How-BALTIMORE, Nov. 8 .- Peter Maher put a sudden stop to the championship aspira-tions of Jim Jeffords, of California, to-night, in the second night, in the second round of what was to have been a 10-round contest, before the Eureka Athletic Club, at Germania Maannorchor Hall. Both men stripped as fit as a fiddle, with Jeffords having all the best of it in height and reach. The first round began with a light punch and a clinch, after which both men landed light-ly and clinched again. Then Jeffords and Penland. The result was that Grim received a note from the club this week informing him that he had been re-leased from his reserve, or in other words that his services would not be

required any longer. Grim was a little rattled by the action or Sunday, the date to be decided by the contestants, Thomas Kerr and C. S. Walker. The finals in the ladies' match taken by the club, chiefly, he says, be cause they did not notify him at the end of the season that they intended to get along without him for the next season. His reserve was submitted to President Powers, of the National As-sociation of Professional Baseball Lesgues, and published in all of the local final round. The competition for the Blyth medal is to commence Saturday, and a number of the Eastern papers. MATTERS BEFORE THE CABINET. Captain Carter's Rehearing and the

McKinley Memorial. WASHINGTON, Nov. &- The Cabinet neeting today developed the fact that there exists an entire missapprehension concerning the legal proceedings which are to take place in Chicago in the case

of Captain Oberlin M. Carter. Attor-ney-General Knox explained to the Cabinet today that Captain Carter was not to be given a new trial before Judge Kohlsast, as has been erroneously re-ported. The Government has attached \$150,000 of the property belonging to Cap-tain Carter, and the question which will be tried before Judge Kohlsast relates only to the tritle of the sectors. only to the fitle of that property. At-torney-General Knox said that with the \$150,000 which the government will soon recover, the total amount restored to the Government will foot up to over \$500,000.

A considerable portion of the Cabinet meeting today was devoted to talking over the plans of the National McKinle McKinley Memorial Association. Before the Cabine met formally, Senator Hanna discussed the subject with the President and Cabinet. He explained the necessity for absolute harmony between the association of which he is trustee and the McKinley Memorial Arch Association, of this city, but argued that in seeking popular sub-scriptions the former organization, which plans the erection of a suitable monument at Canton, should have the right of way. Senator Hanna thought that about \$750,000 should be used in the crection of a sult-

Two weeks ago the Sheridan broke down in Japan, and the Warren was ordered to bring her pas-sengers and important mail. A few days ago the Warren broke down and the Hancock fas just sailed from Manlla to take her place. These accidents will pre-vent the report of the Philippine Commission, as well as the report of the special representative on currency, from reaching Secretary Root in time to be used in his annual report. Meanwhile, he is using such information as already has been prepared in the Bureau of Insular Affairs, but it is likely that a plemental report will be made by Secretary covering the Philippines and based on the commission's report.

W. L. Distin, Surveyor-General of Alaska, is at the imperial, accompanied by his wife. He has lived in Sitka for the past four years, or since he was appointed, on the creation of the office and likes the country very much. We think Sitka is quite a pleasant place to live in, although matters are in a somewhat crude state yet. The population of the town, including indians, is about 1200, and there are quite a number of Government officials quartered there. This adds to the social advantages of the place, and, as

the world as many suppose. Here we will have four mails monthly." General Distin thinks Alaska is going to prove itself of increasing richness, as its resources are developed. "Our mineral wealth alone will keep people digging and building for centuries," he said, "and our fisheries and canneries are increasing from year to year. However, when on the road the games in Tacoma netted less than in either of the other cities. Spokane paid the local team best in the

The club fully expected to be able to declare a dividend on the stock this season, but the poor attendance at the games during the last three weeks the team was on the road did not come near to covering the expenses of the trip. Of course this greatly decreased the surplus in the treasury and the directors did not deem it advisable to declare a divi-dend. As it is, the club will have no trouble in starting the season next year. while in case a dividend was paid it might necessitate the asking of more money at the beginning of next season. MULTNOMAH VS. CHEMAWA.

Football Game on Multnomah Field This Afternoon.

The football team of the Multnomah Amateur Athletic Club will play the Chemawa Indians on Multhomah Field at 3 o'clock this afternoon. The game gives every promise of being one of the best of the season, and Manager Buckenineyer expects a large crowd of spectators. The Indians' team is stronger than ever this year, as was shown when they held the Oregon eleven down to a small score two weeks ago. The playing of the Chemawa men at Eugene drew forth many favorable comments, and disinterested spectators say that Chemawa can be counted in the same class with Oregon and Mult. the same class with Oregon and Mult-nomah. COURT'S NEW QUARTERS.

Will Not Take Up the Case Until Next Week. WASHINGTON, Nov. 8.-The Schley

court of inquiry today transferred its effects from the gunners' workshop in the Navy-Yard to the uptown quarters in the McLean Building, Vermont avenue and H streets, which will be the consulting quarters. No effort will be made by the members of the court even to confer upon members of the court even to confer upon the case, however, before next Monday, as they are in need of mental and physical rest. The court will ask the Navy Department to supply it with clerical assistance and a stenographer to do the mechanical work involved in the prepara-tion of the report. In order that the court may absolutely control such assistants, it is probable that recourse will be had to men in the naval service, such as yeomen, who are subject to naval discipline. Captain Lemiy, Judge-Advocate of the court, has gone to Kansas City, Mo., to attend the meeting of the National Prison Reform Association, in which he is interested by reason of the fact that he is specially charged with the conduct of

The Scientific Production

of a laxative of known value and distinctive action is rapidly growing in public favor, along with the many other material improvements of the age. The many

who are well informed

must understand quite clearly, that in order to meet the above conditions a laxative should be wholly free from every objectionable quality or substance, with its component parts simple and wholesome and it should act pleasantly and gently without disturbing the natural functions in any way. The laxative which fulfils most perfectly the requirements, in the highest degree, is

Syrup of Figs

The sale of millions of bottles annually for many years past, and the universal satisfaction which it has given confirm the claim we make, that it possesses the qualities which commend it to public favor.

Its Excellence

is due to the originality and simplicity of the combination and also to the method of manufacture, which is known to the California Fig Syrup Co. only, and which ensures that perfect purity and uniformity of product essential to the ideal home laxative. In order to get

Its Beneficial Effects

always buy the genuine and note the full name of the Company-California Fig Syrup Co .-printed on the front of every package. In the process of manufacturing figs are used as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially.
