

OPENING DAYS WITH OLDS, WORTHMAN & KING

Throughout the store we're ready to greet you with a splendid showing of the best style thought for Autumn.

TODAY AND TOMORROW ARE GALA DAYS IN OUR Millinery and Suit Dep'ts

OUR MILLINERY PARLORS

Are galore with beauty. Here is a reflex of the latest authentic styles of two worlds. Our customers have learned to expect this and we'll not disappoint them. Our milliners always wait in New York for the late openings of Paris novelties, which are missed by those who come a way early. This brings us many attractive styles that are not shown elsewhere.

IN THE SUIT ROOM

Our showing surpasses all former efforts. All the smartest styles in women's outer garments for Autumn and Winter wear are centered here, while OUR DISPLAY OF ELEGANT IMPORTED COSTUMES IS A TRIBUTE TO THE REFINED TASTE OF PORTLAND'S BEST DRESSERS.

COME AND SEE US

These reception days were planned for the pleasure and convenience of our guests. Our store is large and roomy, and what would be a jam in other houses, is comfortable sight-seeing here.

A FREIGHT CAR FAMINE

EVERY ROAD FEELS SCARCITY AND NO RELIEF IN SIGHT.

Three Thousand Extra Could Be Used in Portland Territory—Development in Western Oregon.

If 3000 extra freight cars could be delivered in Portland today they would be immediately put in service and there would still be a cry for more. Probably 3000 new freight cars could be employed to advantage in the Portland field today. None of the roads entering Portland has cars enough to handle its traffic, and none of them can get enough. The short roads have orders for new cars in the shops at the East, but the strike of the steel workers has interfered with the filling of the orders on time, and the Fall rush comes and finds the companies without the extra equipment. There is but one thing to do under the circumstances—to move freight as fast as possible with the equipment available. While the scarcity of cars is already notable, the prospect is that it will be much worse later in the Fall. So far as the Southern Pacific is concerned, however, there is hope for relief from the failure of the San Francisco strike, which is believed to be petering out. A large number of freight cars are held there through inability to get them unloaded.

Lumber shipments are particularly active. On the Southern Pacific lines in Oregon the increase of lumber shipments this year over those of last year is 33 per cent, and last year's shipments exceeded those of the preceding year by the same proportion. The recent opening of Western Oregon to common rates on lumber destined to the Eastern market through Portland has operated to relieve the Southern Pacific somewhat in the car famine, giving it cars of other lines to load for Eastern points. But the movement of piles and lumber southward is also exceedingly active and brings loud calls for transportation that cannot be supplied. The shortage of flat cars is the most notable, as piles and other long timbers cannot be handled on any others, the long stuff extending the length of two cars. The O. R. & N. Co. also feels the need of more cars to accommodate its lumber shipments, and the grain of a bumper crop is about to begin to press. The Northern Pacific is crowded even beyond the limit of its motive power. Complaint of shortage in cars also comes from the Great Northern lines. In addition to lumber and grain, the volume of general business is so large that it taxes every facility for handling it.

BOGUS INFERNAL MACHINE

Turned Out to Be Piece of Telephone Mechanism.

What was supposed to be an infernal machine was discovered yesterday by citizens at Mount Tabor near the junction of the Mount Scott trolley line. It was a peculiarly shaped box, and a yellow-looking wire peeped from the lid.

"Anarchists," said the man who found it, and visions of deep-laid plots by the enemies of mankind were freely mentioned. "We live in perilous times and we had better be careful," said another man who had been told of the find. Nobody would touch the curious-looking box, and a telephone message was sent to the police station. Detectives Snow and Kerrigan were dispatched in hot haste to where the box lay and they found the citizens watching it suspiciously, but at a discreet distance. "Who will lift this box?" asked Snow, but nobody responded. Kerrigan kicked the box suggestively, but no explosion took place, and then he and Snow took charge of it and brought it to the police station. Here the police officials fought shy of it, and George J. Walker, city electrician, was sent for, and he examined the mahogany box. After a short examination he said:

"This box contains a piece of telephone mechanism. It is perfectly harmless."

WHAT DO THE CHILDREN DRINK?
Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is clean and nourishing and takes the place of coffee. The new Grain-O will give the children the most healthful and delicious of their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 1/4 as much. All grocers sell it. Use and see.

"Webfoot" Flour, Best by Test.
As it is hard-wheat flour.

PORTLAND ACADEMY TAMS—
Dark Orange and White.
ST. HELEN'S HALL TAMS—Navy Blue and Red,
are now in stock. Price, 75c.

WILL OPEN FRIDAY NIGHT

CARNIVAL COMMITTEE DECIDED ON POSTPONEMENT.

Action Taken Out of Respect for the Memory of the Late President McKinley.

The original programme of opening exercises for the Portland Carnival advertised for Wednesday evening will be carried out on Friday night. The postponement of the opening was decided at a meeting of the entire Carnival committee last night. The meeting was a full one, and the matter of postponing the opening was very thoroughly discussed. General Summers presided, and some of the committee members favored opening Wednesday, as advertised, but with a sacred concert or musical performance, closing Thursday and resuming Friday. Others favored opening Thursday night or Saturday night, but finally it was decided unanimously to have the opening on Friday night, and to turn over Multnomah field to the people for memorial services.

I. N. Fleischner reported that his special committee had carried out its instructions and had tendered the Carnival bands and Multnomah field to Mayor Rowe, and the same had been accepted with thanks.

Handmaster DeCaprio was present and stated that on the occasion of the memorial services Thursday he would have the consolidated Carnival bands render a funeral march that he was now composing for the occasion.

Chief Campbell appeared before the committee and outlined what was necessary for fire protection, and the matter of making proper provisions was left to the Chief and Superintendent Rowe.

The finance committee was instructed to insure all Exposition property that the committee is interested in.

For Monument Fund.
The Carnival committee unanimously decided to give permission to the Ladies' Auxiliary of the Spanish-American War Veterans to sell badge buttons for the benefit of the monument fund.

The Chiefs of Police and Fire Departments are invited to visit the Carnival on their stars.

Chairman Steinbach of the concessions committee, reported that close to \$2000 has been received for concessions.

Miss Emma Stanley was engaged as attendant in the ladies' room.

Music Hall Is Beautiful.
Superintendent Rowe's ideas of transforming music hall have proven very successful, and the bright greenery that meets the eye on every hand is very cheerful. Garlands of green are very tastefully arranged, and hang in graceful curves, and beds of growing plants and flowering shrubs are ranged around the edges of the beautiful lagoons. The sides of the galleries are tastefully festooned with foliage, conspicuous among which are the beautiful tints of Autumn leaves. The music hall will present a picture on opening night.

Fish Hatched While You Wait.
Exposition salmon hatcheries here have heretofore been conducted on a very small scale. But notwithstanding that fact they have always attracted marked attention and been objects of interest to all.

Carpets and Lace Curtains The newest designs. Large variety.

Meier & Frank Co.

Men's Clothing—latest Fall fashions. Suits or Overcoats. Handsome styles in Jackets and Dresses for children just received. UNUSUAL RIBBON VALUE—5000 yards of corded silk taffeta Ribbon, 3 inches wide, great variety of colorings, 10c yard.

Autumn Openings

Drew an enthusiastic throng of shoppers all day. We don't remember that the response has ever before been quite so generous. Naturally the millinery and cloak departments were the center of attraction. That's where you expect to see and admire the leading fashions from the world over, and we'll vouch not one visitor was disappointed. The hat show, the garment show—both are the most extensive we ever planned—that's sufficient to bring most everybody. Openings continue today. Second floor.

HOW TO BUY A PIANO

right is not so much a matter of skill as judgment in selecting the piano. "GOOD SELECTING DEPENDS ON GOOD THINGS TO SELECT FROM." The best selection might mean a very poor one if you did not have good things to select from. It's conceded by all that the Allen & Gilbert Co. carry the largest line of high-grade Pianos and Organs of any house on the Pacific Coast; so if you desire to make a good selection from good things to select from, and to know "How to Buy a Piano," call at the

TROUT TOO PLENTIFUL.

One Party Who Caught More Than They Could Give Away.

George Cockburn, wife and son, who have been spending a two weeks' vacation on the Nestucca, arrived home yesterday. They report having enjoyed magnificent trout-fishing, and their experience may serve as a pointer to some of the many who have had poor luck trout-fishing this season.

The second week they enjoyed fine sport, the first forenoon out catching 21 beautiful trout with a fly. After that their only trouble was to dispose of their fish. They supplied campers coming in, and gave fish to all who wanted them. There are three species of trout in the river, and they are all gamey and hard fighters. The last afternoon they spent on the Nestucca they fished an hour and caught 31 trout to bring home for friends. Some of these trout weighed three pounds, and the lot averaged 2 1/2 pounds. The party enjoyed a splendid time, and abandoned the fishing because they could not get rid of the fish. They did not do much shooting, but had all the game they desired to eat. Mr. Cockburn advises all who desire to enjoy good trout-fishing to visit the Nestucca.

Dyspepsia makes you nervous, and nervousness makes you dyspeptic, either one renders you miserable. Carter's Little Liver Pills cure both.
