He Will Go to Oyster Bay Today ( Vote, and Then Return at

NEW YORK, Nov. 4 .- President and ins. Hoosevelt and party arrived in New ork at 6:30 o'clock tonight, an hour and minutes behind schedule time. The party remained in New York over night, and tomorrow will be taken to Oyster Bay, L. L, where the President will cast his vote. He will remain scarcely over an hour in Oyster Bay, returning in time to take an afternoon train out of Jer-sey City for Washington. The President was in excellent spirits, and greatly enjoyed the little respite from official exjoyed the little respite from official ex-actions. He spent most of the trip from Washington chatting jovially with the rest of his party or on the observation platform of his car. Owing to the care with which the exact litnerary of the trip was guarded from the public, there were but few people along the line wait-ing to see the President until Newark was reached. There a crawd unceed the sta-Democrats intend to resort to repeating and other illegal practices, and conflicts at the polls between Republican watchers appointed as Deputy Sheriffs, and the police officers, who are under Democratic reached. There a crowd pressed the sta-tion gates. The President took along with him as far as Baltimore Caspar Whitney, editor of "Outing." At Balti-more, he spent the two or three min-utes' stop pacing the station platform nione. The day was cloudy and threatening and he remarked that it was a fit-ting contrast to the weather conditions hoped for tomorrow

The only untoward incident of the jour-ney was the delay due to a freight wreck at Clay Mount, Del., which made it essary to shift the train to the Bal-ore & Ohio tracks, on which it ran as far as West Philadelphia. As the train lay in the yards for some minutes, the President stepped to the platform and smillingly greeted a group of railroad em-ployes, who climbed upon the platform and shook hands with him. He told them he was glad to see their interest in politics, as evidenced by the municipal cam-

tics, as evidenced by the municipal cam-paign buttons they wore. When the train pulled into the Jersey City station it had made up a few min-utes' time. A big crowd had gathered and a number of secret service mon, detectives and newspaper men followed the party to the ferry-boat, where carriages were walting. Arrived at New York, the President and party were driven to the residence of the President's aunt, Mrs. James H. Roosevelt, The President will take a ferry early tomorrow morning for Long Island City, where a special train for Oyster Bay will be in waiting. Secretary Cortelyou will leave the others at Mincola and drive over to Hempstead to vote, while the President, and his as-sistant secretary, Mr. Loeb, will cast their allots at Oyster Bay. At about 19 o'clock the President left

his aunt's house, and in company with his cousin, William Ronsevelt, went in a closed automobile to the Century Club, where 10 or a dozen personal friends gave him an informal reception. No list of those present was given, but it is understood Professor Butler and Professor Brander Matthews were among them After this, President Roosevelt returned to his aunt's residence to pass the night. On the way to and from the club the Freeident was closely guarded by detectives, a dozen in all, and detectives and police guarded the house in which he slept throughout the night.

# BASIS OF AGREEMENT AS TO THE NORTHERN PACIFIC.

Union Pacific to Take Bonds Instead -Also a Division of Territory in Disputed Field.

NEW YORK, Nov. 4.-It was unofficially stated tonight that an agreement had been made whereby the tangle in the Northwestern railway situation resulting from the corner of Northern Pacific shares on the stock exchange early in May, and which caused the pants of May 9, will be settled. Officials credited with the various companies at interest abso-intely refuse to give out any statement in regard to the runnered agreement. It

was stated on good authority, however, that the settlement, involving the wide-spread interests of the Union Pacific, Great Northern and Northern Pacific Railroads will be based primarily on the retirement of the Northern Facific preferred stock on a basis of 115 or above and the issuance of 4½ per cent bonds, one-third of which, it is stated, would be allotted to the Union Pacific interests.

The crux of the reported agreement lay in the proposed division of territory whereby the rallroads mentioned shall have complete traffic agreements regarding a certain territory in the country tapp by those lines. It is generally understo that this settlement awaits the approval of W. K. Vanderhilt, who is expected to arrive from Europe on Wednesday's steamer.

## IN KENTUCKY.

### It Is Suspected That Many Demo crats Are Illegally Registered.

LOUISVILLE, Nov. 4-It appears to-night that the special feature of the election in Louisville tomorrow, when a Mayor and full city and county and Legislative tickets will be voted for, will be the attempt of the Republicans to chal-lenge the Democratic voters whom they suspect of being illegally registered. The perats deny all charges of illegal tration, and charge the Republicans with attempted intimidation.

Democratic and Republican leaders to-day reiterated their claims of majorities of 5000 to 7000 in the city. The Democrats appear more confident than the Repub-licans, but the Republicans have worked harder than for years. Outside the city. there has been almost no interest, and surprises are looked for in the Legislative race. The indications are for fine weather

The election will afford the first test of the new state election law. Under the Goebel law the State Legislature appointed three election commissioners, who should have charge of the elections in the state, tabulate and certify the returns and appoint the three county election commissioners in each county of the state, they in turn to act as a returning board for their county. An amendment was made to the law, by which the Clerk of the Court of Appeals should be the chairman of the state election commission, while the members should be selectythe ruling bodies of each of the two governing parties.

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects

the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I feit had all over. I took Hood's Sarsaparilla and now have a good appetite.
