PORTLAND, Nov. 1 -- (To the Editor.) The Omaha telegram, published on the fourth page of your today's issue, is in-dicative of what is being done for and against the progress of the measure to be introduced at the next session of Congress, providing for the partitioning of the unoccupied public domain in certain states and territories, among the owners of livestock; and the attention of all per-sons who think there is no danger of the enactment of such a law is directed to it. It is no doubt true, as stated by the dis-patch, that the large cattle and sheep-raisers are behind the effort thus to dispose of our Government lands, and let all who oppose the measure commence to realize the power of the influence with which they are to be confronted at the
