CATARRH SINCE CHILDHOOD—A GRATEFUL SUFFERER TESTIFIES.

Mrs. George Tapfer, Fulton, Or.—Since childhood I was troubled with difficulty in breathing through the nostrils, the disease gradually grew worse and caused me great discomfort and suffering. My nostrils were constantly filled with crusts. Preventing breathing in a natural manner, and I continually blew out great chunks from the nose. I tried Patent Medicines and Home Remedies. But nothing helped the catarrh, and last Spring it assumed a very serious and alarming form. There was a constant dropping of foul matter into the throat, and gradually my voice failed, and became so weak and husky that I could speak only in a whisper. My general health also failed rapidly. I could not eat, and lost 15 pounds. I was very Weak and Nervous, And without ambition, being almost too tired in the morning to get up. My family was greatly worried over my condition, and my mother-in-law advised that I go to the Copeland Institute, where she was successfully treated several years ago. I did so, and am happy to say that today I am In my life. I have gained 39 pounds, eat and sleep well, and am able to do what I please. I breathe live through my nostrils, something I have never done before, and my voice is perfectly natural. We all Feel Very Grateful To the Copeland physicians for what they have done for me, and I make this statement for the comfort of those who may know where they can find relief.

THEY CURE TO STAY CURED.

Mrs. M. Douthit, postoffice address, Portland.—"Last year I took a course of treatment at the Copeland Institute for catarrh, complicated with deafness and a chronic discharge from the ears. The ears were dry and scaly, and itched so they nearly set me crazy. I could not hear the clock tick or follow conversation, and there was a constant buzzing and roaring. At the end of my course heard as well as I ever did, and my ears were entirely healed. Money could not repay me for the enjoyment I have had out of life since my cure."
