SCHEME FOR A NEW COUNTY.

Agitation Renewed for Division of Umatilla.

The eastern end of Umatilla County still wants to set up housekeeping for itself with the county seat at Milton, according to A. M. Elam, a Milton flouring mill man, who was at the Perkins yesterday.

"This time, however, we will be up and doing, and I think we can elect men who are favorable to division."

Our end of Umatilla has population and wealth enough to support a county in good style, and we have long since grown tired of traveling clear down from Milton, 37 miles, to Pendleton, to do jury duty.

"The name of the proposed county is to be Lee, as it is to be called after the first man who introduced the subject in the Legislature."

The line of division will be in the vicinity of the town of Adams, about midway between Milton and Pendleton. The towns of Weston, Freewater and Athena will therefore be left in the new county.

WISHED HER GODSPEED

FAREWELL RECEPTION GIVEN MISS HUNT, OF THE Y. W. C. A.

Astonishing Growth of the Association in the Nine Months of Her Secretaryship.

The rooms of the Young Women's Christian Association were crowded to their utmost capacity last night for the farewell reception to Miss Alma Hunt, Y. W. C. A. secretary, whose departure for the East in the near future is the occasion of so much regret to club members.

The rooms were prettily decorated in her honor by willing hands, gay Autumn leaves mingling with Oregon grape, and jars of sweet peas, chrysanthemums and other choice flowers.

The table where coffee was served was decorated with La France roses. The Spanish Student quartet furnished a number of selections, and Mrs. Fletcher Linn gave "Bombrero," by Chambliss, and Edgar Belmont Smith's "Credle Love Song" in truly captivating fashion.

For encore she sang "Absent."

MISS ALMA E. HUNT.

exercise. The question as to giving the courts revisionary power over laws was fully discussed in the Constitutional Convention, and on June 4, July 21 and August 15, 1897, direct votes were had on the proposition, and each time it was decided adversely.

The exercise of this usurped power by the courts has been the potent instrumentality by which corporate power has been apotheosized above the people, and the great overshadowing tyranny of the trust can never be broken until the courts are brought back to their proper constitutional position.

Brazil Favors American Flour.

The Brazilian Chamber of Deputies has voted to increase the duty on flour imported in bags, leaving that on flour which comes in barrels unaltered.

Argentine flour is shipped to Brazil in bags and American flour in barrels. Thus the legislation which has been mentioned favors the American at the expense of the Argentine millers.

During the last 12 months about \$2,500,000 worth of flour was sent to Brazil from this country. Ten years ago, thanks to the reciprocity treaty then in force, the flour shipments were much larger than they are now.

They will increase if Argentine flour has to pay more than American flour. Why the Brazilian Chamber of Deputies should make a change in the tariff law which, according to the dispatches, is disapproved of by the public, is unexplained.

It may be, however, that the Brazilian Government is nervous lest the United States, which now admits coffee free, should put a duty against Brazilian coffee, of which this country is so large a consumer.

The Porto Ricans have been asking for the imposition of a duty on all Brazilian coffee entering their island, for the protection of their own product. It may be that the Brazilian Government has decided that it will be well to make friendly advances to the United States, so that it may be less induced to give the Porto Ricans the relief they ask for.
