ricilies of penches are now coming on the market, and are commanding good prices. In butter and eggs, there is a flight weakness, and pouliry is also on the decline. Veal and pork are steady. Groceries firm, with no changes of importance.

WHEAT-"Fifty-cent wheat" at Portland is again within very short reaching distance, and the settled conviction that it will touch that figure is now followed by an apprehensive feel-ing that it may go much lower. Walla Walla margoos set affoat within the part 60 days have been "hawked" around the European markets since Monday, offering as low as 27s 6d, with no takers. Whether right or wrong, the European buyers have apparently decided that there is enough wheat in the world to neet all of their requirements without the secondity of forcing prices to higher figures.

satisficians" to further inflate it is repri-hensible in the extreme. An illustration of the kind of stuffing that is being fed the European bears is shown right here in the Northwest. A small weekly printed in this city, and bearing the idle, "Only grain paper on the Parlife Coast." Is sending out figures showing the crop of Cregon, Washing-ton and Idabo to be over 55,250,000 bushels. These figures are over 7.000,000 bushels above the there is no improvement in prices. Fred tork is selling over a range of 90 cents to 57% cents per cental, and a shafe more the sentire American crop was padded out an a small way. The bids for delivery to the Government at \$1 C2% per cental \$1 and a shafe more to a small way. The bids for delivery to the contact of the real to the sentire the state to the sentire state the stock will command \$1, and a shafe more to a small way. The bids for delivery to the contact of the real to the sentire to the sentire state to the sentire American crop was padded out and a small way. The bids for delivery to the contact of the real to the sentire to the sentire state to the sentire American crop was padded out and a manil way. country. They not only have a tendency to depress the market through showing a larger quantity of wheat than actually exists, but needed to move the crup, he will advance rates proportionately. Locally, where the true to the of these estimates is known, they have no effect, but when they are placed in the hands of uncruptions bears in the East and the bards of uncruptions bears in the East and in Europe, their power for mischief is greatly enlarged. Of course these phantom stocks dis-appear annually, when the final returns are in for the strength in the market, except for the fancy follows.

more sourdiness of this belief can hardy be guarationed when famine-stricken Russia is dismoling the cereal on that market at the rule of about 2,000,000 binkels per week, and the united States and Canada also show up week sither week with adjaments approaching 50,000 bales. Washington 25,000 bales, California and construction of source of the sandthing the record.
 Without doubt some of the sanithic cans who have by foreign buyers is due to the wild exageration of source of the sinithic cans who have a valiable supply of 228,500 bales. The source of the sanithic cans with buyers is foreign on the market for many months, and the efforts of "car-window sastiticians" to further inflate it is ryprehemetic in the extreme. An Illumination of "car-window sustiticians" to further inflate it is ryprehemetic in the extreme. An Illumination of "car-window sustiticians" to further inflate it is ryprehemetic in the extreme. An Illumination of "car-window sustiticians" to further inflate it is ryprehemeticans.

4.090,000 to 5.000,000 hushels above the esti-matus made by leading green exporters. If the entire American crop was padded out and examplerated¹¹ this ratio, it would show a total of ever 500,000,000 hushels of wheat. These wild estimates, when they reach the European buyers affect the wheatgrowers of the Pacific Northwest more seriously than they would those of any other part of the country. They not only have a tendency to

POTATOES AND ONIONS-There is a very light shipping demand for potatoes, and as the portation of stocks. It is they force freights up to figures not war-ranted by the actual condition of stocks. It will reggine 50 rhips to move 5.000.000 hushels of wheat, and if the foreign shipswhere be-lieves that theme additional ships will be plentifully, and sales are made to wholesalers at a cent a pound, except for an occasional fancy lot, which will command as high as

Representatives from the boards attended a sessiono f the com-mission, and were invited to offer suggestions.

SUGAR IS DOWN.

Havemeyer Makes a Cut of 1% Cents Per Pound.

Per Pound.
NEW YORK, Oct. 3.—The Journal of Canmerce says:
President H. O. Havemeyer, of the Amorican Sugar Refuning Company, was at his office this wisk, for the first time since his liness, and it has been learned that one of his first office this wisk for the first time since his liness, and it has been learned that one of his first office this was to authorize one of the most spectacular regulations in refined sugar prices that rave ever been made. This was the reduction announced in Tuesday's dispatches. It applies only to such sections of the country in which beet sugar competes. The cut in price to Mission and forth to Alaska for the past 29 years. He spent aix years with the Treadwell mines.
Mc Sitter Memorial.
A Mekinley Memorial.
A Mekinley memorial service will be held at Centenary Methodist Church the latter part of the month. At the time

Mas dots could shall be in the set is should be memory has authorized a cut slightly in excess of 1½ cents a poind.
To understand the importance of this cut to beet geogle is to make contracts for their entre production at prices based on the selling price of the sugar combine on the date of delivery. The beet geogle have heretofore been easily able to dispose of all their sugar at a discount of 10 points from the American Sugar Refining Company's figures. This means, 10 the beet people live up to their contracts, that the beet people live up to their contracts, that the beet sugar precise of 3.2 -5 cents a pound for their product. It is understood, however, that the beet sugar people will refue to to company the technical ground that it is in cut made by the American Sugar Refining of Utah, Colorado, California and Nebrasia are the refiners concerned.
The beet sugar genered.
The beet sugar manufacturers is a spond for the product. It is understood, however, that the beet sugar people will refue to to coordinate to to cover the accommodation of the public. In response to an application from the Clinton Kelly Sub-Board. It is a great convertience, being just across the street torm the Clinton Kelly Sub-Board. It is a great convertience, being just across the street torm the Clinton Kelly Sub-Board. It is a great to make the refiners concerned.

In restraint of trade. The beet-sugar refiners of Utah, Colorado, California and Nebrasha are the refiners concerned. The American Sugar Refning Company usually supplies sugar for the Missouri River points from its New Orleans and Pacific Coast refineries. They now have, however, at least 20,000 barrels of granulated sugar held on con-signment at Kansas City and near-by points shipped from New York during the latter part of July and the first half of August. It is ex-pected that this will have an unsettling in-fluence upon the local market, but it is not expected that it will be followed by any impor-tant cut in prices in the Eastern market. No change was made in the sugar combine's price for Eastern markets yesterday, and the difference of 1.10 cents a pound still holds be-tween the price of the raw and the manufac-tured article. The American Sugar Refining Company people assert that beet interests can produce granulated sugar at 2% cents a pound, and that there is therefore a good profit at 3 cents a pound. This is denied by the beet people.

down the grade, although they have somewhat of an advantage over the cereal through holding a stronger statistical position. But few charters have been reported for several days, the difficulty in disposing of cargoes preventing exporters from taking hold of new siness. The car shortngs has been relieved to a certain extent, and the shins in port are gradually cleaning out. There are two disengaged ships in the river, but for the past few days they have been off the market. owners preferring to awalt a reaction in the wheat market, to chartering at a rate that suid be paid on a market as sick as that now prevailing.

The expected French demand does not materialize, and accordingly steamers are not anted at any price. There is undoubtedly a shortage in the French crop, as compared with that of a year ago, but there is a belief that considerable of this shortage has been prowided for in the early buying in August and

The "Bulletin des Halles" of Sentember 7 amputes the French wheat crop at 300,000,000 bushels. This is about 8,000,000 less than ast year, but it is from 20,006,000 to 40,00 last year, but it is from 20,000,000 to 40,000,000 ton. busies above some estimates that were made early in the Summer. The lowest estimates were made by the organs of the farmers; three were at the same date estimates in the milorgans of about what the "B Halles" now puts the crop, and this paper represents the sentiment of the grain trade rather than that of the producers, who are, perhaps, as apt as our own to make very low estimates of their crop prospects. The crop estimate above is about 10,000,000 bushels under the average for 10 years, and it is 45,000,000 to 50,000,000 bushels under the average consumption. The Bulletin says the esed German deficit is confirmed by the fact that in the 12 months ending July 31 the mportation of wheat was nearly 12,000,000 outhols greater than in the previous year. present shortage, of course, could not have visibly influenced the imports till early in the Summer. The latest news from Russia, ays the Builetin, is that both Winter and Spring wheat are very deficient over a large part of the empire, and the crop will be considerably interior to that of last year.

HOPS-Next to wheat, the most important staple now on the market is hops. The crop has all been saved in good shape, but the selling movement as yet is very light. Hutch croft Brog., of Tambili County, yesterday sold a jot of 175 bales, the largest sale yet reported this search. The price paid was 10 ent London hop dealer, under date of September 20, have the following:

of September 20, have the following: We are happy to be able to report a good grop of hops, predaily nearly equal to the groat crop of 1590, if all gathered, but the low prices current for inferior hops may cause some grounds which have deteriorated to be left unriched. We loach, however, for fully 000,000 cwt. of English hops, according to the Govern-ment return.

meni return. We have made an extensive personal inspec-tion of the chief hosprowing districts, and from whiat we saw, and also from the sam-ples of new hops now on the market, we believe the gravith to be of good quality gen-erally, but no doubt there will be great variety in the semples, and a fair proportion of discolored or slightly discussed hops. These has been a great increase in "Dramblings" or early goldings grown in the Weald of Ken, and these hops are extremely good in quality and are now offering at very moderate prices.
