# PORTOBELLO BOMBARDED

GUNBOAT PINZON PIRED ON THE COLOMBIAN TOWN.

everal Houses of the Place Were Wrecked-Progress of Alban's March Toward Colon.

COLON, Nov. 27 .- An American named Murphy relates the following story, cor-roborating the report that the Colombian gunboat General Pinzon fired on Porto Bello. Monday morning Murphy was in an open boat, bound for Playadonna, on a mining excursion. Besides himself there three Chinese and a Colombian negro in the boat, which was commanded by the colored man. When they were pass-ing Porto Belio a bost containing sol-diers from the Pinzon, then at anchor off Porto Belio, captured Murphy and his companions. After they had been made prisoners and while on their way to the sunboat the General Pinzon fired many shots at Porto Bello. On arriving on board the gunboat Murphy learned that no less than 50 shots had been fired at Porto Bello. He also says that from the gunboat one or two of the largest houses of the place could be plainly seen to have been wrecked. Men from the General Pinzon, who went ashore at Porto Bello, and the town was evacuated. Not a singie Liberal was to be seen anywhere. Murphy asserts that explosive bullets were used by the Liberals, as the builet brought on board the Pinzon was sub-sequently exploded. Murphy was handed over to the officers of the United States mboat Marietta, when the Pinson re-

The report that the government troops had been driven back over the Barbacoa bridge turns out to be incorrect. In a skirmish at Buena Vista last night the government troops lost ground somewhat and retreated to Tabernilla, losing 6000 cartridges. The government forces now occupy Tabernilla, which is on the Colon side of Barbacoa. General Solamayor, with 250 men, commanded the Liberai forces at Barbacos bridge, Good authorities hold that 20 men should have been able to prevent the government troops from crossing the bridge. Solamayor's conduct is everywhere denounced. He seems to have sheltered himself and to have supervised nothing personally, hence the reckless waste of ammunition which caused the eventual retreat of the Laberais, who lost less than a dozen men resterday. General Domingo Diaz and Jeneral Lugo have not yet arrived here with their troops.

The following dispatch has been re-ceived from Panama: "The Colombian gunboat Boyaca was dispatched Tuesday with 60 soldlers, for Chamo or its vicinity, where it was said a party of Liberals, under General Torres, has received quite recently a fresh supply of arms and ammunition. San Paole and Barbacoa are known here to be Liberal strongholds and places very easy to de-fend, while to cross the bridge spanning the Chagreg Hiver, now swollen, was next to impossible for an attacking force. The reason the Liberals abandoned Barbacoa is not made clear. The death rate on the government side was very great, many bodies failing into the river. An attempt was siso made to make a detour on the river in boats, but the boats capsized and many were drowned. General Castro commands the government force at Barbacoa. The General tried to get a train yesterday morning to convey 200 men to the scene of the engagement at Barbacca, but Captain Perry, of the Iowa, said that not a single armed man would be allowed to entrain. The feeling here against foreigners, particularly Americans, runs high. A special train at Panama to convey General Alban, alone and unarmed, awaited the arrival for hours of the morning train from Colon, but on the arrival of the latter here at 6 o'clock in the evening, bringing 60 wounded men among whom were several officers, with the news that the government troops had victoriously crossed the bridge at Barbacos, the special train was not dispatched and General Alban remained at Parameter. Panama. At 5:20 P. M. yesterday a large procession, headed by a band of musiclans, marched in an orderly manner all over the City of Panama, shouting Gen-eral Alban's praises and claiming that a death blow had been given the Liberal cause in this departme It was learned on the highest authority

that General Jefferies is with General Alban on the Colon side of Barbacoa, and that 300 men from Panama are now marching to join them.

### CAPTAIN PERRY'S REPORT. Action Taken to Protect Railroad

Traffic. WASHINGTON, Nov. 27. - Secretary

Long today received the following cable-gram from Captain Perry, of the Iowa:
"Panama, Nov. II.—Secretary of the Navy, Washington: Stubborn fighting between contending forces yesterday near San Pablo. Delayed trains requiring pru-dence and patience. There probably will be fighting today near Gatun. I have secured assurances that firing shall cease while trains are passing. Forty wounded Colombians brought in on trains last night. All cared for by Dr. Kindlet "PERRY."

A cablegram received at the State Department from United States Consul-General Cudger, at Panama, says:

"There was a good deal of fighting yes-terday along the line, in which the government forces were generally successful. Trains delayed." Later in the day the State Department

received another dispatch from Cudger, showing that the difficulties in train servhad been overcome. Mr. Cudger says: "Traffic moving unmolested."

mbian Minister to the United States, Dr. Martinez Silva, who went to Mexico City to attend the congress of American Republics, has decided to return to Washington at once. He left Mexico City this morning. Some significance is attached to this action, and it is sasumed that the rather critical condition of affairs on the Isthmus leads the Colombian Government to desire his services at Washington. The Colombian Charge d'Affaires, Mr. Herran, was in conference with the State Department officials today, He had a dispatch from General Alban, the government commander on the Isthmus, saying: "The rebels, after having been defeated at Emperador, returned to San Pablo, and I am closely pursuing

"Delegate Wilcox goes to Washington charged with a bigger mission than that of getting \$10,000,000 in appropriations or the Territory of Hawali. This mission is to get a \$13,000,000 fortune for Emil Ney, grandson of Marshal Ney, the 'first soldier of France.

"Emil Ney has been in Honolulu som years, and is well known here. He is now a bailiff in the First Circuit Court. He is one of three children of a son of Marshal Ney. His claim will be brought up before the Senate foreign relations commit-tee by Delegate Wilcox. The Ney for-tune, which efforts are being made to recover, was taken by the French Government at the time when the famous Marshal was ordered executed. It was ordered restored during the '30s, however. It came into possession of Ney's other son, known as the Prince of Moscow, who son, known as the Prince of Moscow, who of his order concerning officers' courts of dieu a bachelor in Paris in 1882. MENT TO SWITCHMEN.

PITTSBURG, Nov. 27.—The railway trainmen decided officially and finally, at a delegate meeting, they would continue at work notwithstanding the strike of the Switchmen's Union of North America. This means that they will take out trains made up by non-union men. At a late hour tonight, Messrs. Morrissey and Fitzgerald are in secret conference with Rob-ert Pitcairn, general superintendent of the Pennsylvania's lines. What the subject of the conference is has not been learned as yet. The strikers continue confident of ultimately winning the strike, and say that the action taken by the Brotherhood of Trainmen will not materially affect their cause. The company officials say that what delay there may be in passenger business is caused by the unusual congested condition of the road here and elsewhere.

The conditions as found today are about as follows: The Baltimore & Ohio made little attempt to move freight locally although the yardmaster says eight solid trains were made up in the yards today. The Allegheny Valley Road has exper-ienced little if any relief and business in the yards is practically at a standstill. The Pittsburg & Western fared pretty well. They landed at Bennet 15 men from Philadelphia and three shifts were working. The officials now have hope of breaking the strike in a few days. They have given their old men until tomorrow to return and if they fail new men will be put to work at once. The Pittsburg Junction Road is still tied up.

Labor Unions Enjoined. PHILADELPHIA, Nov. 27.-Judge Mc Carthy, of the Common Pleas Court, has issued an injunction against the Council of the Allied Building Trades, forbidding the council or its agents to instigate strikes at buildings where contractors employ labor that is not affiliated with that organization. Judge McCarthy also de nied the right of the defendants to order contractors to discharge members of laor organizations that are not affiliated with the council of the Allied Building Trades. Further and specifically he or-

dered them to refrain from threats, ex pressed or implied, that employers suffer loss by hiring the plaintiffs. The Kentucky Strikers. MADISONVILLE, Ky., Nov. 27.—The 21 union men taken prisoners last Sun-day morning by the Sheriff and County Judge of Hopkins County, were arraigned for trial before Judge Hall today and

held to the grand jury, being released without bail.

President Wood said that by January The would have 3000 union miners and their wives in the Nortonville camp. Charles Plackman, colored, a member of the official board of the Mine Work-ers, district No. 22, was arrested today on a warrant charging him with confederating with other union men to intimidate nonunion miners. Warrante have also been issued for the other union officials.

### HOW AYRES WAS SHOT.

Witness at Bonine Trial Said Wounds Were Not Self-Inflicted. WASHINGTON, Nov. 27 .- The principal

witness today before the criminal court in which Mrs. Lola Ida Bonine is being tried for the murder of James S. Ayres, Jr., was Dr. Martin W. Glazebrook, the Deputy Coroner for the District of Co-lumbia, who conducted the autopsy on the body of Ayres. He described in de-tail the three wounds on the young man's body and the court crier, stripped to the waist, was used to illustrate the lo-cation and courts of the wounds for the cation and course of the wounds for the instruction of the jury. Dr. Glazebrook also testified that Mrs. Bonine had given him her version of the manner in which Ayres came to his death, claiming that the wounds were inflicted while the pistol was in Ayres' hands and illustrating how the tragedy occurred, but he thought that it was impossible for the wounds to have been made with the weapon in Ayres' own hands. She had told him that he was at her back and had his arms clasped about her when the shots were fired. He concluded that the wound in Ayers' thigh must have been made by a weapon held more than 24 inches from the spot. He also concluded that the arm wound must have been made by a pistol held about 14 inches away. the chest wound he thought the muzzle of the revolver must have been eight inches from the body. Dr. Glazebrook said that the wound in the chest had penetrated the windpipe and the lung on the left side and had ranged to the right and upward, lodging in the back. This wound, he said, was necessarily fatal. He thought, from the appearance of the blood found in Ayres' room, that it was caused by the chest wound and had been

vomited Dr. Glazebrook said that he had called on Mrs. Bonine at the jail professionally on the Tuesday after the tragedy to make an examination of bruises said to be on Mrs. Bonine's body. At that visit she volunteered to illustrate to him has the tragedy had occurred and gave He said that Mrs. her version of it. Bonine had him place both arms around She had, she said, clasped the revolver and the hand which held it and the pistol was snapped three times in the struggle which ensued.

"Assuming that the relative positions of the two were such as thus describe and that the pistol was in Ayres' right hand, could the wounds which you found upon his body have been inflicted?" asked District Attorney Gould.

"Taking into consideration the position of Ayres and of Mrs. Bonine, together with the appearance of his clothing, I don't see how it was possible that the pistol could have been held in Ayres' hand," replied the witness.

Mr. Douglas, on cross-examination, brought out the fact that there was a slight contusion on Ayres' forehead and several abrasions and bruises on his legs and feet, the purpose of the defense be-ing to show that there had been a

Dr. Copeland's treatment, that has lifted the darkness and blight of the word "incurable" from hundreds of thousands of cases of Catarrh of the Head, Throat Ear Tubes, Bronchial Tubes and Lungs, works as curative action for two reasons (1) It reaches every diseased spot

deepest part of the lungs and the innermont recesses of the middle (2) Instead of irritating, inflaming and feeding the fires of the disease,

it soothes, quiets, heals and cures.

The immediate presence of the beautiful sheet of water expanding above into Lake Eric and suggesting below the nearness of the falls would have lent a charm that nothing else could, not ever the neighborhood of hills and forests. while the buildings would have naturally assumed such a plan as to face toward the water, not, as at Chicago, losing to a large extent the advantage of the lake close at hand. Imagine the electric tower well within the city on the highest ground, and the rest of the buildings coming down to the water side. From all the higher points the lake and river would have been visible, while from the tower itself the foam and mist rising from the falls would have been easily discerned. A great deal of doc-umentary evidence was secured, but many of the documents were destroyed, Ney says, in the Baldwin Hotel fire, having emptorily commanded that full effect should hereafter be given to this order, General von Gossler added:

NOW PROTECTING AMERICAN INTEL RESTS AT PANAMA.

"We can only be very grateful to the Emperor for having, with his wonted en-ergy, indicated the right course to be pursued. An official, like any citizen, is sub-ject to the penal provisions of the law. The army is not the nursery of duels. In 1897 there were four duels in the army in 1898 three, in 1899 eight, in 1900 four and in 1901 five duels. This shows that a good tone predominates among the offi-cers. In civilian circles a duel is not regarded with the seriousness with which It is viewed in the army. We must pub-licly recognize the fact that officers as a rule meet insults with dignity and com-

THE ISTHMIAN CANAL. Lansdowne States the Objects Eng-

land Hopes to Secure. LONDON, Nov. 28. - The Marquis Lansdowne, Secretary of State for Foreign Affairs, speaking at Darlington last night, referred to the extraordinary keenness of the competition for the world's market as affording the greatest prece cupation in questions of foreign policy Referring to the negotiations with the United States, Lord Lansdowne said:

We desire to maintain the most cordial relations with the United States, and like out brothers across the ocean, we regard the distinguished man who has suc ceeded to the Presidency of the United States with the friendliest feelings." With reference to the isthmian canal ne-cottations, Lord Lansdowne expressed search of the ruins of the Penberthy In- 80 jector Company's plant, wrecked by a himself as happy to be able to say that a new chapter had been opened. Both governments were at this moment engaged in fresh negotiations, concerning which he could only say the omens seeme propitious. "Throughout the negotiations," continued the speaker, "the question has been discussed from both sides in no narrow or one-sided spirit, but with a genuine desire on our part that this great enterprise should be conducted to a success ful end; that the principle of the neutral ity of the canal, for which we have contended, should be maintained; that the canal should be open and free to the commerce of the whole world, and that

these objects should be achieved under conditions honorable and convenient to began an examination into the cause of the explosion. NEW YORK, Nov. 27.—David Mills, Minister of Justice in Canada, contributes in the December number of the Empley Review an historical examination of the British territorial claims in Central America prior to the Clayton-Bulwer convention and the unusual course of the United States in questioning the validity of the rights of British settlers, cables the London correspondent of the Tribune. He contends that it was a great mistake for Roller, a real estate dealer, of Newark, N. J., was today sentenced to seven years' imprisonment and fined \$1000 for forging the British Government to enter into any pulations respecting its own territories Central America, and that the United States had no territorial interests there and no bases of public laws for discussing and limiting the British claims to Brazil, where industrial operations had been con-ducted for two centuries. The Minister's argument is luminous but succeeded in satisfying the author-ities there that they had the wrong man

and the facts are stated in excellent temper, but the bearing of both is against the Clayton-Bulger convention rather than the revision of the treaty for the practical purpose of facilitating the construction of the canal. The trend of public outplot canal, are treated in the construction of the canal. public opinion remains strongly in the direction of the settlement of the canal question on any terms which would enable the American Government to construct the waterway and promote the welfare

More Talk of Intervention. NEW YORK, Nov. 27.—Concerning the eccent statements of Sir Wemyss Reid, regarding the possibilities of intervention

Reid lends importance to the article in the December number of the Nineteenth Century, in which he refers to the pres ure brought to bear by Continental nations on the United States to favor inter vention in the Boer war. Nothing has been known in diplomatic circles about any pressure of this kind, and Lord Salis was ignorant on the subject, or he would not have referred in his Guild Hall speech to the correct attitude of the European powers during the South Af-The diplomatic theory has been that the German Emperor had controlled the action of the European powers and that the United States Government at the outset had gone as far as possible in courteously offering its service peacemaker, if these were required.

Trade Depression in Germany. NEW YORK, Nov. 27 .- According to the London corespondent of the Tribune, the Daily Mail, which has been inquiring into the cause of trade depression in Germany, says that many of the merchants of yesterday stand today ruined; manufac-turing cities are full of hungry men, numbers of works are closed altogether,

tations of Anglophobia, the British Na tion will not regain its equilibrium, and the situation in South Africa will remain asolved. The real strength of Mr. berlain, says the Independence Belge, lies in this state of affairs, and if the outer; against British crueities and bad faith should cease, his authority would crumble, as well as the phantom imperialism,

Protest Against Irish Obstruction. LONDON, Nov. 27.—At today's session of the annual conference of the National Union of Conservative Association at Wolverhampton, the party platform was enlarged by calling on the government to adopt drastic measures to suppress the "organized obstruction of Nationalist members of Parliament," and to arrest Colonel Arthur Lynch immediately on his landing in England. A delegate wanted the meeting to adopt a resolution calling on the government to impose a protective duty on corn, but this was scaled down today, in effect, that for the better se curity of the nation, Parliament should devise measures for the preservation and continuance of the food supply in time of war.

Looting at Pekin. NEW YORK, Nov. 27 .- The Paris cor spondent of the London Times and New

York Times gives what he declares is the reason for the disinclination of the French Government to make public the reports of General Voyron, who commanded the French expeditionary force in China. The correspondent asserts that, after the Legations were relieved, European ladies went through the best shops in Pekin, pillaging loads of the most precious articles. Silks, laces, jewelry, gold and silver objects and ivories were among the valuables taken by these European women. The looted articles, according to endent, were hidden in the

respective legations. No French Imperialism.

PARIS, Nov. 28.—At a banquet last night of the Republican Committee of perce and Industry, at which a ma-of the French Cabinet Ministers were present, M. Waldeck-Roussean, the Premier, amid ringing cheers, repudiated any aspirations to imperialism, "You may be assured," said he, "that we dream neither of internal nor external imperialism. Our aim is not to enlarge our con-nial domain, but to organize and consoli-Our aim is not to enlarge our colo date it."

A Fake Report.

BERLIN, Nov. 27.-The North German Gazette today says it is authorized to state that the article published by the Lokal Anzeiger, November 25, purporting to give utterances of Emperor iam in addressing naval recruits at Kiel was in its main points "entirely invented, and, above all, his majesty did not utter a single word in reference to the war of

No Reference to McKinley's Death ROME. Nov. 27 .- At the assemblage of the Italian Chamber of Deputies yester day, no reference was made to the death of President McKinley, because the Radi-cal and Socialist members of the Chamber had threatened to speak apologetically of Czolgosz, and the government professed to avoid any unpleasantness.
