BEST WATER FOR ALBINA

FIRST STEPS TOWARD EXTENDING BULL RUN MAINS.

Water Committee Authorizes Investigation of the Subject—More Bonds Not Needed.

A regular meeting of the Water Committee was held yesterday afternoon, Chairman Corbett presiding and the following members present: Rafferty, Teak Lewis, Delph, Knapp, Inman, Theleisen, Haselbine, Scott, Ladd and Mayor Rowe.

Mr. Teak introduced a resolution looking to the extension of the water plant over the entire city. After some discussion, on suggestion of Mr. Scott, it was amended to read as follows, and so amended was unanimously adopted:

Whereas, the water committee of the City of Portland has now extended the water plant of the said city so that it practically covers the entire city, except the portion formerly known as Albina and adjacent territory; and

Whereas, it is manifestly to the interest of the city and inhabitants thereof that the municipal plant be extended so as to include all portions of the city;

Now, therefore, be it Resolved, That the operating committee and the Engineer report on the extension of the water plant over the entire city so as to cover the above described territory, and with said report to present a full estimate of the probable cost thereof and the probable earnings of said portion of the plant covering the said territory when extended, and also report upon the advisability of acquiring any plant now covering or supplying said portion of the city with water.

It was mentioned incidentally that in case it was deemed advisable or desirable to purchase the Albina waterworks, this could be done without issuing any bonds. Adjourned to 2 P. M. Saturday.

The quarterly report required to be submitted to the Common Council was read and approved and ordered transmitted to the Auditor. A warrant for \$500 was ordered drawn for payment of the annual interest on \$200,000 of East Side water bonds.

The operating committee submitted the report of the operation of the works for the month of September, 1901, as follows: Total cash receipts, \$125,671.70; Total disbursements, including protection for pipe line bridge over Sandy River, \$3,807.34; Balance paid treasurer, \$2,464.56.

The operating committee submitted a report on a petition for a main for fire-protection purposes in the warehouse district adjoining East Water street. After some discussion it was decided that a 14-inch main should be laid on East Market street, from East Twelfth to East First

and along East First to East Oak, if the property-owners would agree to provide proper slips and facilities to enable engines to reach the hydrants on said main. It was decided to construct a 10-strand barbed-wire fence, including necessary boards, to inclose the whole tract adjoining the City Park lately purchased by the city, and to break the breaking the locks on the entrances to the shafts sunk in this tract, and committing other acts of vandalism there, and the fence is intended to put a stop to such doings.

A petition for a water main in the Sandy road, between East Twenty-eighth and East Twenty-ninth streets, was laid on the table, as the road is not a city street. The same action was taken a short time ago on a petition for a main in the St. Helens road.

An application to lease the old pumping station at the corner of Milwaukee and Powell streets for a term of 10 years for the purpose of erecting a woolen mill thereon, to employ about 60 persons, with a pay roll of about \$3500 per month, was referred to a high school building operating committee for investigation and report, and the meeting was adjourned to 2 P. M. Saturday, at which time the report will be received.

The committee of three which had been authorized to negotiate for the sale of the pump formerly used in the McGuire pumping station reported that it had declined to accept \$2500, the best bid received, and referred the matter back to the general committee. On motion the matter was laid on the table.

A petition for a main on Twenty-first street, from Washington to Taylor, in King's third addition to the city, was referred to the operating committee.

HIGHWAYMEN RAMPANT.

Perpetrate Two Robberies and Attempt a Third Hold-Up.

Two hold-ups and one attempted hold-up were reported to the police yesterday. W. O. Woell, of Oswego, reported that while he was driving, seven miles outside of Oswego, about 10:30 o'clock yesterday morning, a man sprang at him from some bushes and presented a revolver, saying: "Hands up!" Mr. Woell parted with \$10 in money and his watch.

While P. J. Mann, 641 Third street, was driving with his wife along the Riverside drive, about 5 o'clock yesterday afternoon, a man with a gleaming revolver in his right hand ran toward the team, but Mr. Mann whipped up his horses and they broke into a run. The robber fired one shot but the bullet fortunately went wide and Mr. and Mrs. Mann escaped unhurt.

A telephone message reached the police station last night from Fulton, stating that a robber had held up the people living in a house near the Red House Inn, and had stolen goods and money, but the message was so indistinct in transmission that the names could not be made out. The police could not find further particulars of the robbery late last night.

Artistic Picture Frames Made to Order Here at Lowest Prices.

COMMITTEES ANNOUNCED

APPOINTMENTS FOR EAST SIDE ASSOCIATION.

Matter of Securing a Woolen Mill on the Old Pumping Grounds Considered.

At a meeting of the East Side Improvement Association, held last night at Justice Vreeland's office, East Morrison street, there was a large and enthusiastic attendance. W. D. Fenton, president, announced the standing committees. He prefaced the announcement with remarks, stating what may be accomplished by effective work on the part of the committees in improving the value of property and promoting a civic pride. He said that he had been invited to attend a meeting of the water committee as a representative of the association, to speak in behalf of leasing a portion of the old pumping plant, Powell and Milwaukee streets, to a woolen mill company, which would give employment to a number of men and disburse \$3500 per month. He mentioned the fact to show that the association may do good work and not be a mere paper organization. He said that there should be 100 names on the membership roll. The committees are as follows:

Executive committee—W. D. Fenton, chairman; General Owen Summers, W. L. Boise, R. D. Inman, John H. Hall, Dr. S. E. Joseph and Mayor H. S. Rowe.

On constitution and by-laws, and programmes at stated meetings—E. G. Jones, chairman; Russell E. Sewell, J. E. Worth, John F. Curdick, C. A. Bell.

Streets and highways—H. H. Newhall, chairman; E. M. Sargent, T. C. Devlin, William E. Chas. A. Bell.

Manufactures—E. H. Kilham, chairman; Henry E. Reed, J. E. Hunt, S. B. Cobb, G. W. Weatherly.

Driveways and driveways—F. W. Baltos, chairman; Richard Nixon, W. A. Buchanan, Walter Burrell, E. R. Kimball.

Police and fire protection—O. M. Scott, chairman; J. V. Beach, A. H. Averill, George W. Evans, F. L. Selich.

Commerce, landings and bridges—George W. Holcomb, chairman; R. J. Holmes, S. M. Mills, J. H. Page, F. S. Dunning.

Parks, public grounds and buildings—Rutts Mallory, chairman; A. P. Tift, H. G. Platt, W. R. Bishop.

Transportation and bridges—J. E. Hunt, chairman; A. A. Kaddery, Joseph Buchtel, W. W. Lambert, R. L. Cate.

Health and sanitation—Dr. C. H. Rafferty, chairman; Dr. T. C. Humphreys, H. C. Schade, Dr. A. W. Moore, C. W. Pallett.

On 1905 fair—J. M. Long, chairman; A. T. Lewis, D. A. Groat, L. H. Wells, O. W. Taylor.

Statistics—William B. Chase, chairman; F. C. Austin, W. H. Mall, W. B. Hall, E. T. Williams.

Public utilities, including electric lights, telephones and water supply—John P. Sharkey, chairman; George W. Stapleton, Charles Wilson, D. H. Stronbecker, W. H. Markell.

On motion Mayor Rowe was added to the executive committee.

On motion by W. W. Bretherton the matter of a high school building and school buildings was referred to a committee of five, to be appointed by the president at some future time.

R. D. Inman moved that the deepening of the harbor and the filling of streets west of Union avenue be placed in the hands of the executive committee, which was carried.

stances the leasing of city property might not be a good thing, but in this case the situation appeared to indicate that it would be a good thing. The property in question was lying idle.

On motion of the president the president was authorized to appoint a committee of seven on membership.

The association adjourned to meet on the second Tuesday of the next month. The membership last evening was reported at 150.

APPEALING FOR MORE LIGHTS

Are Lamps Can Not Be Furnished Until There is More Money.

Lack of street lights causes the Board of Public Works more worry, as the dark nights of Fall find suburban residents wending their way homeward beneath the shade of overhanging maples and elms. Yesterday's meeting of the board was marked by petitions on the part of citizens who argued that the only thing they expect for their city taxes is an arc light for every two blocks on the street between their homes and downtown.

Dr. Little, who was only pleaded for more light in his district. His dwelling is on the corner of East Burnside and East Twentieth streets, and he declared there was no light on Ankeny street east of East Thirteenth. "We don't see a policeman once in two years," he said, "and if the city doesn't furnish us lights we have nothing for the city taxes we pay."

It is noted that certain streets in other portions of the city are well lighted with arc every two blocks, and we think we are at least entitled to as good treatment on East Ankeny street.

The board of public works has recommended that grass be cut near the edge of the curb. Chairman Mills said the board was about to do this a year ago, but ran against a snag in the shape of an opinion of the City Attorney, who said they had no power. This time the board would recommend the repeal of the ordinance creating the sidewalks, and this will probably be done by the City Council today. There are nearly two miles of these old walks, the City Engineer said.

Bids for the improvement of Lovejoy street were opened as follows: Star Sand Company, \$48.10; Frayne & Keating, \$46.50; for a sewer on Sandy road, J. B. Siemmons bid was \$267.30; Jacobson & Eide, \$274.88; Reilly & Stevens, \$287.45; Frayne & Keating, \$272.92. These were referred to the Auditor for computation.

The City and Suburban Railway notified the board of its readiness to proceed with the replanking of Grand avenue, simultaneously with the city's contractors, who will renew the roadway on each side of that thoroughfare.

The matter of the Welder franchise was presented at a meeting of the board, as one member of the committee, to whom the ordinance was referred, is absent from the city.

The matter of sidewalk notices were reported by the City Engineer as having been served, and several bills of costs for new walks were reported by the Auditor. These latter will be transferred to the City Engineer, which the board is preparing, in order to enforce collection from the abutting property.

HE IS COMING!

A Man Who Should Be Shunned by Portland Merchants.

A representative of the Baker-Vavter Company, Chicago, Ill., will soon solicit orders for loose-leaf ledgers, salesmen's order sheets and other printing and binding. There are several local firms who manufacture such goods and send pay fair prices to Portland merchants for their goods. It has come to our notice that certain members of the Manufacturers Association and other advocates of the Baker-Vavter Company. This concern has no interests in this city, pays no taxes or licenses, yet Portland merchants will give their traveling representative large orders for order sheets, etc., thus sending business out of this city which should remain here and be placed with firms that pay fair wages. The Baker-Vavter Company is a nonunion concern, and we kindly ask all patrons of it to refuse them further orders. Having the goods and binding done by Portland firms who are using the union label, and thereby help to build up our fair city, and in doing that you help yourselves.

JURY ACTED IMPROPERLY

DURPHY'S CHARACTER TORN TO PIECES BY MEMBERS.

New Trial Asked for Convicted Polygamist, Because Jurymen Called Him a Scoundrel.

The jury which convicted Bradley F. Durphy of polygamy is charged with misconduct in having discussed in the jury room statements which were not in evidence in the case. This consisted partly in a statement that Durphy has a third wife, while the testimony showed that he was married but twice. His reputation is also said to have been very generally discussed.

C. M. Ithman and P. P. Mays, attorneys for Durphy, have filed an affidavit to this effect in the State Circuit Court accompanying the motion for a new trial. It is subscribed to by J. H. Lamberson, who was one of the jurors, and is as follows:

That after the cause had been submitted to the jury and they had retired for deliberation, before a verdict had been reached, certain members of the jury, and especially two, discussed the defendant in most scathing terms, and the discussion was of a general and in particular instances, circumstances and charges related to, derogatory to his reputation as a citizen and a man; that almost the entire discussion of the case after retiring to the jury-room, consisted of imprecations and maledictions upon his character and standing in general.

That statements were made while deliberating upon the verdict by these jurymen, that the defendant was a scoundrel, and that he had been convicted twice of crime before coming to Oregon; that he had come here with a great rap, stating that he was going to build a shoe factory, and that he had built the shoe factory on the east side of river, and burned it down to get the insurance; that he was married before he left Portland to another woman, and was now living with her, and that he was a scoundrel, and ought to be convicted on general principles.

This may not be the exact language used, but it had a great influence in procuring a verdict against the defendant.

COURT NOTES.

The suit of the Union Stockyards Company et al. vs. Beula Bros, was dismissed by Judge Frazer yesterday, on motion of plaintiffs' attorney.

The suit of Marie M. Bigger and husband against the Washington National Building & Loan Association was dismissed by Judge Frazer yesterday, on motion of William Reid, counsel for the plaintiffs. The cause was settled.

The inventory and appraisement of the estate of Herman Borjes, deceased, was filed yesterday by the appraisers, Jacob Mayer, Levi May and Ben Seiling. The property was valued at \$2,531. The principal piece of real estate is lot 6, block 62, Portland, appraised at \$350.00.

The suit of Paul E. Schmidt vs. Frank Michels to recover \$100 was dismissed by Judge Frazer yesterday, the matter having been settled. Schmidt alleged that he gave Michels \$146 to satisfy a mortgage, and that Michels paid only \$40. He had Michels arrested and afterward sued him.

The Rev. W. B. Hollingshead, newly appointed pastor of Centenary Methodist Church, and wife, received a hearty welcome last evening at the church. The auditorium and Sunday school room had been appropriately decorated. There were about 200 present. At the opening the pastor and wife were introduced by a committee to the members. Then followed a short programme. The Rev. L. E. Rockwell, presiding elder, welcomed Mr. Hollingshead to the district. W. B. Chase spoke for the church and Sunday school. Mr. Hollingshead responded, expressing his appreciation of the welcome. There was a number of musical selections. The outlook for Centenary Church was never brighter.

LOUIS FEURER SELLS OUT

HE LEAVES GAMBRINUS BREWERY AND WILL GO TO GERMANY.

Purchasers Are Local Capitalists and the Gailland Bros. Brewerymen of Spokane.

Louis Feurer, who has for years been president and manager of the Gambrinus Brewing Company and the owner of a majority of the stock of that corporation, yesterday disposed of his interests in the company and retired from it. The purchasers of Mr. Feurer's stock are local capitalists whose names are not disclosed, and two brothers who are in the brewery business in Spokane. Theodore Gailland and Julius Gailland, Theodore Gailland at once becomes manager for the Gambrinus Company. The presidency of the corporation will be permitted to remain vacant until the next meeting next January. No other changes are made in the company.

The new manager says the business policy of the concern will not be changed much. Trade will be extended and the capacity of the plant will be increased as there may be a demand for it. Theodore Gailland will make his residence in Portland, having brought his mother here from Spokane.

Mr. Feurer retires on account of broken health and he will soon go to Germany, where his family is now. It is probable that he will remain there some years. The recent death of his son was a blow from which he finds it hard to recover and he has resolved to take the rest he has earned and can well afford.

Literary Club Organized.

A large number of the young people and members of the First Congregational Church met last night and organized a club in literature and current events, to meet throughout the winter. D. D. Ohlphant, Mrs. J. A. Lyman, S. M. Frohland, H. G. Colton, Mr. LaBarre, and Charlene H. Gilbert gave five-minute talks on the objects, plans and usefulness of such a club. A constitution was then adopted, and the officers elected: Harold Rice, president; Mrs. J. A. Lyman, vice-president; C. B. Sears, second vice-president; Miss Jessie Brown, third vice-president; Miss Grace Chambers, secretary; Miss Charlotte Thomas, corresponding secretary, and Leone Welcome, treasurer. The constitution was signed by 37 charter members. Plans were made for a busy and helpful season of work. Refreshments were served at the close of the session.

Clinton Kelly Sub-Board.

At a meeting of the Clinton Kelly Sub-Board last night a committee of three was appointed to confer with the Portland City & Oregon Railway Company to see if the company will not extend its line into that district. Also a committee of three was appointed to ask the Congressional delegation to urge the establishment of free mail delivery in that part of the city.

Dr. Sanford's Liver Invigorator.

The best liver medicine. A vegetable cure for liver, bile, biliousness, indigestion, constipation, malaria.
