## FINANCIAL NEWS

Fine weather and the first of the month combined to give the wholesale district a decided air of activity yesterday, and business in most lines was beavy. Produce receipts were libered, but there was no weakness in any direction. Salway peaches are arriving in good quantities, and some of the receipts yesterday were almost too green for immediate use. Fresh Eastern sees are on the market, and have hand the effect of easing prices for Oregon stock. Some dealers are still selling at 24c and 25c, with the Eastern stock offering at 22c and 25c, with the Eastern stock offering at 22c and 25c, with the Eastern stock offering at 22c and 25c. Walle Walle cargoes were offering in Liverpool yesterday as low as 27s 50, with no
takers. The foreign buyers seem frightened
at the prospect, and at the continued heavy
shipments from Russila, as well as America.
Under such circumstances, it is but natural
that the local merket should display "that
tired feeling." Most of the caporters had
their limits for Walla Walla down to 525c
yesterday, and some of them amounced that
they were out of business until the 30-cent
mark was reached. Freights are weaker, but
they are not weak enough to keep pace with mark was reached. Program are weather, but they are not weak enough to keep pace with wheat, and it has been a long time since the market was in such an unsatisfactory condi-tion from the standpoint of either buyer or seller. Interest in the Yacht Race Diminished Volume of Trading.

NEW YORK, Oct. 1 .- The lively interest in from the board, and still Further diminished the volume of trading. The day's aggregate sake were barely 350,000 shares, and the fluc-tuation of prices was very narrow for the most part. The exceptions worthy of special note were in the industrial list, and among the rmant and less important railway stocks. Liquidation in Sugar was the feature of the market, following a sharp break in prices peaturday. The usual lack of information reing the movement was one of its features The room traders joined in the selling in an attempt to make a quick return, and the severing raused a rally of a point. stock's extreme decline was 4%. The gossis to account for the decline included rumor that the insiders were liquidating on apprehensions of a change in the sugar tariff at the corsing session of Congress or of untriend egislation; other rumors had it that inside who had sold at recent high prices were de-pressing the price to get back their stock.

The general feeling of distrint of the blind-pool methods of the great industrial corpora-tions, which has reached an acute stage since the recent episode in Amelgamated Copper,
