Oil Excitement Has Almost Died Out.

ABERDEEN, Wash., Oct. 8.—The excitement, which began some months ago, over the finding of indications of oil on the surface of lands near the Pacific beach, 15 miles to the westward, seems to have almost died out, though drilling is going on at Grays Harbor, about 17 miles north of the mouth of Grays Harbor, and within the past two weeks the Eldorado Company, operating in the vicinity of the Olympic, has put in a derrick and is receiving mail from Alaska. The Olympic Company is now down about 700 feet and says it has strong indications of oil. It has experienced a great deal of trouble with drills and labor, and work has been at a standstill for weeks at a time. Recently a few of the leading stockholders got together and decided to subscribe \$500 a month to continue the work, and while this is being done, no stock is being sold. Drilling is also going on at a well south of Grays Harbor, but no reports are made of the success of the venture.

Work on Public Building at Boise.

BOISE, Idaho, Oct. 8.—The foundation of the new Government building to be erected at this place is now completed. Superintendent J. E. Hoffer, superintendent of construction of the Government building at Helena, Mont., is here and will have charge of the Boise building until another superintendent is appointed. The building is being erected by Boise contractors, the contract calling for completion within 22 months, and the price is \$250,000. Superintendent and Manager of Construction Campbell states that the work is to be pushed with all possible speed, the hope being to complete the work before the contract time. The Boise building will be four stories, built of stone.

Sheriff Calls for More Deputies.

OREGON CITY, Oct. 8.—The Board of County Commissioners will meet early next week to adjust the matter of additional clerical assistance in the Sheriff's

FOREIGN MISSION BOARD

DR. BARTON'S REPORT ON THE PEKIN MISSION.

The "Forward Movement" Among the Churches—Contributions to the Woman's Board.

HARTFORD, Conn., Oct. 9.—Rev. Lyman Abbott, D. D., of New York, conducted the devotional exercises which preceded the opening of this morning's meeting of the American board of commissioners for foreign missions. The forenoon was given up to addresses by officers of the board and missionaries, the report of the secretary and the sermon by Rev. Henry Hopkins, D. D., of Kansas City, vice-president of the board, being the most notable features of the session.

Rev. Dr. James L. Barton, foreign secretary, reported that the indefatigable work of the Turkish Empire society during the massacre of 1895-96 only awaited formalities to be distributed to the several claimants. One of the most interesting points of his report was its reference to work in China, as follows:

"The period since the raising of the siege of Pekin has been marked by various incidents; the missionary board on the ground has contributed courage, foresight and great prudence; the situation has demanded statesmanship, patience and tact and these qualities have been wanting; no far as our missionary work has been resumed, schools opened and religious service maintained at Pekin, Tien Tsin and Pao Ting, and now the way is open for visits to Pao Chung and Li Chian, Tung Ho and Kalgan. It is too early to forecast the real effect of the settlement that has been reached at Pekin. Missionary work, so far from being that of an outbreak, is proving itself the most hopeful agency for the re-establishment of peace and national unity."

The forward movement report was presented by Lyman C. Warner, of New York, chairman of the advisory committee. He said:

"The active work of the committee covers about an entire year. During this time missionary salaries have been assumed by 82 churches and 25 individuals, 105 salaries in all, as a number of churches have taken a man and wife. Seven other churches, however, given the equivalent of salaries, either for a special object or for the general cause. During the year preceding the committee's report to Pekin, churches gave to the board \$23,000. The total pledges secured through the agency of the committee were \$65,000, an increase of 175 per cent. Fifty-four churches were interested in the forward movement to the close of the fiscal year ending August 31, 1900. The increased contributions of these churches have not involved a reduction in the salary of the woman's board. The forward movement has increased the general interest in foreign missions and the woman's board has shared in the result of this increase."

NATIONAL PURITY CONVENTION. Papers Read and Subjects Discussed at Yesterday's Session.

CHICAGO, Oct. 8.—Methods for abating the social evil and placing the human race on a higher level of purity were discussed in hopeful tones by speakers at today's session of the National Purity convention, which opened at the Hotel Hamilton, Chicago, today.

The Courtney Ford, reported eight days ago, 40 miles from Cape Flattery, partially disabled and heading for this place, causes considerable uneasiness, and fears are felt for her safety.

Gambling Houses Ordered to Close.

NORTH YAKIMA, Oct. 8.—The operation of a large gang of thieves here last week caused the prosecuting attorney Guthrie, at the request of many citizens, to notify all gambling places to close.

Hops for the East.

SALEM, Or., Oct. 8.—A load of hops will leave Portland over the O. R. N. next Saturday for the East. T. A. Lively & Co., of this city, will supply the greater part of the hops for the shipment.

Bonanza Queen Sold.

EVERETT, Wash., Oct. 8.—The Bonanza Queen, at Silverton, owned by Bender, Southard & Lockwood, was practically sold today to Montana people.

Repress the Anarchists.

NEW YORK, Oct. 8.—The Association of the Bar of the City of New York has just adopted a memorial on the death of President McKinley. It says:

"As members of the profession especially charged with the administration of justice, we declare our conviction, in view of the tragic occurrence which we so deeply deplore, that never in the history of the world has it been of so vital importance that just laws be enacted and impartially and firmly executed; that with the preservation of free speech and wholesome criticism of public men, reports and media of the administration, reckless agitation and the glorification of lawless violence be repressed."

Fire Inspector Will Investigate.

CHICAGO, Oct. 8.—Believing that the fire which last night wiped out the Peabody Coal Company's yard at Kinzie street and the river, and did other serious damage, was of incendiary origin, Fire Inspector Conway today began an investigation. He estimated the losses made the total loss \$25,000, divided as follows: Peabody Coal Company, \$35,000; the six-story building and contents, occupied by the Davidson Marble Company, the Globe Hotel & Light Company and the Weibach Lighting Company, \$20,000; Chicago & Northwestern freight sheds and rolling stock, \$50,000. The various companies carried full insurance.

Another Kentucky Battle.

MIDDLESBORO, Ky., Oct. 8.—An unconfirmed report is current here that another battle took place yesterday near Big Springs, Va., between the Morgans and the Chads, resulting in the deaths of Tom Chadwell and one of the Morgans. Doc Chadwell, of this city, a brother of Tom Chadwell, discredits the last night, where he had been to investigate the battle of last Sunday when four were killed, and says that all was quiet when he left there Monday night, but further trouble was expected.

Herr Moat's Trial.

NEW YORK, Oct. 8.—Johann Moat was tried in the Court of Special Sessions today on a charge of violation of the penal code in his paper, the Freiheit, entitled "Murder Against Murder." Most testified that the article had been published years ago and that he had copied it in the Freiheit of March 14, 1888. The use of it just at the time of the murder of McKinley, he said, was an unfortunate coincidence. Decision was reserved until Monday next.

An Aeronaut's Death.

LA SALLE, Ill., Oct. 8.—The body of Mrs. L. E. Seeley, the aeronaut, known as Lillian Lafay, was found in the Illinois River, four miles west of here today. Seven days ago the woman ascended from one of the principal streets of La Salle in a balloon, and her fate until the finding of the body was enveloped in the deepest mystery.

President Will Speak in New York.

NEW YORK, Oct. 8.—President Roosevelt will, it is announced, make an address here Thanksgiving day at the dedication of the soldiers' and sailors' monument on Riverside drive.

UNDER MARTIAL LAW

THE CONSTITUTION SUSPENDED THROUGHOUT CAPE COLONY.

Forebodings of the Commencement of Vigorous Measures Believed Necessary to End the War.

CAPE TOWN, Oct. 8.—The Gazette today proclaims martial law in the districts of Cape Town, Wynberg, Simonstown, Port Elizabeth and East London. The proclamation is the outcome of the recent visit of the Premier of Cape Colony, Sir John Gordon, and the Under Secretary of State for South Africa, J. R. S. Innes to the British High Commissioner, Lord Milner. It places under military control the forts, docks, railroads and harbors under the control of the civil authorities. Military rule will be mitigated in some other respects.

FRENCH MINERS MAY STRIKE.

WORKMEN AND AUTHORITIES BOTH PREPARING FOR TROUBLE.

PARIS, Oct. 8.—Anxiety is being manifested in commercial and industrial circles as to the result of the miners' referendum on the question of a general strike, which will be made known about October 15. The miners are voting as to whether to strike on November 1, if their demands for an eight-hour day, a minimum wage and a pension of 2 francs per day, after 25 years' work, do not receive satisfaction. It is reported that a majority of the unions have thus far voted in favor of a strike. The parliamentary commission now examining into the issues raised will meet October 15. In any event, the miners' strike would not possess funds enough to maintain a protracted struggle and sufficient stocks exist to enable the colliery owners to resist for long. The difference would be a disquieting element in the report that a quantity of arms have been smuggled into Montceau and other mining centers, and it is feared that the miners may become as aggressive, if the strike should prove a failure. The government, preparing for any emergency, has drafted reinforcements of gendarmes in the coal districts and ordered the neighboring garrisons to hold themselves in readiness.

SITUATION IN AFGHANISTAN.

Outbreak of Civil War Expected by Russians.

LONDON, Oct. 9.—"It is regarded here as certain that there will be an outbreak of civil war in Afghanistan," says the Daily Mail, "arising from the claims of the fourth son of the late Ameer, Mohammed Umar Khan, who is favored by Russia. Telegrams were sent to Kush today, ordering large reinforcements of Russian troops along the frontier to be in readiness, if necessary, to seize Herat."

Foreigners at Berlin Technical.

NEW YORK, Oct. 8.—The Berlin correspondent of the Times says that, according to the Berliner Tageblatt, the Minister of Education has issued new regulations in regard to the admission of foreign students at the Berlin Technical College. The Germans complain that the foreigners crowd them out of the laboratories and lecture-rooms, and that the foreigners are admitted without adequate preparation of previous education. The chief offenders are Russians. It is now reported that the Minister directs that Russians are only to be admitted if they can prove previous attendance or matriculation at a Russian technical college. Other foreigners must produce certificates of general education, as well as proof that they have attended a technical college.

The Kaiser and the Burgomaster.

BERLIN, Oct. 8.—Emperor William has received in audience Dr. Kirschner, Chief Burgomaster of Berlin, regarding the resignation of Herr Kaufmann, second Burgomaster. A brief official announcement of the audience has been made. The press generally comments upon the incident as very significant. The Lokal Anzeiger says:

"The gracious reception extended proves that Emperor William joins in the wish for peace which Dr. Kirschner expressed at the last meeting of the Municipal Council. The emperor was of the Emperor's own impulse. Dr. Kirschner made no effort to secure it, and the dispatch summoning him was entirely unexpected. The conference between His Majesty and the Chief Burgomaster dealt with all the questions agitating the population of the capital, and an official report may be expected at an early date."

German Comment on the Treaty.

BERLIN, Oct. 8.—"The new Anglo-American treaty concerning the Isthmian Canal will make that waterway forever neutral," says a dispatch from Washington, published in Berlin today. It contains substantially the provisions of the Hay-Pauncefote treaty that were approved by the United States Senate, without dropping the latter provisions of the Clayton-Bulwer treaty."

Narrow Escape of Another Destroyer.

LONDON, Oct. 9.—A singular accident, which may possibly throw light on the loss of the torpedo-boat destroyer Cobra recently, has just occurred to the torpedo-boat destroyer Canby. While she was on her way from Portsmouth to Portland the engine hands noticed that her deck beams were buckling amidships. The destroyer immediately returned at full speed to

The Blood Serum.

THE BUFFALO LITHIA WATER

in Uric Acid Conditions, Gout, Rheumatism, etc., etc., far superior to the Lithia Tablets and other extemporaneous solutions of the Lithia Salts.

By John V. Shoemaker, M. D., LL. D., Professor of Materia Medica and Therapeutics in the Medico-Chirurgical College of Philadelphia, etc., in The New York Medical Journal, June 22, 1899, says:

"Abundant experience has shown that the BUFFALO LITHIA WATER, and the associated salts, is much more effective in some very important particulars than extemporaneous solutions. It exerts, for instance, A SOLVENT ACTION upon RENAL, HEPATIC, and VESICAL CALCULI more powerful than could be expected from a mere inspection of its chemical analysis. By SWEEPING URIC ACID RAPIDLY out of the system it alleviates the MISERIES OF GOUT. It is efficacious in RHEUMATISM, BRUIST'S DISEASE, DIABETES MELLITUS, and a number of nervous affections."

"An additional advantage and extremely important reason for the PECULIAR EFFICACY of the BUFFALO LITHIA WATER lies in the fact that its composition approximates that of the SERUM OF THE BLOOD; therefore, it is admirably fitted for absorption into the blood current and immediate incorporation with the watery portion of the NUTRIENT FLUID. It becomes at once identical with the BLOOD SERUM. These are qualities which far surpass those possessed by any extemporaneous solution of a single chemical preparation, as when a LITHIA TABLET, e. g., is dissolved in water for immediate administration. When we speak of a dose, it is of a quantity altogether relative, and what the physician emphatically desires in a dose is THERAPEUTIC EFFICIENCY. THIS WE HAVE IN BUFFALO LITHIA WATER."

Spring No. 1 is both a nerve and a blood tonic, and in pale, feeble, and anemic subjects is to be preferred. In the absence of these symptoms, No. 2 is to be preferred. Testimonials which defy all imputation or questions sent to any address.

PROPRIETOR BUFFALO LITHIA SPRINGS, VIRGINIA

Portsmouth. An examination made of her shows that there was imminent danger of another disaster like that which befell the Cobra.

Commonwealth Tariff Bill.

MELBOURNE, Australia, Oct. 9.—The Commonwealth tariff bill introduced in the Federal House of Representatives today, ordering large reinforcements of Russian troops along the frontier to be in readiness, if necessary, to seize Herat."
