

INDIAN SCHOOL RULING

Secretary Hitchcock Explains Why It Was Abrogated. Recess Appointments Considered at the Cabinet Meeting—Other National News.

WASHINGTON, Nov. 1.—The cabinet meeting today was devoted largely to the consideration of the recess appointments which the President is making to Congress when it convenes next month. The President is going carefully over these appointments with the members of the cabinet.

Secretary Gage reported his action in returning the purchase of bonds, with an offer of \$500,000. No announcement was made as to the length of time the purchase is to continue.

The cabinet also discussed the abrogation of the so-called Browning Indian School ruling, but no further action was taken. Secretary Hitchcock explained the situation, and said that if the abrogation proves to be a disadvantage to the Indian children, or detrimental to their best interests, he would recall it and re-establish the Browning ruling, which was made September 20, 1890, and directed that Indian agents first should build up and maintain the Government day schools and declared that Indian parents have not been allowed to send their children to these schools.

The President today made the following appointments in the War Department: Charles F. Humphrey, assistant Quartermaster, rank of Major; George B. Pond, Deputy Quartermaster-General, rank of Colonel; Isaac W. Little, Quartermaster, rank of Major; G. M. PUBLIC DEBT STATEMENT. Shows a Decrease of Nine Millions in October. WASHINGTON, Nov. 1.—The monthly statement of the public debt shows that at the close of business October 31, 1901, the debt, less cash on hand, for the Treasury, amounted to \$1,022,625,557, a decrease from last month of \$5,663,408. The debt is recapitulated as follows:

Interest-bearing debt \$ 961,223,169 Debt on which interest is not paid 1,341,210 Debt bearing no interest 37,242,241 Total \$1,347,686,664 This amount, however, does not include \$93,547,000 in certificates and Treasury notes outstanding, which are offset by an equal amount of cash in the Treasury, held for their redemption. ESTIMATE FOR NEXT YEAR

WHAT THE INTERIOR DEPARTMENT EXPECTS TO SPEND. One Hundred and Seventy Millions Is Asked For, of Which \$142,000,000 Is for Pensions.

WASHINGTON, Nov. 1.—The estimates for the expenditures of the interior department during the fiscal year beginning next July aggregate \$170,000,000, of which \$142,000,000 is asked for pensions and the administrative work of the Pension Bureau, \$1,945,750 being for salaries of the bureau and \$1,000,000 for the cost of investigations by special examiners of pension cases. In addition to the \$133,300,000 already appropriated for the 12th census, \$1,972,150 for the next year is asked. Of this amount \$1,000,000 is appropriated for the census, \$452,323 had been disbursed up to August 31 last, leaving a balance of appropriations unexpended on that date of \$4,972,150.

Colonel Woodruff says that during the period covered by the report \$5,000 men have been returned to the United States and about 15,000 have arrived in the Philippines, and that not a serious complaint has been received concerning the food supply. There have been received at the Manila depot 134,850 pounds of ration articles and 62,444,856 pounds of sales articles. There have also been shipped from this depot 11,755,558 pounds of ration articles and 55,621,971 pounds of sales articles. There has been some deterioration of stores due to poor storage and climatic conditions.

Colonel Woodruff refers to the charges against the subsistence department, and takes occasion to say that such charges were greatly exaggerated, and his review shows that the subsistence department is doing its duty. He denies any illegal purchases of supplies, and says that the purchases that were made were necessary for sick troops, who purchased it at 82 cents a pint.

General Weston's report deals quite extensively with the subsistence department, and says that the subsistence department is doing its duty. He denies any illegal purchases of supplies, and says that the purchases that were made were necessary for sick troops, who purchased it at 82 cents a pint.

NEW MINISTER FROM PORTUGAL. Santo-Thyzo Sent a Premature Notice of McKinley's Death. NEW YORK, Nov. 1.—The Visconde Thyzo, Portuguese Minister at Washington, has been notified of the death of McKinley, and in consequence of his premature announcement of President McKinley's death, whereby he caused the government great annoyance, says the Lisbon correspondent of the Herald. His superior is Senator Horta Michido.

WASHINGTON, Nov. 1.—The State Department officials expressed surprise and surprise when told of the appointment of a new Minister from Portugal, especially of the allegation that the change was made because of a premature announcement of President McKinley's death by Santo-Thyzo. This was the first news that had reached them that such an error had been made. They were quite sure, so far as the United States government was concerned, it had not been embarrassed by any act of the ex-Minister, for the records of condolences received at the department disclose the fact that Portugal conformed closely to the rules observed by the other nations of the world.

FRANCHISE CASE TO BE TRIED IN THE COURTS. SAN JUAN, P. R., Nov. 1.—The pier property of the New York & Porto Rico Steamship Company was seized yesterday by the police in the name of the people of Porto Rico under orders from Governor Hunt. The pier, which was erected under a license of the War Department, was burned some months ago, and the company has been engaged in rebuilding, using the old pile foundation, contending that it still has rights under the license of the Secretary of War, and it was simply repairing damage done by the elements. The Council ruled that the company has no right to do so without a new insular franchise. The action taken places the matter in a position where the Governor can pass upon the rights of the parties concerned. It has been made an application for an injunction, will sue to recover damages and will test the validity of Secretary Root's license under the civil regime.

Will Expose the Rain Makers. WASHINGTON, Nov. 1.—Professor William L. Moore, chief of the Weather Bureau, and his assistant, combat the theory of the efficacy of shooting as a means of destroying hailstorms and say some of the reports of experiments in Europe have shaken their opinion. Professor Moore will issue a report shortly on the subject, elaborating his views of the investigations and experiments that have been conducted along these lines. He vigorously denies that shooting has any effectiveness in destroying hailstorms or in bringing about rain, despite a rather odd contrivance by the vineyard districts of this country to adopt such measures as are proposed in France for the protection of viticulturists.

Navajos Ask Relief. WASHINGTON, Nov. 1.—Commissioner of Indian Affairs today gave a hearing to Tut-Choo-Nee-Tee and Dana Yassie, representing 200 non-reservation Navajo Indians who are seeking title to the public lands they wish to occupy on the Colorado River, in Arizona, just below the Moqui reservation. Through Missionary W. R. Johnson, who accompanied them, they asked for about 40 acres of agricultural land for each person. It was explained that the Navajos, although industrious, have been growing poorer for the past four years, and soon must be fed by the Government unless the relief asked for is granted. The matter was taken under advisement.

PAUL, Nov. 1.—Northern Pacific secret service men are working on what they believe is a plot to wreck and rob the North Coast limited train two weeks ago near Deer Lodge, Mont. Every coach in the train, except the observation car, was derailed. CLEVELAND, Nov. 1.—Educational work for young women and the protection of the Federation of the Brotherhood of Educational Workers were the two topics of special interest before the convention of the Young Women's Christian Association today. The work done by the different associations in this country and Europe regarding the protection of girls over and reports from London and the association at the Paris Exposition, conducted under the auspices of the American Y. W. C. A., were the two topics of interest. Dr. Ayres read a paper on the work in Paris, and Dr. Anna L. Brown, of Boston, spoke on the work in that city. The afternoon session was taken up with papers and discussion regarding the educational work of the association. The leading paper was read by Mrs. James Godfrey Wilson, of New York.
