SAN FRANCISCO, Nov. 14 .- The billiard rooms of the Olympic Club were crowded tonight, the attraction being a match game for the class B amateur championp of the Coast. The contestants were O. B. ### OREGON PLAYERS RETURN. Football Players Worn Out by Hard

Games. The members of the University of Oren football team came in from Pendleton on the Chicago-Portland special yesterday afternoon, and took the 8:30 P. M. train for Eugene. The players are completely worn out after their long series of games, and Coach Smith said that practice will not be resumed until early next week, Murphy and McBride, the two players who were injured in the Idaho game, were recovering rapidly, and Murphy will be in his place at quarter-back on Thanks-giving day. McBride may be able to giving day. McBride may be able to play, and if he is, the team will be in much better shape to meet Multnomah. The players are not disheartened over their defeat, but accept the situation gracefully, and declare that they will be in the game next season with a stronger

eleven than ever. Speaking of the Idaho-Washington trip. Manager C. A. Redmond said: "We were very unfortunate in having two of our best men crippled in the first game, for we could do very little effective team work in the other contests. Considering the way the team was patched up, the men old very well, especially in the Whitman game. We could have won at Moscow if we had not lost McBride and Murphy early In the game. As it was, our team out-played Idaho. Once we lost the ball only

a few feet from Idaho's goal. The game at Pullman was lost on account of fumbles, but the weather was very cold, and our fellows were almost worn out, not having recovered from the Idaho game. When we played Whitman the boys were in such poor shape that it was impossible to win, although they prevented their opponents from scoring until late in the second half. We have no com-plaint to make shout the manner in which we were treated by the different colleges. although we got the worst of a good many decisions at Pullman. We received the best treatment in Walla Walla. The Whitman fellows are true sportsmen in every sense of the word. The game with Whitman was a very clean one, and the officials, Mr. Villa and Mr. Hill, were absolutely impartial. I think Whitman has the best team of the lot, but Pullman will give her a hard game on Thunksgiv-

ing day. "The trouble with our team lies in the fact that we have so many inexperienced players. Just think of it—only three mem-bers of the 1900 team are on the 'varsity now, and the eleven averages only 155 pounds to the man.' Coach Smith deserves great credit for the work he has done, as the prospects were most discour-aging when he arrived. We shall return to Eugene at once and get into shape for the big Thanksgiving game with Multino-mah, and we will make a much better showing than most people imagine."

It is quite likely that the University of Oregon will meet the winning team of the Eastern Washington-Idaho league next year, and the game will be played on Oregon soil. As only three of the Euers are in the graduating class. there will be a good many experienced men on the eleven next season. A strong effort will be made to induce Coach Smith to return, as he is one of the best football trainers that Oregon ever had.

San Francisco Ministers Tried to Induce Authorities to Interfere. SAN FRANCISCO, Nov. 14.—With the Jeffries-Ruhlin championship battle but 24 hours away, public interest is keyed up to the highest pitch, and the sounding of the gong that will bring the Los Angeles bollermaker and the Akron giant together is awaited in feverish anxiety. All day long enthusiasts have been flocking into the city from various points, re-mote and otherwise, and the sale of the choice seats has already run its length. It is evident at this time that fully 18,000 persons will witness the big event.

A group of ministers of the gospel have

BLUEFIELD, W. Va., Nov. 14.-Five dead bodies have been taken out of the Baby mine at Pocahontas, Va. Several other persons are unaccounted for, and 25 persons have been rescued more less severely burned. At 3 o'clock this morning it was discovered that the mine was on fire. In a short time after firemen reached the mine a terrific explosion occurred and many miners and their friends were more or less injured. It is supposed that the mine caught fire from a defective electric light wire. It is known that there are several, perhaps eight or 10 men, still in the mines, unless they succeeded in making their escape through the Tug River entrance. Twenty-five persons have been rescued, all more or less burned, some seriously and perwords, they have been apprised of the fact that while a state law prohibits prize fighting, a local ordinance countenances boxing exhibitions, held under the auspices of an incorporated club, and that the latter measure precludes all pos-sibility of the city fathers stopping the fight at this juncture. Some details about steel enforce the general principle. The Congressman declares, referring to facts easily ascertainable, that steel billets can be produced in this country cheaper than anywhere eise in the world. Naturally we do not import steel billets when the advantage in chaspeas of many fortunes of meals and deliver them ready for the table. It is purely a business undertaking. If the scheme meets with success, it will be extended to other localities, working-class neighborhoods especially. The distributive kitchens are expected to prove not only a boon to women who cannot find cooks, but a good training cheapness of manufacture is supplemented with a heavy customs tax. Neither do we import steel plates or steel rails. But we export steel in enormous quantities and underbid foreign competition in every fast a concern there ordered 20,000 tons rom the United States and saved \$5 a ton on the order. ## IN THE INTEREST OF HUMANITY. Statement by the Prime Minister of

Bulgaria. NEW YORK, Nov. 14.—Petks Karavele-off, the Prime Minister of Bulgaria, has just been interviewed by the Sofia correspondent of the Journal and Advertiser. Said the Prime Minister:

"For humanitarian reasons, the Minister of the Interior has undertaken to tol-erate fresh intercourse between the bri-gands and an American agent. It is a bad precedent to recognize the brigands, however indirectly, but we wish to stretch a point for America and the cause of humanity. The brigands, wherever they are, can now treat unmolested with the American Republic and safe conduct will be given to any man or men recommended by Mr. Dickinson. "There is no brigandage in Bulgaria,

Turkey is the cause of the brigandage, pillage, murder and massacre in Macedonia. Conditions there are intolerable, "Europe has been in a vicious circle garding Macedonia since the Be treaty; all the powers agree that Macedonia should have autonomy, but none is willing to move in the matter. Count Andrassy, of Austria, was more to blame than Lord Beaconsfield at the Berlin con-ference for the present condition of Macedonis, which is crying to heaven for ven-geance. France petches up her quarrel with Turkey, oblivious of liberty, equality and fraternity for Macedonia; Europeans themselves may break the victous circle and break Turkey's cruel boast, 'We took you by the sword; by the sword we shall hold you.' All we ask for Macedonia is autonomy. We do not seek annexation. "If the American people knew the kind of hellish barbaritles perpetrated by Tur-key in Macconia, the voice of the Nation which freed Cuba and fought the most chivalrous and unseitish war of modern times would awaken the Cabinets of Europe to a sense of their duty regarding Macedonia."

In conclusion the Premier said that he wished the United States would establish Consulates at Sofia, Varna and Phillippopolls, particularly as Bulgaria is entirely agricultural, and needs American agricul-

"I wondher sometimes, Hinnlasy, whin is a man old enough. I've seen th' age limit risin' iver since I wint into public life. Whin I was a young la-ad a fellow wud come out iv colledge or th' rayform school, or whativer was his alma matter, knock down th' first ol' man in his way an' leap to th' fr-ront. Ivry time school let out some aged statesman wint back like Cincinnatis to his farm an' was glad to get there safe. Ye cud mark th' pro-gress ly youth be th' wreck ly spectacles, goold-headed walkin' sticks, unraic teeth, an' pretinded hair. Th' sayin' was in thim days, ol' men f'r th' crossin', young men f'r th' cab. Whin ol' age discinded like a bindiction on a man's head we put a green flag in his hind an' gave him a good, steady job as assistant to an auty-matic gate. Age is gr-reat, Hinnissy, as a flagman. It saves th' thrucks an' Ma dhrays iv life fr'm gettin' in th' way iv choic th' lowynetives. But it don't stou the new the lagrant of the company of the c th' locymotives. But it don't stop th' locymotives. They come too fast. Fif-teen to twinty years hince, whin I become

machure, I can tell ye twything nearly ye oughtn't to do, but nawthin' ye ought "In th' ol' days a man was a man whin he voied—at twinty-wan in Boston, at 18 in th' Sixth War-rd. I r-read in this pa-per that 'twas even more so befure me time. Alexandher th' Gr-reat was on'y foorteen whin he conkered boolgahrya, Cassar was jus' fr'm business colledge whin he put Mark Antony out iv th' business, Frederick th' Gr-reat was in skirts whin he done whativer he done an' done it well. Fox an' Pitt, if I have th' names r-right, was in compound fractions whin they wint into th' council. Why. Hin-nissy. I was hardly 25 whin I accepted th' prisidincy iv this establishment, with all its foreign complications an rivinoo prob-lems! A man iv 30 was counted machure, a man iv 40 was looked an as a patriarch, an' whin a man got to be 50 th' family put his chair in th' corner an' give him th' back bedroem. I had it all fixed to make me millyon at 30 an' retire. I don't raymimber now what happened to me be-

tween twenty-nine an' thirty-wan.
"But nowadays, be hiving, a man don't get started till he's too old to run. 'In' race ly life has settled down to something between a limp an' a hobble. 'Tis in' or man's time. An orator is a boy orator as long as he can speak without in' aid iv a iong as he can speak without in and it a dintal surgeon; an acthor is a boy acthor until he's so old he can't play King Lear without puttin' a little iv th' bloom iv youths on his cheeks out iv th' youth jar; a statesmen that can't raymimber what Bushrod Wash'ngton thaught about what Bushrod Wash'ngton thaught about th' Alyen an' Sedition law belongs in th' nurs'ry. I look ar-round me at th' picchera iv gf-reat men in th' pa-aper, an' greatness manes white whiskers. There's no such thing as age. If Methuselah was alive, he'd be captain iv a football team, Whin a man geta to 90, he's jus' beginnin' to feel sthrong enough f'r wurruk. Annybody that thries to 65 anything befure he's an oncomfortable risk f'r th' life in. he's an oncomfortable risk f'r th' life insurance Comp'ny is saubbed f'r youthful
