

BALL'S MEN WIN MEDALS

RESULT OF WEEKLY BOWLING CONTEST AT MULTNOMAH CLUB.

Seven Teams Were on the Alley—Winners of Last Two Weeks Fell Down—Zeller Made High Score.

Ball's team won the medals in the weekly bowling tournament at the Multnomah Club. Seven teams contested on Monday and Tuesday evenings. The scratch men, who had to capture the medals this week in order to keep them, fell "way back and set down." Bailey was out to bowl, and Craft was out to bowl, so Siger and Malloy were the only scratch men in the team. Neither of these men did very good work.

Table with columns: PLAYERS, ROUNDS, STRIKE, GAMES, POINTS, TOTALS. Lists names like Ball, Hahngorst, Zeller, etc.

BOXERS SIGN ARTICLES.

All Neill and Mysterious Billy Smith signed articles last evening to box 30 rounds on November 20 at the Exposition building. The papers were completed at the Mikado Hotel, the principals placing \$500 each in W. W. Montell's hands.

NEW WAY TO BRING OUT RACERS.

Thomas H. Williams Will Send a Number of Colts to Oregon. SAN FRANCISCO, Nov. 19.—Thomas H. Williams, Jr., president of the new California Jockey Club, is about to try an experiment in preparing horses for the track.

THE DAY'S RACES.

Winners at Oakland. SAN FRANCISCO, Nov. 18.—Matt Hogan, the heavily played favorite in the third race at Oakland today, fell at the third turn through crowding, and J. Ramech, his rider, sustained a dislocated collar-bone.

Races at Benning.

WASHINGTON, Nov. 18.—The results at Benning. Six furlongs—Sadducee won, Dewey second, Lady of the Valley third; time, 1:12.

MAY FREE MISS STONE

DICKINSON HAS LOCATED HER AND ASKS FOR TROOPS.

The Missionary Captives Are in a Mountain Den Near Dubnitza, in Western Bulgaria. SOFIA, Nov. 18.—It is reported that Mr. Dickinson, the United States diplomatic agent here, has informed the Government of Bulgaria that the abductors of Miss Ellen M. Stone and Madame Trilka, with their captives, are concealed in a den of the Belitza Mountains, near Dubnitza, in Smotch district, and requested that troops be sent to surround the place and liberate the captives.

Henry Fournier and His Automobile.

Henry Fournier, the most celebrated chauffeur in the world, is not only now the holder of the automobile record for one mile (61.4 seconds, made last Saturday at Ocean Parkway, N. Y.), but he was the winner of the great race from Paris to Berlin last July. There were 109 starters. The distance is 745 miles, and the actual running time was 17,075 hours, an average of 49.00 miles per hour. Fournier says he will be able next year to make a mile in 32 seconds.

M. HENRI FOURNIER.

Englishmen Get Cable Contract.

LONDON, Nov. 19.—The Commercial Cable Company, recently organized in New York to a cable from San Francisco to the Philippines, has awarded the contract for the manufacture and laying of the first section from San Francisco to Honolulu to an English company, which guarantees to complete it in 18 months. The contract price is nearly \$600,000.

INTERNAL REVENUE RECEIPTS.

Eleven Millions in Excess of Estimates of Past Year.

Table with columns: Receipts, Increase, Decrease. Lists items like Spirits, Tobacco, etc.

Russia's Hold on the East.

NEW YORK, Nov. 19.—A dispatch to the Tribune from London says: The special correspondent of the Daily News in Vladivostok has discovered that there is no English Consul there. So he called upon the American representative, Theodore Greener, whose position is that of commercial agent for the United States. Mr. Greener informed him that besides America, France, Germany, Holland and Japan were commercially represented.

Conditions in Natal.

NEW YORK, Nov. 19.—Mail advices from Natal to the London Times and New York Times say the problem in South Africa is a complicated one and cannot be grasped by reading the newspapers. The correspondent says the British must be made to understand that they have to deal with a peculiar people, whose very elementary education has been directed by their unscrupulous and ambitious leaders to imbuing them with the belief that

As the chosen of God, they are called to the dominion of South Africa.

They are taught that the amalekites, bringing them to be driven into the sea, leaving them black as their hewers of wood and drawers of water, are in the days of the great trek. In Natal, says the correspondent, the people were not so much separated by racial or thorough rebels, but in Cape Colony thousands of Afrikaners are on the fence. There has been too much sentimental bumbling, declares the correspondent. He insists that the inhabitants must be thoroughly "smashed," and made to feel that they are "smashed," for the sake of the future of South Africa. Then will be the time for the British to be generous. After peace comes the burghers can be handled easily, if the scales of justice are evenly held.

German Shipbuilding Situation.

BERLIN, Nov. 19.—Emperor William today again attended the meeting at Charlottenburg of the Society of Naval Engineers. His majesty exhibited great interest in the subject of shipbuilding, and today he had a long conference with Herr Mayer, a shipbuilder of Papeburg, who explained how, in his opinion, foreign shipbuilding competition, especially American competition, could best be met. Herr Mayer deprecates the constantly increasing number of yards, insisting that attention should rather be devoted to enlarging and perfecting the existing establishments. He held that a large yard, with a large staff of specially trained and skilled workmen. Once this is attained, said Herr Mayer, the Germans could contemplate foreign competition with perfect equanimity, for "the Germans would be found to be victors."

Religious Liberty in France.

NEW YORK, Nov. 19.—The Paris correspondent of the London Times and New York Times points out that the proceeding of the congress at Lille have opened the eyes of foreign observers who had hitherto been ignorant of the importance of M. Waldeck-Rousseau's law of associations. The Jesuits are either returning or are already back in France, while, if the Associationists have really received the vote below, their propaganda, through secret instruments, is not seriously compromised. The new law really strengthens such orders as secure authorization.

Holbein Does Not Bring a Treaty.

BERLIN, Nov. 19.—In official circles the correctness of a Washington dispatch to the London Globe, to the effect that Dr. Von Holbein, German Ambassador at Washington, who recently called for the United States, carried with him a completed commercial treaty with that country, is denied. The German tariff has not been discussed, and the German officials consider that the prospects for the final successful negotiation of this commercial treaty with Washington have never been better than they are today. Dr. Von Holbein's recent utterances concerning Emperor William's attitude toward the United States have been widely reprinted in Germany and have received many favorable comments.

Laden With Contraband for Boers.

LONDON, Nov. 19.—The Government has caused the detention of a British steamer which was fitted out ostensibly for a pleasure cruise at Victoria, Canada, but which was found to be laden with contraband of war destined for the Boers. A searchlight fixed to the steamer's mast brought her under suspicion, and it was found that she was carrying four field guns and quantities of raw material for the manufacture of gunpowder, and that the vessel was fitted inside to accommodate a large number of men. The captain of the steamer says his instructions from his employers directed him to call at Hamburg after leaving the Thames.

Student Riots in Spain.

MADRID, Nov. 20.—Students' riots have been in Madrid for several days. The tramways were attacked, and attempts were made to set the cars on fire. Over 30 persons were injured, including the son of a high official of the Ministry of the Interior. The students' demands are also reported in Barcelona and Valencia. In the Senate several Senators referred to the serious nature of the student disturbances, and the Minister of Education replied that the Government was ready to act with the greatest energy.

Reform for Austrian Exchanges.

VIENNA, Nov. 19.—The Government introduced the long-expected produce exchange bill, which is designed to regulate the bill of exchange in grain, but provides for a strict state supervision for the purpose of checking the unlawful use of the rules relating to futures. The bill is to be made by sworn officials. Pictitious transactions with the object of affecting prices will be classed as felonious. Gambling beyond certain limits is prohibited.

Decision Against Welsh Unions.

LONDON, Nov. 19.—In the 15 cases brought by the Coal Owners' Association against individual leaders of the miners' organization, growing out of the union's action in stopping work last October, the Welsh Magistrates at Aberdare awarded small damages to the employers. The court held that workmen, though giving notice of intention, have no right to stop work with the object of restricting production.

Anti-Chamberlain Meetings.

BERLIN, Nov. 19.—The anti-Chamberlain movement in Germany is spreading. The Social Democrats of Berlin today held a large and enthusiastic meeting, in which the utterances of Mr. Chamberlain at Edinburgh were heartily denounced. Other anti-Chamberlain meetings are held at various cities throughout the Empire.

Recalled to Ottawa.

OTTAWA, Ont., Nov. 19.—Hon. Dr. Borden, Minister of Militia, has been recalled to Ottawa. Professor Ritchey, who is passing business on account of cables which are passing between the Dominion Government and Great Britain in regard to sending troops to South Africa, a fact which had not previously been shown by another observer. But on the plate made by Professor Ritchey after an exposure of three hours and 30 minutes, there were two fairly dense spots of nebulae, one toward the west, with a curve to the north, merging into the convolutions of the nebulae. This was a startling fact, but Professor Ritchey waited patiently for a favorable night to secure another negative. The opportunity came last Wednesday night, November 13, when for several hours Professor Ritchey exposed his plate to the light of the mysterious star. When he looked at the negative he observed a fact in which he recognized the proof so long sought and so ardently wished for by observers everywhere. The spots of density in the west field of the nebulae had moved.

Eight Hundred Plague Cases.

NORFOLK, Va., Nov. 19.—The British steamer Monarch, Captain Troop, which arrived here direct from Cape Town, South Africa, reports the existence of over 800 cases of bubonic plague in the vicinity of Cape Town when she left that port. Up to the time she sailed some 300 deaths from the plague had occurred.

Darmstadt Gymnasium Burned.

DARMSTADT, Nov. 19.—The great building erected by the Darmstadt Gymnasium, which was opened with great ceremony October 6 by the Grand Duke Ernest Ludwig, was destroyed by fire this morning. Four servants employed about the building were burned to death.

Would Prolong Treaties.

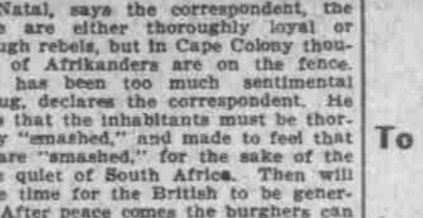

NEW YORK, Nov. 19.—The Perseverance of Milan, quoted in a dispatch to the London Times and New York Times from Rome, publishes an article which is believed to represent ex-Minister Luzzatti's views. It advocates that the Continental commercial treaties be prolonged for a year, and revised and denounced thereafter. The article says it would be wise to await reports from the United States before plunging half of Europe in a tariff war.

Equalizers Retained.

CHICAGO, Nov. 19.—Judge Grosscup, of the United States District Court, issued a restraining injunction today restraining the State Board of Equalization from assessing the franchise of the Union Traction and Chicago Consolidated Traction Companies. This step was taken by the

Thousands of Women Have Kidney Trouble and Never Suspect It

To Prove What the Great Kidney Remedy SWAMP-ROOT will do for YOU, Every Reader of The Oregonian May Have a Sample Bottle FREE.

TO READERS OF THE OREGONIAN: "About 18 months ago I had a very severe spell of sickness. I was extremely sick for three weeks, and when I finally was able to leave my bed I was left with excruciating pains in my back. My water was very thick and I could not pass it at a time, and then only after suffering great pain. My physical condition was such that I had no strength and was all run down. The doctors said my kidneys were not affected, and while I

Did Not Know I Had Kidney Trouble, I somehow felt certain that my kidneys were the cause of my trouble. My sister, Mrs. C. E. Littlefield, of Lynn, advised me to give Dr. Kilmer's Swamp-Root a trial. I procured a bottle, and I followed up that bottle with another, and at the completion of this one found I was completely cured. My strength returned, and I was able to resume my business as usual. I had a deal of the time, and have to use much energy in getting around. My cure is therefore all the more remarkable, and is exceedingly gratifying to me.

117 High Rock St., Lynn, Mass.

Swamp-Root So Pleasant to Take. "You have no idea how well I feel. I am satisfied that I do not need any more medicine, as I am in as good a health as I ever was in my life." So says Mrs. Mary Engelhardt, of 2533 Madison street, St. Louis, Mo., to a reporter of the St. Louis Globe-Democrat.

Made a New Woman of Me. "During three years I was frequently attacked with severe spells of sickness; many of these spells were so severe that I was unable to get on my feet for three months, under the constant care of the best physicians of Kansas City. The doctors told me I had nothing the matter with my kidneys, but I did not believe them. Some doctors pronounced my case all right, and said I could not live without a surgical operation, which I refused to have. A friend suggested I try Dr. Kilmer's Swamp-Root, and I bought a bottle. I took it regularly, and when I had used only three fifty-cent bottles I felt fine and was able to do my usual work. I had a new woman of me. I have had no more of the trouble since. I have taken Swamp-Root, and that was caused by being drenched with rain and catching cold. Stomach troubles, both acute and chronic, have become chronic. I am now 44 years of age, and feel much younger than I did ten years ago. I feel that I owe my health to the benefit of those who have suffered as I have."

Sample Bottle of Swamp-Root Sent Free. If you have the slightest symptoms of kidney, liver or bladder trouble, or if there is a trace of it in your family history, send at once to Dr. Kilmer & Co., Binghamton, N. Y., who will gladly send you, at once, a sample bottle of the wonderful remedy, Swamp-Root, and a book containing many of the thousands upon thousands of testimonial letters received from men and women cured by Swamp-Root. In writing be sure to say that you read this generous offer in The Portland Daily Oregonian.

AN ASTRONOMICAL DISCOVERY. Yerkes Observer Finds Proof of the Nebular Theory. CHICAGO, Nov. 20.—Professor G. W. Ritchey of Yerkes Observatory, is reported to have made a discovery of astronomical importance which will make himself and the observatory famous. The discovery in brief is the proof of what is known as the nebular theory, and Professor Ritchey appears to have reduced to a matter of certainty what has heretofore been merely a brilliant hypothesis. It is claimed that he has done this by obtaining photographic evidence of evolution among the planetary bodies.

PARALLELS OF HISTORY. Li Hung Chang and Great Men Who Were Like Him. PORTLAND, Nov. 19.—(To the Editor.)—Surely history repeats itself. The recent death of the great Chinese statesman Li Hung Chang, who lived in circumstances very peculiar, leads one, especially if they are fond of historical analogy, to point out parallels cases of this kind. Perhaps the most striking example of this is the Emperor Valentine I. of the Eastern Empire, from 364 to 375 A. D. While giving audience to an embassy of the Quadi at Bregeto on the Danube near the present city of Pressburg, in their terms of proposed by and insisted on by the barbarians were so distasteful to the Emperor and the embassy so insolent in their demands, that he was unable to attend to them. He died—whether from apoplexy, heart failure, a ruptured blood vessel, or what particular cause we are unable at this period to determine. So many illustrious (so called) rulers have died in this way, more probably than history records.

ENTHUSIASTIC CONVERTS. There Are Thousands of Them Who Believe as This Woman Does. Mrs. Ira Knowlton, of Butte, Mont., is a most enthusiastic convert to the virtues of Stuart's Dyspepsia Tablets as a cure for obstinate stomach trouble. She says: "I had poor digestion nearly all my life. It now seems to me that for years I never knew what it was to be hungry, to have a good, natural appetite."

William H. Patterson. NEW YORK, Nov. 19.—William Henry Patterson is dead at the New York Hospital, where he had been ill with typhoid fever for some time. He was a well-known member of the New York bar. Mr. Patterson was graduated from the University of Pennsylvania in 1878, and from the law school of the University two years later. He began the study of law with J. C. Bullitt, and engaged in practice in Philadelphia until 1886, when he removed to St. Paul. In 1895 he returned

Stuart's Dyspepsia Tablets is the safest as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, bloating after meals, sympathetic heart trouble.

Stuart's Dyspepsia Tablets is not a cheap cathartic, but an active digestive remedy, containing the pepsin and diastase which every weak stomach lacks, and they cure stomach troubles because they digest the food eaten and give the weak, overworked stomach a chance to rest and recuperate.

Stuart's Dyspepsia Tablets are sold in every drug store in the United States, Canada and Great Britain.
