, on all occasions. They were much puzzled to explain why the preacher waved it aside with a smile.

Dr. Condict told many other entertain ing stories that illustrated the Filipino manner of living, dress and misunder, standing of American customs,

MAY KEEP THEIR LIGHTS.

Suburbanites Not Likely to Be Robbed of Street Illumination.

Suburbanites who are threatened with shoursantes who are threatened with the loss of their arc lights made them-selves felt at the meeting of the Board of Public Works yesterday. The had no-ticed in the papers that the board was being pressed for lights by the residents of other districts, and that the arc light which shed brilliancy over their lonely roads on dark Wintry nights, was in danger of being transferred to some point where people were clamoring in camparative darkness.

J. J. Crofut, a resident of Columbia Heights, was one who protested against his arc light being removed. "We never see a policeman out our way," be said, "and we have no Bull Run water; neither do we have a poundmaster, so all we get for paying our city taxes is this one solitary light that helps dispel the gloom over a vast area of wooded fields and vacant lots. There are fully 25 families cheered up by this light, and we cannot afford to dispense with it. We, therefore, hope the gentlemen of the light com-mittee will permit the light to remain where it has hung for several years."

RUMMAGE SALE TODAY.

Congregational Women.

First Congregational Church will be opened today at 270 Morrison street, between Third and Fourth, next door to the Security Bank. Yesterday there was a busy gathering of the managers of the enterprise at the store, where they were receiving donations and placing the price tags on the articles that will be placed on sale today. On the counters were heaped clothing of all kinds, most of the articles being in such a fine state of preservation that the store had the appearance of being a first-class furnishing store in the process of formation. The rummage sale has come to be an undisguised blessing to the community. Garrets and closets are cleared of things that some people do not want, which are the very things People with keen eyes for bargains can find just the things they are looking for at a rummage sale. In variety of goods and wares offered for sale, the outlay of the women of the First Congregational Church will be deemed one of the best that has been opened during the life of the fac.

FIRST STREET TO BE REPRODUCED AT COMING CARNIVAL.

Copies of First Issue of The Oregonian as Souvenirs-Native Sons and Daughters.

The coming carnival is going to be hisorical as well as modern, mirthful and musical. All arrangements have now been made for the reproduction of a Portland doneer street, on which will be located the old Oregonian building. In this strucure will be located the real reproduc tion of the first Oregonian office, which will contain the old hand press and the first forms. Copies of the first Oregonian will be printed while you wait, and distributed as souvenirs. The enterprise will be under the auspices of the Native Sons and Daughters. The \$250 needed for the expense of reproducing the pioneer street was raised yesterday. It will be a most interesting exhibit, and a striking reminder of 50 years ago.

At Exposition Building. Quite a change is being produced in the internal appearance of the big structure which will soon contain vast crowds of visitors and sightseers. BATH FUND LANGUISHING.

Why Cannot Portland's School Children Each Give 10 Cents!

The fund for the free swimming bath for boys and girls has dragged along slowly the past three days, and it requires a fresh lease of life to reach the \$5000 mark. Why could not the public school children raise the balance of the money between them? If every school child in Portland would personally contribute something the whole of the money would be raised this month. The schools reopen Monday. Which school will be the first to start fund for the free swimming bath? every child give, say, 10 cents. An object-lesson as to what little boys can do was witnessed in Edward Hol-

man's office yesterday. A little boy, about 5 or 6 years old, walked in and said: 'Where's Mr. Holman?" "Here, my little man," said the person

referred to. "I've brought 5 cents for the bath" said the youngster, and he handed Mr. Holman an envelope and fled. On the envelope was written this message, in vertical handwriting: "Five cents for the free bath. From Ned R. Hill." A nickel was in the envelope.
